NOTES TO THE SCHEDULE ON DISBURSEMENT OF IPO PROCEEDS AND PROGRESS REPORT AS OF AND FOR THE QUARTER ENDED SEPTEMBER 30, 2017

1. BACKGROUND

SBS Philippines Corporation (the Company) is engaged in the trading of goods and buying, selling, distributing and marketing, at wholesale, goods such as chemicals, fertilizers, foodstuff, agricultural products, feed ingredients, industrial products and medical devices.

On April 8, 2015, the Company applied for the registration of its common shares with the Philippine Securities and Exchange Commission (SEC) and the listing of the Company's shares on the Philippine Stock Exchange (PSE). The SEC approved the registration of the 1,200,000,000 common shares of the Company on July 16, 2015 and the PSE approved the Company's application for the listing of its common shares on July 23, 2015.

On August 10, 2015, the Company, by way of a primary offering (IPO), sold 420,000,000 shares of its common stock (Offer Share) at an offer price of P2.75 per Offer Share, and generated gross proceeds of P1.155 billion (the "IPO Proceeds") from such IPO.

2. REALLOCATION AND CHANGE IN USE OF IPO PROCEEDS

Reference is made to the proposed utilization of proceeds raised from the IPO as disclosed in the Company's Prospectus dated July 24, 2015 and the Disbursement of Proceeds and Progress Report dated July 12, 2017.

On May 20, 2016, the Company's Board of Directors (BOD) approved the variation in and extension of timeframe for the utilization balance of the IPO proceeds which then amounted to P670,884,497.96 remaining as of that date. These revised allocation and disbursement schedule together with the explanatory notes were submitted to the PSE through the PSE Electronic Disclosure Generation Technology. The details of the reallocation and change in the use of IPO Proceeds as of May 20, 2016 are as follows:

- (a) P350,000,000.00 initially allocated and earmarked for the acquisition of a real estate property located in Muntinlupa City have been redeployed and reallocated instead to fund strategic acquisitions. The project for the acquisition of the industrial property located at Brgy. Tunasan Muntinlupa City originally intended as the new warehouse depot site has been reconsidered in light of the residential communities being developed alongside the proposed warehouse location site and the likely locational conflicts and zoning issues resulting from such change in land use.

The Company's Directors and Management considered it to be in the best interests of the Company and its shareholders that this portion of the IPO proceeds is instead channelled to further its strategy to grow its business through synergistic acquisitions that will enhance the Company's product offerings and servicing capabilities. The redeployment of such financial resources to pursue potential business-building acquisitions is in step with the strategic goal of the Company to grow its principal business and expand of its chemical operations via acquisition, and/or investments in allied chemical businesses, as and when such opportunity arises. This was further reallocated on August 14, 2017 as discussed below.

- (b) P100,000,000.00 initially allocated and earmarked for the construction of the new Muntinlupa warehouse facilities have been redeployed and reallocated instead to fund the setting up of value added services and/or construction of such facilities to enhance and increase the Company's value-added services. This was further reallocated on August 14, 2017 as discussed below.
- (c) P103,969,248.00 initially allocated and earmarked to fund specific capital expenditures as detailed in the Company's Prospectus dated July 24, 2015 have been reallocated to finance investments in new equipment and machinery to include but shall not be limited to those itemized in the Company's Prospectus which investments are to be staggered during the period 2016-2017 and aligned with the current business needs of the Company.
- (d) P100,000,000.00 initially allocated and earmarked to fund specific new product purchases as detailed in the Company's Prospectus dated July 24, 2015 have been reallocated to finance the purchase and importation of additions to the Company's product portfolio to cover a much broader range of products which shall include but shall not be limited to new products and product improvements listed in the Company's Prospectus as well as fund the organization of a business development unit to strengthen sales and marketing force for the additional product offerings.
- (e) P14,830,318.45 excess of actual IPO expenses over the estimated IPO expenses have been channeled to general working capital requirements.
- (f) P2,084,931.51 savings arising from lower actual interest expense from the interest costs estimated for the BDO debt prepayment have likewise been channeled for use as additional general working capital.

On August 14, 2017, the Company's BOD approved to further revise the allocation previously intended for the strategic acquisition of businesses amounting to P350,000,000 and facility improvements amounting to P100,000,000 referred to in items (a) and (b) above and reallocate a total of P450,000,000 of the unutilized IPO Proceeds for the acquisition either of a warehouse facility complex or separately for the purchase of real estate property or a company holding such realty property as well as the capital expenditure for the purchase or construction of a warehouse building.
