APC Group, Inc. and its subsidiaries (the Company) ended the second quarter of 2019 with total net loss of P2.0 million, 47% lower than the net loss in the same period in 2018. This is attributable to the increase in total income and decrease in general and administrative expenses in 2019.

The Company earned a total income of P2.8 million as of June 30, 2019 which is 45% higher than in 2018. This movement was due to the higher interest income from the money market placements and higher dividend income received from the equity investments of the Company.

As of June 30, 2019, the general and administrative expenses of the Company amounted to P4.8 million, 16% lower than P 5.7 million in the comparable period in 2018. This is primarily due to the one-time payment made for the documentary stamp tax for the additional shares issued by Aragorn Power and Energy Corporation (APEC), a subsidiary, in 2018.

The total comprehensive loss as of June 30, 2019 totaled to P2.0 million which is 71% lower compared to P6.8 million as of June 30, 2018. There was no unrealized mark-to-market gain/(loss) in 2019 as there is no movement in the market value of the financial assets at fair value through other comprehensive income (FVOCI) from December 31, 2018 to June 30, 2019.

As of June 30, 2019, except for what has been noted in the preceding, there were no material events or uncertainties known to management that had a material impact on past performance, or that would have a material impact on the future operations, in respect of the following:

- Known trends, demands, commitments, events or uncertainties that would have a material impact on the Company;
- Material commitments for capital expenditures that are reasonably expected to have a material impact on the Company's short-term or long-term liquidity;
- Known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations;
- Significant elements of income or loss that did not arise from the Company's continuing operations;
- Seasonal aspects that had a material impact on the Company's results of operations; and
- Material changes in the financial statements of the Company for the periods ended June 30, 2019 and June 30, 2018 except those mentioned above.

As of June 30, 2019, consolidated assets of the Company amounted to P277.4 million, P2.5 million lower compared to the December 31, 2018 balance of P279.9 million.

Cash and cash equivalents decreased by 3% primarily due to the payment of accrued and other liabilities and expenses during the period ended.

The Company's consolidated liabilities amounted to P111.3 million. The minimal decrease pertains to the payment of the accrued and other payables.

Total equity as of June 30, 2019 and December 31, 2018 amounted to P166.1 million and P168.1 million, respectively. The decline, amounting to P2.0 million, is attributable to the net loss incurred during the period.

There were no off-balance sheet transactions.

KEY PERFORMANCE INDICATORS

Management uses the following key performance indicators to evaluate the performance of the Company and its subsidiaries. Except for Net Income, these key performance indicators are not measurements in accordance with Philippine Financial Reporting Standards (PFRS) and should not be considered as an alternative to net income or any other measure of performance which are in accordance with PFRS.

1. **Return on Assets Ratio (ROA).** Return on Assets is an indicator of how profitable a company is relative to its total assets. ROA gives an idea as to how efficient management is at using its assets to generate earnings and is calculated by dividing the Company's annual earnings by its total assets.
2. **Return on Equity Ratio (ROE).** Return on Equity measures how much profit is generated with the money shareholders have invested in the Company. It is expressed as a percentage and calculated by dividing net income by total Stockholders' Equity.
3. **Current Ratio.** Current ratio is computed by dividing current assets by current liabilities. This indicates the liquidity of the Company in the short term and measures the peso amount of current asset available to cover a peso amount of current liability.
4. **Debt-to-Equity Ratio (DER).** DER gives an indication of the Company's leverage position and is computed by dividing total liabilities with total stockholders' equity.
5. **Asset-to-Equity Ratio (AER).** Asset-to-Equity Ratio is computed using total assets divided by the total stockholders' equity. This ratio shows the relationship of the total assets of the firm owned by shareholders and an indicator of the leverage used to finance the Company.

The table below shows the comparative figures of the key performance indicators for the period in review.

2. RISK EXPOSURES

Financial Risk Management

The Company’s principal financial instruments comprise advances from related parties. The main purpose of these financial liabilities is to finance the Company’s operations. The Company has cash and cash equivalents, trade and other receivables, deposits and trade and other payables that arise directly from its operations. Other financial instruments consists of financial assets at fair value through other comprehensive income (FVOCI) and advances from a related party.

The main risks arising from the Company’s financial instruments are credit risk, liquidity risk and equity price risk. The BOD and the management review and approve policies of managing each of the risks and they are summarized below.

Credit Risk

Credit risk is the risk that a counterparty will not meet its obligation under a financial instrument or customer contract, leading to a financial loss.

Exposure to credit risk is monitored on an ongoing basis, credit checks are performed on all clients requesting credit over certain amounts. Credit granted is subject to regular review, to ensure it remains consistent with the customers’ current credit worthiness and appropriate to the anticipated volume of business. The investment of the Company’s cash resources is managed so as to minimize risk while seeking to enhance yield. The Company is exposed to credit risk, if the counterparty is unwilling or unable to fulfill its obligations and the Company consequently suffers financial loss. Credit risk management involves entering into financial transactions only with counterparties with acceptable credit rating.

There are no significant concentrations of credit risk within the Company. Since the Company trades only with recognized third parties, there is no requirement for collateral. The carrying values of the Company’s financial assets represent the maximum exposure to credit risk as at the reporting date.

Liquidity Risk

Liquidity risk arises from the possibility that the Company may encounter difficulties in raising funds to meet commitments from financial instruments. The Company’s objective is to maintain continuity of funding. The Company’s policy is to maximize the use of suppliers’ credit for all its major purchases and limit major capital expenditures at a reasonable level.

The Company monitors its cash position by a system of cash forecasting. All expected collections, check disbursements and other payments are determined on a weekly basis to arrive at the projected cash position to cover its obligations.

Equity Price Risk

The Company's investments in equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the equity price risk through diversification and placing limits on individual and total equity instruments. Reports on equity portfolio are submitted to the Company's senior management on a regular basis. The Company's BOD reviews and approves all equity investment decisions.

There is no material change in the financial risk exposures of the company and its subsidiaries particularly on currency, interest, credit, market and liquidity risks on its June 30, 2019 interim financial statements compared to the December 31, 2018 audited consolidated financial statements of APC Group Inc.
