Subsidiaries and Status of Operations

The following is the status of operations of the Group:

a. Aragorn Power and Energy Corporation (APEC)

APEC was established to engage in renewable energy resource exploration, development and utilization

- Kalinga Geothermal Project

In 2008, APEC was granted a Geothermal Service Contract (GSC) by the Republic of the Philippines, through the Department of Energy (DOE), for the exploration, development and exploitation of geothermal resources covering a total area of 26,139 hectares located in the Province of Kalinga (the "Kalinga Geothermal Project" or "KGP"). The GSC was converted into a Geothermal Renewable Service Contract (GRESK) in March 2010 to avail of the incentives provided under the Renewable Energy Act of 2008. GRESK No. 2010-03-24 has a term of not exceeding 25 years (including the used term under the GSC) and renewable for not more than 25 years. The total period from pre-development stage to the development/commercial stage shall not exceed 50 years.

In November 2010, APEC and its partner Guidance Management Corporation (GMC) formed a partnership with AllFirst Kalinga Ltd. (AKL, formerly Chevron Kalinga Ltd.) and signed a Farm-out Agreement (FOA) which gives APEC and GMC the option to take an equity position of up to 40% in KGP. The parties also signed a Joint Operating Agreement where AKL will be responsible for the exploration, development and operation of the steam field and power activities. As at December 31, 2024 and 2023, APEC and GMC each has 5% participation as provided under the FOA.

On August 14, 2018, pursuant to Executive Order No. 30, the Energy Investment Coordinating Council (EICC), through the DOE, granted KGP a Certificate of Energy Project of National Significance (CEPNS) for Pre-Development Phase. The CEPNS entitles KGP to all the rights and privileges provided for under Executive Order No. 30 series 2017.

On September 18, 2018, AKL assigned its Farm-out interest, including all associated rights and obligations under the FOA, in favor of its affiliate, Allfirst Kalinga Holdings, Inc. (AKHI).

In 2019, KGP completed securing all the remaining necessary permits and maintained and complied with its commitments. KGP has also engaged contractors and suppliers necessary for the construction of access roads, well pads, and well drilling activities. With the completion of the negotiation for right-of-way, remaining regulatory permits, as well as the engagement of the needed contractors and suppliers, KGP has completed the construction of well pads and access roads, and continues to implement geo-hazard mitigation measures.

On October 12, 2019, the KGP commenced drilling of the PAS-02 exploration well and ended drilling operations on April 21, 2020 after reaching a depth of 4,483 ft. (1,366 m MD) and being unable to drill further. The results of the drilling still show promise, with very encouraging commercial temperatures at 568°F (298°C) despite tight permeability.

On March 12, 2021, KGP re-commenced its geology, geochemical, and geophysical surveys (3G) which ended on June 7, 2021. After the evaluation and study, the results of the 3G established the presence of multiple independent systems within the KGP. Three potentially exploitable systems have been discovered located in the areas of Liwang, Caigutan, and Dananao. All three systems are located within the existing contract area.

On June 5, 2023, the GRESC was converted into GSC No. 2023-04-073 as a result of the request to apply for a new investment on Southwest Kalinga, amending the contract area of GRESC No. 2010- 03-024. This amended GSC has a pre-development and development term until July 1, 2033 and renewable for not more than 25 years.

Multiple extensions were secured for the exploration period of KGP with the latest of which is valid until May 28, 2026, upon the conversion of the GSC. The approval of the exploration period for GSC No. 2023-04-73 will lead to the continuation of exploration activities and eventual resumption of drilling operations.

On July 7, 2023, a new GSC (GSC No. 2023-07-074) was awarded to APEC for the Southwest Kalinga Geothermal Power Project (SWKGPP) which covers the newly discovered potentially exploitable systems of Caigutan and Dananao. This GSC has a pre-development and development contract period of 25 years with a possible extension of another 25 years. The total period from pre-development stage to the development / commercial stage shall not exceed 50 years. The exploration period of this GSC shall be valid for 7 years or until July 7, 2030.

With the newly discovered potential systems and newly awarded GSC, APEC and its partners intend to continue exploration activities through further 3G surveys and eventually start exploratory and appraisal drilling. To date, KGP has been engaging with communities within the contract area.

KGP has maintained full engagement with the host LGUs and Communities. As at February 27, 2025, the consent of nine (9) out of eleven (11) ancestral domains has been secured covering 85% of the GSC area. In addition, all of the Community Development (CD) Projects have been fully completed and turned over to the respective community beneficiaries.

KGP continues to provide scholarship grants and educational assistance to deserving youths from the eight (8) ancestral domains within its contract area. As at school year 2023-2024, KGP has already extended scholarships to 431 grantees and has produced 348 graduates in various courses,

which includes 62 licensed professionals, scholarship accounts for 29% of CD Projects Expenditures. Five (5) scholar graduates in engineering and geology have been hired for the Project.

KGP involves the development of steam fields that can generate around 120 megawatts (MW) of new capacity, providing an additional source of clean, indigenous and reliable baseload power to the Luzon grid. A 120 MW geothermal project will approximately cost more than US\$300.0 million.

On January 15, 2020 and March 2, 2018, APEC contributed US\$2.1 million (P106.5 million) and US\$1.0 million (P51.2 million), respectively, to AKHI equivalent to the 5% share of the appraisal drilling budget which includes construction of general facilities, roads, and pads, rig mobilization and demobilization, well drilling, testing, resource feasibility study, other exploration capital (salaries and wages) and corporate social responsibility.

b. APC Energy Resources Inc. (APC Energy)

APC Energy was established to engage in exploration, development and utilization of renewable energy resources. APC Energy stopped its operations when its Coal Operating Contracts with the DOE in both Masbate and Isabela were terminated in 2013 and 2015, respectively.

c. APC Mining Corporation (APC Mining)

APC Mining was organized to engage in mining, processing, manufacturing, buying and selling of all kinds of ores, metals and minerals. It was granted a mining permit for the exploration of chromite, copper and nickel deposits in Alubijid, Misamis Oriental. In 2013, APC Mining gave up its exploration permit because the area has low prospect for chromite, copper and nickel.

d. APC Cement Corporation (APC Cement)

APC Cement was incorporated in November 1994 to engage in the manufacture of cement. As at December 31, 2024, APC Cement is still in the pre-operating stage.

e. PRC-Magma Energy Resources, Inc. (PRC Magma)

PRC Magma was established to engage in the business of exploration, development, and processing of renewable and non-renewable energy resources, including but not limited to wind power, solar power, hydropower, biofuels, biomass, and coal; exploration, mining and processing of metalliferous and non-metalliferous mineral and ore resources; trading and supply of energy and mineral resources; and generation of electric power using energy resources. In 2010, PRC-Magma was awarded a GRESC for Bontoc Mainit-Sadanga in Mountain Province and Buguias-Tinoc in Benguet and Ifugao Provinces. In 2015, the service contracts were terminated due to the delays in the implementation of the approved work program and failure to make any discovery before the end of the fifth (5th) Contract Year.

As at December 31, 2024 and 2023, the Group is still evaluating new business opportunities for its non-operating subsidiaries.

Employees

APC Group Inc. had a total of 2 employees as of December 31, 2024.

APC Group, Inc. and subsidiaries reported consolidated net loss of ₱5.4 million for 2024, 207% lower than the ₱5.0 million net income reported in the previous year.

Revenue

The Group recorded revenues of ₱1.0 million for the year ended 2024, 93% decrease from the ₱13.7 million recorded in 2023. This decline was primarily due to the absence of one-time proceeds from the settlement of a long-outstanding claim against GSIS, which had acted as a surety for a supply agreement with a former customer. Additionally, there was no dividend income from financial assets at FVOCI following the sale of PLC shares earlier this year. These decreases were partially offset by higher interest income from cash and money market placements in 2024.

Costs and Expenses

The Group recorded ₱6.4 million in costs and expenses for the year, 25% lower than the ₱8.4 million in 2023 due to absence of legal fees attributed to the proceeds from the settlement of a long-outstanding claim against GSIS.

Other Income (Loss)

Other income of the Group in 2022 pertains to the ₱5.3 million gain in the sale of parcel of land with a carrying amount of ₱2.9 million for ₱8.2 million. There is no revaluation in 2023 and 2022.

In 2024, there is ₱1.4 million unrealized gain on fair value changes of financial assets at FVOCI and ₱1.2 million remeasurement gain on retirement liability. Total other comprehensive gain for the year is at ₱2.6 which is ₱1.5 million higher than last year's gain of ₱1.0 million.

2. RISK EXPOSURES

Financial Risk Management

The Group has risk management policies that systematically view the risks that could prevent the Group from achieving its objectives. These policies are intended to manage risks identified in such a way that opportunities to deliver the Group’s objectives are achieved. The Group’s risk management takes place in the context of day-to-day operations and normal business processes such as strategic planning and business planning. It is also established to identify and manage the Group’s exposure to financial risks, to set appropriate transaction limits and controls, and to monitor and assess risks and compliance to internal control policies.

Management has identified each risk and is responsible for coordinating and continuously improving risk strategies, processes and measures in accordance with the established business objectives. The BOD has overall responsibility for the establishment and oversight of the Group’s risk management framework. Risk management policies and structure are reviewed regularly to reflect changes in market conditions and the activities of the Group.

The Group’s principal financial instruments comprise of cash and cash equivalents, receivables, security deposits, trade and other payables (excluding statutory payables), and advances from a related party.

The main risks arising from the Group’s financial instruments are credit risk, liquidity risk and interest rate risk. The BOD reviews and approves policies for managing these risks. These are summarized below.

Credit Risk

Credit risk is the risk that the obligations of the Group will not be repaid on time and in full as contracted, resulting in a financial loss. It is inherent to the business as potential losses may arise due to the failure of its counter parties to fulfill their obligations on maturity dates or due to adverse market conditions.

Generally, the credit risk of the Group is attributable to financial assets at amortized cost. The Group maintains credit policies and continuously monitors defaults of customers and other counter parties, identified either individually or by group, and incorporate this information into its credit risk controls. Managing credit risk has both qualitative and quantitative aspects. Credit officers must evaluate the credit quality of the counterparties and assign internal credit ratings upon this evaluation.

The Group defines credit exposure as all transactions where losses might occur due to the fact that counterparties may not fulfill their contractual payment obligations based on original contractual terms. The Group’s exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these financial assets. Credit risk from cash in banks is mitigated by transacting only with reputable banks duly approved

by management.

Liquidity Risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's objectives to managing liquidity risk is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking adverse effect to the Group's credit standing.

The Group seeks to manage its liquid funds through cash planning on a weekly basis. As part of its liquidity risk management, the Group regularly evaluates its projected and actual cash flows. It also continuously assesses conditions in the financial markets for opportunities to pursue fund raising activities.

Equity Price Risk

The Group's investments in equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group manages the equity price risk through diversification and placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Group's senior management on a regular basis. The Group's BOD reviews and approves all equity investment decisions.

There is no material change in the financial risk exposures of the Parent Company and its subsidiaries particularly on currency, interest, credit, market and liquidity risks on its March 31, 2025 interim financial statements compared to the December 31, 2024 audited consolidated financial statements of APC Group Inc. and subsidiaries.

The Corporate Secretary certified that the notice of the annual stockholders' meeting and the Definitive Information Statement, along with the Corporation's "Guidelines for Participation via Remote Communication and Voting in Absentia" were uploaded via PSE EDGE on May 22, 2024 and posted on the Corporation's website beginning on the same day. In addition, the Corporate Secretary also certified that the notices of the meeting were distributed electronically and by courier to the shareholders starting on May 23, 2024.

The Chairman inquired from the Corporate Secretary whether there was a quorum for the transaction of business by the stockholders.

The Corporate Secretary certified that based on record, stockholders who have registered and participated in the meeting, personally and by proxy, represented **3,973,119,155** common shares, constituting **52.95%** of the total outstanding capital stock of the Corporation as of record date May 31, 2024.

He then invited everyone to listen to a brief discussion on the rules of conduct and voting procedures for the meeting.

The Corporate Secretary discussed the rules of conduct and voting procedures set forth in the Definitive Information Statement and in the Notice of Annual Stockholders' Meeting, in accordance with the rules of the Securities and Exchange Commission, as follows:

Second, some of the questions or comments received will be read out during the Open Forum, after all matters in the agenda are concluded.

As the time dedicated for the meeting, however, is limited, the questions and comments which will not be read out and responded to during the meeting will be answered by the appropriate officers of the Corporation concerned.

Third, resolutions will be proposed for adoption by the stockholders for each of the items in the Agenda for the meeting. Each proposed resolution will be shown on the screen as the same is being taken up.

Finally, we have tabulated the votes cast as of **June 25, 2024**. "Good morning and welcome everyone. Mr. Chairman, members of the Board of Directors and fellow shareholders. Thank you for joining us today.

I am pleased to report that your Company, through its subsidiary Aragorn Power and Energy Corporation or APEC, continues to move forward in its Kalinga Geothermal Project (KGP). In July of 2023, APEC was awarded a new Geothermal Service Contract (GSC), denominated as the South West Kalinga Geothermal Project, which has a fresh 25-year term inclusive of a 7-year exploration period. Furthermore, in early 2024, the DOE granted our request for an extension of our existing Kalinga GSC.

With the newly awarded South West Kalinga GSC, APEC will proceed to conduct exploration activities in the South West portion of the contract area through 3G surveys and eventual exploratory and appraisal drilling. To date, Information Education and Communication campaigns are ongoing as well as community engagement meetings, all in preparation for the 3G surveys.

With the favorable approval of the contract term extension for the old Kalinga GSC, exploration activities will continue with the objective of eventually leading to the resumption of drilling operations within the project's contract area.

Your Company continues its commitment to build long-lasting relationships with its host communities through the furtherance of its educational assistance and tree-planting activities within the 8 ancestral domains in its contract area. To date, the Project has already extended scholarships to 410 grantees and has produced 349 graduates in various courses of study inclusive of 62 licensed professionals. In fact, five (5) scholar graduates in engineering and geology have been hired for the Project. Scholarship accounts for 29% of our Community Development expenditures. We have also planted more than 100 native bamboo and guyabano seedlings in landslide prone areas within our service contract.

At this point, let me briefly go through the Company's financial performance in 2023. For your reference, the details of the financial statements are contained in the Information Statement sent to the stockholders.

- *The Company recorded consolidated assets of P269.0 million, higher by 4% from P259.6 million in 2022.*
- *Total liabilities is at P115.6 million, with a 3% or P3.3 million increase versus last year.*
- *For the year, the Company recognized P13.7 million in revenues, mainly brought about by the one-time proceed from the settlement of long-outstanding claim. General and admin costs is 26% higher from the previous year due to the legal fees incurred attributable to the settlement of the claim. This resulted to a significant improvement in the total comprehensive income versus last year. Overall, stockholder's equity ended at P153.4MM, higher by 4% vs. last year due to income recognized by the Company.*

I am also pleased to share with you that your Company received a 2 Golden Arrow Award, being recognized by the Institute of Corporate Directors as one of the top Philippine publicly listed companies in corporate governance based on the 2022 ASEAN Corporate Governance Scorecard (ACGS) results.

Looking forward, we are excited to build on our current momentum. With the awarding of the new SW Kalinga GSC and extension of our existing Kalinga GSC, the Company remains focused on its mission of creating value for our investors and our stakeholders.

I want to extend my thanks to our dear shareholders, for your continued patience, trust and confidence, to our Board of Directors, for their counsel, support and wisdom, and to our employees for their hard work and dedication. We look forward to working together with our many stakeholders in order to advance our project and create more value in the future.

Thank you and good day to everyone.
