CHAIRMAN'S STATEMENT

Financial Results

The Group's pre-tax profit for the year to 30th April 2008 increased by 2% to £5.94 million (2007 – £5.81 million) on sales up 10% at £78.18 million (2007 – £71.01 million). Earnings per share increased by 11% to 27.5p (2007 – 24.8p). The Group ended the year with net funds of £2.42 million (2007 – £363,000).

During the year the Group purchased for cancellation 303,932 shares at an average price of £1.53 per share and representing 1.9% of the Group's issued share capital at the start of the year.

The Board has decided to recommend that the final dividend is increased by 4% to 2.65p per share (2007 – 2.55p), making a total for the year of 4.20p (2007 – 4.00p) an increase of 5%. The final dividend will be paid on 10th October 2008 to shareholders on the register at the close of business on 12th September 2008.

Trading conditions remained good throughout the year although our two major markets, the US and the UK started weakening in the last quarter of the year. The decline of the US dollar adversely impacted our results by £823,000 on a constant currency basis during the year and the re-organisation of the Accessories division in France resulted in £413,000 of exceptional costs being taken during the year. We ended the year with a strong balance sheet which puts us in a good position to handle current market conditions.

Product Division

- **Fabric – Portfolio of Brands** “Colefax and Fowler”, “Cowtan & Tout”, “Jane Churchill”, “Manuel Canovas”, and “Larsen”

Sales in the Fabric Division, which represent 79% of the Group's sales, increased by 7% to £62.15 million (2007 – £58.29 million) and by 8% on a constant currency basis.

Sales in the US, which represent 50% (2007 – 52%) of the Fabric Division's sales, increased by 8% on a constant currency basis (2007 – 5%). We are expanding our agent showroom in Florida which is an important market. We are also refurbishing our Los Angeles showroom which is a significant market offering good growth opportunities.

UK sales, which represent 21% (2007 – 21%) of the Fabric Division's sales, increased by 10% (2007 – 16%). This performance reflects favourable trading conditions throughout the year. Sales growth slowed towards the end of the year and we expect market conditions to become progressively more difficult.

Sales in Continental Europe, which represent 25% (2007 – 24%) of the Fabric Division's sales, increased by 5% (2007 – 11%) on a constant currency basis. The majority of European countries performed well during the year but sales in France, which is our largest market, were down by 5% on a constant currency basis. This has reduced the overall growth rate in Europe.

Sales in the rest of the world, which represent 4% (2007 – 3%) of the Fabric Division's sales, increased by 13% (2007 – 32%) on a constant currency basis although it is still a small proportion of overall sales. We are starting to see growth in newer markets such as Russia and China and believe that these trends will continue.

- **Furniture – Kingcome Sofas**

Sales of Kingcome furniture, which account for 4% (2007 – 4%) of Group sales, increased by 10% to £2.92 million (2007 – £2.65 million) and produced a good profit for the year. However, as this area of the Group's activities is the most sensitive to the current problems in the UK, we expect a weakening in trading.

- **Accessories – Manuel Canovas**

Manuel Canovas is based in Paris and sales which comprise beachwear and scented candles account for 3% (2007 – 4%) of Group sales. During the year sales decreased by 12% to £2.47 million.

CHAIRMAN'S STATEMENT

million (2007 – £2.82 million). As reported in our interim results, a full review of this activity has been carried out and this resulted in a complete change of management together with certain operational changes. These changes incurred a one-off cost of £413,000 in the year. We now have a new team in place and a strategy that should return this activity to profit.

Interior Decorating Division

Interior decorating sales which account for 14% of Group sales (2007 – 10%), increased by 47% to £10.64 million (2007 – £7.26 million) during the year, producing our best result for over 10 years. The decorating order book remains healthy and as this part of the Group operates in a market less affected by the current economic problems, we are optimistic for the coming year. However, we do not expect results for the current financial year to match the excellent performance reported for the year to 30th April 2008. This is partly due to lower antique sales, which are being affected by the downturn in the UK and US.

Prospects

Current trading conditions in our two principal markets, the US and UK, look increasingly challenging due to the downturn in the housing markets, and are difficult to forecast with any certainty. Historically we have been last in to a recession and last out and my experience of any downturn is that it is always deeper and lasts longer than everyone forecasts. For now our focus will be on conserving our cash and reducing costs where possible but not to the long term detriment of the Group. We have a strong balance sheet and are well placed to handle any downturn and take advantage of any market opportunities which may arise.

I would like to thank all our staff for their contribution to this year's results and for their continued hard work and support.

REVIEW OF OPERATIONS AND FINANCE

Key Performance Indicators

	2008	2007
Constant Currency Sales Growth	10.9%	8.1%
Gross Profit Margin	53.4%	55.5%
Operating Profit Margin	7.8%	8.2%
Basic Earnings Per Share	27.5p	24.8p
Operating Cash Flow	£7.0m	£8.0m
Stock Turn (Days)	134	139
Cost of Equity Capital	16.7%	10.4%

Sales Growth

Group sales increased by 10.1% to £78.18 million (2007 – £71.01 million) and by 10.9% on a constant currency basis. This compares to an 8.1% constant currency increase in 2007 and 3.2% in 2006. The strong sales growth reflects the unprecedented housing boom which took place in the UK, the US and certain parts of Europe in 2006 and the first half of 2007. These conditions came to an abrupt halt with the onset of the worldwide credit crunch which started in the middle of last year. The impact of the credit crunch is not reflected in our results to 30th April because of the lag that exists between housing transactions and decorating activity. Looking ahead it seems inevitable that trading conditions are going to become increasingly challenging and the collapse in housing transactions in the UK and US is a major concern. We believe that people spend significantly more money when they move house compared to re-decorating their existing home.

A significant part of this year's sales increase is due to a very strong performance by our decorating division which increased sales by 47% to £10.6 million. In our core fabric division like for like sales increased by 10.1% in the UK, 8% in the US, 4.5% in Europe and 13% in the Rest of the World. The performance in Europe is distorted by a weak performance in France where sales decreased by 5% on a like for like basis. We have restructured our senior management in France and believe this will improve our performance in this market.

Gross Profit Margin

The Group's gross profit margin declined by 2.1% from 55.5% to 53.4%. This is the main reason why this year's sales growth has not translated into higher operating profits. There are two main factors behind the decline in our reported gross profit margin. The first is simply the change in the mix of sales between the lower margin decorating division and the higher margin fabric division. This has reduced the reported gross margin by 0.9%. The second is the weakness of the US dollar which averaged \$2.01 during the year compared to \$1.92 last year.

The US market represents over 40% of the Group's total sales and 50% of fabric sales. All of our US fabric sales are invoiced in US dollars but mainly sourced in Euros or Sterling. The change in the average dollar rate adversely impacted our gross margin by £608,000 or 0.8%. This equates to approximately £60,000 per one cent movement in the dollar. The Group seeks to hedge its US dollar exposure through forward contracts to sell dollars for Sterling. Gains and losses on forward contracts are included in the cost of goods sold. This year net gains on forward contracts were £87,000 compared to £302,000 last year. So together with the change in the average rate the total impact of the weaker dollar was to reduce gross margin and profit by £823,000. Since the year end the US dollar has strengthened slightly. The Group has forward contracts covering 25% of its exposure for the year ending 30 April 2009 at 1.95 and so there is significant upside potential from any further strengthening of the dollar.

During the second half of the year the Euro appreciated in value by approximately 13.5% from 1.44 to 1.27. The Group has a natural hedge between Euro costs and Euro revenues but this is dependent on maintaining Euro sales at their current levels. The impact of a stronger Euro will be to push our reported gross profit margin lower next year. At constant volumes the quantum of gross margin will not change but if revenues and the cost of goods sold increase by an equal and opposite amount due to changes in exchange rates then our reported margin will fall. The strong Euro is also starting to impact our balance sheet pushing up the Sterling value of stock, debtors and creditors.

REVIEW OF OPERATIONS AND FINANCE

The average and closing US dollar and euros rates were as follows

	2008	2007	% change
US dollar average	2 01	1 92	4 76%
US dollar closing	1 98	2 00	(0 97%)
Euro average	1 39	1 47	(5 31%)
Euro closing	1 27	1 47	(13 46%)

Operating Profit Margin

Group profit from operations increased by 4 1% to £6 08 million (2007 – £5 84 million) representing an operating profit margin of 7 8% (2007 – 8 2%). The decline in our operating profit margin is due to two main factors. The first is the effect of the weak dollar which had an impact of £823,000 as reported above. The second is due to reorganisation costs of £413,000 in France which underperformed during the year and is now under new management for both our fabric sales and accessories operations.

The Group is highly operationally geared with a high gross profit margin and a relatively fixed cost base. More difficult trading conditions will inevitably put pressure on operating margins. The key driver of sales in our core product division is new product investment and we expect that returns on investment will fall in the current economic climate. As a result the Group will focus on cash flow and maintaining a tight control over working capital.

Although tougher trading conditions will put pressure on operating margins we believe that the Group is well placed to weather any downturn in market conditions for three reasons. Firstly the Group has a strong balance sheet with net cash at the start of 2008 of £2 4 million and unused bank facilities of £7 3 million. Secondly the Group is orientated towards the luxury end of the market which may prove more resilient to adverse conditions. Thirdly the Group makes 69% of its sales overseas and has a reasonable spread of geographic risk between the UK, the US and Europe.

Taxation

The Group tax charge was £1 88 million (2007 – £1 91 million), an effective tax rate of 31 6% (2007 – 32 8%). The reduction in the effective rate is primarily due to the change in the mix of profits between the UK and the US where corporate tax rates are approximately 40%. Profits at our US subsidiary company Cowtan and Tout have been impacted by the weak dollar and a similar overall tax rate is expected in 2009. The Group balance sheet includes a significant deferred tax asset of £2 0 million (2007 – £2 1 million) nearly all of which relates to temporary differences in the US.

Basic Earnings Per Share

Group earnings per share increased by 11% to 27 5p (2007 – 24 8p). This follows a 42 5% increase in EPS in 2007 and is partly explained by the effect of share buybacks in the current and prior years. During the year the Group bought for cancellation 303,932 shares representing 1 9% of the issued share capital at a cost of £465,000 or £1 53 per share. In the prior year the Group bought for cancellation 1,510,068 shares at an average price of 2 05p. These buybacks have reduced the weighted average number of shares in issue compared to last year by 6%.

Cost of Equity Capital

The Group Board is in favour of share buybacks for so long as they continue to enhance shareholder value through their effect on earnings per share, net assets per share and return on capital employed. The Group's cost of equity capital measured in terms of earnings as a percentage of the share price is 16 7% up from 10 4% in 2007 and well in excess of the Group's post tax cost of debt of 4 3%. The Group was ungeared at the year end with net cash of £2 4 million and after the year end on 22nd May 2008 the Group bought for cancellation a further 500,000 shares representing 3 3% of the issued share capital at a total cost of £850,000 or £1 70 per share. The Company has significant distributable reserves of £6 0 million to cover further share buybacks but this will depend on cash generation and market conditions.

At our AGM on 16th September, the Group will seek approval to buy back up to 15% of the issued share capital of the company or 2 22 million shares. The shareholding of David Green, Chairman

REVIEW OF OPERATIONS AND FINANCE

and Chief Executive, is currently 29.9% (30.9% including outstanding share options) and as a result further share buybacks will require the renewal of an existing authority to waive Rule 9 of the Takeover Code. Under Rule 9 any person or persons acting in concert with a shareholding of 30% or more are required to make an offer for the entire issued share capital of the company. An Extraordinary General Meeting to seek approval of the waiver will be held on 16th September 2008 after our Annual General Meeting.

Dividends

The Board has proposed a 4.0% increase in the final dividend to 2.65p (2007 – 2.55p) making a total for the year of 4.20p (2007 – 4.00p) which is an increase of 5.0%. This is consistent with the Group's progressive dividend policy. The total cost of the dividend is £604,000 which represents dividend cover of 6.7 times (2007 – 6.2 times). This remains a high level of cover but currently the Board's opinion is that the interests of shareholders are best served by utilising the Group's distributable reserves for share buybacks or to fund acquisitions which fit with the Group's existing brand portfolio.

Cashflow

The Group has a strong operating cashflow and generated cash from operations of £7.0 million in 2008 compared to £8.0 million last year. The net increase in working capital was £744,000 comprising an increase in stock of £1.2 million, an increase in debtors of £672,000 and an increase in creditors of £1.1 million. There was considerable pressure on working capital during the year driven by the 10.1% increase in Group sales. This pressure was exacerbated by the dramatic strengthening of the Euro in December which has had the effect of increasing the Sterling value of stock, debtors and creditors in our balance sheet.

Our fabric ranges require a significant investment in stock to satisfy customer service expectations and as a result inventory management is of critical importance to cashflow especially if there is a downturn in business. During the year our stock turn reduced slightly from 139 to 134 days.

Tax cashflows increased to £2.3 million from £1.8 million last year. This payment is higher than the profit and loss charge of £1.8 million and is due to timing differences and changes in deferred tax. Capital expenditure during the year was £1.4 million compared to depreciation of £1.7 million.

Cash generation before dividends and share buybacks was exactly the same as last year at £3.1 million and compares to profit after tax of £4 million. Dividend payments were £604,000 (2007 – £600,000) and share buybacks were £465,000 (2007 – £3.09 million). As a result the Group has ended the year with net cash of £2.4 million.

IFRS

The Group has adopted IFRS for the year ending 30th April 2008. The first reporting under the new accounting rules was for the interim period ending 31st October 2007. Restated balance sheets for 30th April 2006 and 30th April 2007 were announced at the same time as our interim results on 24th January 2008 and are included in our Annual Report. The impact of adopting IFRS is relatively modest and resulted in a reduction in equity at 30th April 2007 of £422,000.

Going Concern

The Directors are confident having made appropriate enquiries that the Group and the Company have adequate resources to continue in the foreseeable future. For this reason they continue to adopt the going concern basis in preparing the accounts.

DIRECTORS' REPORT

The Directors submit their report and Group financial statements for the year ended 30th April 2008

Principal Activities

The principal activities of the Group are the design, marketing, distribution and retailing of furnishing fabrics, wallpapers, trimmings, related products and upholstered furniture in the UK and overseas and the sale of antiques, interior and architectural design, project management, decoration and furnishing for private and commercial clients

Review of the Business and Future Developments

Details of the Group's activities during the year and of future plans are contained in the Chairman's Statement on pages 2 and 3, and in the Review of Operations and Finance on pages 4 to 6

Financial Instruments

Details of the use of financial instruments by the Group are contained in note 20 on pages 35 and 36 of the financial statements

Share Capital

At the forthcoming Annual General Meeting, certain resolutions are to be proposed relating to the allotment and purchase of shares

Resolution Number 6, proposed as an ordinary resolution, would authorise the Directors to allot shares in the Company up to a maximum of the authorised but unissued share capital of the Company (this represents 123% of the issued share capital as at 24th July 2008) for a period expiring on the date of the next Annual General Meeting or 15 months after the passing of the resolution, whichever occurs first

Resolution Number 7, proposed as a special resolution, would authorise the Directors to allot shares for cash, other than to existing shareholders in proportion to their existing holdings, in respect of a maximum of 5% of the existing issued share capital of the Company, for a period again expiring on the date of the next Annual General Meeting or 15 months after the passing of the resolution, whichever occurs first

Resolution Number 8, proposed as a special resolution, would authorise the Directors to purchase up to a total nominal value of £222,900 of the Company's ordinary shares at prices from 10p up to a maximum of 5% above the middle market quotations for the preceding five business days. This represents 15% of the issued share capital as at 24th July 2008. This power will only be exercised by the Board when it is satisfied that any purchase would have a beneficial impact on earnings per share, would not have a material adverse impact upon attributable assets and would be in the interests of shareholders. Excluding the Company's ESOP share options the number of options for ordinary shares which were outstanding at 24th July 2008, the latest practical date prior to publication of this report, was 15,000 (0.1% of the current issued ordinary share capital). If the proposed authority for the Company to purchase its own shares is used in full, the total number of such options will represent 0.1% of the issued ordinary share capital

Results and Dividends

The Group's profit on ordinary activities after taxation was £4,065,000 (2007 – £3,899,000). An interim dividend of 1.55p (2007 – 1.45p) per share was paid to shareholders on 10th April 2008. The Directors recommend the payment of a final dividend of 2.65p (2007 – 2.55p) per share to be paid on 10th October 2008 to shareholders on the register at the close of business on 12th September 2008. The total dividend is 4.20p (2007 – 4.00p) per share and the total of the interim and proposed final dividend is £599,000 (2007 – £596,000).

Employees

The Group values the involvement of its employees and keeps them informed on matters affecting them and on factors affecting the performance of the Group. Information is given at formal and informal meetings throughout the year.

The Group believes in the policy of equal opportunities. Recruitment and promotion are undertaken on the basis of merit, regardless of gender, race, age, marital status, sexual orientation, religion, nationality, colour and disability.

Disabled Persons

It is the policy of the Group to employ disabled persons wherever appropriate. Such disabled employees are given the same opportunities for training and promotion as other employees. In the event of members of staff becoming disabled, every effort is made to ensure that their employment with the Group continues.

DIRECTORS' REPORT

Payment to Suppliers

It is the Group's policy that payments to suppliers are made in accordance with those terms and conditions agreed between the Group and its suppliers, provided that all trading terms and conditions have been complied with. At 30th April 2008, the Group had an average of 35 days purchases outstanding to trade creditors (2007 – 38 days). The parent company makes no payments to suppliers.

Charitable Donations

During the year the Group made various charitable donations totalling £25,685 (2007 – £34,442).

Directors

The Directors listed on page 7 have held office throughout the year to 30th April 2008.

In accordance with Article 14.1 of the Company's Articles of Association, A. K. P. Smith will retire by rotation at the Annual General Meeting. Resolution 5 proposes his re-election as Director. A. K. P. Smith has a service contract, which is terminable by one year's notice by either the Company, or the Director.

Non-Executive Directors

A. K. P. Smith was appointed as non-executive Director in February 1994. He is also the non-executive Chairman of Space NK Ltd.

Substantial Shareholdings

Interests amounting to 3% or more in the issued share capital of the Company were as follows as at 24th July 2008.

The market price of the Company's shares at 30th April 2008 was 164.0p. The range of market prices during the financial year was between 149.50p and 262.50p.

Corporate Governance

Although it is not a requirement of AIM listed companies, the Group seeks within the practical confines of a smaller company to act in compliance with the principles of good governance and the code of best practice as set out in the Combined Code on Corporate Governance. The Audit Committee and Remuneration Committee are headed by the Group's non-executive director. The whole Board acts as a Nomination Committee. The Board has identified the principal business and financial risks facing the Group and documented the key control procedures that are in place to manage these risks. This document is subject to review by the Audit Committee and updated on a regular basis.

Auditors

All of the current directors have taken all the steps that they ought to have taken to make themselves aware of any information needed by the Company's auditors for the purposes of their audit and to establish that the auditors are aware of that information. The directors are not aware of any relevant audit information of which the auditors are unaware.

A resolution to reappoint BDO Stoy Hayward LLP as auditors will be put to the members at the Annual General Meeting.

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE FINANCIAL STATEMENTS

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company, for safeguarding the assets of the company, for taking reasonable steps for the prevention and detection of fraud and other irregularities and for the preparation of a Directors' Report which complies with the requirements of the Companies Act 1985

The directors are responsible for preparing the annual report and the financial statements in accordance with the Companies Act 1985. The directors are also required to prepare financial statements for the group in accordance with International Financial Reporting Standards as adopted by the European Union (IFRSs) and the rules of the London Stock Exchange for companies trading securities on the Alternative Investment Market. The directors have chosen to prepare financial statements for the company in accordance with IFRSs.

International Accounting Standard 1 requires that financial statements present fairly for each financial year the company's financial position, financial performance and cash flows. This requires the faithful representation of the effects of transactions, other events and conditions in accordance with the definitions and recognition criteria for assets, liabilities, income and expenses set out in the International Accounting Standards Board's 'Framework for the preparation and presentation of financial statements'. In virtually all circumstances, a fair presentation will be achieved by compliance with all applicable IFRSs. A fair presentation also requires the Directors to

- consistently select and apply appropriate accounting policies,
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information, and
- provide additional disclosures when compliance with the specific requirements in IFRSs is insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance.

Financial statements are published on the group's website in accordance with legislation in the United Kingdom governing the preparation and dissemination of financial statements, which may vary from legislation in other jurisdictions. The maintenance and integrity of the group's website is the responsibility of the directors. The directors' responsibility also extends to the ongoing integrity of the financial statements contained therein.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF COLEFAX GROUP PLC

We have audited the group and parent company financial statements (the "financial statements") of Colefax Group Plc for the year ended 30th April 2008 which comprise the Group Income Statement, the Group and Company Balance Sheets, the Group and Company Cash Flow Statements and the Group Statement of Recognised Income and Expenses and the related notes. These financial statements have been prepared under the accounting policies set out therein.

Respective responsibilities of directors and auditors

The directors' responsibilities for preparing the financial statements in accordance with applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union are set out in the statement of directors' responsibilities.

Our responsibility is to audit the financial statements in accordance with relevant legal and regulatory requirements and International Standards on Auditing (UK and Ireland).

We report to you our opinion as to whether the financial statements give a true and fair view and have been properly prepared in accordance with the Companies Act 1985 and whether the information given in the directors' report is consistent with those financial statements. We also report to you if, in our opinion, the company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding directors' remuneration and other transactions is not disclosed.

We read other information contained in the annual report, and consider whether it is consistent with the audited financial statements. This other information comprises only the Chairman's Statement, the Review of Operations and Finance and the Directors' Report. We consider the implications for our reports if we become aware of any apparent misstatements or material inconsistencies within the financial statements. Our responsibilities do not extend to any other information.

Our report has been prepared pursuant to the requirements of the Companies Act 1985 and for no other purpose. No person is entitled to rely on this report unless such a person is a person entitled to rely upon this report by virtue of and for the purpose of the Companies Act 1985 or has been expressly authorised to do so by our prior written consent. Save as above, we do not accept responsibility for this report to any other person or for any other purpose and we hereby expressly disclaim any and all such liability.

Basis of audit opinion

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgments made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the group's and company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Opinion

In our opinion:

- the group financial statements give a true and fair view, in accordance with IFRSs as adopted by the European Union, of the state of the group's affairs as at 30th April 2008 and of its profit for the year then ended,
- the parent company financial statements give a true and fair view, in accordance with IFRSs as adopted by the European Union as applied in accordance with the provisions of the Companies Act 1985, of the state of the parent company's affairs as at 30th April 2008,
- the financial statements have been properly prepared in accordance with the Companies Act 1985, and
- the information given in the directors' report is consistent with the financial statements.

NOTES TO THE ACCOUNTS

For the year ended 30th April 2008

1 Accounting Policies**General Information**

Colefax Group Plc (the Group) is a limited company incorporated in the United Kingdom. The address of its registered office and principal place of business are disclosed on page 7. The principal activities of the Group are the design, marketing, distribution and retailing of furnishing fabrics, wallpapers, trimmings, related products and upholstered furniture in the UK and overseas and the sale of antiques, interior and architectural design, project management, decoration and furnishing for private individuals and commercial firms. Colefax Group Plc (the Company) is a limited company incorporated in the United Kingdom. The address of its registered office and principal place of business are disclosed on page 7. The principal activity of the Company is to act as a holding company for the Group's trading subsidiaries.

Basis of Preparation

The financial statements have been prepared on the historical cost basis except for the revaluation of certain financial instruments. The principal accounting policies adopted in the preparation of the financial statements are set out below. The policies have been consistently applied to all the years presented, unless otherwise stated. The policies have been applied to the Group and Company, unless otherwise stated.

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs and IFRIC interpretations) issued by the International Accounting Standards Board (IASB) as adopted by the European Union ("EU adopted IFRS") and with those parts of the Companies Act 1985 applicable to companies preparing their financial statements in accordance with IFRS. This is the first time the Group has prepared its financial statements in accordance with IFRSs, having previously prepared its financial statements in accordance with UK GAAP accounting standards. Details of how the transition from UK accounting standards to EU adopted IFRS has affected the Group's reported financial position, financial performance and cash flows are given in note 3.

Changes in Accounting Policies

(a) Standards, interpretations and amendments to published standards effective in 2008 but which are not relevant to the group

The following standards, amendments and interpretations to published standards are mandatory for accounting periods beginning on or after 1 January 2007 but are currently not relevant to the group's operations:

– *IFRIC 7, Applying the restatement approach under IAS 29, Financial Reporting in Hyperinflationary Economies* (effective for accounting periods beginning on or after 1st March 2006). IFRIC 7 provides guidance on the application of IAS 29 requirements in a reporting period in which entity identifies the existence of hyperinflation in the economy of its functional currency, when the company was not hyperinflationary in the prior period. IFRIC 7 is not relevant to the group as none of the group companies has a currency of a hyperinflationary economy as its functional currency.

(b) Standards, amendments and interpretations to published standards not yet effective

Certain new standards, amendments and interpretations to existing standards have been published that are mandatory for the group's accounting periods beginning after 1st January 2008 or later periods and which the group has decided not to adopt early. These are:

– *IFRS 8, Operating Segments* (effective for accounting periods beginning on or after 1 January 2009). This standard sets out requirements for the disclosure of information about an entity's operating segments and also about the entity's products and services, the geographical areas in which it operates, and its major customers. It replaces IAS 14, Segmental Reporting. The group expects to apply this standard in the accounting period beginning on 1st May 2009. As this is a disclosure standard it will not have any impact on the results or net assets of the group.

– *Revised IFRS 3, Business Combinations and complementary Amendments to IAS 27 'Consolidated and separate financial statements'* (both effective for accounting periods beginning on or after 1st July 2009). The revised IFRS 3 and IAS 27 are still to be endorsed by the EU. The revised IFRS 3 and amendments to IAS 27 arise from a joint project with the Financial Accounting Standards Board (FASB), the US standards setter, and result in IFRS being largely converged with the related, recently issued, US requirements. There are certain very significant changes to the requirements of IFRS, and options available, in accounting for business combinations. Management is currently assessing the impact of revised IFRS 3 and amendments to IAS 27 on the accounts.

– *IFRIC 14, IAS 19 'The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction'* (effective for accounting periods beginning on or after 1st January 2008). IFRIC 14 is still to be endorsed by the EU. IFRIC 14 clarifies when refunds or reductions in future contributions should be regarded as available in accordance with paragraph 58 of IAS 19, how a minimum funding requirement might affect the availability of reductions in future contributions and when a minimum funding requirement might give rise to a liability. Management is currently assessing the impact of IFRIC 14 on the accounts.

1 Accounting Policies
continued

- *Amendment to IFRS 2, Share based payments vesting conditions and cancellations* (effective for accounting periods beginning on or after 1st January 2009) This amendment is still to be endorsed by the EU. The Amendment to IFRS 2 is of particular relevance to companies that operate employee sharesave schemes. This is because it results in an immediate acceleration of the IFRS 2 expense that would otherwise have been recognised in future periods should an employee decide to stop contributing to the savings plan, as well as a potential revision to the fair value of the awards granted to factor in the probability of employees withdrawing from such a plan. Management is currently assessing the impact of the Amendment on the accounts.
- *Amendments to IAS 1 Presentation of Financial Statements – A Revised Presentation* (effective for accounting periods beginning on or after 1st January 2009) This amendment is still to be endorsed by the EU. The revised version of IAS 1 (revised 2007) replaces IAS 1 Presentation of Financial Statements (revised in 2003) as amended in 2005 and key changes include the requirement to aggregate information in the financial statements on the basis of shared characteristic, changes in the titles of some primary statements (non mandatory), introducing the possibility of a single Statement of Comprehensive income (combining the Income Statement and the Statement of Recognised Income and Expense), Only the total of comprehensive income is to be shown in the Statement of Changes in equity. Management is currently assessing the impact of the Amendment on the accounts.
- *Amendments to IAS 32 Financial Instruments – Presentation and IAS 1 Presentation of Financial Statements – Puttable Financial Instruments and Obligations Arising on Liquidation* (effective for accounting periods beginning on or after 1st January 2009) This amendment is still to be endorsed by the EU. The amendments result in certain types of financial instrument that meet the definition of a liability, but represent the residual interest in the net assets of the entity being classified as equity. Management is currently assessing the impact of the Amendment on the accounts.
- *Amendments to IFRS 1 and IAS 27 Cost of an Investment in a Subsidiary, Jointly-Controlled Entity or Associate* (effective for accounting periods beginning on or after 1st January 2009) These amendments are still to be endorsed by the EU. The amendments permits the entity, at its date of transition to IFRSs in its separate financial statements to use a deemed cost to account for its investment in subsidiary, jointly controlled entity or associate. The deemed cost of such investment could be either the fair value of the investment at the date of transition, which would be determined in accordance with IAS 39 Financial Instruments – Recognition and Measurement or, the carrying amount of the investment under previous GAAP at the date of transition. Management is currently assessing the impact of the Amendment on the accounts.
- *Improvements to IFRS* (effective for accounting periods beginning on or after 1st July 2009) This improvements project is still to be endorsed by the EU. The amendments take various forms, including the clarification of the requirements of IFRS, the elimination of inconsistencies between Standards and a restructuring of IFRS 1 First-time Adoption of IFRS. Management is currently assessing the impact of the Amendment on the accounts.

The following principal accounting policies have been applied consistently in the preparation of the financial statements:

Basis of Consolidation

Where the Group has the power, either directly or indirectly, to govern the financial and operating policies of another entity or business so as to obtain benefits from its activities, it is classified as a subsidiary. The consolidated financial statements present the results of Colefax Group Plc and its subsidiaries as if they formed a single entity.

No income statement is presented for the Company as provided in S 230 of the Companies Act 1985. The profit dealt with in the financial statements of Company was £3,427,000 (2007 – £4,900,000). Total recognised income and expenses relating to the year for the Company consists of profit for the year only.

Acquisitions are accounted for using the acquisition or merger method as required. Where the acquisition method is used, the results of subsidiary undertakings are included from the date of acquisition.

Where merger accounting was used in business combinations prior to 1st May 2006 (transition date), the investment is still recorded in the Company's Balance Sheet at the nominal value of the shares issued, together with the fair value of any additional consideration paid as the Group has applied the IFRS 1 'First-time Adoption of International Financial Reporting Standards' exemption relating to business combinations.

In the Group Financial Statements, merged subsidiary undertakings are treated as if they had always been a member of the Group. Any difference between the nominal value of the shares acquired by the Group and those issued by the company to acquire them is taken to reserves.

NOTES TO THE ACCOUNTS

For the year ended 30th April 2008

1 Accounting Policies
*continued***Goodwill**

Goodwill arising on acquisitions prior to 30th April 1998 was set off directly against reserves. Goodwill previously eliminated against reserves has not been reinstated upon transition to IFRS.

Investments in Subsidiaries

Investments in subsidiaries in the Company Balance Sheet are stated at cost less any provision for impairment.

Revenue Recognition

Revenue, which excludes value added taxes, represents the amounts receivable from its customers for goods and services supplied. Sales of goods are recognised when goods are delivered and title has passed. Sales of services are recognised when the service has been completed.

Property, Plant and Equipment

Property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses. Historical cost comprises the purchase price and costs directly incurred in bringing the asset into use. The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable.

Depreciation is provided on all property, plant and equipment other than freehold land at rates calculated to write off the cost less estimated residual value evenly over its expected useful life, as follows:

Freehold buildings	50 years
Leasehold land and buildings and leasehold improvements	50 years (or, if shorter, over the period of the lease or life of the asset)
Furniture, fixtures and equipment	5 – 10 years
Motor vehicles	4 years
Screens and originations	4 years

Assets in the course of construction are not depreciated.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs, including an appropriate portion of fixed and variable overhead expenses, are assigned to inventories by the method most appropriate to the particular class of inventory, with the majority being valued on a weighted average cost basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. Provision is made for obsolete, slow moving and defective stocks.

Work in Progress

Work in progress is valued at cost less progress payments received and receivable. Cost includes all direct expenditure on material, external services, labour and related overheads that have been incurred in bringing the work in progress to its present location and condition. Provision is made for any losses expected to arise on completion of the work entered into at the date of the balance sheet.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred Taxation

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

NOTES TO THE ACCOUNTS

For the year ended 30th April 2008

1 Accounting Policies
*continued*Current and Deferred Tax for the Period

Current and deferred tax are recognised as an expense or income in profit or loss, except when they relate to items credited or debited directly to equity, in which case the tax is also recognised directly in equity

Lease Commitments

Leases where substantially all of the risks and rewards incidental to ownership of a leased asset are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the income statement on a straight line basis over the lease term

Retirement BenefitsDefined Contribution Schemes

The Group operates defined contribution pension schemes which are externally administered. Payments made to the funds are charged when payable to the income statement as part of employment costs. There are no outstanding or prepaid contributions at the year end

Defined Benefit Schemes

One Group company operates a defined benefit pension scheme for employees. The scheme's funds are administered by trustees and are independent of Group finances. Annual contributions are based on external actuarial advice

The difference between the fair value of the assets held in the Group's defined benefit pension scheme and the scheme's liabilities measured on an actuarial basis using the projected unit credit method are recognised in the Group's balance sheet as a pension asset or liability as appropriate. Any related deferred tax is recognised within the Group's deferred tax asset or liability following the principles described in the deferred tax accounting policy note

Changes in the defined benefit pension scheme asset or liability arising from factors other than cash contribution by the Group are charged to the income statement or the statement of total recognised income and expenses in accordance with IAS 19 'Employee Benefits'

Foreign Currency

The individual financial statements of each Group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the consolidated financial statements, the results and financial position of each Group entity are expressed in Great British Pounds ('GBP'), which is the functional currency of the Company and the presentation currency for the consolidated financial statements

Group

The assets and liabilities of overseas subsidiary undertakings are translated at the rate of exchange ruling at the balance sheet date and the results of overseas subsidiaries are translated at the average rate of exchange for the year. The exchange differences arising on the retranslation of opening net assets and on loans which form part of the net investment are taken directly to reserves

Company

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies including loans to subsidiaries are retranslated at the rate of exchange ruling at the balance sheet date. All differences are taken to the income statement

Financial InstrumentsCash and Cash Equivalents

Cash equivalents are defined as including short term deposits with original maturity within 3 months. For the purposes of the cash flow statements cash and cash equivalents consist of cash and cash equivalents net of outstanding bank overdrafts held with the same bank where there is a legal right and intention to offset

Trade and Other Receivables

Trade and other receivables do not carry interest and are stated at their nominal (invoiced) value as reduced by appropriate allowances for estimated irrecoverable amounts. When a trade receivable is considered uncollectible, it is written off against the allowance. Subsequent recoveries of amounts previously written off are credited against the allowance. Changes in the carrying amount of the allowance are recognised in the income statement

Trade and Other Payables

Trade and other payables do not carry interest and are recognised and carried at original invoice cost and are a short-term liability of the Group

NOTES TO THE ACCOUNTS

For the year ended 30th April 2008

I Accounting Policies
*continued***Derivative Financial Instruments**

The Group uses derivative financial instruments such as foreign currency contracts to hedge its risk associated with foreign currency fluctuations. Such derivative financial instruments are stated at fair value. The fair value of forward exchange contracts is calculated by reference to current forward exchange rates for contracts with similar maturity profiles.

Forward Contracts

The Group uses forward foreign currency contracts to reduce transactional currency exposures on future expected sales denominated in US Dollars. It is the Group's policy not to undertake any trading activity in financial instruments. Gains or losses resulting from changes in fair value on forward contracts used to mitigate foreign currency risk are recognised at the end of each financial year and upon realisation of the contract. Financial instruments are disclosed in note 20.

Employee Share Option Plan (ESOP)

The cost of the Group's shares held by the ESOP is debited to the ESOP share reserve and is deducted from shareholders' funds in the Group and Company balance sheet. Any cash received by the ESOP on disposal of the shares it holds is also recognised directly in shareholders' funds.

Any shares held by the ESOP are treated as cancelled for the purposes of calculating earnings per share.

Share-Based Payments

When share and share options are granted to employees a charge is made to the income statement and a corresponding entry made in reserves to record the fair value of the award. This charge is spread over the period of performance relating to the grant.

When shares and share options are granted to employees of subsidiary companies, the fair value of the award made is treated as a capital contribution spread over the period of performance relating to the grant. The corresponding entry is made in reserves.

Dividends

Dividends are recognised when they become legally payable. In the case of interim dividends to equity shareholders, this is in the year in which they are paid. Final dividends are not accrued until the proposed dividend has been approved by the shareholders at the Annual General Meeting.

Segmental Reporting

A business segment is a distinguishable component of the Group that is engaged in providing an individual product or service and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of the Group that is engaged in providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

-
- 2 **Critical Accounting Estimates and Judgements**
- In preparation of consolidated financial statements under IFRS the Group makes estimates and assumptions regarding the future. Estimates and judgements are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.
- Deferred tax
- Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.
- Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.
- The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.
- Inventories
- The Group reviews the net realisable value of, and demand for, its inventories to provide assurance that recorded inventory is stated at the lower of cost or net realisable value. Factors that could impact estimated demand and selling prices include the success of future collections, competitor actions, supplier prices and economic trends.
- Pension Assumptions
- The costs, assets and liabilities of the defined benefit scheme operated by the Group are determined using methods relying on actuarial estimates and assumptions. Details of the key assumptions are set out in note 26. The Group takes advice from independent actuaries relating to the appropriateness of the assumptions. Changes in the assumptions used may have a significant effect on the consolidated income statement and the balance sheet.
- Income Taxes
- The Group is subject to income tax in several jurisdictions and significant judgement is required in determining the provision for income taxes. During the ordinary course of business, there are transactions and calculations for which the ultimate tax determination is uncertain. As a result, the Group recognises tax liabilities based on estimates of whether additional taxes and interest will be due. To the extent that the final tax outcome of these matters is different than the amounts recorded, such differences will impact income tax expense in the period in which such determination is made.
- Financial Instruments
- As described in note 20, the Board use their judgement in selecting an appropriate valuation technique for financial instruments not quoted in an active market. Valuation techniques commonly used by market practitioners are applied.
- For derivative financial instruments assumptions are based on quoted market rates adjusted for specific features of the instrument. Details of the assumptions used are provided in note 20.
- Share based payments
- The Group operates an equity-settled share based remuneration scheme for directors and employees. Employee services received, and the corresponding increase in equity, are measured by reference to the fair value of the equity instruments at the date of the grant, excluding the impact of any non-market vesting conditions. The fair value of the share operations is estimated on the date of the grant based on certain assumptions. Those assumptions are described in note 24.

- 3 **First time adoption of International Financial Reporting Standards (IFRS)**
- Reconciliations and explanatory notes on how the transition to IFRS has affected profit and net assets previously reported under UK Generally Accepted Accounting Principles are given below.
- The Group has applied the IFRS 1 "First-time Adoption of International Financial Reporting Standards" exemptions relating to business combinations and employee benefits.

Adjustments

Explanations of the adjustments made to the UK GAAP income statement and balance sheets are as follows

(a) Employee Benefits – Short-term benefits (IAS 19)

IAS 19 'Employee Benefits' requires holiday pay to be accrued recognising the employee benefits to be paid in exchange for that service during the accounting period. This results in the recognition of a provision of £105,000 and a deferred tax asset of £31,000 on transition to IFRS and a reduction in pre-tax profit of £10,000 for the year ended 30th April 2007.

Net assets at 1st May 2006 are reduced by £74,000, at 31st of October 2006 are reduced by £73,000 and at 30th April 2007 are reduced by £76,000.

(b) Employee Benefits – Post-employment benefits (IAS 19)

IAS 19 'Employee Benefits' requires retirement benefits to be accrued recognising the employee benefits to be paid on retirement in relation to employee pensions. This results in the recognition of a provision of £149,000 and a deferred tax asset of £52,000 on transition to IFRS and an increase in pre-tax profit of £2,000 in the year ended 30th April 2007.

Net assets at 1st May 2006 are reduced by £97,000, at 31st October 2006 are reduced by £94,000 and at 30th April 2007 are reduced by £94,000.

(c) Leases (IAS 17)

IAS 17 'Leases' requires operating lease payments to be recognised as an expense on a straight-line basis over the full length of the lease. This adjustment is due to lease incentives previously recognised over the period to the first break clause now being recognised over the life of the lease. This results in the recognition of a provision of £346,000 and a deferred tax asset of £141,000 on transition to IFRS and a reduction of £59,000 in pre-tax profit in the six months ending 31st October 2006 and reduction of £112,000 for the year ended 30th April 2007.

Net assets at 1st May 2006 are reduced by £205,000, at 31st October 2006 are reduced by £230,000 and at 30th April 2007 are reduced by £252,000.

(d) Deferred Tax Asset (IAS 12)

Unlike FRS 17 'Retirement Benefits', IAS 19 'Employee Benefits' requires the pension deficit to be shown gross under long term liabilities rather than net of deferred tax. We will continue to recognise a deferred tax asset of £93,000 at 1st May 2006 and 31st October 2006 and £83,000 at 30th April 2007 but it will now be reported within non-current assets.

(e) Foreign Exchange Reserve (IAS 21)

IAS 21 'The Effects of Changes in Foreign Exchange Rates' requires the exchange differences arising on consolidation on the translation of overseas subsidiaries to be recognised as a separate equity reserve. This results in an increase in the foreign exchange reserve of £392,000 at 1st May 2006, a reduction in the foreign exchange reserve of £370,000 at 31st October 2006 and a reduction in the foreign exchange reserve of £539,000 at 30th April 2007.

(f) Presentation of Financial Statements (IAS 1)

Unlike FRS 3 'Reporting Financial Performance', IAS 1 'Presentation of Financial Statements' does not state that profit on disposal of property, plant and equipment may not be reported as part of the profit from operations. This results in an increase in profit from operations of £19,000 at 31st October 2006 and £16,000 at 30th April 2007.

	Total tax expense	<u>1,877</u>	<u>1,907</u>

On 5th April 2008, the UK corporation tax changed from 30% to 28%

(c) Factors that may affect future tax charges

A deferred tax asset amounting to £25,000 (2007 – £17,000) primarily for capital losses has not been recognised. This is because in the opinion of the Directors there will be no suitable taxable gains in the foreseeable future, and it cannot be regarded as more likely than not that there will be suitable taxable profits from which any future reversal of the underlying timing differences can be deducted.

The Group's overseas tax rates are higher than those in the UK primarily because profits earned in the United States are taxed at a rate in excess of 28%. There is no indication that these rates are likely to change in the near future.

Deferred taxation included in non-current assets	(1,991)	(2,164)

At 30th April	<u>(1,868)</u>	<u>(2,129)</u>

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis

A deferred tax asset amounting to £25,000 (2007 – £17,000) primarily for capital losses has not been recognised. This is because in the opinion of the Directors there will be no suitable taxable gains in the foreseeable future, and it cannot be regarded as more likely than not that there will be suitable taxable profits from which any future reversal of the underlying timing differences can be deducted

The Group's principal financial instruments comprise of cash, short-term deposits, bank overdrafts, bank loans, foreign currency derivatives and various items such as trade and other receivables and trade and other payables that arise directly from its operations

The main risks arising from the Group's financial instruments are interest rate risk, liquidity risk, credit risk and foreign currency risk. The Board reviews and agrees policies for managing each of these risks and they are summarised below. These policies have remained unchanged since 1st May 1998 with the exception of forward contracts used for the first time this year to mitigate foreign currency risks

Interest Rate Risk

The Group has a seasonal cash flow that moves between net cash and net debt in the course of each year. The Group is exposed to cash flow interest rate risk on floating rate deposits and bank overdrafts

Liquidity Risk

The Group's objective is to maintain an appropriate balance between continuity of funding and flexibility through the use of multi-currency overdrafts and bank loans. The Group has various borrowing facilities available to it amounting to £7.3 million (2007 – £7.3 million). The undrawn committed facilities available at 30th April 2008 in respect of which all conditions had been met at that date total £7.3 million (2007 – £7.3 million). Group borrowing facilities are reviewed annually with HSBC.

At 30th April 2008 the Group's trade payables were £5.0 million (2007 – £4.6 million) and trade receivables were £8.8 million (2007 – £8.0 million) giving a ratio of 1.6. This, together with the Group's unused borrowing facility constitutes a very low liquidity risk.

NOTES TO THE ACCOUNTS

At 30th April 2008

20 Financial Instruments
*continued**Credit Risk*

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Group is mainly exposed to credit risk from credit sales. It is Group policy, implemented locally to assess the credit risk of new customers before entering contracts. Such credit ratings are taken into account by local business practices.

Credit risk also arises from cash and cash equivalents and deposits with banks. For banks, only independently rated parties with minimum rating "A" are accepted.

The Group's credit risk is spread over a large number of customers and historically the Group's bad debt experience has been extremely low.

Foreign Currency Risk

Due to the international nature of its operations, the Group faces currency exposures in respect of exchange rate fluctuations against sterling. The most significant of these is the US which represents 44% of Group sales.

The majority of the US subsidiary's revenue is sourced by imports from the UK and Europe. These sales are invoiced in US dollars. The Group minimises the currency translation exchange risk by the use of forward contracts. The fair value of these contracts at 30th April 2008 is detailed below.

The Group's exposure to movements in the US dollar is estimated at approximately £60,000 per one cent movement in the dollar. The Group has a natural hedge between Euro costs and Euro revenues but this is dependent on maintaining Euro sales at their current levels.

About 27% of the sales of the Group are to customers in countries other than the UK and US. Most of these sales are invoiced in the currencies of the countries involved. The Group does not hedge currency exposures on these sales using forward contracts as any exchange rate risk is considered to be insignificant due to the offsetting effect of imports.

The Group has continued its policy of not hedging balance sheet translation exposures except to the extent that overseas liabilities, including borrowings, provide a natural hedge. It is also the Group's policy not to hedge income statement translation exposures.

The balance sheets of overseas operations are translated into sterling at the closing rates of exchange for the year and any exchange difference is dealt with as a movement in the foreign exchange reserve. The income statements of overseas business are translated at an average rate of exchange.

Derivatives

The Group uses currency derivatives to forward buy foreign currency in order to hedge future transactions and cash flows. The Group is party to forward contracts denominated in US dollars to eliminate transactional currency exposures on future expected sales in the US.

At 30th April 2008 the Group had 6 outstanding forward contracts to sell US\$1 million each with a maturity date ranging from 18th November 2008 to 17th April 2009.

The fair values of the Group's forward foreign contracts based on market to market values using spot rates at the balance sheet date are as follows:

	2008	2007
	£'000	£'000
Fair value of forward foreign currency contracts	(13)	-

Capital Disclosures

The directors consider the Group's capital to consist of its share capital and reserves.

The Group's objective when maintaining capital is to safeguard the Group's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders.

To the extent that the Group consider it has surplus capital it has been Group policy to return this to shareholders through share buy backs.

Other Financial Instruments

The book amount for trade and other receivables, cash and cash equivalents, bank overdrafts, and trade and other payables with an expected life of 12 months or less, is considered to reflect its fair value.

NOTES TO THE ACCOUNTS

At 30th April 2008

- 24 **Share Based Payment** The Group operates an equity-settled share based remuneration scheme for directors and employees. The conditions being that the individual remains an employee of the group over the vesting period and in certain circumstances, the shares cannot be sold for a minimum of three years. Share options vest immediately. The shares in this scheme are disclosed in the table below.

	2008 Weighted average exercise price	2008 Number	2007 Weighted average exercise price	2007 Number
Outstanding at 1st May	£1 total	600,000	£1 total	425,000

Lapsed during the year	£1 total	–	£1 total	(10,000)
Outstanding at 30th April	£1 total	760,000	£1 total	600,000

All of the options outstanding at the end of the year had vested and were exercisable (2007 – all)

The weighted average share price (at date of exercise) of options exercised during the year was 224.5p (2007 – 209.0p)

The weighted average fair value of each option granted during the year was 164.0p (2007 – 241.0p). No options lapsed during the year. In 2007 the weighted average share price of each option which lapsed was 196.5p

Share based payment charge

In calculating the share based payment charge for the current year, the market value of the shares at the date of grant was used as an approximation of the fair value of the share options issued. This charge has been discounted at a rate of 15% to take into account of the fact that the shares under option cannot be sold within three years of the date of grant.

	2008 £'000	2007 £'000
The share-based remuneration expense (note 7) comprises		
Employee share option scheme	293	410

The Group also operates an approved executive share option scheme. No options have been granted since October 2000 and there are currently no plans to grant options under this scheme. The share options outstanding under this scheme are disclosed in note 21.

The Group did not enter into any share based payment transactions with parties other than employees during the current or previous year.

- 25 **Commitments Under Operating Leases** At 30th April 2008 the Group had total commitments under non-cancellable operating leases as follows:

	2008		2007	
	Land and Buildings £'000	Other £'000	Land and Buildings £'000	Other £'000

Later than five years	2,226	–	1,789	–
	3,240	51	2,699	57

The majority of leases of land and buildings are subject to rent reviews every 5 years.

NOTES TO THE ACCOUNTS

At 30th April 2008

- 26 **Pension Commitments** Group companies previously operated a defined contribution pension scheme which was closed in December 2006 and therefore no pension cost charge has been recorded in the current year (2007 – £16,085)

Group companies also make pension contributions for eligible employees to group personal pension schemes. These schemes are independently administered. The pension cost charge represents contributions payable by Group companies to the schemes during the year and amounted to £268,716 (2007 – £281,284)

The Group's US subsidiary Cowtan & Tout operates a funded benefit pension scheme. This scheme relates to the acquisition of Jack Lenor Larsen on 1st July 1997. The scheme was closed to new members on 31st December 1997. Existing members' current pension contributions were transferred to a defined contribution scheme and hence all future benefits became fixed on the date the scheme was closed. The most recent actuarial valuation of the fund was on 30th April 2008 using the projected unit credit method. As the scheme is closed to new members and all benefits have been frozen, assumptions concerning inflation and the rate of increase of salaries, pensions and deferred pensions are not applicable. The rate used to discount scheme liabilities was 5% (2007, 2006 – 5%). The market value of investments at 30th April 2008 was £634,874 (2007 – £674,042, 2006 – £769,097), all of which have an expected long term rate of return of 5% (2007, 2006 – 5%). Due to the nature of the investments, the actuarial value of the assets and the market value are the same. The present value of scheme liabilities at 30th April 2008 was £867,341 (2007 – £877,056, 2006 – £996,004), resulting in an unfunded actuarial accrued liability of £232,467 (2007 – £203,014, 2006 – £226,907). An accrual of £232,000 (2007 – £203,000, 2006 – £227,000) covering the unfunded actuarial accrued liability is included in the Group balance sheet together with a related deferred tax asset of £93,000 (2007 – £83,000, 2006 – £93,000)

The fair value of the assets in the scheme and the expected rate of return at 30 April 2008 were

NOTICE OF MEETING

Notice is hereby given that the 2008 Annual General Meeting of Colefax Group plc will be held at 19-23 Grosvenor Hill, London W1K 3QD on 16th September 2008 at 11 00 a.m. to transact the following business

Ordinary Business

- 1 To receive, and if thought fit, to adopt the audited Annual Accounts of the Company for the year ended 30th April 2008, together with the reports of the Directors and of the auditors thereon
- 2 To declare a final dividend of 2.65p per ordinary share
- 3 To re-appoint BDO Stoy Hayward LLP as auditors of the Company from the conclusion of this Annual General Meeting until the conclusion of the next general meeting of the Company at which accounts are laid
- 4 To authorise the Directors to determine the remuneration of the auditors
- 5 To re-elect A. K. P. Smith, who retires by rotation, as a Director

Special Business

To consider and, if thought fit, to pass the following resolutions of which resolution 6 will be proposed as an ordinary resolution and resolutions 7 and 8, will be proposed as special resolutions

- 6 THAT the Directors be and are hereby generally and unconditionally authorised pursuant to Section 80 of the Companies Act 1985 (the "Act") to exercise all or any of the powers of the Company to allot relevant securities (within the meaning of that section) of the Company up to an aggregate nominal amount of £1,825,000 (being the amount of the authorised but unissued share capital of the Company) for a period expiring (unless previously renewed varied substituted or revoked by the Company in general meeting) fifteen months after the passing of this resolution or at the conclusion of the next Annual General Meeting of the Company following the passing of this resolution, whichever first occurs, save that the Company may prior to such expiry make an offer or agreement which would or might require relevant securities to be allotted after such expiry and the Directors may allot relevant securities pursuant to any such offer or agreement and so that all previous authorities given by the Company in general meeting pursuant to Section 80 of the Act are revoked (save to the extent relied upon prior to the passing of this resolution)
- 7 THAT, subject to the passing of Resolution 6, the Directors be and are hereby generally empowered pursuant to Section 95 of the Act to allot or make offers or agreements to allot equity securities (within the meaning of Section 94(2) of the Act) of the Company pursuant to the authority conferred by Resolution 6 as if Section 89(1) of the Act did not apply to such allotment provided that this power
 - (a) shall expire fifteen months after the passing of this resolution or at the conclusion of the next Annual General Meeting of the Company following the passing of this resolution, whichever first occurs, save that the Company may prior to such expiry make an offer or agreement which would or might require equity securities to be allotted after such expiry and the Directors may allot equity securities pursuant to any such offer or agreement, and
 - (b) shall be limited to
 - (i) allotments of equity securities where such securities have been offered (whether by way of rights issue, open offer or otherwise) to holders of equity securities in proportion (as nearly as may be) to their existing holdings subject only to the Directors having a right to make such exclusions or other arrangements in connection with such offering as they deem appropriate, necessary or expedient,
 - (A) to deal with equity securities representing fractional entitlements, and
 - (B) to deal with legal or practical problems under the laws of, or the requirements of any recognised regulatory body or any stock exchange in, any territory, and
 - (ii) allotments of equity securities for cash otherwise than pursuant to paragraph (i) up to an aggregate nominal amount of £74,300

NOTICE OF MEETING

- 8 THAT the Company be generally and unconditionally authorised to make one or more market purchases (within the meaning of s163 (3) of the Act) of ordinary shares of 10p each in the capital of the Company ("ordinary shares") provided that
- (a) the maximum aggregate number of ordinary shares authorised to be purchased is 2,229,000 (representing 15% of the issued ordinary share capital),
 - (b) the minimum price which may be paid for an ordinary share is 10p,
 - (c) the maximum price which may be paid for an ordinary share is an amount equal to 105% of the average of the middle market quotations for an ordinary share as derived from The London Stock Exchange Daily Official List for the five business days immediately preceding the day on which that ordinary share is purchased,
 - (d) this authority expires at the conclusion of the next Annual General Meeting of the Company or within twelve months from the date of the passing of this resolution, whichever is earlier, and
 - (e) the Company may make a contract to purchase ordinary shares under this authority before the expiry of the authority which will or may be executed wholly or partly after the expiry of the authority, and may make a purchase of ordinary shares in pursuance of any such contract

Notes

- 1 Only those members entered in the register of members of the Company as at 6 00 p.m. on 14th September 2008 shall be entitled to attend and vote at the above meeting in respect of the number of shares registered in their name at that time. Changes to entries in the register of members after 6 00 p.m. on 14th September 2008 shall be disregarded in determining the rights of any person to attend and vote at the meeting.
- 2 A member entitled to attend and vote at the meeting is entitled to appoint one or more proxies to attend, speak and vote, on a poll on his/her behalf. A proxy need not be a member of the Company. A Form of Proxy is enclosed. If you require additional forms, please contact Computershare Investor Services on 0870 702 0003.
- 3 A member may appoint more than one proxy in relation to a meeting, provided that each proxy is appointed to exercise the rights attached to a different share or shares held by him.
- 4 Members who are unable to be present at the Annual General Meeting are invited to complete and return the Form of Proxy, which in order to be effective, must reach the Company's registrars not less than 48 hours before the time appointed for the meeting. The lodgement of a Form of Proxy, other such instrument or any CREST Proxy Instruction (as described in paragraph below) will not preclude a shareholder from attending and voting at the meeting in person.
- 5 In order to facilitate voting by corporate representatives at the meeting, arrangements will be put in place at the meeting so that
 - (i) if a corporate shareholder has appointed the Chairman of the meeting as its corporate representative with instructions to vote on a poll in accordance with the directions of all of the other corporate representatives for that shareholder at the meeting, then on a poll those corporate representatives will give voting directions to the Chairman and the Chairman will vote (or withhold a vote) as corporate representative in accordance with those directions, and
 - (ii) if more than one corporate representative for the same corporate shareholder attends the meeting but the corporate shareholder has not appointed the Chairman of the meeting as its corporate representative, a designated corporate representative will be nominated from those corporate representatives who attend, who will vote on a poll and the other corporate representatives will give voting directions to that designated corporate representative
 - (iii) Corporate shareholders are referred to the guidance issued by the Institute of Chartered Secretaries and Administrators on proxies and corporate representatives. See www.icsa.org.uk for further details of this procedure. The guidance includes a sample form of representation letter if the Chairman is being appointed as described in (i), above.

NOTICE OF MEETING

- 6 Further details of the resolutions proposed at this Annual General Meeting can be found in the Directors' Report on pages 8 to 10. The following documents will be available for inspection at the registered office of the Company during normal business hours on each business day from the date of the notice convening the Annual General Meeting up to the close of the meeting:
- (i) the Register of Interests of Directors (and their families) in the capital of the Company, and
 - (ii) copies of all contracts of service under which Directors of the Company are employed by the Company or any of its subsidiaries.
