Subject : Business Alliance to enhance the capabilities in the provision of Digital Trunked Radio System Service (DTRS) signed a contract

Attention : The President  
The Stock Exchange of Thailand

As Samart Digital Public Company Limited entered into the Business Alliance Agreement in order to enhance the capabilities in the provision of Digital Trunked Radio System Service (DTRS) with the National Telecommunication Public Company Limited. Currently, the National Telecommunication Public Company Limited signed a contract to provide radio communication system for commanding the Ministry of the Interior. The project will supply radio/communication equipment, standard communication equipment in the Interior Department and various ministries in the network, including the Public Relations Department, ISOC and the provincial public relations room.

The revenue sharing from airtime of the Company as a partner in the Business Alliance Agreement in order to enhance the capabilities in the provision of Digital Trunked Radio System Service (DTRS) with the National Telecommunication Public Company Limited is approximately Baht 1,000 million excluding VAT. The Company will receive revenue sharing from airtime on a monthly basis for a period of 38 months start in April 2022. The revenue will depend on the procurement and installation of equipment of the National Telecommunication Public Company and partners in the agreement.

In addition, the Company has sold radio communication equipment to a partner for the DTRS project of the Provincial Electricity Authority amounting to Baht 235 million excluding VAT.

Please be informed accordingly.

On behalf of Samart Digital Public Company Limited
