

EANS-Adhoc: Semperit AG Holding / Semperit Group updates its Outlook

Disclosed inside information pursuant to article 17 Market Abuse Regulation (MAR) transmitted by euro adhoc with the aim of a Europe-wide distribution. The issuer is solely responsible for the content of this announcement.

Earnings Forecast

Due to the continuous difficult situation in the Medical Sector and the cyclical decreasing demand in the Industrial Sector, especially in the Sempertrans segment, Semperit updates its outlook: The operational results of 2016 will be well below the results in 2015. This results in a decline of about 10% for the EBITDA and of about 20% for the EBIT.

The Semperit Group will continue its growth strategy consistently despite more difficult economic conditions. The focus will be on the entering into new markets in the Industrial Sector and the expansion and optimisation of existing production capacities. In the Medical Sector (Sempermed segment) the focus will be on the implementation of further production capacities in Malaysia. The profitability shall be improved by continuing process optimisations and efficiency enhancements as well as realising a cost reduction programme.
