## **PRINCIPAL ACCOUNTING POLICIES**

The principal accounting policies applied in the preparation of these unaudited interim financial statements are set out below.

### **Basis of preparation**

The Company is a public limited company, which was incorporated in England and Wales on 5 March 2015. The address of its registered office is 125 Shaftesbury Avenue, London, WC2H 8AD. The principal activity of the Company is to act as a platform to manage Cerillion Technologies Limited having acquired the entire issued share capital of Cerillion Technologies Limited for the purpose of admission to AIM on 18<sup>th</sup> March 2016. These unaudited interim financial statements have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union (IFRSs) and IFRIC interpretations endorsed by the European Union (EU). The unaudited interim financial statements have been prepared under the historical cost convention.

The Company's directors are responsible for the preparation of the unaudited interim financial statements.

The preparation of the unaudited interim financial statements in conformity with IFRSs requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the unaudited interim financial statements and the reported amounts of revenues and expenses during the period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates. Further details regarding areas requiring significant assumptions and estimates are provided in Note 1 to the unaudited interim financial statements.

There is no material difference between the fair value of financial assets and liabilities and their carrying amount.

The functional and presentational currency is UK Sterling.

### **Going concern**

The Directors have assessed the current financial position of the Company, along with future cash flow requirements, to determine if the Company has the financial resources to continue as a going concern for the foreseeable future.

The conclusion of this assessment is that it is appropriate that the Company be considered a going concern. For this reason the Directors continue to adopt the going concern basis in preparing the unaudited interim financial statements.

### **New and Revised Standards**

#### **IFRS in issue but not applied in the current unaudited interim financial statements**

The following IFRS and IFRIC Interpretations have been issued but have not been applied by the Company in preparing these unaudited interim financial statements as they are not as yet effective. The Company intends to adopt these Standards and Interpretations when they become effective, rather than adopt them early.

- IFRS 9, 'Financial instruments', effective date 1 January 2018 (not yet adopted by the EU)
- IFRS 15, 'Revenue from Contracts with Customers', effective date 1 January 2018 (not yet adopted by the EU)

Both of these standards are yet to be subject to a detailed review. IFRS 9 will impact both the measurement and disclosure of financial instruments and IFRS 15 may have an impact on revenue recognition and related

For the period ended 31 December 2016

---

disclosures. Beyond this, it is not practicable to provide a reasonable estimate of the effect of IFRS 9 and IFRS 15 until a detailed review has been completed.

A number of IFRS and IFRIC interpretations are also currently in issue which are not relevant for the Company's activities and which have not therefore been adopted in preparing these unaudited interim financial statements.

### **Segmental reporting**

In accordance with IFRS 8, segmental information is presented based on the way in which financial information is reported internally to the chief operating decision maker. The Company's internal financial reporting is currently not deemed to be separable into business segments and as such has not been separated in these unaudited interim financial statements.

### **Taxation**

The income tax expense or income for the period is the tax payable on the current period's taxable income.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to be applicable when the asset or liability crystallises based on current tax rates and laws that have been enacted or substantively enacted by the reporting date. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability.

A deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of temporary differences can be deducted. The carrying amount of deferred tax assets are reviewed at each reporting date.

### **Cash and cash equivalents**

Cash and cash equivalents comprise cash at bank and in hand and other short term highly liquid deposits with original maturities of three months or less.

### **Financial instruments**

#### **Recognition, initial measurement and derecognition**

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs. Subsequent measurement of financial assets and financial liabilities is described below.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all the risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

#### **Classification and subsequent measurement of financial assets**

For the purpose of subsequent measurement, financial assets are classified into the following categories upon initial recognition:

For the period ended 31 December 2016

---

### **Loans and receivables**

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial recognition, these are measured at amortised cost using the effective interest method, less provision for impairment. Discounting is omitted where the effect of discounting is immaterial. The Company's cash and cash equivalents, trade and most other receivables fall into this category of financial instruments.

### **Classification and subsequent measurement of financial liabilities**

The Company's financial liabilities include other payables. Financial liabilities are measured subsequently at amortised cost using the effective interest.

### **Equity**

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received net of direct issue costs.

The ordinary share capital account represents the amount subscribed for shares at nominal value.

Retained earnings include all results as disclosed in the statement of comprehensive income.

### **Dividends**

Dividend distribution to the Company's shareholders is recognised as a liability in the period in which the dividends are approved by the Company's shareholders. Interim dividend distribution is recognised in the period in which they are approved and paid.

---

## **1 Critical accounting estimates and judgements**

The Directors consider that in the proper preparation of the unaudited interim financial statements there were no critical or significant areas which required the use of accounting estimates and exercise of judgement by management while applying the Company's accounting policies.

## **2 Operating loss**

Revenue for the period derived from services provided to group companies. Expenses in the period related to staff salaries and to professional fees in relation to administering the Company on AIM.

## **3 Income from shares in group undertakings**

|                 | <b>Dec 2016</b>  | <b>Sep 2016</b>  |
|-----------------|------------------|------------------|
|                 | £                | £                |
| Dividend income | <u>1,500,000</u> | <u>1,900,000</u> |

## **4 Profit per share**

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of Ordinary Shares in issue during the period.

|                                                              | <b>Dec 2016</b>   | <b>Sep 2016</b>   |
|--------------------------------------------------------------|-------------------|-------------------|
| Profit attributable to equity holders of the Company (£)     | 1,399,386         | 1,019,353         |
| Weighted average number of Ordinary Shares in issue (number) | 29,513,486        | 23,425,877        |
| <b>Basic and diluted profit per share (pence per share)</b>  | <u><b>4.7</b></u> | <u><b>4.4</b></u> |

There were no potentially dilutive equity instruments in issue during the period.

## **5 Investments**

Cerillion plc paid £14,651,571 cash on 18 March 2016 for 100% of the share capital of Cerillion Technologies Limited.

For the period ended 31 December 2016

**6 Trade and other receivables**

|                                    | Dec 2016         | Sep 2016      |
|------------------------------------|------------------|---------------|
|                                    | £                | £             |
| Amounts owed by group undertakings | 2,540,774        | 54,238        |
| Prepayments                        | 1,626            | 3,252         |
|                                    | <u>2,542,400</u> | <u>57,490</u> |

There are no differences between the carrying amount and fair value of any of the trade and other receivables above.

**7 Trade and other payables**

|                                    | Dec 2016      | Sep 2016      |
|------------------------------------|---------------|---------------|
|                                    | £             | £             |
| Trade creditors                    | 57,791        | 16,564        |
| Other taxation and social security | 15,997        | 41,312        |
| Accruals                           | 3,820         | 14,270        |
|                                    | <u>77,608</u> | <u>72,146</u> |

**8 Share capital**

|                                                                | Dec 2016       | Sep 2016       |
|----------------------------------------------------------------|----------------|----------------|
|                                                                | £              | £              |
| Issued, allotted, called up and fully paid:                    |                |                |
| 29,513,486 (Sep 2016: 29,513,486) Ordinary shares of 0.5 pence | <u>147,567</u> | <u>147,567</u> |

The Ordinary Shares have been classified as Equity. The Ordinary Shares have attached to them full voting and capital distribution rights.

**9 Subsequent events**

Since the balance sheet date of 31 December 2016, the Directors have authorised a final dividend of 2.6 pence per share, totalling £767,351.
