Based on a full-year projection.

### **Group Management Report**

#### **Economic environment**

The International Monetary Fund (IMF) has made another downward adjustment for its growth forecast for 2019 published in July 2019 in comparison with the version of April 2019. Global economic growth will be 3.2% for 2019 (2018: 3.6%) instead of 3.3% forecast in April 2019. For 2019, the forecast for emerging and developing countries now stands at 4.1% (so far 4.4%), followed by the USA at 2.6% (so far 2.3%) and the euro zone at 1.3% (so far 1.3%).

Growth expectations for the euro zone therefore remain unchanged compared with the World Economic Outlook published by the IMF in April 2019. Forecasts have not been further lowered for the three major European economies Germany, France and Italy – with the exception of Germany, where growth expectations have been reduced by 0.1 percentage points.

The biggest pressures on global economic development continue to include the ongoing trade disputes between the USA and China and the risk of a disorderly Brexit as well as the slowdown in growth in Germany due to a decreased international demand.

#### Development in the raw material markets

The markets for butadiene, carbon black, wires as well as a variety of chemicals with various markets (which is why it is not explained here in detail) are very important for the rubber industry. The development of these markets in the natural rubber field is influenced, among other things, by production conditions, while the fields of synthetic rubber and carbon black are impacted by supplier behaviour and costs for basic raw materials, which are affected by the price of crude oil. Demand is partially influenced by the main buyers of rubber products, the tyre and automotive industry.

Since the end of 2018, price indices for natural rubber and natural latex showed an upward trend, which continued steadily until the middle of the first half of 2019 and then slightly decreased again. The average values of the first half of 2019 were above the average values for the first half of 2018.

The price indices for butadiene, among others a major basic raw material for the production of synthetic rubber and synthetic latex, showed a slight upward trend in 2018; there was a decline at the beginning of the fourth quarter of 2018, followed by a sideways phase. Since the middle of the second quarter of 2019, there has been a downward trend in the European market, while the indices in the Asian region have recorded a price increase. In the first half of 2019, the average prices for butadiene, which is used as a basic raw material in the Semperflex, Sempertrans and Sempermed segments, were below the average values of the previous year.

Development of raw materials used primarily in the Industrial Sector was somewhat differentiated. The filling material carbon black is important for all three segments of the Industrial Sector. The price index for this raw material showed a continuous rise from the third quarter of 2017 until the end of the third quarter of 2018, then corrected briefly down in the fourth quarter of 2018 and then started to increase again. At the beginning of the second quarter of 2019, a new downward trend started, trending upward again at the end of the second quarter of 2019. The average price indices of the first half of 2019 were above the average of the first half of 2018.

In the first half of 2019, the average prices for wire, which is primarily used in the Semperflex and Sempertrans segments, were slightly below the average values of the first half of 2018.

#### Revenue and earnings development

#### First half of 2019

In the first half of 2019, the Semperit Group recorded a decrease in revenue by 2.5% to EUR 437.3 million compared with the same period of the previous year. The Industrial Sector also recorded a decrease in revenue of 0.7%, while the Medical Sector recorded a decline of 5.9% (for details on the development of Sectors and segments, see page 8). The decrease in the Industrial Sector was mainly characterised by a slight decline in volumes. The decline in revenue in the Medical Sector, i.e. the Sempermed segment, is primarily due to a decline in volumes sold.

The distribution of revenue continued to exist in favour of the Industrial Sector. In the first half of 2019, the Industrial Sector accounted for 66% and the Medical Sector for 34% of the Semperit Group's revenue (first half of 2018: 65% to 35%).

In the first half of 2019, inventories increased by EUR 1.4 million compared with an increase of EUR 4.2 million in the first half of 2018.

Other operating income amounted to EUR 4.4 million in the first half of 2019 (EUR 2.0 million in the first half of 2018). It should be noted that in the first quarter of 2019, this included earnings of EUR 1.3 million from the sale of tangible assets from the production site in China, which was closed in 2018.

In the first half of 2019, cost materials decreased by EUR 18.7 million or 7.0% to EUR 249.9 million. The change is primarily due to a decline in volumes sold and therefore lower costs of material and purchased services, but also to partially higher raw material prices.

In the first half of 2019, personnel expenses rose to EUR 100.8 million (+2.5%) compared to the previous year (first half of 2018: EUR 98.4 million – see presentation changes in the consolidated financial statements page 23), which is, among other things, due to wage and salary increases and an increased headcount in Odry, Czech Republic, due to the expansion of the Semperflex site as well as due to tightened immigration policies and raising the minimum wage level in Malaysia.

At EUR 54.5 million, other operating expenses were below the last year's period at EUR 60.8 million. Compared with 2019, the first quarter of 2018 also included higher consulting expenses relating to Semperit's restructuring and transformation.

EBITDA (earnings before interest, tax, depreciation and amortisation) rose from EUR 32.7 million (value for the first half of 2018 adjusted for the negative one-off effect of EUR 3.9 million from the shutdown of the Sempertrans site in China) in the first half of 2018 to EUR 39.1 million in the first half of 2019. The EBITDA margin increased from 7.3% (adjusted value for the first half of 2018) to 9.0% in the first half of 2019.

Depreciation decreased to EUR 17.4 million (–10.4%), which was primarily due to the reduced depreciation basis as a result of the impairment in the Sempermed segment, which was recorded in the second quarter of 2018.

EBIT (earnings before interest and tax) was EUR 13.2 million (adjusted value for the first half of 2018) and improved to EUR 20.9 million in the first half of 2019. The EBIT margin increased from 2.9% (adjusted value for the first half of 2018) to 4.8% in the first half of 2019. The reported EBIT totalled EUR 20.9 million in the first half of 2019 after EUR 49.8 million in the first half of 2018.

| EBIT margin                                   | 4.8%    | -11.1%                | +15.9 PP     | _                        |
| Earnings after tax                            | 5.8     | -67.4                 | <del>-</del> | +73.2                    |
| Investments in tangible and intangible assets | 21.4    | 42.1                  | -49.2%       | -20.7                    |
| Employees (at balance sheet date)             | 7,147   | 6,874                 | +4.0%        | +273                     |

<sup>&</sup>lt;sup>1)</sup> Adjusted for the one-off effect from the shutdown of the Sempertrans site in China, EBITDA for the first half of 2018 amounted to EUR 32.7 million; EBIT additionally adjusted for impairments (including the Sempermed segment of EUR 55.2 million) totalled EUR 13.2 million; adjusted earnings after tax amounted to EUR –4.4 million.

The financial result totalled EUR –6.6 million in the first half of 2019 after EUR –6.6 million in the first Half of 2018. At EUR 0.4 million, financial income, which includes primarily income from bank balances, was below the previous year's value. Financial expenses (primarily interest expenses for loans and credits) amounted to EUR 4.3 million in the first half of 2019 and were therefore below the previous year's value of EUR 4.6 million.

In the first half of 2019, the item "Profit/loss attributable to redeemable non-controlling interests" at EUR –2.4 million was above the previous year's level.

Income tax expenses decreased by EUR 2.4 million to EUR 8.5 million in the first half of 2019.

Earnings after tax totalled EUR 5.8 million for the first half of 2019 compared with EUR –67.4 million for the same period of 2018. Earnings per share amounted to EUR –0.28 in the first half of 2019 after EUR –3.33 in the first half of 2018.

#### Second quarter of 2019

In a comparison of the second quarters of 2019 and 2018, the Semperit Group recorded a decrease in revenue of 1.4% to EUR 224.4 million. Decreases in revenue were recorded in the Industrial Sector (–1.7%) and in the Medical Sector (–0.9%). In the Industrial Sector, the Semperflex and Semperform segments showed declines in revenue in a quarter-on-quarter comparison, while Sempertrans recorded an increase in revenue.

Other operating income increased from EUR 1.1 million to EUR 1.5 million. Cost of material and purchased services as well as other operating expenses decreased. Personnel expenses rose from EUR 50.6 million to EUR 50.9 million, a plus of 0,6%.

EBITDA (earnings before interest, tax, depreciation and amortisation) rose from EUR 17.0 million (adjusted value for the second quarter of 2018) to EUR 22.7 million in the second quarter of 2019; the EBITDA margin increased from 7.5% (adjusted value for the second quarter of 2018) to 10.1% in the second quarter of 2019.

Depreciation decreased. There were no impairments in the first half of 2019.

EBIT (earnings before interest and tax) recovered from EUR 7.2 million (adjusted value for the second quarter of 2018) to EUR 13.1 million, while the EBIT margin rose from 3.2% (adjusted value for the second quarter of 2018) to 5.8% in the second quarter of 2019.

Earnings after tax totalled EUR 2.6 million in the second quarter of 2019 after EUR –64.8 million in the previous year's period. Earnings per share were EUR 0.13 in the second quarter of 2019 after EUR –3.19 in the second quarter of 2018.

| Mitarbeiter (Stichtag)                                       | 7.147   | 6.874   | +4,0%       | +273                       |

<sup>&</sup>lt;sup>1)</sup> Adjusted for the one-off effect from the shutdown of the Sempertrans site in China, EBITDA for the second quarter of 2018 amounted to EUR 17.0 million; EBIT additionally adjusted for impairments (including the Sempermed segment of EUR 55.2 million) totalled EUR 7.2 million; adjusted earnings after tax amounted to EUR –1.7 million.

#### Dividend and treasury shares

Semperit's dividend policy is, in principle: The pay-out ratio to shareholders is around 50% of earnings after tax – assuming continued successful performance and that no unusual circumstances occur. Due to negative earnings after tax in 2018 and the continued restructuring and transformation process, no dividend was proposed at the Annual General Meeting on 8 May 2019. Semperit AG Holding does not own treasury shares as of 30 June 2019.

#### Assets and financial position

Compared with the balance as of 31 December 2018, the balance sheet total as of 30 June 2019 rose by 6.0% to EUR 815.1 million. On the asset side, the main reasons for this rise were increases in tangible assets, the rise of receivables and of cash and cash equivalents.

On the liabilities side, basically three items increased: The other current and non-current financial liabilities increased due to the recognition of leasing liabilities as a result of the first-time application of IFRS 16. Equity rose due to an increase in revenue reserves and a positive change in currency translation reserves.

Trade working capital (inventories plus trade receivables minus trade payables) decreased from EUR 184.3 million to EUR 177.9 million since the end of 2018 and therefore constituted 20.5% of revenue (year-end 2018: 21.0%). The change is primarily attributable to higher trade payables (+22.9%), trade receivables (+12.3%) and inventories (-2.2%).

Cash and cash equivalents amounted to EUR 154.9 million at the end of June 2019 and were therefore above the level of the end of 2018 (EUR 121.5 million). The reason for this was, among other things, an improved cash management and lower investments in tangible and intangible assets.

As of 30 June 2019, the Semperit Group's equity (without non-controlling interests) stood at EUR 337.7 million, EUR 8.2 million higher than at the end of 2018 (EUR 329.5 million).

As of 30 June 2019, the reported equity ratio was 41.4% after 42.9% at the end of 2018.

Return on equity was 3.4% (first half of 2018: –38.8%) for the first half of 2019, which is calculated based on earnings after tax of EUR 5.8 million (first half of 2018: EUR –67.4 million) in relation to the equity of EUR 337.7 million (first half of 2018: EUR 329.5 million) attributable to the shareholders of Semperit AG Holding.

Debt is higher to EUR 475.9 million compared with EUR 438.4 million at the end of 2018 – an increase of EUR 37.5 million, primarily from the recognition of leasing liabilities as a result of the first-time application of IFRS 16 and the increase in trade payables.

Financial liabilities (including primarily liabilities from the Schuldschein loan and to banks) stood at EUR 233.8 million at 30 June 2019 after EUR 234.2 million at the end of 2018. Taking into consideration cash and cash equivalents of EUR 154.9 million (year-end 2018: EUR 121.5 million), this resulted in an overall net debt of EUR 78.8 million as of 30 June 2019 (net debt at the end of 2018: EUR 112.7 million). The net debt/EBITDA ratio (net debt in relation to EBITDA) as of 30 June 2019 is therefore 1.39 (year-end 2018: 2.43).

The liabilities from redeemable non-controlling interests increased to EUR 16.0 million (2018: EUR 13.4 million). Provisions including social capital amounted to EUR 67.4 million and were therefore higher than EUR 69.3 million at the end of 2018. Trades payable rose to EUR 83.3 million (year-end 2018: EUR 67.7 million) and were considered in trade working capital. Other liabilities (other liabilities, deferred taxes, current income taxes and other financial liabilities) increased to EUR 75.4 million after EUR 53.7 million.

#### Cash flow

The gross cash flow in the first half of 2019 amounted to EUR 31.5 million after EUR 22.4 million in the first half of 2018. The increase was primarily due to the higher earnings before tax in the first quarter of 2019.

The cash flow from operating activities increased to EUR 59.4 million in the first half of 2019 (first half of 2018: EUR –1.5 million), which was due to the changes in trade receivables, trade payables as well as other liabilities and current provisions as well as inventories, among other things.

The cash flow from investing activities was EUR -19.6 million in the first half of 2019 and therefore lower than in the previous year (EUR -41.7 million), which was primarily due to reduced investment activities.

At EUR –6.9 million, the cash flow from financing activities in the first half of 2019 was below the value of the first half of 2018 at EUR 78.9 million. The amount in the first half of 2018 was overall positively influenced, above all by the incoming payment from the hybrid capital, which was up against repayments of liabilities to banks.

#### **Investments**

At EUR 21.4 million, cash-relevant investments in tangible and intangible assets were lower than in the previous year (EUR 42.1 million). Investments focused on expansion and improvement at the plants in Malaysia (EUR 7.4 million), the Czech Republic (EUR 4.9 million) and Poland (EUR 4.2 million). These were predominantly expansion investments.

#### Related-party transactions with companies and individuals

With regard to the related-party transactions with companies and individuals please refer to the interim consolidated financial statements.

#### Performance of sectors and segments

#### **Industrial Sector**

The Industrial Sector comprises the segments Semperflex, Sempertrans and Semperform and developed in a differentiated way: Semperform increased their revenues, while Semperflex and Sempertrans recorded slight declines. In total, the sector's revenue decreased by 0.7% from EUR 291.4 million to EUR 289.5 million in the first half of 2019.

Due to the positive development in the segments, overall profitability in the Industrial Sector increased. EBITDA rose by 39.0% to EUR 52.7 million and EBIT by 74.7% to EUR 39.5 million. The EBITDA margin improved from 13.0% to 18.2% and the EBIT margin from 7.8% to 13.6%. Primarily the initiatives from the restructuring and transformation programme contributed to this.

In terms of the absolute EBITDA contribution, the Semperflex segment contributed by far the largest share, followed by Semperform and Sempertrans.

| Earnings after tax                            | 21.4    | -36.1%  | 33.5    | 3.4     | <b>–</b> 78,1% | 15.5    | 67.0  |
| Investments in tangible and intangible assets | 3,691   | -1.5%   | 3,745   | 3,691   | -1.5%          | 3,745   | 3,654 |

#### Semperflex segment

In the first half of 2019, revenue in the Semperflex segment decreased by –0.6% compared with the previous year. The EBITDA margin for the first half of 2019 was 23.5% (first half of 2018: 23.6%), while the EBIT margin was 18.7% (first half of 2018: 19.3%).

The first half of the year was characterised by lower market demand due to storage within the supply chain and uncertainty relating to future market development. The order situation dropped compared with the previous period. This is also reflected in a decline in incoming orders.

In the first half of 2019, revenue and profitability were at a similar level as in the first half of 2018.

#### Sempertrans segment

In the first half of 2019, revenue declined by 4.8% compared with the previous year due to decreasing volumes. A significant improvement of profitability was recorded, primarily due to an improved order quality.

Due to the restructuring and transformation programme, the successful turnaround of the Sempertrans segment continues. The expansion project at the site in Belchatów, Poland, was successfully completed in June 2019. With 5 mixing lines and a capacity of 75,000 tonnes per year, the Polish site in Belchatów is the largest mixing site within the Semperit Group.

Profitability continued to increase: in the first half of 2019, the EBITDA margin amounted to 11.9% (adjusted value of 1.8% in the first half of 2018), while the EBIT margin was 8.2% in the first half of 2019 (adjusted value of -0.7% in the first half of 2018). The reported figures for the first half of 2019

included a profit of EUR 1.3 million from the sale of tangible assets from the production site in China that was closed in 2018.

#### Semperform segment

The Semperform segment recorded a revenue increase of 2.2% - demand for infrastructure was good, while demand in the construction industry continued to slow down, with different effects on sales in the individual business units.

In a comparison of the first half of 2019 with the previous year, an increase in revenue (+2.2%), EBITDA (+36.1%) and EBIT (+50.4%) was recorded. Profitability also rose: the EBITDA margin was 16.0% (first half of 2018: 12.1%), while the EBIT margin was 11.3% (first half of 2018: 7.7%). Good operational implementation of the restructuring and transformation process provided encouraging profitability results. The first half of 2019 brought a good order situation and capacity utilisation.

#### **Medical Sector: Sempermed segment**

In the Sempermed segment, revenue decreased by 5.9% to EUR 147.8 million in the first half of 2019 compared with the previous year. Coping with operational problems led to visible improvements from the perspective of the isolated second quarter of 2019.

Sales of examination and protective gloves, which are primarily sold in North America and Europe, were 10.6% below the previous year's period. Sales of surgical gloves, which are produced in the core production facility in Wimpassing, Austria, were 0.4% below the previous year's level.

In the first half of 2019, EBITDA was EUR -0.3 million after EUR 0.1 million in the first half of 2018. EBIT amounted to EUR -4.2 million after EUR -7.3 million (adjusted value) in the first half of 2018. On the EBITDA level, Sempermed is returning to profitability (positive EBITDA since March 2019).

<sup>&</sup>lt;sup>1)</sup> EBIT adjusted for the negative effects of the impairment of EUR 55.2 million for the first half of 2018 amounted to EUR -7.3 million.
<sup>2)</sup> EBIT adjusted for the negative effects of the impairment of EUR 55.2 million for the second quarter of 2018 amounted to EUR -5.1 million.

#### **Employees**

As of 30 June 2019, the number of employees was 7,147, which is 4.0% above the level of 30 June 2018. The employee headcount decreased in all segments except Sempermed. The analysis by segments shows that around 45% of all employees work in the Sempermed segment, while around 25% work in the Semperflex segment and less than 15% in the Sempertrans and Semperform segments respectively.

#### **Supervisory and Management Board matters**

The Supervisory Board mandates of Christoph Kollatz and Felix Fremerey expired on 8 May 2019 (date of Annual General Meeting), while Christoph Trentini resigned his mandate on the same day at his own request. At the Annual General Meeting on 8 May 2019, Peter Edelmann, Birgit Noggler and Patrick Prügger were newly elected to the Supervisory Board. At the constituent meeting of the Supervisory Board, which took place following the Annual General Meeting, Peter Edelmann was elected as the successor of Christoph Kollatz as Chairman of the Supervisory Board. Stefan Fida remains Deputy Chairman of the Supervisory Board. Birgit Noggler takes over the chairmanship of the Audit Committee of Semperit AG Holding.

The Supervisory Board of Semperit AG Holding has extended the Management Board mandate of CFO Frank Gumbinger until 30 June 2022 and the Management Board mandate of Felix Fremerey, Management Board member, until 30 November 2020.

#### Outlook

The Management Board of Semperit will systematically continue the chosen transformation process. Continuous and potentially new measures to increase profitability remain at the top of the Management Board's agenda.

Since Semperit currently has sufficient capacities in production and in Mixing, capital expenditures (CAPEX, including maintenance) of only around EUR 40 million are planned for 2019. This should also bring us closer to the goal of a positive free cash flow in 2019.

Increased financial discipline is enforced through step-by-step cost optimisation and reduced net debt, with our focus on value management and optimisation of the working capital and the positive free cash flow representing a sustainable key performance indicator in our financial planning.

Since the beginning of the restructuring and transformation process, the Management Board has identified significant potentials for earnings improvement and initiated appropriate implementation measures. The conclusion of the transformation of the Semperit Group is scheduled for the end of 2020. From this point of time, the Semperit Group aims to achieve an EBITDA margin of around 10% (run rate 2021) as central key performance indicator.

#### Note

This outlook is based on the assessments of the Management Board as of 13 August 2019 and does not take into account the effects of possible acquisitions, divestments or other unforeseeable structural or economic changes during the further course of 2019. These assessments are subject to both known and unknown risks and uncertainties, which may result in actual events and outcomes differing from the statements made here.

Vienna, 13 August 2019

The Management Board

Martin Füllenbach

## Notes to the half-year financial statements

#### 1. General

#### 1.1. Preparation and presentation of the consolidated half-year financial statements

These consolidated half-year financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as well as IAS 34 for interim financial statements.

For more information on accounting and valuation methods of the Semperit Group, please see the consolidated financial statements at 31 December 2018, which in this regard form the basis for these consolidated half-year financial statements.

The reporting currency is the euro, with figures rounded to the nearest thousand, unless expressly stated otherwise. Rounding differences in the totalling of rounded amounts and percentages may arise from the automatic processing of data.

These consolidated half-year financial statements of the Semperit Group at 30 June 2019 have not been fully audited or reviewed by the Group's auditor.

The Semperit Group prepared these consolidated half-year financial statements using the same accounting policies – with the exception of the IASB's new accounting regulations as described below – that it applied in its consolidated financial statements at 31 December 2018.

#### 1.2. Standards and interpretations to be adopted for the first time

The following amended standards and interpretations were applicable for the first time in the first half of 2019.

| First-time adoption of standards and interpretations       |   | Obligation to apply<br>for the Semperit<br>Group  | Significant effects on the Semperit Group:  |
|--|---|---|---|

#### IFRS 16 Leasing

The new leasing standard IFRS 16 replaces the contents of IAS 17 and its related interpretations and regulates the principles for the recognition, measurement and disclosure as well as tax liabilities relating leasing contacts. The new standard no longer distinguishes on the lessee side between operating and finance leases. With a few exceptions, all leases and the rights and obligations associated with them will have to be recognised in the lessee's balance sheet. From the lessor's perspective, the accounting standards in IFRS 16 remain widely unchanged when comparing them to IAS 17.

At the time of the deployment of the leasing object the Semperit Group shows a leasing liability as in its function as lessee and an asset arising from the right of use. The leasing liability is interest-bearing and is repaid on an annuity basis by reoccurring payments; the right of use asset is depreciated over the shorter time of useful live and contract term. This leads to an increase in assets and liabilities, which also results in higher depreciations (H1 2019: EUR 1,111 thousand) and interest expenses (H1 2019: EUR 123 thousand); against it the rental and leasing expenses are reduced (H1 2019: EUR 1,179 thousand). Following EBITDA and EBIT are increased from the first-time application

of IFRS 16. The operating cashflow is also improving, as rental and leasing payments are transformed to interest and settlement payments and these are allocated to the cashflow from financing activities.

For the recognizable leasing contracts, the Semperit Group capitalizes the right of use as part of the tangible assets and discloses the leasing liabilities as other financial liabilities. The Semperit Group is acting primarily as lessee of right of use assets on land and buildings, office equipment and vehicles.

The Semperit Group chose the modified retrospective approach for the first-time application as of 1 January 2019; which led to not amending the prior year figures. Furthermore, the Semperit Group applied IFRS 16 only for those contracts, that were previously classified under IAS 17 or classified under IFRIC 4. Contracts, that were not identified as leasing contracts before, where therefore not remeasured during the first-time application of IFRS 16 as the option that is foreseen in IFRS 16 was made use of.

The Semperit Group exercises the right foreseen in IFRS 16 to not apply the lease-accounting rules on contracts with a short leasing period (less than 12 months), on leasing objects with a low value (below the value of approximately EUR 5 thousand) and on intangible assets. The Semperit Group therefore does not disclose right of use assets and leasing liabilities for those type of contracts; leasing payments arising from these contracts are distributed linearly over the duration of the contract as rental expenses.

The right to account leasing contracts, that have a duration of less than 12 months from the first-time application, as short-term contracts, is also exercised. For all other operating leasing contracts, where the Semperit Group acts as the lessee the present value of the future leasing payments is accounted as a leasing liability. Right of use assets are shown as part of the fixed assets with the amount of the leasing liability and are adjusted by prepaid or deferred leasing payments. Initial direct costs were not included in the measurement of the right of use asset at the time of the fist-time application.

For leasing contracts that were recognised for the first time as of 1 January 2019, a weighted average marginal borrowing rate of 2.64% was applied.

The effects on the consolidated balance sheet as of 1 January 2019 arising from the first-time application of IFRS 16 are the following:

|            | IFRS 16                           |   |
|------------|-----------------------------------|---|

| Effect of discounting at the marginal borrowing rates  -1,2  Liabilities from the first-time adoption IFRS 16  9,30  Liabilities from finance leases as of 31.12.2018  | Commitments arising from low-value assets                          | <b>–</b> 57 |
| Liabilities from the first-time adoption IFRS 16  9,30  Liabilities from finance leases as of 31.12.2018   | Total commitments for the determination of the lease liability     | 10,545      |
| Liabilities from finance leases as of 31.12.2018   | Effect of discounting at the marginal borrowing rates              | -1,241      |
| Liabilities from finance leases as of 31.12.2018   | Liabilities from the first-time adoption IFRS 16                   |             |
|  |  | 9,303       |
| Liabilities from leases as of 1.1.2019 9,3   | Liabilities from finance leases as of 31.12.2018                   | 70          |
|  | Liabilities from leases as of 1.1.2019                             | 9,374       |

As of 30 June 2019, right of use assets are disclosed in the fixed assets with EUR 10,376 thousand as well as leasing liabilities in the short- and long-term financial liabilities amounting to EUR 10,415 thousand.

#### 1.3. Amentdments to comparative information

## Amendments to how information is presented in the consolidated income statement During the revision of the group chart of accounts, the disclosure of some expense types was harmonised from the first guarter 2019 onwards.

Since the financial year 2019 expenses arising from the use of external personnel, which are seen as employees of the entity from an economic standpoint, are shown in the personnel expenses. Further, expenses arising from the use of production-related spare parts are to be found in the material expenses and expenses relating to maintenance services which are conducted externally are disclosed in the expenses for purchased services.

The comparative figures for the first half of 2018 were therefore adjusted and are shown in the following table:

| in EUR thousand   | H1 2018<br>as reported | Personnel<br>expenses for<br>external<br>workers | Expenses for spare parts | Production-<br>related<br>maintenance<br>costs | H1 2018<br>adjusted |
|---|------------------------|--|--------------------------|--|---------------------|
| Operating revenue   | 454,513                | 0  | 0                        | 0  | 454,513             |
| Other operating income  | 2,006                  | _  | -                        | _  | 2,006               |
| Cost of material and purchased services                               | -262,130               | 1,469  | -1,910                   | -6,092   | -268,663            |
| Personnel expenses  | -91,584                | -6,777   | _                        | -  | -98,361             |
| Other operating expenses  | -74,196                | 5,308  | 1,910                    | 6,092  | -60,886             |
| Share of profits from associated companies                            | 276                    | -  | -                        | _  | 276                 |
| Earnings before interest, tax, depreciation and amortisation (EBITDA) | 28,886                 | 0  | 0                        | 0  | 28,886              |

#### Amendments to comparative information in the financial result

Following the Semperit Group's modification of its consolidated financial statements in 2018, a more suitable type of disclosure was chosen for the financial result. Therefore, the comparative information for the first half year of 2018 was amended.

The effects resulting from the change of disclosure are summarized in the following table:

| in EUR thousand   | H1 2018<br>as reported | Net foreign<br>exchange<br>result | Other adjustments | H1 2018<br>adjusted |
|---|------------------------|-----------------------------------|-------------------|---------------------|
| Finance income (formerly: financial income)                                       | 18,663                 | -18,338                           | _                 | 325                 |
| Finance expenses (formerly: financial expenses)                                   | -23,770                | 18,374                            | 841               | -4,555              |
| Profit / loss attributable to redeemable non-<br>controlling interests            | -1,518                 | _                                 | -                 | -1,518              |
| Other financial result  | -                      | -36                               | -841              | -877                |
| thereof net foreign exchange result   | _                      | -415                              | -                 | -415                |
| thereof net result from the valuation categories FVPL and FV – Hedging Instrument | _                      | 379                               | 13                | 392                 |
| thereof other   | -                      | -                                 | -854              | -854                |
| Financial result  | -6,624                 | 0                                 | 0                 | -6,624              |

#### Amendment to comparative information in the consolidated cashflow statement

Following the Semperit Group's modification of its consolidated financial statements in 2018 a method was chosen for presenting the consolidated cashflow statement which enables a more consistent deduction of the free cashflow; therefore, the comparative figures were adjusted.

Due to system improvements the valuation effects of trade working capital items are presented as other non-cash expenses or income. Further the changes of net current assets arising from currency translation adjustments were now allocated to the individual items. For the comparative period, this allocation was not possible due to data unavailability.

| Interest and related income   | 428     | 325     |
|   | 428     | 326     |
| Finance expenses  |         |         |
| Interest expense  | -4,333  | -4,555  |
|   | -4,333  | -4,555  |
| Other financial result  |         |         |
| Net foreign exchange result   | -869    | -415    |
| Net result from the valuation categories FVPL and FV – Hedging Instrument |         |         |
|   | 273     | 392     |
| Other   | 303     | -854    |
|   | -293    | -877    |
| Profit / loss attributable to redeemable non-controlling interests        | -2,368  | -1,518  |
| Financial result  | -6,566  | -6,624  |

#### 3. Non-current assets

#### 3.1. Tangible and intangible assets

In the first half of 2019 the cash-relevant investments in tangible and intangible assets amounted to EUR 21,408 thousand (H1 2018: EUR 42,125 thousand). On the other hand, in the first half of 2019 tangible assets with a carrying value of EUR 121 thousand (H1 2018: EUR 131 thousand) were sold. These sales lead to a cash inflow of EUR 1,361 thousand in the first half 2019 (H1 2018: EUR 13 thousand).

In the first half of 2019 tangible assets were classified as assets available for sale (see 3.4.).

#### 3.2.Investments in associated companies

As of 30 June 2019 the carrying amount of the shares of Synergy Health Allershausen amounted to EUR 2,831 thousand (30 June 2018: EUR 2,653 thousand).

#### 3.3.Disclosures on financial instruments - non-current and current assets

The following table shows the carrying amounts of the individual financial assets classified in accordance with the valuation categories under IFRS 9.

#### Asset

| in EUR thousand                                  | Valuation category IFRS 91) | Level | Carrying<br>amount<br>30.06.2019 | Carrying<br>amount<br>31.12.2018 |

| Cash on hand, cheques and cash deposits in banks |                             | _     | 154,950                          | 121,549                          |

<sup>&</sup>lt;sup>1)</sup>FVPL (Fair Value through Profit and Loss); FVOCI (Fair Value through OCI); AC (At cost)

#### Fair value

The three levels in the fair value hierarchy are defined as follows:

- Level 1: measurement based on quoted prices on an active market for a specific financial instrument
- Level 2: measurement based on quoted market prices for similar instruments or on the basis of valuation models based exclusively on inputs that are observable on the market
- Level 3: measurement based on models with significant inputs that are not observable on the market

#### Assets and liabilities not measured at fair value

The financial instruments measured at fair value are securities and derivative financial instruments.

| in EUR thousand                  | Valuation category IFRS 91) | Fair Value<br>30.06.2019 | Fair Value<br>31.12.2018 | Level |
|----------------------------------|-----------------------------|--------------------------|--------------------------|-------|
| Assets                           |                             |                          |                          |       |
| Securities                       | FVPL                        | 6,717                    | 6,188                    | 1     |
| Derivative financial instruments | FVPL                        | 4,674                    | 4,211                    | 2     |
| Derivative financial instruments | FV – Hedging Instrument     | 191                      | 263                      | 2     |

<sup>&</sup>lt;sup>1)</sup>FVPL (Fair Value through Profit and Loss); FVOCI (Fair Value through OCI); AC (At cost)

The derivative financial instruments (freestanding financial instruments) are foreign exchange forward contracts and a cross currency swap. The derivative financial instruments held for hedging are cross currency swaps, which in turn are backed by interest rate floors.

The fair values of the foreign exchange forward contracts and cross currency swaps are determined using accepted actuarial valuation models. Future payment flows are simulated using the yield curves published at the reporting date. In addition, the carrying amount is adjusted to take into account the credit risk of the respective counterparty. When doing so, positive exposures are measured considering the default risk of the counterparty.

#### 3.4. Assets held for sale

In 2018 a production facility for conveyor belts of the Semperit Group was closed in Taierzhuang (China). The liquidation of the company, Sempertrans Best (ShanDong) Belting Co. Ltd., will be executed by a liquidation committee built up of representatives of Semperit and of the 16.1% minority shareholder, Shandong Wang Chao Coal & Electricity Group. Ltd; the government of the district will take care of the lawfull proceedings. In the first quarter of 2019 machines and technical equipment could be sold successfully (see 2.3). After the sale, the properties and buildings of the former production facility were in an usual ready to sale condition. As a consequence, as of 30 June 2019 these assets were classified as assets available for sale. The impairment test related to the reclassification resulted in an impairment in the amount of EUR 855 thousand which was reported in the EBIT of the segment Sempertrans. Due to the flagging economic development the sales process will be challenging. Nevertheless, the management of the Semperit Group is optimistic to realize the sale within the next 12 months.

#### 4. Net debt

#### 4.1. Financial liabilities

| in EUR thousand                | 30.06.2019 | Thereof non-current | Thereof current | 31.12.2018 | Thereof non-current | Thereof current |
|--------------------------------|------------|---------------------|-----------------|------------|---------------------|-----------------|
| Corporate Schuldschein<br>Ioan | 226,091    | 209,960             | 16,131          | 226,492    | 212,106             | 14,386          |
| Liabilities to banks           | 7,679      | 1,135               | 6,543           | 7,742      | 1,195               | 6,547           |
| Total                          | 233,769    | 211,095             | 22,674          | 234,233    | 213,301             | 20,933          |

In the first half of 2019 a rebuy of the corporate Schuldschein loan with a nominal value of EUR 3,000 thousand took place for EUR 2,910 thousand.

#### 4.2.Disclosure on financial instruments - liabilities

 $<sup>^{\</sup>rm 1)}\,{\rm FVPL}$  (Fair Value through Profit and Loss); FVOCI (Fair Value through OCI)

#### Liabilities measured at fair value

The financial instruments measured at fair value are derivative financial instruments.

| in EUR thousand                  | Valuation category IFRS 91) | Fair Value<br>30.06.2019 | Fair Value<br>31.12.2018 | Level |

| Derivative financial liabilities | FVPL                        | 51                       | 241                      | 2     |
| Derivative financial liabilities | FV – Hedging Instrument     | 862                      | 1,486                    | 2     |

<sup>1)</sup> FVPL (Fair Value through Profit and Loss); FVOCI (Fair Value through OCI)

The financial instruments measured at fair value are derivative financial instruments. The derivative financial instruments (freestanding financial instruments) comprise an interest rate floor. The derivative financial instruments held for hedging are cross currency swaps, which in turn are backed by interest rate floors.

The fair values of the cross currency swaps and the interest rate floor are determined using accepted actuarial valuation models. Future payment flows are simulated using the yield curves published at the reporting date and negative exposures are measured considering the Group's own default risk.

#### Liabilities not measured at fair value

The fair values correspond to the carrying amounts for all financial assets and liabilities, with the exception of those stated below and the liabilities from redeemable non-controlling interests. Actuarial valuation methods are used to determine the fair value of financial instruments for which no active market is available. The parameters relevant to valuation for determining fair value are based in part on forward-looking assumptions.

| in EUR thousand             | Valuation category<br>IFRS 9 <sup>1)</sup> | Fair Value<br>30.06.2019 | Fair Value<br>31.12.2018 | Level |
|-----------------------------|--|--------------------------|--------------------------|-------|
| Liabilities                 |  |                          |                          |       |
| Corporate Schuldschein Ioan | AC   | 233,584                  | 229,877                  | 3     |

<sup>1)</sup> AC (At cost)

The fair value of the corporate *Schuldschein* loan was determined by discounting the contractual payment streams with current interest rates. The comparable interest rates at the reporting date were derived from capital market yields with matching maturities and then adjusted for current risk and liquidity costs that are observable on the market. These comparable interest rates were derived based on management's current assessment of the rating of the Semperit Group.

For information on the valuation of liabilities from redeemable non-controlling interests, please refer to the explanations in the consolidated financial statements at 31 December 2018.

#### 5. Equity

#### 5.1.Dividends

For the year 2018 no dividend payment was made in the first half of 2019. In 2018 also no dividend payment was made.

#### 5.2. Non-controlling interests

Further stakes in Latexx Partners Berhad (0.01%, H1 2018: 0.004%) were acquired during the first half of 2019 in the amount of EUR 2 thousand (H1 2018: EUR 5 thousand). As of 30 June 2019 Semperit holds 98.86% of the shares after 98.85% as of 31 December 2018.

#### 6. Other

#### 6.1. Related-party transactions with companies and individuals

Outstanding balances and transactions between Semperit AG Holding and its subsidiaries were eliminated in the course of consolidation and are not further discussed here.

B & C Semperit Holding GmbH is the direct majority shareholder of Semperit AG Holding, and the private foundation B & C Privatstiftung is the dominant legal entity. B & C Holding Österreich

GmbH is the indirect majority shareholder that draws up and publishes consolidated financial statements which include the Semperit Group. According to IAS 24, B & C Privatstiftung and all its subsidiaries, joint ventures and associates are related parties of the Semperit Group.

Related parties of the Semperit Group include the members of the Management and Supervisory Boards of Semperit AG Holding, the managing directors and Supervisory Board members of all companies which directly or indirectly hold a majority stake in Semperit AG Holding, and finally the members of the Management Board of B & C Privatstiftung and the close family members of these Management and Supervisory Board members and managing directors

Business relations with related companies in the first half of 2019 are as follows:

The Group recorded expenses amounting to EUR 256 thousand with unit-it GmbH in the first half of 2019 (H1 2018: EUR 346 thousand). These expenses relate to the maintenance of SAP licences and were conducted at arm's length conditions. There are no liabilities at 30 June 2018 (31 December 2018: EUR 0 thousand) towards unit-it GmbH.

Expenses amounting to EUR 44 thousand were recorded with Grohs Hofer Rechtsanwälte GmbH & Co KG in the first half of 2019 (H1 2018: EUR 17 thousand). These expenses relate to consulting services and were conducted at arm's length conditions. There are no liabilities at 30 June 2019 (31 December 2018: EUR 3 thousand) towards Grohs Hofer Rechtsanwälte GmbH & Co KG.

Expenses amounting to EUR 35 thousand were recorded with B & C Industrieholding GmbH in the first half of 2019 (H1 2018: EUR 29 thousand). These expenses relate to management and other services, and internal charging, and were conducted at arm's length conditions. There are no liabilities at 30 June 2019 (31 December 2018: EUR 39 thousand) towards B & C Industrieholding GmbH.

Expenses amounting to EUR 176 thousand were recorded with B & C Holding GmbH in the first half of 2019 (H1 2018: EUR 707 thousand). These expenses relate to the commitment fee for the hybrid capital line and were conducted at arm's length conditions. The group raised EUR 130 million in hybrid capital from B & C Holding GmbH in March 2018 (see 5.2). There are liabilities amounting to EUR 88 thousand at the reporting date of 30 June 2019 (31 December 2018: EUR 0 thousand) towards B & C Holding GmbH. As of 30 June 2018 the accrued and not paid interest coming from the hybrid capital amounted to EUR 8,778 thousand.

Transactions with the associate Synergy Health Allershausen GmbH mean that the following assets and liabilities existed at 30 June 2019 and 31 December 2018 and/or the following income and expenses were received and incurred in the first halves of 2019 and 2018:

| in EUR thousand          | H1 2019               | H1 2018               |
|--------------------------|-----------------------|-----------------------|
| Other operating expenses | 48                    | 70                    |
| Financial income         | 3                     | 3                     |
|                          |                       |                       |
|                          |                       |                       |
|                          | 30.06.2019            | 30.06.2018            |
| Other financial assets   | <b>30.06.2019</b> 563 | <b>30.06.2018</b> 563 |

The remaining business relationships with other related parties are, where applicable, insignificant and are conducted on normal business terms and conditions.

#### 6.2. Other commitments and risks

#### Legal disputes

The other provisions include a provision for transaction taxes in Brazil in respect of the assessment years 2008-2010 in the amount of EUR 7,453 thousand (31 December 2018: EUR 6,768 thousand). The duty (PIS/COFINS) is levied on the import and resale of goods in Brazil.

With regard to the import PIS/COFINS, there are indications in the lengthy administrative instances that the decision may ultimately be positive. However, until a final decision is reached, due to the legal uncertainties management continues to assume that the levy will be due until further notice. For the resale PIS/COFINS, a deposit was made in the financial year 2017 after unsuccessful appeals in the administrative proceedings for the further handling of the case in the courts. The provision in the amount of EUR 3,427 thousand is accompanied by a corresponding demand from any reimbursement claims. Furthermore, provisions were formed for expected litigation costs in connection with the tax proceedings in Brazil in the amount of EUR 1,205 thousand (31 December 2018: 1,250 thousand). For the assessment years 2011 and 2012, management is assuming that the period of limitation has expired.

#### 6.3. Events after the repoting date

On the 12 February 2019 a fire in the mixing department of Sempertrans India Pte. Ltd. destroyed production facilities as well as inventories which were stored there. The reimbursement from the property damage and business interruption insurance presented a contingent asset as of 30 June 2019. The approval of the insured damage by the insurance company happened during the time of the preparation of the financial statements.
