**WE'VE BEEN
MAKING THE
WORLD
BY BEING
DIFFERENT
SINCE**

Nichols plc is an international soft drinks business with sales globally, selling products in both the Still and Carbonated categories.

The Group is home to the iconic Vimto brand which is popular in the UK and across the world, particularly in the Middle East and Africa. Other brands in its portfolio include Feel Good, Stars, Ice, FRYT, ICEE, Tea, Softs & Sunjet.

Welcome to THE 2018 NICHOLS PLC annual REPORT.

2018 was the year of Vimto's 110th birthday and as you will see in the report, a very successful one. I am very proud of our brand and in particular its heritage, but it's our people who bring Vimto to life with passion and ambition year after year. They really have made the world made by being refreshingly different.

So on behalf of the Board I would like to say a massive thank you to all my colleagues at Nichols

THE DRINK
THAT TODAY IS STILL
IN THE UK AND
AROUND THE**

John Nichols

John Nichols

NON-EXECUTIVE CHAIRMAN

2018 was a significant year for the Vimto brand, making 110 years since my grandfather invented the drink that today is still enjoyed in the UK and around the world.

I am pleased therefore, to announce another strong performance from Nichols plc during this special year. In 2018, Group revenue grew by 7.0%, Profit Before Tax was up 4.0% and we are proposing a 14.5% increase in the final dividend.

Trading

Group revenue in the year was £142.0m, £9.2m ahead of 2017.

Total sales in the UK business increased by 12.7% to £114.6m (2017: £101.7m).

In its 110th year, sales of the Vimto brand grew by 12.9%, gaining market share and significantly outperforming the UK soft drinks category which grew at +7.8% (Nielsen MAT 25 December 2018).

Elsewhere in the UK, sales in the Out of Home channel increased by 15.2%, compared to the prior year. This strong performance was driven by sales of both our dispensed soft drinks and frozen beverage products which reflects the significant investment in this part of our business over recent years.

In the international business, a strong sales performance in Africa during the second half of the year delivered full year growth of 6.5% in this region.

As anticipated in our 2017 Preliminary Results Statement (1 March 2018), sales to the Middle East were down on the prior year due to the ongoing conflict in Yemen and the timing of shipments to Saudi Arabia. As a result, sales to the Middle East region totalled £9.6m (2017: £13.0m). The Group's total international sales were £27.4m (2017: £31.0m).

Dividend

Reflecting the Board's ongoing confidence in the Group's financial position, we are

pleased to recommend a final dividend of 26.8 pence per share (2017: 23.4 pence).

If accepted by our shareholders, the total dividend for 2018 will be 38.1 pence (2017: 33.5 pence), an increase of 13.7% on the prior year. Subject to shareholder approval, the final dividend will be paid on 3 May 2019 to shareholders registered on 22 March 2019, the ex-dividend date is 21 March 2019.

Pest Balance Sheet Acquisition

Alongside the continued investment in the Vimto brand, our strategy identifies acquisition as a key driver of the Group's future growth plans. Therefore, we are delighted to announce the acquisition of 100% of the shares in Adrian Mecklenburgh Limited (AML) on 1 February 2019. AML is currently one of our Out of Home soft drinks dispensers.

Adrian Mecklenburgh Limited (AML) on 1 February 2019. AML is currently one of our Out of Home soft drinks dispensers covering the Kent region. This acquisition is consistent with a number of recent successful investments in our Out of Home business and consolidates the route to market in the region.

Outlook

We are well positioned with a diversified business model, a strong balance sheet and remain highly profitable. We continue to monitor the ongoing Brexit process, taking all possible actions to reduce the risk and we are confident that the Group can maintain its forward momentum in 2019 and beyond.

In 2019, we expect our UK business to

maintain its positive performance driven by the strength of the Vimto brand and the increasing opportunities in the Out of Home sector.

In our international business, we are confident that the long term prospects in the Middle East and Africa remain strong, although the ongoing conflict in Yemen continues to create uncertainty for 2019.

In Summary, the Board is pleased with Nichols plc's performance during 2018. The Vimto brand marked its 110th year with a 12.9% increase in sales, the Group has delivered further profit growth and the Board is proposing a 14.5% uplift in the final dividend.

Our
PARTNERS

Outsourced Vimto production

In the UK, we outsource production of our Still and Carbonate Vimto products across various production partners. Internationally, we use a combination of export and in-country bottling partners

In-house production

We produce bag-in-box syrups and juices for our frozen and dispense drink brands at our manufacturing facility in Ross-on-Wye

Brand Licensing

We work with a variety of licensees to extend the Vimto offering across a range of confectionery products.

Our
DISTRIBUTION

We use third party distributors as well as our own fleet to deliver products to customers, as appropriate to each market.

Our
CUSTOMERS

Our customers are specific to each distribution channel and range from UK grocers to wholesalers, leisure and entertainment groups to independent pubs, as well as overseas distributors to in-country bottlers

Our
CONSUMERS

We've been making our consumers smile by being refreshingly different since 1908

THE PERFORMANCE
OF
IN
2018, THE YEAR WHEN
REACHED ITS
'10TH

Nannie Mollard OBE

Chief Executive Officer's Report

Marie Mollard OBE

CHIEF EXECUTIVE OFFICER

IT IS GREAT TO SEE THE NEW marketing CAMPAIGN DELIVER outstanding RESULTS FOR THE VIMTO brand. IN 2018, WHILST MAINTAINING THE TRADITIONAL quirkiness WE HAVE SEEN FROM THE BRAND OVER THE LAST 110 years!

It is particularly pleasing to note the performance of Nichols plc in 2018, the year when Vimto reached its 110th anniversary. The Group delivered excellent revenue growth of 7.0% to reach sales of £142.0m. Sales of Carbonate products grew by 12.7% and the Still portfolio increased by 0.8%. The Still category performance was attributable to the reduced level of trading within the Middle East.

The Group revenue was driven by our UK business where sales increased by 12.7% to £114.6m, whilst international sales declined in the year to £27.4m, as we anticipated as we went into 2018. Despite experiencing a decline within the Middle East, the Group maintained its strong gross margin of 45.7% and the growth in gross profit was consistent with our revenue growth at 7.0%, as a result of the continued success of our value over volume strategy.

Financial Highlights

- Revenue
+7.0% to £142.0m (2017: £132.8m)
- Profit Before Tax*
+4.0% to £31.8m (2017: £30.5m)
- Gross Profit
+7.0% to £64.9m (2017: £60.6m)
- EPS (basic)
+10.1% to 69.23p (2017: 62.89p)
- Strong balance sheet
£38.9m free cash (2017: £36.1m)
- Final dividend
+14.3% to 26.8p (2017: 23.4p)
- * pre-exceptional items

These results were despite a challenging global market place and the expected reduced trading position within the Middle East.

In April 2018, the UK government implemented the Soft Drinks Industry Levy on drinks containing sugar of more than 4.9g per 100ml. We have been working on our sugar reduction programme for the last six years and as a result, our total UK product portfolio was sugar levy exempt as we went into 2018.

The impressive performance of the Vimto brand in the UK indicates the continued consumer love for Vimto and the successful evolution of the brand. We experienced a highly competitive UK market place with lots of change taking place in packaging, pricing and promotional strategies along with consolidation within the markets we operate. However, we had one of the finest summers for many years in the UK and despite an industry wide shortage of CO2, Vimto performed extremely well. I would like to thank all of our supply partners for their continued collaboration and support.

The UK Soft Drinks Market

(As measured by Nielsen year to date 29 December 2018)

In 2018, volumes in the UK soft drinks market grew at 3.0%. Value sales were higher showing growth of 7.8%, with the market size reaching £8.4 billion. Within the total soft drinks market, with the exception of fruit drinks and breakfast drinks, all sectors delivered value growth.

In the last twelve months, Vimto's brand value increased by an impressive £10.6m (Nielsen data) and is now worth £87m, an increase of 13.9%. The market outperformance has resulted in Vimto gaining market share in both the Still and Carbonate categories.

In spite of the market remaining highly competitive and promotionally driven, we continue with our focus of adding value to the category. Our product innovation, under the sub brand Remix, has added £9m to our Vimto retail sales brand value in less than 4 years. The addition of new flavours across the Remix brand has driven incremental sales through gaining increased distribution and new customer listings.

The UK On-Trade

(As measured by CGA, Total Licensed, Total Soft Drinks, last 12 months MAT 31 October 2018)

The UK on-trade soft drinks sector saw an uplift in consumption as volume increased by +0.3%. However, value sales have grown at a faster rate, with an increase of +3.8% year on year reflecting the premium nature of the category. This

performance was achieved against a head wind of outlet closures in the trade and as a result, soft drinks outlets are down -2.1% year on year.

Draught sales in the UK on-trade have seen a mixed performance. Draught Cola value sales grew by +3.6% ahead of volume at +1.7% in the last 12 months. However, draught flavoured carbonates have retreated in sales, declining -26% in value and -36% in volume.

As consumers have increased their intake of soft drinks, they do not compromise on brand choice. All categories, including beers, wines & spirits, are experiencing the premium effect with value growth ahead of volume.

STRATEGIC REPORT

Operational Review

Vimto UK

In 2018, Vimto delivered impressive sales revenue growth of 12.9%, which was well ahead of the overall market. It is encouraging that the fastest area of growth has come again from our No Added Sugar products (+22%). Within the UK, all of our product areas are in growth and gaining market share. UK Carbonates were up 14% and the Still products increased overall by 11%.

We continue to work in collaboration with all of our customers across the key UK trading channels and by putting them at the heart of what we do, we have delivered double digit growth within UK grocery, UK wholesale, foodservice and the discounters. This is despite a high level of customer consolidation within the UK market, which we expect to continue as we move into 2019.

In 2018, we launched our new UK marketing campaign to focus on our core teen target audience of 16-19 year olds. We launched the new 'I see Vimto in your creative programme across multiple touchpoints in June, aimed at celebrating the uniqueness of Vimto. It was a disruptive campaign, which included personalised video on demand and cinema advertising and as a result, the engagement levels were more than double the industry standard and brand advocacy grew by 9%.

STRATEGIC REPORT

Vimto Out of Home

The Vimto Out of Home business has delivered a third consecutive year of strong sales growth of 15.2% in 2018. A key driver of this performance was our frozen drinks business that delivered double-digit growth via both organic sales and innovation. Our new Unicorn flavour proved extremely popular with our consumers and provided incremental sales growth during the key summer trading period. We have also made a move into the adult frozen cocktail category launching our new FRYST® brand in selected outlets and festivals, which has brought excitement to consumers throughout the UK.

Our branded cola ranges have performed very strongly in 2018 within the dispense sector as we have seen the continued shift by consumers to choose and drink lower sugar variants. Our customers across our distributor network in this area performed well once again and continued to drive strong sales across the on-trade.

The Out of Home performance benefitted from the annualised sales following the acquisition of DJ Drink Solutions Limited (DJ) in June 2017, however like for like sales were up 10.3%. During 2018, we successfully integrated the DJ business into Vimto Out of Home, which continues to win new customer partnerships. The acquisition of The Noisy Drink Company North West Limited in February 2018, one of our Out of Home frozen soft drinks distributors covering the North West region, has further consolidated our route to market in the region and contributed to this performance.

We have also continued to invest in the operational effectiveness of our Out of Home business, opening a state of the art showroom and new customer service centre in Newton-le-Willows and a new technical centre of excellence in Swindon. These investments underpin our commitment to deliver leading edge ranges, equipment and technical expertise to all of our customers across the UK and Europe.

STRATEGIC REPORT

Vimto International

The African region continued to build on its strong performance as we have seen in recent years and delivered sales revenue growth for the full year of 6.5%. The second half year performance for this part of the business was significantly stronger. In addition to our focus on driving penetration of our brands in our established markets, we also launched into two new countries across East Africa: Kenya and Tanzania. We both key markets with well-established soft drinks categories and provide us with a fabulous opportunity to grow sales over the next few years.

Our relationship with our partner Aujan Coca-Cola Beverages Company in the Middle East is over 93 years old and in 2018 they delivered another outstanding 360-degree marketing campaign. It was entitled "The Same One" and was on air as always during Ramadan. The campaign focused on the evolving role of women in KSA society from the 1960s to the current day and showed Vimto as a constant feature of daily life throughout all those years. Impressive results were delivered through excellent in-store visibility and awareness, the TV campaign drove 99% awareness and the digital platforms achieved 290 million impressions.

Despite extremely challenging economic conditions in the region, the in-market sales of cordial and the 250ml ready to drink products continued to deliver sales growth, which demonstrates the strength of the brand and the affection our consumers have for that special Vimto taste.

Due to the political unrest in the region during 2018, our long-standing partner in the Yemen continued to suffer many operational difficulties and challenges. This has made trading at times during the year impossible and as a result, we have been unable to ship as much concentrate as in previous years.

Overall, our sales to the Middle East region were down by 25.4% due to the timing of shipments to Aujan and the challenges with supply to the Yemen. Last but certainly not least, we have continued to build momentum in the USA with our long-standing partner Ziyad. We have been encouraged by the successes Ziyad have delivered in 2018, which resulted in us gaining distribution of our Vimto products in 100 Walmart stores in their Mediterranean aisle.

Brand Licensing

Our brand licensing team launched some exciting new partnerships during 2018 that has helped to ensure the iconic Vimto flavour is enjoyed across a range of categories. We agreed a new exciting collaboration with Krispy Kreme that secured over 1,000 distribution points for two bespoke Vimto branded doughnuts.

Vimto Millions were developed for both UK and Europe with the product being available and selling well in over 1,000 dispense units.

Our STRATEGY

We have consistently applied our strategy over the last six years and our four strategic pillars have been fundamental to the continued success of the Group. Our diversified business model allows us to make the right decisions for the long-term sustainable growth of the Group and the brands, both home and away. Our strategy has four pillars as detailed below, along with some examples of our strategy in play in 2018.

Innovation is key for any business but for a brand established in 1908, it is essential to continue to excite consumers along with the appropriate acquisitions to grow sustainably.

In 2018 we launched a Watermelon, Strawberry and Peach variant to add to our Remix stable and this, along with new distribution gains on our current flavours, has helped to deliver an impressive +56% growth across the total Remix range. Our Vimzo flavoured water product continues to build momentum and we have doubled value sales in 2018 on the back of new customer listings.

The development of the brand portfolio and the business will ensure we remain fit for the future from a consumer perspective and will include both health and environmental changes.

The Soft Drinks Industry Levy was introduced into the UK in April 2018. Our entire product portfolio within the UK was sugar levy exempt including Vimto, Len Roots, Feel Good and our Starslush frozen beverage range.

Healthy hydration is a key trend we will continue to meet across our portfolio and it is good to see an increase in Vimto No Added Sugar sales of 22%, which is a consistent trend we have seen for many years as consumers make new choices. All of our product development for the last six years has been as a No Added Sugar offer.

We are engaged with the British Soft Drinks Association in order to fully participate in providing a robust deposit return system, to improve the return rates of plastic waste in order to produce new bottles for our industry.

We will continue to build on the core strength of the Vimto brand across the Globe.

Internationally, we saw good growth in a number of our established core markets. Notably in Ghana, where the strong relationship we have with our partner has delivered accelerated growth and in Guinea where the sales of our can products has been exceptional. We continue to invest in Vimto across all of our African regions with strong sales and marketing programmes to ensure our brand awareness and relevance continues to be at the forefront of our consumers' minds.

Geographic expansion, new routes and channels to market is critical to ensure we continue to excite consumers for decades to come.

We continue to expand our footprint nationally in the Out of Home route to market and have delivered further growth through distribution wins across a range of our national account customers, such as Greene King and Merlin. Our partnership with CEE has opened up new channels as the carbonated frozen ranges appeal to new consumers within the leisure channel.

Outlook

There remains significant challenge with the overall economic uncertainty as we move into 2019, however, the Vimto brand performance remains strong and capable of dealing with market changes as they happen. Change in our market environment both in the UK and internationally remains a consistent factor, as well as consumers continuing to make different choices. We believe our brands are strong, our business is resilient and along with our committed people, we are well placed to deal with those challenges.

Income Statement

	Year ended 2018	Year ended 2017
	£m	£m
Revenue	142.0	132.8

Finance expense	(0.1)	(0.2)
Profit Before Tax	31.8	30.5
PBT %	22.4%	23.0%
Tax	(6.2)	(5.5)
Profit after tax	25.5	25.0

Revenue
Group revenue for the year was £142.0m, an increase of 7.0% compared to 2017.
Sales of Carbonate products grew by 12.7% in the year and income from the sales of Still products increased by 0.8%. The Still category was impacted by the reduced level of trading with the Middle East.
The Group's revenue performance was driven by our UK business, where sales increased by 12.7% to £114.6m, whilst and as anticipated, international revenues declined in the year to £27.4m.

Gross Profit
Gross Profit increased commensurate to revenue by 7.0% to £64.9m.
It should be noted that the Gross Margin of 45.7% was in line with the prior year despite the decline in the higher margin sales to the Middle East.
Distribution Expenses
Distribution expenses were £7.2m in 2018 (2017: £5.9m). The increase is reflective of the higher stock holding, as referred to below, and the sales mix during the year.
The revenue growth has been driven by the UK business which incurs the majority of our warehouse and distributions cost

Operating Expenses
Operating expenses totalled £26.0m in the year, an increase of 7.7% compared to the prior year. The significant cause of the increase was the full year incremental costs associated with the acquisition of DI Drink Solutions Limited (purchased in June 2017) and The Noisy Drink Company North West Limited (purchased in February 2018). In addition, £1.1m of bad debt provision has been released in the year, following cash received against previously provided for debt.

EBITDA
EBITDA grew by 6.6% to £33.8m.
The EBITDA growth was in-line with the revenue performance.

Operating Profit
Operating Profit increased by 3.6% to £31.6m.

The margin return on sales was 22.3% compared to 23.0% in the prior year.

Finance Income and Expense

Finance income of £0.2m relates to the bank interest received during the year on the Group's cash deposits.

The majority of the finance expense relates to the net interest on the defined benefit pension liability in line with the application of IAS 19.

Profit Before Tax

Profit Before Tax was £31.8m for the year, an increase of 4.0% compared to the prior year (2017: £30.5m).

The margin return on sales was 22.4% compared to 23.0% in the prior year.

Taxation

The effective rate of taxation is 19.6% (2017: 19.3%). This is higher than the standard rate of 19%.

Statement of Financial Position

Cash

The Group cash balance at the year end was £38.9m (2017: £36.1m).

Nichols' business model remains very cash generative and due to favourable working capital movements, operating profit/ cash conversion has increased to 91% (2017: 77%). The cash conversion rate is based on net cash generated from operating activities as a percentage of the profit for the financial year.

By exception, other points of note regard the Statement of Financial Position are:

- Property, plant and equipment increased by £2.5m to £14.6m during the year. The majority of the increase was the purchase of dispense equipment supporting the growth of the Out of Home business.

- The majority of the £3.8m increase in Goodwill was associated with the acquisition of The Noisy Drink Company North West Limited in February 2018.

The year end value of inventories was £7.2m, £2.4m higher than the prior year. There were a number of supply chain developments affecting the year on year stock increase, most notably, as part of our Brexit strategic planning. In addition, the prior year value was relatively low when compared to normal levels of stock holding.

- Trade and other receivables increased by 9.8% during 2018, this was largely due to the strong growth in trading activity compared to the prior year.

Key Performance Indicators
The following Key Performance Indicators (KPIs) are used by management to monitor the Group's profit performance:

Revenue Growth +7.0% (2017: +13.2%)

The increase in the current year revenue as a percentage of the prior year value

Gross Margin 45.7% (2017: 45.7%)

Gross Profit as a percentage of revenue. This KPI is monitored at segment (Still and Carbonate) and product level.

Operating Profit Margin 22.3% (2017: 23.0%)

Group profit before financing income or expense as a percentage of revenue. This is considered for the Group as a whole rather than at product level.

EBITDA £33.8m (2017: £31.7m)

EBITDA is defined as profit before interest, tax, depreciation and amortisation

Tim Croston
Chief Financial Officer
26 February 2019

Risk Management

Risks and Uncertainties

The Group maintains a risk register which is reviewed and managed by the senior management team on a regular basis. As a result, the register is dynamic and reflects the evolving business environment e.g. the Group successfully prepared for the Soft Drinks Industry Levy introduced in April 2018 and subsequently this risk was removed from the register. The register is also reviewed by the Group Audit Committee at each meeting.

Management consider the following issues to be the principal risks potentially affecting the business

Risk	Mitigation
Management consider there would be a risk to the Company's growth ambitions if the business was reliant on any one market or product category	One of the key aims of our strategy is to invest and focus across our business activities to leverage the diversity of the Group. This benefit of the strategy was demonstrated during 2018, when despite seeing a decline in our Middle East business (which was expected and communicated), the Group as a whole has delivered strong growth in the year
In common with many businesses, we are highly dependent on the availability of IT systems	Nichols plc operates a number of preventative systems and controls to reduce the risk. In addition, we have a robust disaster recovery plan including the use of third party professional providers to host our systems and data
The threat of cyber-attack is an ever present and indeed, ever growing risk in today's global business environment, which could have a significant impact on our website and systems	
Health & Safety incidents, for example in a warehouse, resulting in serious injury or death or investigation by the relevant authority.	The Group manages the Health & Safety regime via a cross business Committee headed by our in-house company solicitor. The Committee oversees policy & procedure, staff training, H&S risk assessments and undertakes a schedule of audits (resourced externally where appropriate).
Unavailability of the Vinto compound. As the Vinto brand accounts for the majority of the Group's revenue, it is vital that we have surety of supply of the compound	Working in partnership with our suppliers, we have established production capability with dual suppliers at more than one location to ensure continuity of supply

Risk	Mitigation
Loss of a major customer account	We are dedicated to maintaining long-term relationships with all of our customers, but the Group's diverse income stream across markets and regions means we are not overly reliant on any one customer
Disruption to our supply chain or trading as a result of the Brexit process, impacting costs and our ability to source raw materials	Like all companies, we are uncertain as to the outcome of the Brexit process and therefore have considered a number of scenarios to manage In terms of supply chain, we are increasing the holding of raw material and finished goods stock. We are also working with our warehouse and distribution partners to secure additional capacity With regard to trading, only around 2% of Group sales are to the EU region In addition to supply chain and trading, we believe that a potential devaluation in sterling is another risk of Brexit, as it will have an inflationary impact on our raw material costs. We have therefore fixed our currency exposure where possible for the year ahead through pricing agreements with suppliers
Plastics - The UK government is considering various options to promote a reduction in the use of single use plastic and promote recycling. As a result, the soft drinks industry may face legislative challenges that potentially increase complexity or cost	Nichols plc is working proactively with the soft drinks industry via the British Soft Drinks Association and the government to find long-term solutions to this challenge In the interim, we are implementing a number of initiatives, such as increasing the use of recycled plastic, sourcing paper straws and encouraging our consumers to recycle with on-pack messaging

GOVERNANCE

Corporate SOCIAL RESPONSIBILITY

Our Partners and our Community

Warrington YOUTH CLUB

We have supported Warrington Youth Club since 2013 and have raised over £500k during that time. Warrington Youth Club continues to "inspire young people to achieve" and supports young people's development by offering opportunities to increase and develop skills, self-awareness and confidence.

In the summer of 2018, Nichols took part in the fifth Dragons Den challenge with the Youth Club, as part of the National Citizen Service programme (NCS). A voluntary personal and social development programme, NCS helps 15-17-year olds build essential professional and life skills, while increasing their confidence and providing the opportunity to meet new people.

This year's challenge was to 'create the next big thing in soft drinks'. Working in teams, participants had to consider everything needed to create an impactful New Product Development launch, from the brand look and feel, product flavour and packaging design, to the target audience.

There were some amazing ideas including spicy drinks, interactive and recyclable packaging and infused tea bags, but this year team Springen came out on top. Springen's winning product was a range of innovative dissolvable flavour pods, designed for different functional needs throughout the day, which came in a reusable, collapsible bottle.

Once again, the groups were highly engaged in the process and approached the task with energy and enthusiasm, and it was incredible to see them building their presentation and teamwork skills. We look forward to taking part again next year!

GOVERNANCE

Our main fundraising for 2018 was the annual Nichols Golf Day and the Vimto Bike Ride

For our 110th anniversary, 110 riders completed 110km around Cheshire with the aim of raising £110k. In fact, the team raised a magnificent £114k. We were supported by suppliers and friends, but also welcomed Gary and Phil Neville along with Ryan Giggs, who cycled the course and helped us achieve some wonderful PR and support for the Youth Club. Thank you to every single rider who took part, it really brought to life our values and the funds will make such a difference to those young people we support.

In 2020, a new Youth Zone will be opening, which is a joint venture between the national young people's charity Oriside and Warrington Borough Council. It will be a purpose built facility that will raise aspirations, enhance prospects and improve health and wellbeing for young people, particularly those from disadvantaged backgrounds in the area.

We here at Vimto are proud to be part of this exciting development with the Youth Club and will continue to work with the organisation to bring this opportunity to life within Warrington.

Manchester 10km

In May 2018, another hardy bunch of Vimto runners completed the Manchester 10km. Well done to all of those who took part with such Vim and Vigour!

WE ARE MACMILLAN. CANCER SUPPORT

At Vimto, we have a lot of aspiring "Bake Off" contestants and as a result, the array of cakes, buns and all sorts of bakery we have on offer is quite magnificent and raises vital funds for the Macmillan Cancer Support charity. The Macmillan coffee morning is a firm favourite event at Vimto, which raises money for a charity that is close to the heart of many of my Vimto colleagues.

The partnership allows us to interact with fans, players and staff through match day activations and our jersey sponsorship ensures standout visibility for our home city's much loved brand – a position that we remain incredibly proud of

Our CONTINUED COMMITMENT TO REDUCING SUGAR

The Soft Drinks Industry Levy (SDIL) was introduced in April 2018 and we are delighted with the performance of the Vimto brand during 2018, which was not impacted by the introduction of the Levy at all. The Vimto brand maintained the growth momentum from 2017 into 2018 despite the challenges presented to the soft drinks sector. All our own brands were exempt from the SDIL at the point of its introduction, which was across both of our UK routes to market.

We have reduced our sugar consumption in 2018 by another 1,104 tonnes of sugar, which represents a reduction of 27%. Average calories per litre fell by 5.7% and our No Added Sugar Vimto range was up 22% compared to the prior year. This has been a continuous commitment by the Company for the last six years to reduce sugar in our portfolio. Product development has focused solely on No Added Sugar and all of our advertising has featured only our No Added Sugar ranges.

Our PLEDGE ON PLASTICS

We are committed to having a sustainable but achievable plan surrounding the use of plastics within Nichols plc. We are working with our suppliers to improve the use of recycled PET into our packaged portfolio and currently have 31% RPET in our cordial bottles. From bottles to tetra paks, cups to straws, every piece of packaging we use or supply is 100% recyclable and we are investing in the UK recycling infrastructure by purchasing UK only Packaging Recovery Notes (PRN).

We are actively working with the British Soft Drinks Association (BSDA) to support the government in finding long-term solutions to the plastics challenge, by developing better infrastructure to support wider recycling, increasing consumer awareness of the need to recycle on the go and increasing the availability and usage of rPET in our bottles. However, we do need a holistic and system wide solution to the issue of single use plastics. In simple terms, this means better waste collection and recycling systems, awareness and education.

In summary, our work with the BSDA is on sector wide recommendations to address the concerns about plastic packaging which include

From left-right: Tim Croston, John Gittins, Helen Keays, Andrew Milne, Marnie Millard OBE, John Nichols.

Tim CROSTON

CHIEF FINANCIAL OFFICER

Tim joined the Group as Group Financial Controller in 2005. He became Finance and Operations Director of Vinto Soft Drinks in 2007 and was appointed to the plc Board as Chief Financial Officer in January 2010.

In December 2015, Tim was appointed Group Audit Chair and Non-Exec Board member. In September 2017, of Riverside Housing Association, a leading provider of UK social housing. Previously, Tim held financial controller positions at Polyone Inc. and at Smith and Nephew plc. Tim has two grown up children with his wife Sue. Tim is an avid and lifelong Manchester City fan and likes to attend both home and away matches with his family.

Marnie MILLARD OBE

CHIEF EXECUTIVE OFFICER

Marnie joined Nichols in October 2012 as Managing Director of Vinto Soft Drinks. In May 2013 she was appointed Chief Executive Officer. Marnie has vast experience in the soft drinks industry having occupied senior roles with M&S, Vinto Soft Drinks and B&B's Limited. Marnie is Vice President of the British Soft Drinks Association and holds a non-executive directorship with Embassy Food Group.

Marnie is married, has two children and is also a proud grandmother to Freddie and Matilda. Marnie enjoys attending concerts and relaxes by walking on the moors near her home.

John NICHOLS

NON-EXECUTIVE CHAIRMAN

John is the grandson of the founder of the Company and inventor of Vinto. John Noel Nichols joined Nichols plc in 1971 and was appointed as director in 1975. In 1986 John became the Group Managing Director, subsequently he became Executive Chairman of the group and in 2007 he moved to Non-Executive Chairman.

John has three grown up children, two of whom also work for the Company. John spends his spare time sailing, playing golf and skiing.

Andrew MILNE

GROUP COMMERCIAL DIRECTOR

Andrew joined Nichols as the Commercial Director for Vinto Soft Drinks in July 2013. He was appointed to the plc Board on 1 January 2015. Andrew has extensive experience in the soft drinks industry having previously worked as Sales Director for the soft drink giant at Coca-Cola Enterprises and as Managing Director at GlaxoSmithKline.

Andrew has two teenage children with his wife Debbie. Andrew is a keen Manchester United fan and spends what spare time he has either watching or playing sport.

John GITTINS

INDEPENDENT NON-EXECUTIVE DIRECTOR

John is a graduate of the London School of Economics and a chartered accountant. He was appointed to the Board of Nichols in July 2015 and is a member of both the Audit Committee (which he chairs) and the Remuneration Committee.

John is currently NED and Audit Committee Chair of AIM listed Park Group plc and Hill Dickinson LLP and has over 20 years experience of CEO roles in companies such as Biggles Traynor Group plc, Spring Group plc and Veritas Data Science Limited. John was also previously an Independent Non-Executive Director and the Audit Committee chair of Electricity North West Limited for six years.

Helen KEYS

INDEPENDENT NON-EXECUTIVE DIRECTOR

Helen joined Nichols in September 2017 after a career in Consumer Marketing at organisations such as GE Capital, Sears and Vodafone. Helen has developed significant experience working as a Non-Executive Director.

She is currently SIP at Dominos Pizza Group plc and the Chair of Remcom at Communis plc. She has previously held NED roles at Majestic Wines plc, Skin Clinics and Chrysalis plc.

Helen is married with two teenage children who keep her busy watching their sports matches. In her spare time she likes to play tennis. Helen is also a Life Trustee of the Shakespeare Birthplace Trust.

Principle	How does Nichols plc comply?
1. Establish a strategy and business model which promote long-term value for shareholders	- The Group's strategy is set out in the Strategic Report on pages 26 to 27 - The Group's Executive Directors and senior management team have a separate forum which meets throughout the year to focus on the Group's three year rolling strategic plan - The strategy is both challenged and endorsed by the Board - The strategy is communicated to all staff members at corporate team briefs and separate team meetings
2. Seek to understand and meet shareholder needs and expectations	- The Executive Directors meet our shareholders on a number of occasions throughout the year and have open dialogue to receive feedback - Investor roadshow meetings are undertaken at least twice a year following the preliminary and interim announcements - Shareholders are invited to the AGM held at our head office where all Board members interact with our shareholders on a one to one basis and take questions as they arise - Executive Directors specifically seek to meet retail investors at investor conferences and events - The Executive Directors are available to meet shareholders on request and a number of ad-hoc meetings are held during the year - Shareholder feedback is discussed at Board meetings
3. Take into account wider stakeholder and social responsibilities and their implications for long-term success	Employees - Regular meetings take place with staff groups to share Group strategy and seek feedback - The Company conducts a biennial staff engagement survey with current staff engagement measured at 95% Customers - Communications with our customers is a fundamental ingredient to our success. The Nichols plc team have continuous communications with customers to understand their needs, share our plans and nurture collaborative working practice Suppliers - Given Nichols' outsourced manufacturing model, having long-term partnerships with our suppliers and co-packers is essential. The Nichols plc Supply Chain and senior management have regular review meetings with our supplier base Our community - The Group cares about its community, in particular Nichols plc supports Warrington Youth Club which provides facilities, opportunities and support to children in our community Environment - Nichols plc is aware of its environmental responsibilities and whilst all its current packaging is already recyclable, the Company is working with suppliers and customers to reduce plastic waste. This will include increasing the proportions of recycled plastic which is already more than 30% in our cordial range - In addition, Nichols plc is an active member of the British Soft Drink Association which has reducing plastic waste high on its agenda

Chairman's Introduction to governance

The Board has for many years recognised its responsibility towards good corporate governance and I believe it contributes to our ability to deliver long-term shareholder value. During the year, the Financial Reporting Council and the Quoted Companies Alliance have both issued guidance on governance and having assessed these codes, we have aligned our approach to the latter.

In the following sections, we have outlined how we effect this code. Further detail on our approach to corporate governance can be found at www.nicholsplc.co.uk/Home/Aim26

John Nichols
Non-Executive Chairman

The Quoted Companies Alliance Code (QCA code)
Last reviewed by the Board 26 February 2019

Nichols plc has applied the Quoted Companies Alliance Corporate Governance Code (QCA code) to support our governance framework. The Board feel that the QCA code is appropriate for Nichols plc and indeed, the code is referred to by over half the companies listed on AIM

Introduction

The QCA code states "good corporate governance is fundamentally about culture".

Nichols plc is very proud of its warm and inclusive culture, our team and how they go about their business, which have been fundamental to the sustained success of the Group for many years. Our culture is reflected in our values and the overarching theme of our values is 'doing the right thing'. This statement documents our approach to corporate governance and explains how our stakeholders can have the confidence that we are indeed 'doing the right thing'.

Chair's role

Our Non-Executive Chairman is John Nichols who is the grandson of our founder, John Noel Nichols.

As Chair, Mr Nichols' primary responsibility

is to effectively lead the Board and ensure that the Group's corporate governance is appropriate, communicated and adopted across the business activities. The Chairman is also responsible for ensuring the Board agenda concentrates on the key operational and financial issues effecting the delivery of Nichols plc's strategy.

Mr Nichols is not involved in the day to day operations of Nichols plc, such responsibilities are independently managed by the Group's CEO, Mrs Marnie Millard OBE

Non-Executive Director's role

Nichols plc has two independent Non-Executive Directors (NEDs). The NED role is to provide oversight and scrutiny of the performance of the Executive Directors. The independent NEDs chair the Audit and Remuneration Committees respectively

Executive Directors

Nichols plc has three Executive Directors. The Executive Directors are responsible for managing the delivery of the business plans within the strategy set by the Board

Compliance with the QCA code

The QCA code is constructed around ten broad principles, the following section explains how Nichols plc complies with each of the principles

Principle	How does Nichols plc comply?
4 Embed effective risk management, considering both opportunities and threats, throughout the organisation	- The Group risk register is maintained by the senior management team - Risk is a fixed item on the management team agenda and the register is subject to a further annual review within the Strategy meeting calendar. - The Risk Register is also a fixed item on the Audit Committee agenda and used as a reference source for the internal audit plan. The internal audit function is led by individual teams within the Company - The significant risks and related mitigation/ control are disclosed in the Strategic Review within the R&A on pages 30 to 31
5 Maintain the Board as a well-functioning, balanced team led by the Chair.	- The Board is led by our Non-Executive Chairman, Mr John Nichols - The Board includes two independent Non-Executive Directors, Helen Keays and John Gittins, who both have significant experience of plc directorships - The current Board has good gender equality with 2 female and 4 male members - The Board currently has two sub-committees: the Audit Committee and the Remuneration Committee, which are chaired by the two Non-Executive Directors. Details of the number of meetings held and attendance by Directors is noted in the Annual Report on pages 49 and 51 - Non-Executive Directors communicate directly with Executive Directors and senior management between formal Board meetings. The Board met 5 times in the year. In addition, the Board held strategy days to review growth opportunities and priorities across the medium to longer term. Directors are expected to attend all meetings of the Board, and of the Committees on which they sit, and to devote sufficient time to the Group's affairs to enable them to fulfil their duties as Directors. In the event that Directors are unable to attend a meeting, their comments on papers to be considered at the meeting will be discussed in advance with the Chairman, so that their contribution can be included as part of the wider Board discussion
6 Ensure that between them the Directors have the necessary up-to date experience, skills and capabilities	- The current Nichols plc Board has significant sector, financial and plc experience - Between them, the Executive Directors have many decades of broad experience in the soft drinks industry - With the support of our NOMAD and advisors, the Board (training and development needs are maintained e.g. the enhanced AIM rule 26 requirements introduced in 2018 - Biographies on all Directors giving details of their experience and roles on the Board are shown on pages 42 to 43

Principle	How does Nichols plc comply?
7 Evaluate Board performance based on clear and relevant objectives, seeking continuous improvement.	- Whilst the Board performance is considered to be good, as demonstrated by the Group's sustained success and strong record over many years, historically there has not been a formal evaluation of the Board - Therefore, a formal Board performance evaluation has been undertaken in December 2018 and reported to the February Board - In addition, the Remuneration Committee evaluates Executive Director performance alongside remuneration and reward - With regards to financial performance, the auditors meet with the Audit Committee (comprising the Non-Executive Directors) biannually and beyond the audit report, do comment on the systems, procedures and efficacy of management - A rigorous recruitment process is undertaken for new Directors prior to their proposal and election. In terms of re-election, their performance is reconsidered prior to them being proposed, to ensure they remain effective in their role and that they retain their independence - Re-election is considered by the shareholders at the AGM at which shareholders have the opportunity to approve or otherwise Board membership. Succession planning for the Board is an ongoing topic of discussion
8 Promote a corporate culture that is based on ethical values and behaviours	- As referred to in the introduction, we are proud to have developed our values with significant influence from our employees and the overarching theme is 'doing the right thing' - Our values and culture are embodied in Nichols plc's management behaviour, our recruitment and staff development processes
9 Maintain governance structures and processes that are fit for purpose and support good decision making by the Board	- The Nichols plc Board meets five times a year and the Audit and Remuneration Committees meet at least two times a year - Nichols plc has robust internal controls, delegated authorities and authorisation processes - The controls are subject to review, both internally by individual teams within the Company and externally, by our external audit provider, BDO LLP - A culture of challenge and continuous improvement is encouraged to ensure that controls evolve with the business - The plc website describes the roles and terms of reference for the Committees
10 Communicate how the Company is governed and performing by maintaining a dialogue with shareholders and other relevant stakeholders	- Communications with shareholders are explained in point (2) above - In addition to the interim and full year investor roadshows, regular meetings are held with analysts, retail investor groups and perspective investors - In addition, the plc website contains information about the business activities, access to all RNS announcements and copies of the Report and Accounts - The work of the Audit and Remuneration Committees is described on pages 48 to 51 - The plc website includes historical announcements, as well as the R&A for more than the minimum five years

Audit Committee Report

On behalf of the Board, I am pleased to present the Audit Committee Report for the year ended 31 December 2018

Members of the Audit Committee

The Audit Committee consists of all three Non-Executive Directors and is chaired by myself, John Gittins. Helen Keays and I are considered independent Directors. John Nicholas is not considered independent as a result of his significant shareholding and previous executive role. The Board is satisfied that I, as Chair of the Committee, have recent and relevant financial experience. I am a chartered accountant and am currently chair of the audit committees of Park Group plc and Hill Dickinson LLP.

The Audit Committee met three times during the year

The Audit Committee's terms of reference are available on the Group's website. Its principal responsibilities include monitoring the integrity of financial reporting, internal controls and the external audit process

Duties

During the year, the Audit Committee discharged its responsibilities by:

- Approving the external auditor's plan for the audit of the Group's annual financial statements, including key audit matters, key risks, confirmation of auditor independence and terms of

engagement, including audit fees;

- Reviewing the Group's draft financial statements and interim results statements and reviewing the external auditor's detailed reports thereon, including disposition of key audit matters and risks;

- Meeting the external auditor twice, without management, to discuss matters relating to its remit and any issues arising from its work;

- Reviewing the performance of the external auditor;

- Approving the plan of targeted internal reviews conducted by the Finance team and other professional advisors, monitoring the results of these reviews and the timely follow up of control recommendations;

- Reviewing the Group's risk management process, key risk register and risk mitigations

Role of the External Auditor

The Audit Committee monitors the relationship with the external auditor, BDO LLP, to ensure that auditor independence and objectivity are maintained. Noting the tenure of BDO LLP (auditor since 2014), the Committee will keep under review the need for external tender. The external auditor is not engaged to perform any non-audit services, in line with the Group's policy. A summary of remuneration paid

to the external auditor is provided in note 4 of the financial statements. The Audit Committee also assesses the auditor's performance. Having reviewed the auditor's independence and performance, the Audit Committee has concluded that these are effective and recommends that BDO LLP be reappointed as the Group's auditor at the next AGM.

Audit Process

The auditor prepares an audit plan for the review of the full year financial statements. The audit plan sets out the scope of the audit, areas to be targeted and audit timetable. This plan is reviewed and agreed in advance by the Audit Committee. Following the audit, the auditor presented its findings to the Audit Committee for discussion. No major areas of concern were highlighted by the auditor during the year. However, areas of significant risk and other matters of audit relevance are regularly communicated.

Internal Audit

At present the Group does not have an internal audit function and the Committee believes that management is able to derive assurance as to the adequacy and effectiveness of internal controls and risk management procedures without one.

Internal Control

The Board has overall responsibility for maintaining sound internal control

systems to safeguard the investment of shareholders and the Group's assets. The systems are reviewed by the Board and, when asked, the Audit Committee and are designed to provide reasonable, but not absolute, assurance against material misstatement or loss.

The key features of the internal control systems are:

- A Group organisational structure with clear lines of responsibility;
- Comprehensive business planning procedures, including annual preparation of detailed budgets for the year ahead and projections for future years;
- Comprehensive monthly financial reporting system, highlighting variances to budget and regularly updated forecasts;
- Targeted, risk lead, internal reviews by the Finance function and other professional advisors

Whistleblowing

The Group has in place a whistleblowing policy which sets out the formal process by which an employee of the Group may, in confidence, raise concerns about possible improprieties in financial reporting or other matters. The Committee is comfortable that the policy is operating effectively

Anti-Bribery

The Group has in place an anti-bribery and anti-corruption policy which sets out its zero-tolerance position and provides information and guidance to those working for the Group on how to recognise and deal with bribery and corruption issues. The Committee is comfortable that the policy is operating effectively.

Attendance at Audit Committee Meetings

The following table sets out the number of scheduled meetings of the Audit Committee during the year and individual attendance by members

Audit Committee

Directors	Meetings attended
– John Gittins	3
– John Nicholas	3
– Helen Keays	2

Remuneration COMMITTEE REPORT

Directors' remuneration payable in year ended 31 December 2018

	Salary and fees £'000	Benefits in kind £'000	Bonuses payable in respect of 2018 £'000	Pension contributions £'000	Total 2018 £'000	Total 2017 £'000
P J Nichols	101	-	-	-	102	102
M J Millard	325	5	162	10	502	420
T J Croston	227	18	114	12	371	286
A Milne	212	17	105	10	344	270
J Glitins	40	-	-	-	40	32
H Keays	40	-	-	-	40	11
J Longworth (Resigned 26 April 2017)	-	-	-	-	-	7
Total	945	41	381	32	1,399	1,128

I am pleased to present this remuneration report, which sets out the remuneration policy and the remuneration paid to the Directors for the year

Members of the Remuneration Committee

The Remuneration Committee consists of all three Non-Executive Directors and is chaired by Helen Keays, an Independent Non-Executive Director

Duties

The Committee operates under the Group's agreed terms of reference and is responsible for reviewing all senior executive appointments and determining the Group's policy in respect of the terms of employment, including remuneration packages of Executive Directors. The Remuneration Committee met two times during the year and plans to meet at least twice a year going forward

Remuneration Policy

The objective of the Group's remuneration policy is to attract, motivate and retain high quality individuals who will contribute fully to the success of the Group. To achieve this, the Group provides competitive salaries and benefits to all employees. Executive Directors' remuneration is set to create an appropriate balance between both fixed and performance-related elements. Remuneration is reviewed each year in light of the Group's business objectives. It is the Remuneration Committee's intention that remuneration should reward achievement of objectives aligned with shareholders' interests over the medium-term.

Remuneration consists of the following elements:

- Basic salary;
- Benefits;
- Performance-related annual bonus;
- Long-Term Incentive Plan; and
- Pension contribution

Non-Executive Directors

The Non-Executive Directors signed letters of appointment with the Group for the provision of Non-Executive Directors' services, which may be terminated by either party giving three months' written notice. The Non-Executive Directors' fees are determined by the Board

Directors' Remuneration

The following table summarises the total gross remuneration of the Directors who served during the year to 31 December 2018

The Executive Directors were eligible for an annual bonus relating to profit, strategy and personal metrics. Achieving stretch targets would have given rise to a maximum bonus of 110% of base pay. Actual performance resulted in a bonus of 65% of base pay

The remuneration policy for 2019 will operate as follows

	Executive Directors	Basic salary/fee £'000	Maximum bonus £'000	Pension £'000
M J Millard		337	710%	10
T J Croston		237	110%	10
A Milne		219	75%	10
Non-Executive Directors				
P J Nichols		101	-	-
J Glitins		40	-	-
H Keays		40	-	-
Total		974	-	30

Maximum bonus opportunities for the 2019 financial year are disclosed in the table above. In 2019, the bonus will continue to be assessed against profit, strategic and personal targets. The bonus outcome will range from zero to a stretch performance. Challenging targets have been set such that maximum award would represent outperformance to current market expectations

The actual performance targets are not disclosed as they are considered to be commercially sensitive

Long-Term Incentive Plans

Awards to Executive Directors under share-based Long-Term Incentive Plans are underpinned by financial performance measures. The Group has two Long-Term Incentive Plans in place as at 31 December 2018. The Non-Executive Directors are not part of the Long-Term Incentive Plans

The proportion of the total options vesting under each plan is subject to testing against audited profit before tax for the financial years in question. The performance thresholds are not disclosed as they are considered to be commercially sensitive, but represent outperformance to current market consensus

Attendance at Remuneration Committee Meetings

The following table sets out the number of scheduled meetings of the Remuneration Committee during the year and individual attendance by members

	Directors	Meetings attended

Executive Directors

M J Millard

T J Croston

A Mline

Financial Risk Management Objectives and Policies

Business risks and uncertainties are included within the Risk Management section on pages 30 to 31 and financial risks are set out in note 21 to the financial statements

Employees

The Group's policy is to recruit and promote on the basis of aptitude and ability without discrimination of any kind. Applications for employment by disabled people are always fully considered bearing in mind the qualification and abilities of the applicants. In the event of employees becoming disabled, every effort is made to ensure their continued employment.

The management of the individual operating companies consult with employees and keep them informed on matters of current interest and concern to the business

Political Donations

There were no political donations in either 2018 or 2017

Share Options

The Company operates a Save As You Earn share option scheme. In conjunction with this, it makes donations to an Employee Share Ownership Trust to enable shares to be bought in the market to satisfy the demand from option holders

Share Capital

The resolutions concerning the ability of the Board to purchase the Company's own shares and to allot shares are again being proposed at the Annual General Meeting

In exercising its authority in respect of the purchase and cancellation of the Company's shares, the Board takes as its major criterion the effect of such purchases on future expected earnings per share. No purchase is made if the effect is likely to be deterioration in future expected earnings per share growth. During the year, the Company did not purchase any of its own shares

The Board believes that being permitted to allot shares within the limits set out in the resolution without the delay and expense of a general meeting gives the ability to take advantage of circumstances that may arise during the year

Auditors

In accordance with Section 489 of the Companies Act 2006, a resolution will be proposed at the Annual General Meeting that BDO LLP be reappointed auditors. Each of the Directors who are Directors at the time when this Directors' Report is approved have confirmed that

- so far as each of the Directors is aware there is no relevant audit information of which the Company's auditor is unaware, and
- the Directors have taken all steps that they ought to have taken as Directors in order to make themselves aware of any relevant audit information and

to establish that the auditors are aware of that information

Directors' Responsibilities Statement
The Directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the Group and Company financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union. Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and Company and of the profit or loss of the Group for that period. The Directors are also required to prepare financial statements in accordance with the rules of the London Stock Exchange for companies trading securities on AIM.

In preparing these financial statements, the Directors are required to

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent,
- state whether they have been prepared in accordance with IFRSs as adopted by the European Union, subject to any material departures disclosed and explained in the financial statements,

- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the requirements of the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities

Website Publication

The Directors are responsible for ensuring the annual report and the financial statements are made available on a website. Financial statements are published on the Company's website in accordance with legislation in the United Kingdom governing the preparation and dissemination of financial statements, which may vary from legislation in other jurisdictions. The maintenance and integrity of the Company's website is the responsibility of the Directors. The Directors' responsibility also extends to the ongoing integrity of the financial statements contained therein

Directors' Indemnity

The Group has agreed to indemnify its Directors against third party claims which may be brought against them and has in place an officers' insurance policy

Summary of Directors' Interests in the Company

(Number of Shares)	Opening shareholding	2018 movement	Closing shareholding
P J Nichols	2,000,000	0	2,000,000
M J Millard	10,442	0	10,442
T J Croston	17,135	189	17,324
A Milne	908	757	1,665
J Gittins	1,280	0	1,280
H Keys	0	0	0

Directors' Remuneration

Bonuses which are not guaranteed are accruing to the Executive Directors and certain senior executives based on pre-determined performance targets. The Remuneration Committee have considered it appropriate to issue awards under Long-Term Incentive Plans (LTIPs) relating to growth in operating profit before exceptional items. The LTIPs will be equity settled and are being accounted for through other reserves.

Total bonuses paid to the three Executive Directors during the year were £147,000. All bonuses were accrued for at 31 December 2017.

There are currently two LTIPs in place. The first runs from 1 January 2017 to 31 December 2019 and the second runs from 1 January 2018 to 31 December 2020. The

remuneration level at grant for both LTIPs was linked to a theoretical number of shares equivalent in value to no more than twelve months salary for each year of the incentive scheme

The Group has provided for a potential bonus of £489,891 under the first LTIP and £52,187 under the second LTIP through other reserves for the Executive Directors as at 31 December 2018. This is based on performance against Profit Before Tax growth targets

P J Nichols is a member of the final salary pension scheme and M J Millard, T J Croston and A Milne have a personal pension plan. The Company contributes to the respective schemes as shown in the Remuneration Committee Report on pages 50 to 51

A summary of Directors' interests in the Company are shown in the table above. All figures above relate to shares owned outright

Gender PAY GAP REPORT 2018

NICHOLS PLC IS PLEASED
TO PRESENT ITS GENDER
PAY GAP REPORTING
RESULTS AS OF 5 APRIL
2018.

% EMPLOYEES SPLIT BY GENDER

Our Out of Home technical, distribution and manufacturing functions traditionally have attracted a higher % of male employees, however, we are delighted to see females in our regional sales operatives' roles

PROPORTION OF Males & Females IN EACH PAY QUARTILE

● MALE ● FEMALE

The review of the pay per quartile based on hourly pay is a reflection of the workforce. There has been significant growth in the Out of Home area of the business during the year which as previously recognised has a traditionally larger proportion of male employees. Our talent attraction strategies are designed to recruit the best individuals for roles providing equality of opportunity for all.

PROPORTION OF MALES & FEMALES WITHIN SENIOR MANAGEMENT TEAM & MANAGERS WITHIN THE GROUP.

● MALE ● FEMALE

The structure of our Senior Management Team (SMT) remains consistent with a 75 male female ratio and our CEO is female. The split of male/female managers across the Group is indicative of the distribution and technical aspect of our Out of Home route to market.

HOURLY PAY* MEAN

MEDIAN 4%

BONUS* MEAN

Independent AUDITOR'S REPORT

Independent Auditor's report to the members of Nichols plc

Opinion

We have audited the financial statements of Nichols plc (the Parent Company) and its subsidiaries (the Group) for the year ended 31 December 2018 which comprise the consolidated income statement, the consolidated statement of comprehensive income, the Group and Parent Company statement of financial position, the consolidated and Parent Company statement of cash flows, the Group and Parent Company statement of changes in equity and notes to the financial statements, including a summary of significant accounting policies.

The financial reporting framework that has been applied in the preparation of the financial statements is applicable law and International Financial Reporting Standards (IFRS) as adopted by the European Union and, as regards the parent company financial statements, as applied in accordance with the provisions of the Companies Act 2006.

In our opinion

- the financial statements give a true and fair view of the state of the Group's and of the Parent Company's affairs as at 31 December 2018 and of the Group's profit for the year then ended,

- the Group financial statements have been properly prepared in accordance with IFRS as adopted by the European Union.

- the Parent Company financial statements have been properly prepared in accordance with IFRS as adopted by the European Union and as applied in accordance with the provisions of the Companies Act 2006, and

- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Group and the Parent Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard as applied to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the Directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate, or

- the Directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Group's or the Parent Company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) we identified, including those which had the greatest effect on the overall audit strategy, the allocation of resources in the audit, and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Brand Support Arrangements	How We Addressed the Key Audit Matter in the Audit
As disclosed in Note 2 (accounting policies) the Group incurs significant costs in the support and development of the Group's brands. The classification of these costs within the income statement is dependent upon the type of arrangement with the customer. As the majority of these costs are recognised as a deduction to revenue we consider there to be a significant risk concerning the appropriate application of accounting standards, particularly in respect of the Group's measurement of the fair value of variable consideration in revenue transactions as well as the Group's accounting for arrangements where cash consideration is given by the Group to the customer.	We undertook the following audit procedures in relation to brand support arrangements: - We tested the operating effectiveness of controls over the calculation and application of brand support arrangements. - We performed detailed testing over a sample of brand support arrangements charged to revenue and to costs in the year through verification to agreement and recalculation of the amounts recognised as a cost and the value of liability accrued. - We assessed whether the accounting policy for brand support arrangements complies with IFRS 15, has been appropriately applied and that the classification of charges in the income statement is appropriate. - To address the fraud risk we performed detailed cut-off testing to verify that brand support arrangements are recorded in the correct period and reviewed manual journal postings throughout the year. - We selected a sample of post year end credit notes and checked that, where audit evidence demonstrated that the credit note related to the audit period, that these credit notes were appropriately provided for in the financial statements, and - We reviewed the year end liability for completeness and accuracy by reviewing arrangements in place for key customers and generating an expectation as to the year end liability. Our work included checking that the ageing of the liabilities is correct.
Further, whilst the majority of costs incurred on these arrangements have been settled at 31 December 2018, management judgement is required in determining the level of closing accrual required at the year end for promotions and brand support campaigns that either span the financial years or where the costs have not been fully settled by the year end date.	
In accordance with the auditing standards and in view of the judgements involved above, as well as management being in a position to be able to override controls, we have presumed a risk of fraud within this area.	

FINANCIAL STATEMENTS

Pension Scheme Assumptions We consider there to be a significant risk concerning the appropriateness of the actuarial assumptions applied in calculating the Group's defined benefit pension scheme liability of £2.8m (2017: £2.9m) as shown in Note 26. The valuation of the Group's pension scheme liability is dependent on market conditions and key assumptions made, in particular relating to investment markets, discount rate, inflation expectations and life expectancy assumptions, as described in the Group's accounting policies. In addition, on 28 October 2018 the High Court ruled that benefits arising from Guaranteed Minimum Pensions (GMP) should be equalised. The judgement set out a clear obligation on trustees to ensure that there is equality in the pension benefits provided to men and women in a contracted out salary related occupational pension scheme for service between 17 May 1990 and 5 April 1997. Management, in conjunction with their actuarial experts, has exercised judgement in the assessment of the impact of this ruling on the valuation of the Group's defined benefit pension scheme liability at the year end. The setting of assumptions is complex and requires the exercise of significant management judgement with the support of third party actuaries. The relative sensitivities of any changes in assumptions are disclosed in Note 26.	How we addressed the key audit matter in the audit We have assessed the appropriateness of the assumptions underpinning the valuation of the scheme liabilities, including the effect of GMP equalisation. Specifically we challenged the discount rate, inflation and mortality assumptions applied in the calculation by using our auditor engaged pension specialists to benchmark the assumptions applied against comparable third party data and of the Group's own position. With regards to the effect of GMP equalisation, which individually has not materially affected the assumptions in the context of conjunction with our pensions specialist we have: - considered the expert advice received by management, comparing key assumptions and the calculation of the additional liability to the work of our pensions specialist; - reviewed management's approach in calculating the impact of the ruling; - recalculated the potential impact in calculating the impact provided; and - performed a sensitivity analysis on the information. We tested the membership data utilised in the valuation of the schemes to source data to assess whether the basis of the valuation was appropriate. Furthermore, we assessed the disclosure of the pension scheme assumptions in the financial statements against the requirements of the accounting standards.
Our application of materiality We consider materiality to be the magnitude by which misstatements individually or in the aggregate, could reasonably be expected to influence the economic decisions of the users of the financial statements. We use materiality	both in planning the scope of our audit work and in evaluating the results of our work. Importantly, misstatements below these levels will not necessarily be evaluated as immaterial as we also take account of the nature of identified misstatements. Group materiality Basis for materiality £1,500,000 (2017: £1,400,000) 3 year average basis utilising 5% of Profit Before Tax Rationale for the benchmark adopted Pre-tax profit is determined to be a stable basis of assessing business performance and is considered to be the most significant determinant of performance used by shareholders

In considering individual account balances and classes of transactions we apply a lower level of materiality (performance materiality) in order to reduce to an appropriate level the risk of material misstatement at the Group level. The Group Manager is responsible for the two principal locations in the UK and has common financial systems, processes and controls covering all significant components. The audit of all significant components was performed by the same audit team. In assessing the risk of material misstatement to the Group financial statements, and to ensure we had adequate quantitative coverage of significant accounts in the financial statements, of the four reporting components of the Group, we determined that two components represented the principal business units within the Group. For these two components, we performed an audit of the complete financial information for the complete period/periods on specific accounts within that component that we considered had the potential for the greatest impact on the statements, either because of the size of these accounts or their risk profile. As a consequence of the audit scope determined, we achieved coverage of approximately 98% (2017: 95%) of revenue, 99% (2017: 99%) of Profit Before Tax and 99% (2017: 99%) of net assets. Our audit work on each component was executed at levels of materiality applicable to each individual entity which was lower	its environment, including Group-wide controls, and assessing the risks of material misstatement at the Group level. The Group Manager is responsible for the two principal locations in the UK and has common financial systems, processes and controls covering all significant components. The audit of all significant components was performed by the same audit team. In assessing the risk of material misstatement to the Group financial statements, and to ensure we had adequate quantitative coverage of significant accounts in the financial statements, of the four reporting components of the Group, we determined that two components represented the principal business units within the Group. For these two components, we performed an audit of the complete financial information for the complete period/periods on specific accounts within that component that we considered had the potential for the greatest impact on the statements, either because of the size of these accounts or their risk profile. As a consequence of the audit scope determined, we achieved coverage of approximately 98% (2017: 95%) of revenue, 99% (2017: 99%) of Profit Before Tax and 99% (2017: 99%) of net assets. Our audit work on each component was executed at levels of materiality applicable to each individual entity which was lower	than Group materiality. Component materiality ranged from £400,000 to £900,000 (2017: £300,000 to £800,000) for Other Information. The Directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact. We have nothing to report in this regard.
--	---	---

Opinions on other matters prescribed by the Companies Act 2006 In our opinion, based on the work undertaken in the course of the audit - the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements, and - the Strategic Report and the Directors' Report have been prepared in accordance with applicable legal requirements Matters on which we are required to report by exception In the light of the knowledge and understanding of the Group and the Parent Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report or the Directors' Report. We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion - adequate accounting records have not been kept by the Parent Company, or returns adequate for our audit have not been received from branches not visited by us, or - the Parent Company financial statements are not in agreement with the accounting records and returns, or - certain disclosures of Directors' remuneration specified by law are not made, or - we have not received all the information and explanations we require for our audit	Responsibilities of Directors As explained more fully in the Directors' responsibilities statement set out on page 54, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error In preparing the financial statements, the Directors are responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or the Parent Company or to cease operations, or have no realistic alternative but to do so Auditor's responsibilities for the audit of the financial statements Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. A further description of our responsibilities for the audit of the financial statements	is located on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report Use of our report This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body for our audit work, for this report, or for the opinions we have formed. NOTES TO THE FINANCIAL STATEMENTS-YEAR ENDED 31 DECEMBER 2018

1. Reporting entity	the same point risks and rewards passed under IAS 18	support and development of the Group's brands. The majority of costs incurred on these assets have been settled at 31 December 2018, however, certain judgement is required in determining the level of closing accrual required at a year end for promotions and brand support campaigns that either span two financial years or where the costs have not been fully settled by the year end date. Brand support costs include sales related discounts which are included within revenue, as disclosed in the revenue recognition policy below, as well as cash consideration payable to customers entered into with customers in the year, the level of estimation in the year end accrual is insignificant.
Nichols plc (the "Company") is a company incorporated and domiciled in the United Kingdom, listed on the Alternative Investment Market. The address of the Company's registered office is Laurel House, Woodlands Park, Ashton Road, Newton-le-Willows, WA12 0HH. The consolidated financial statements of the Company as at and for the year ended 31 December 2018 comprise the Company and its subsidiaries (together referred to as the "Group"). The Group is primarily engaged in the supply of soft drinks to the retail, wholesale, catering, licensed and leisure industries.	Although the majority of the Group's contracts with customers are not complex, with revenue being fixed for a specific quantity of goods, the Group has identified a number of contracts in which other promotional rebates based on quantities purchased over a contractually agreed period of time. Previously, under IAS 18, management made its best estimate of any rebates it would have to give based on the information available. Under IFRS 15, revenue that varies due to rebates or brand support costs is only recognised to the extent that it is highly probable that a significant reversal of that revenue will not occur at the end of the rebate assessment period. In practice, the amounts of revenue recognised under IAS 18 and IFRS 15 in this respect are not materially different.	In particular, promotion campaigns with customers take place over short time frames, with volume and sales forecast during the campaign benchmarked against prior experience and reviewed with the customer in advance of the promotion. During the promotion the systems and processes within the business allow the Directors to monitor the level of the estimate against actual spend during the promotion, such that any judgement taken at the year end is not significant across the promotional timeframe. In respect of brand support campaigns, management has well established joint business arrangements in place with customers, and again the systems and processes allow management to have full visibility of activity levels on these plans, allowing estimates to be made with a strong degree of certainty at the year end. There has not been any evidence of material settlements of liabilities in respect of the above being significantly different to that being accrued.
2. Accounting policies	Basis of preparation	Use of estimates and judgements
The consolidated and Parent Company financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU and the Companies Act 2006 as applicable to companies reporting under IFRS.	With effect from 1 January 2018, the Group has applied IFRS 9, Financial Instruments. The Group decided not to early adopt this standard and there has been no requirement to restate comparatives.	The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.
The accounting policies have been applied consistently by the Group, with the exception of the adoption of IFRS 15, Revenue from Contracts with Customers and IFRS 9, Financial Instruments, from 1 January 2018 without restating comparatives.	With effect from 1 January 2018, the Group has applied IFRS 15, Revenue from Contracts with Customers. The Group decided not to early adopt this standard and there has been no requirement to restate revenue requirements in IFRS and applies to all revenue arising from contracts with customers unless the contracts are within the scope of other standards.	The following are the key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.
	The cumulative effect method of adoption has been used, with 2017 comparatives not being restated. The adoption of IFRS 15 has had no material effect on transition and is not expected to materially alter revenue recognition patterns going forward.	Carrying value of brand support accruals
	As a manufacturer and distributor, the Group earns its revenue from the sale of goods rather than services. The Group sells those goods to specific orders. The Group recognises revenue at a point in time, typically on dispatch of the goods to customers' premises for UK sales or, for international sales, upon loading the goods onto the relevant carrier. On transition, there is no material impact as the point at which control of the goods passes has been determined to be	The Group incurs significant costs in the

to generate economic benefits. The Group is committed to supporting its brands and investing in significant consumer marketing promotional spend.

Impairment of goodwill and intangible assets with indefinite lives

Determining whether goodwill and intangible assets with indefinite lives are impaired requires an estimation of the value in use of the cash-generating units to which the assets have been allocated. The value in use calculation requires management to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value (see note 1).

The carrying amount of goodwill at the reporting date was £34.5 million (2017: £30.7 million). The carrying amount of brands with indefinite lives was £3.9m (2017: £3.9m).

Customer list intangible assets have finite lives

Assigned such assets are tested for impairment if an impairment indicator exists. No risks are noted at 31 December 2018.

Defined benefit obligations

For the Group's defined benefit plan, the main assumptions used by the actuary are mortality rates, the discount rate and the expected rate of inflation (see note 15).

Basis of consolidation and goodwill

The Group financial statements consolidate the Company and all of its subsidiary undertakings drawn up to 31 December 2018. Subsidiaries are entities controlled by the Group. Control exists if all three of the following elements are present: power over the investee, exposure to variable returns from the investee, and the ability of the investor to use its power to affect those variable returns. Control is reassessed whenever facts and circumstances indicate that there may be a change in any of these elements of control. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Intra-Group balances and any unrealised gains and losses arising from intra-Group transactions are eliminated in preparing the consolidated financial statements.

Acquisitions of subsidiaries are dealt with

when they do, they are recorded as an expense and recognised in administrative expenses.

For discounts, rebates, promotional costs and brand support costs, accumulated expense is used to estimate and provide for those using the expected value method, and revenue is only recognised to the extent that it will not be probable that a significant reversal will occur. The status of financial position includes accruals for claims yet to be received for discounts, rebates and promotional costs.

Segmental reporting

An operating segment is a component of the Group that engages in business activities from which it generates revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components and for which discrete financial information is available. In line with market research and data made available by Nielsen, which documents industry performance in respect of Sills and Carbonates, management identify both Sills and Carbonates as operating segments where operating results are reviewed regularly by the Board (as chief operating decision maker) to make decisions about resources to be allocated to the segment and assess its performance.

Segment results that are reported to the Board include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Segment reporting for the Group is made to the gross profit level for the operating segments but no segment reporting is made for further expenditure or for the assets and liabilities of the Group. The assets and liabilities of the Group are reported as Group totals and no reporting of these balances is recorded at a segment level. As a result, all of the Group's assets and liabilities are unallocated items and no reconciliation of segment assets to the Group's total assets is prepared.

Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Group entities at exchange rates at the date of transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date.

Any exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from

Brands

Brands acquired in a business combination are recognised at fair value at the acquisition date. Brands acquired separately through a business combination are assessed at the date of acquisition as to whether they have an indefinite life. The assessment includes whether the brand name will continue to trade and the expected lifetime of the brand. All brands acquired to date have been assessed as having an indefinite life as they are expected to continue to contribute to the long-term future of the Group. The brands are reviewed annually for impairment, being carried at cost less accumulated impairment charges. The fair value of a brand at the date of acquisition is based on the Relief from Royalties method, which is a valuation model based on discounted cash flows.

Customer lists

Customer lists acquired in a business combination are recognised at fair value at the acquisition date. They are amortised over the useful economic life identified at the date of acquisition with amortisation charges included within administrative expenses.

Reserves

Share capital represents the nominal value of equity shares.

Share premium represents the excess over nominal value of the fair value of the consideration received for equity shares. Capital redemption reserve represents the reserve created upon redemption of shares.

Other reserves incorporate purchase of own shares, movements in the Group's ESOT and equity settled share-based payments in respect of Long-Term Incentive Plans.

Retained earnings represents retained earnings.

Impairment

The carrying values of the Group's non-current assets are reviewed at each reporting date to determine whether there is any indication of impairment. All property, plant and equipment is tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows.

(cash-generating units). As a result, some assets are tested individually for impairment and some are tested as a cash-generating unit level.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. The recoverable amount is the higher of fair value, reflecting market conditions less costs to sell, and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using the cost of capital that reflects the current market assessments of the time value of money and the risks specific to the cash-generating unit. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro-rata basis. Impairment losses are recognised in the income statement.

Goodwill and intangible assets with indefinite lives are reviewed for impairment annually. Property, plant and equipment.

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses.

Cost includes expenditures that are directly attributable to the acquisition of the asset.

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognised in the income statement as incurred.

Depreciation is calculated on a straight line basis to write down the cost less estimated residual value on property, plant and equipment over their estimated useful lives.

The estimated useful lives for the current and comparative periods are as follows:

Plant, machinery, fixtures 3-10 years

Buildings 50 years

Material residual value estimates and useful economic lives are updated at least annually. Land is not depreciated.

NOTES TO THE FINANCIAL STATEMENTS-YEAR ENDED 31 DECEMBER 2018

3 Segmental information

a Key operating segments

The Board analyses the Group's internal reports to enable an assessment of performance and allocation of resources. The operating segments are based on these reports. The Board considers the business from a product basis. The Group's operating segments are listed below. There has been no change to the nature of the products sold by the Group, the types of customers

and methods of distribution, management consider reporting operating segments at the Still and Carbonate level to be reasonable, particularly in light of market research and industry data made available by Nielsen. Gross profit is the measure used to assess the performance of each operating segment.

	Revenue		Gross Profit	
	2018	2017	2018	2017
	£'000	£'000	£'000	£'000
Still	64,483	64,139	35,398	35,168
Carbonate	77,354	68,650	29,469	25,455
Total	142,837	132,789	64,867	60,623

There are no sales between the two operating segments, and all revenue is earned from external customers.

The operating segments gross profit is reconciled to profit before taxation as per the consolidated income statement.

The Group's overheads are managed centrally by the Board and consequently there is no reconciliation to profit before tax at a segmental level. The Group's assets are managed centrally by the Board and consequently there is no reconciliation between the Group's assets per the statement of financial position and the segment assets.

	2018	2017
	£'000	£'000
Capital Expenditure	3,857	3,940
Depreciation	1,654	1,018

b Reporting by geographic area

Revenue by geographic destination

	2018	2017	2018	2017
	£'000	£'000	£'000	%
Middle East	9,536	6.8	13,035	9.8
Africa	13,857	9.5	12,724	9.6
Rest of the World	4,271	3.0	5,280	4.0
Total exports	27,418	19.3	31,049	23.4
United Kingdom	114,419	80.7	101,740	76.6
	142,837	100.0	132,789	100.0

Revenue from continuing operations arose principally from the provision of goods.

The Group's business segments operate in the Middle East, Africa, the Rest of the World and the United Kingdom. The Group's Head Office operations are located in the United Kingdom.

In presenting information on the basis of geographical areas, area revenue is based on the geographical location of customers and not on the legal entity in which the transaction occurred.

No individual customer accounts for 10% or more of the Group's revenue in either 2018 or 2017.

Total assets

The assets of the Group at 31 December 2018 and 31 December 2017 are entirely located within the United Kingdom.

Capital expenditure

The capital expenditure of the Group for the years ended 31 December 2018 and 31 December 2017 was entirely made within the United Kingdom.

Depreciation

The Group's depreciation charges for the years ended 31 December 2018 and 31 December 2017 are against property, plant and equipment all retained within the United Kingdom.

NOTES TO THE FINANCIAL STATEMENTS-YEAR ENDED 31 DECEMBER 2018

Awards under Incentive Plan	(523)	405
(Gain)/loss on foreign exchange differences	41	40
Loss on sale of property, plant and equipment	525	157
Amortisation of intangible assets		

The Group incurred a number of costs during 2017 which by their nature were non-recurring and were reported as exceptional items within administrative expenses. These costs fell into three categories: merger and acquisition expenses (£0.3m), restructuring costs (£1.3m), which represented redundancies of £0.6m, all of which were communicated to those employees impacted prior to the year end date, as well as costs incurred in respect of the exit from an operating site in the Out of Home division - principally related to onerous lease costs of £0.6m and other costs of £0.1m. Further costs were incurred in preparation for the introduction of the Soft Drinks Industry Levy (£0.2m).

Re-statement of goodwill on prior acquisition	322	
Acquisitions (see note 19)	3,463	
At 31 December 2018	34,451	

The Group's goodwill acquisitions for 2018 relate to the acquisition of 100% interest in The Noisy Drink Company North West Limited, completed on 15 February 2018 and the acquisition of the trade and assets of Fountain Drinks Limited, completed on 10 July 2018 (see note 19). The total goodwill is entirely attributable to the Out of Home business. Details of the fair value of identifiable assets acquired, purchase consideration and goodwill for both acquisitions are shown in note 19. The re-statement of goodwill on prior acquisition represents property, plant and equipment of £322k which had their fair value reassessed to £nil, in respect of the acquisition of DJ Drink Solutions Limited in 2017. This adjustment was identified in the hindsight period post acquisition on 2 June 2017.

All goodwill relates to the Out of Home business which is considered by management to be two independent Out of Home cash-generating units (CGUs) sitting below each of the Still and Carbonate operating segments. The goodwill has been allocated to these CGUs and not to the named subsidiaries.

	2018	2017	
	£'000	£'000	
Still	21,796	14,602	Brand names with indefinite lives were recognised as part of the fair value exercise on the acquisition of The Noisy Drinks Co. Limited in 2016 (£2.6m) and the trade and assets of Feel Good Drinks in 2015 (£1.3m). Both have been allocated to the Still Out of Home CGU above for impairment testing. In respect of the Parent Company's goodwill, the entire goodwill is allocated to the Still Out of Home CGU in both 2017 and 2018.
Carbonate	12,655	8,846	
	34,451	23,448	

Impairment review

Goodwill and intangible assets with indefinite lives are tested at least annually for impairment and whenever there are indications that the assets might be impaired. The recoverable amount of a CGU is based on its value in use. Value in use is the present value of the projected cash flows of the CGU. The key assumptions regarding the value in use calculations were: forecast growth in revenues and the discount rate applied. Budgeted revenue growth is estimated based on actual performance over the past two years and expected market changes.

The discount rate of 15% is a pre-tax rate and reflects the risks specific to the relevant CGU. Out of Home business cash flow projections are based on the most recent financial budgets approved by management. Management have applied an annual growth rate in projecting the cash flows for a period of five years in line with these budgets. Further periods have been included in the impairment test based on growth into perpetuity of 2% per annum. Management consider the annual growth projections for 5 years and into perpetuity to be reasonable in light of company growth in the current year and economic growth rates.

Management have considered the allocation of the excess of the fair value of the consideration transferred over the fair value of the Group's share of the identifiable assets acquired to other intangibles and are satisfied that it is correctly allocated to goodwill.

The headroom on the assessment is significant. Based on the headroom, management consider that no reasonably possible change in assumptions would give rise to an impairment of goodwill or intangibles.

NOTES TO THE FINANCIAL STATEMENTS-YEAR ENDED 31 DECEMBER 2018

Provisions	22	43	0	0	22	43
	890	1,098	(55)	(33)	835	1,065

15 Inventories

	Group		Parent	
	2018 £'000	2017 £'000	2018 £'000	2017 £'000
Finished goods	6,108	3,990	3,840	2,342
Raw materials	1,056	825	54	0
Total inventories	7,164	4,815	3,894	2,342

In 2018, the Group write-down of inventories to net realisable value amounted to £99,000 (2017: £176,000)

16 Trade and other receivables

	Group		Parent	
	2018 £'000	2017 £'000	2018 £'000	2017 £'000
Trade receivables	34,282	31,293	26,357	24,087
Amounts owed by Group undertakings	0	0	7,209	6,967
Other receivables	1,938	1,460	801	11
Prepayments	1,933	1,987	872	677
	38,153	34,740	35,239	31,742

All amounts above are short-term receivables. The difference between the carrying value and fair value of all receivables is not considered to be material. All trade and other receivables have been reviewed under the expected credit loss impairment model and a provision of £748,000 (2017: £2,102,000) has been recorded accordingly.

The Group applies the IFRS 9 simplified approach to measuring expected credit losses using a lifetime expected credit loss provision for trade and other receivables. The expected loss rates are based on the Group's historical credit losses experienced over the three year period to the year end. The historic loss rates are then adjusted for current and forward looking information on macro economic factors affecting the Group's customers.

Credit risk for amounts owed by Group undertakings has not increased significantly since their initial recognition.

Group	At 1 January 2018 £'000	Charge in the year £'000	Release in the year £'000	Utilised £'000	At 31 December 2018 £'000

Other short-term financial liabilities	9,763	6,214	852	9,068	852	852
	15,816	6,214	852	13,559	852	852

18 Share capital

	2018	2017
	£'000	£'000
Aliotted, issued and fully paid 36,968,772 (2017: 36,968,772) 10p ordinary shares	3,697	3,697

The share capital of Nichols plc consists only of ordinary '10p' shares. All shares are equally eligible to receive dividends and the repayment of capital and represent one vote at shareholders' meetings.

There were no movements in the Group's authorised and allotted, issued and fully paid share capital for the financial years ending 31 December 2018 and 31 December 2017.

19 Acquisitions

2018 Acquisitions

On 15 February 2018, the Group acquired 75% of the issued share capital of The Nobby Drinks Company North West Limited (NNW) for initial consideration of £1.0 million. The acquisition was accounted for as an acquisition of a subsidiary under the provisions of IFRS 3. The fair value of the consideration paid, net of the fair value of the relative amounts payable in respect of each side of the acquisition, as well as assessment of the risk and reward retained by the non-controlling interest, this has resulted in the acquisition being accounted for in substance as though the Group has acquired a 100% interest on the date of the acquisition.

As the written call put option is to be physically settled in cash, a gross obligation has been recognised at an amount equal to the present value of the amount payable to the call holder. This amount is included in the fair value of the acquisition. The fair value of the call option is determined by reference to the amount required to buy the call option in the open market, or less NNW is one of our Out of Home frozen soft drinks distributors covering the North West region and is an entirely separate company with separate ownership to The Nobby Drinks Co. Limited previously acquired by the Group. This acquisition further consolidates our route to market in the region and is consistent with our successful business model already operating in other regions in the UK.

Details of the fair value of identifiable assets acquired, purchase consideration and goodwill are as follows:

	Book value	Adjustment	Fair value
	£'000	£'000	£'000
Property, plant and equipment	759		759
Inventory	75		75
Trade and other receivables	192		192
Cash	(127)		(127)
Trade and other payables	(832)		(832)
Tax liabilities	(78)		(78)
Customer list		236	236
Deferred tax on acquired intangibles		(40)	(40)
Total assets acquired	(11)	196	185
Fair value of consideration			
Cash paid			1,549
Contingent cash consideration (see below)			2,000
Total fair value of consideration			3,549
Goodwill arising on acquisition (note 11)			3,364

The goodwill recognised above includes certain intangible assets that cannot be separately identified and measured due to their nature. This includes control over the acquired business, the opportunities for growth within the territory in which NNW operates, the skills and experience of the assembled workforce, and the wider scale and future growth opportunities that it provides to the Group's operations. The goodwill recognised is not deductible for tax purposes.

Acquisition costs of £87,908 arose as a result of the transaction. These have been recognised within administrative expenses.

The contingent cash consideration is payable in February 2020, upon acquisition of the remaining 25% of the issued share capital. The amount is linked to growth in EBITDA in the two year period following initial acquisition. There has been no material movement on the contingent consideration since initial recognition. In addition, no reasonably possible change in any of the assumptions would lead to a material adjustment to the carrying value of the liability.

The fair value measurement of the contingent consideration represents a level 3 valuation due to unobservable inputs, which are not derived from market data. The key assumptions within the forecast EBITDA are volumes distributed to customers, maintenance of the gross profit margin and overheads.

Since the acquisition, NNW has contributed £2.4m to revenue and £0.1m to net profit for the Group.

19 Acquisitions (continued)

On 10 July 2018, the Group acquired the trade and assets of Fountain Drinks Limited (Fountain) for initial consideration of £80,000. Fountain is one of our Out of Home dispensed soft drinks distributors in Scotland. The acquisition further consolidates the Group's route to market in this region.

Details of the fair value of identifiable assets acquired, purchase consideration and goodwill are as follows:

	Fair value £'000	Fair value of consideration £'000	Fair value £'000
Customer list	44	Cash paid	80
Total assets acquired	44	Contingent cash consideration (see below)	63
		Total fair value of consideration	143
		Goodwill arising on acquisition (note 11)	99

The goodwill recognised above includes certain intangible assets that cannot be separately identified and measured due to their nature. This includes the opportunities for growth within the territory in which Fountain operates and the wider scale and future growth opportunities that it provides to the Group's operations. The goodwill recognised is not deductible for tax purposes.

The contingent cash consideration is payable in July 2019, based on the performance of customer accounts acquired in the 12 month period following acquisition.

2017 Acquisition

On 2 June 2017, the Group acquired 100% of the issued share capital of DJ Drink Solutions Limited (DJ), the largest of our Out of Home dispensed soft drinks distributors operating in the North West, North East and North Wales regions. This acquisition consolidates the Group's route to market in the two regions and is consistent with our successful business model already operating in other regions in the UK.

Details of the fair value of identifiable assets acquired, purchase consideration and goodwill are as follows:

	Book value £'000	Adjustment £'000	Fair value £'000
Property, plant and equipment	780		780
Inventory	121		121
Trade and other receivables	734		734
Cash	187		187
Trade and other payables	(1,585)		(1,585)
Tax liabilities	(226)		(226)
Customer list	2,066	2,066	2,066
Deferred tax on acquired intangibles	(360)	(360)	(360)
Total assets acquired	11	1,706	1,717

Fair value of consideration

Cash paid	6,568
Contingent cash consideration (see below)	2,367
Total fair value of consideration	8,935
Goodwill arising on acquisition (note 11)	7,218

The goodwill recognised above includes certain intangible assets that cannot be separately identified and measured due to their nature. This includes control over the acquired business, the opportunities for growth within the territory in which DJ operated, the skills and experience of the assembled workforce, and the wider scale and future growth opportunities that it provides to the Group's operations. The goodwill recognised is not deductible for tax purposes.

Acquisition costs of £145,807 arose as a result of the transaction, recognised as an exceptional item within administrative expenses.

The contingent cash consideration was payable in June 2018 based on profitability targets established with the vendor. Total cash consideration of £2,285,000 was paid in June 2018 based on actual growth achieved in the 12 month period following acquisition. The difference between the £2,367,000 initially recognised and £2,285,000 paid has been taken as a credit within administrative expenses.

Since the acquisition, DJ has contributed £12.6m to revenue. It is not possible to determine the net profit impact as the business has been subsumed into the trade of the Out of Home CGU.

20 Cash and cash equivalents

	At 1 January 2018 £'000	Cash flow £'000	At 31 December 2018 £'000	At 1 January 2018 £'000	Cash flow £'000	At 31 December 2018 £'000

Cash at bank and in hand	36,058	2,838	Cash at bank and in hand	15,422	4,648	20,070

21 Financial Instruments

Exposure to treasury management, liquidity, credit and currency risks arise in the normal course of the Group's business.

Treasury management

The Group's treasury activities are targeted to provide suitable, flexible funding arrangements to satisfy the Group's requirements. Interest rate and liquidity risk are managed at a Group level. Foreign currency risk is managed, in consultation with Group management, in subsidiaries which are responsible for the majority of purchases. The Group's policy for investing any surplus cash balances is to place such amounts on deposit.

Liquidity risk

The Group seeks to manage financial risk to ensure sufficient liquidity is available to meet foreseeable needs. The acquisition of companies and the continuing investment in non-current assets will be achieved by a mix of operating cash and where required, short-term borrowing facilities.

Credit risk

The Group has no significant concentrations of credit risk. The Group has implemented stringent policies that ensure that credit evaluations are performed on all potential customers before sales commence. Credit risk is managed by limiting the aggregate exposure to any one individual counterparty, taking into account its credit rating. Such counterparty exposures are regularly reviewed and adjusted as necessary.

Accordingly, the possibility of material loss arising in the event of non-performance by counterparties is considered to be unlikely. Cash at bank is held only with major UK banks with high quality external credit ratings or government support.

Foreign currency risk

The Group is exposed to foreign currency risk on sales and purchases that are denominated in a currency other than the functional currency of the Group. The currencies giving rise to this risk are primarily US Dollars and Euros. During 2018, the Group entered into foreign currency transactions that over the course of the year resulted in the Group having a natural hedge. This then meant the Group did not need to enter into forward contracts to minimise the impact of movements in foreign currency rates on the spot market.

	2018 £'000	2017 £'000
Foreign currency assets.		
US Dollar	3,158	3,686
Euro	5,851	3,864
Swiss Franc	61	61
	9,070	7,611

21 Financial Instruments (continued)

Foreign currency sensitivity

Some of the Group's transactions are carried out in US Dollars and Euros. As a result, management have undertaken sensitivity analysis to consider the financial impact if Sterling had both strengthened and weakened against the US Dollar and the Euro

If Sterling had strengthened against the US Dollar and Euro by 5% (2017: 5%), then this would have had the following impact

	2018	2017		
	US Dollar	Total	US Dollar	Total
	£'000	£'000	£'000	£'000
Net result for the year	(281)	(337)	(175)	(359)

If Sterling had weakened against the US Dollar and Euro by 5% (2017: 5%), then this would have had the following impact

	2018	2017		
	US Dollar	Total	US Dollar	Total
	£'000	£'000	£'000	£'000
Net result for the year	43	243	195	399

Exposures to foreign exchange rates vary during the year depending on the volume of overseas transactions. Nonetheless, the analysis above is considered to be representative of the Group's exposure to currency risk

22 Summary of financial assets and liabilities by category

The IFRS 9 categories of financial assets included in the statement of financial position and the headings in which they are included are as follows

	Group				Parent			
	Fair value through profit or loss	Amortised cost	Fair value through profit or loss	Amortised cost	Fair value through profit or loss	Amortised cost	Fair value through profit or loss	Amortised cost

Total financial liabilities	2,000	2,367	5,402	4,460	0	0	12,387	5,343

23 Capital management policies and procedures

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance. This strategy remains unchanged from 2017

At 31 December 2018, the Group had no debt and therefore the capital structure consists of equity only

24 Operating leases

At the balance sheet date, the Group had outstanding commitments for future minimum lease payments under non-cancellable operating leases, which fall due as follows

	Group		Parent	
	2018	2017	2018	2017
	£'000	£'000	£'000	£'000
Within one year	1,095	1,023	584	534
Between two and five years	1,883	2,042	669	743
More than five years	0	705	0	0
	2,978	3,770	1,244	1,277

The Group leases its operating assets under non-cancellable operating lease agreements and certain other plant and equipment under non-cancellable operating lease agreements

25 Related party transactions

Parent Company

The Parent Company entered into the following transactions with subsidiaries during the year

	Transaction value Year ended 31 December		Balance outstanding as at 31 December	
	2018	2017	2018	2017
	£'000	£'000	£'000	£'000
Sale of goods and services (including recharge of costs)	1,341	842	995	6,115

All sales noted above with the related parties are conducted in line with similar transactions with external parties

Details of key management personnel compensation have been disclosed in note 6, no other transactions were entered into with key management personnel in the year

Two family members of the Non-Executive Chairman are employed in management roles within the business. The total remuneration paid in the year was £169,000 (2017: £157,000). An accrued amount of £37,000 (2017: £20,000) will be paid in the subsequent financial year

26. Pension obligations and employee benefits

The Group operates two employee benefit plans, a defined benefit plan which provides benefits based on final salary which is now closed to new members and a defined contribution group personal plan. The Group personal plan consists of individual contracts with contributions from both the employer and employee. The defined benefit plan was £455,000 (2017: £410,000).

The Company operates a defined benefit plan in the UK. A full actuarial valuation was carried out on 5 April 2018 and updated at 31 December 2018 by an independent qualified actuary.

The assets of the defined benefit plan are managed by a pension fund that is legally separated from the Group. Governance of the plan is the responsibility of appointed trustees, acting on professional advice. The plan is exposed to a number of risks, including changes to long-term UK interest rates and inflation expectations, movements in global investment markets, changes in UK life expectancy rates and regulatory risk from changes in UK pension legislation.

Interest rate risk

The present value of the defined benefit liability is calculated using a discount rate determined by reference to market yields of high quality corporate bonds. The estimated term of the bonds is consistent with the estimated term of the pension obligation and plan assets to the amounts presented in the statement of financial position for 2018 and 2017 is shown below.

	31 December 2018	31 December 2017
	£'000	£'000
Present value of funded obligations	(28,286)	(30,167)
Fair value of plan assets	25,531	27,246
Deficit in the plan	(2,755)	(2,921)
Related deferred tax asset	563	654
Net liability recognised	(2,192)	(2,267)

Defined benefit obligation

The details of the Group's defined benefit obligation are as follows

	31 December 2018	31 December 2017
	£'000	£'000
Opening defined benefit obligation	30,167	30,380
Current service cost (Company only)	44	41
Interest cost	714	754
Actual contributions paid by plan participants	6	6
Experience adjustment	0	362
Actuarial (gains)/ losses from changes in financial assumptions	(1,801)	646
Actuarial gains from changes in demographic assumptions	(197)	(409)
Benefits paid - including insurance premiums	(647)	(1,613)
Past service cost	200	0
Closing defined benefit obligation	28,286	30,167

defined benefit obligation and it is denominated in sterling. A decrease in market yield on high quality corporate bonds will increase the Group's defined benefit liability, although it is expected that this would be offset partially by an increase in the fair value of certain of the plan assets.

Investment risk

The plan assets at 31 December 2018 are predominantly equity and debt instruments.

Longevity risk

The Group is required to provide benefits for life for the members of the defined benefit liability. Increases in the life expectancy of the members, while the pension payments are linked to CPI, will increase the defined benefit liability.

Inflation risk

A significant proportion of the defined benefit liability is linked to inflation. An increase in the inflation rate will increase the Group's liability. A portion of the plan assets is invested in inflation-linked debt securities which will mitigate some of the effects of inflation.

Plan assets

The reconciliation of the balance of the assets held for the Group's defined benefit plan is presented below

	31 December 2018	31 December 2017
	£'000	£'000
Fair value of plan assets at start of accounting period	27,246	23,985
Interest income	655	600
Return on plan assets excluding amounts included in net interest	(2,441)	1,714
Contributions paid by the employer	912	2,554
Actual contributions paid by plan participants	6	6
Benefits paid	(647)	(1,613)
Fair value of plan assets at end of accounting period	25,531	27,246

The actual return on plan assets was a loss of £1,786,000 (2017: gain of £2,314,000). Plan assets do not comprise any of the Group's own financial instruments or any assets used by Group companies. Plan assets can be broken down into the following category of investments

	31 December 2018	31 December 2017
	£'000	£'000
The major categories of plan assets, measured at fair value are		
Equities	2,421	19,006
Gifts	0	1,616
Bonds	0	2,429
Liability driven investments	3,325	0
Diversified growth funds	4,534	0
Absolute return bonds	4,136	0
Equity-linked bonds	8,951	0
Other, including cash	314	2,327
Total fair value of assets	23,681	25,378

	31 December 2018	31 December 2017
	£'000	£'000
Assets included which do not have a quoted market value		
Property	1,850	1,868
Total	1,850	1,868

The property was acquired following a special contribution made by Nimots plc on 21 December 2017

	31 December 2018	31 December 2017
The significant actuarial assumptions used for the valuations are as follows		
Future salary increases	3.20%	3.20%
Rate of increase in (post 1997) pensions in payment (a)	3.20%	3.30%
Discount rate at 31 December	2.80%	2.40%
Expected rate of inflation - RPI	3.20%	3.20%

26 Pension obligations and employee benefits (continued)

Other actuarial assumptions were the rate of salary increases and mortality assumptions. In terms of future salary increases, the actuary is assuming salaries will increase in line with the CPI inflation assumption.

Assumptions regarding future mortality experience are set based on the advice of actuaries and in accordance with published statistics. For members not yet retired, life expectancies have been estimated as 88 years for men (2017: 89 years) and 89 years for women (2017: 90 years). For current pensioners life expectancies have been estimated as 87 years for men (2017: 87 years) and 89 years for women (2017: 89 years).

(a) Increases on pre-6 April 1997 pensions are fixed at 3% per annum. Post-6 April 1997 increases are in line with price inflation, subject to a minimum of 3% and a maximum of 5%.

Over the year, the Company contributed to the plan at the rate of 18.6% of salaries. The Company will continue to contribute at this rate pending the results of the next actuarial valuation. The plan is now closed to new entrants. This means that the average age of the membership can be expected to rise which in turn means that the future service cost (as a percentage of scheme members' pensionable salaries) can be expected to rise.

Defined benefit plan expenses

	31 December 2018	31 December 2017
	£'000	£'000
Amounts recognised in profit or loss are		
Current service cost (Company)	44	41
Net interest cost (on net defined benefit liability)	59	154
Past service cost	200	0
Total amount recognised in the consolidated income statement	303	195

GMP Equalisation

In 2017, a case was brought before the High Court to consider whether there is an obligation to equalise Guaranteed Minimum Pensions (GMPs) for male and female pensioners in respect of defined benefit pension schemes. In October 2018, the court judged that there is an obligation to equalise benefits for men and women, removing inequalities that arise from different GMPs. As a result of this ruling, an assessment of the increase in liabilities of the pension scheme has been made and a resulting charge of £200,000 has been recognised as a past service cost in the year.

The current and past service costs are included in the employee benefits expense and the net interest expense is included in finance costs. Amounts recognised in other comprehensive (expense)/income relating to the Group's defined benefit plan are as follows:

	31 December 2018	31 December 2017
	£'000	£'000
Remeasurements recognised in other comprehensive (expense)/income		
Actuarial (losses)/gains on the assets	(2,441)	1,714
Experience adjustment	0	(362)
Actuarial gains/(losses) from changes in financial assumptions	1,301	(646)
Changes in demographic assumptions	197	409
Other movements	31	25
Total (loss)/gain recognised in other comprehensive (expense)/income	(412)	1,140

Other defined benefit plan information

Employees of the Group are required to contribute a fixed 6% of their pensionable salary.

The remaining contribution is partly funded by the Group's subsidiaries. The funding requirements are based on the pension funds actuarial measurement framework as set out in the funding policies.

Based on historical data, the Group expects contributions of £881,000 to be paid in 2019.

The weighted average duration of the defined benefit obligation at 31 December 2018 is 18 years (2017: 18 years).

The significant actuarial assumptions for the determination of the defined benefit obligation are the discount rate, the inflation assumption and life expectancy.

The calculation of the net defined benefit liability is sensitive to these assumptions.

The table below summarises the sensitivity of a reasonably possible change to one significant actuarial assumption, holding all other assumptions constant, on the obligation.

	31 December 2018	31 December 2018	31 December 2017	31 December 2017
	£'000	%	£'000	%
Increase in discount rate by 0.5%	220	-0.00	204	-7.00
Increase in price inflation adjustment by 0.5%	55	2.00	58	2.00
1 year increase in life expectancy	83	3.00	88	3.00

The sensitivities may not be representative of the actual change in the present value of the scheme obligation, as it is unlikely that the change in assumptions would occur in isolation of each other, as the assumptions may be linked.

The method and assumptions used in this analysis have been reviewed and remain unchanged from the prior year.

27. Audit exemption statement

Under section 474A of the Companies Act 2006 the Group is claiming exemption from audit for the subsidiary companies listed below. The parent undertaking, Nichols plc, registered number 238203, guarantees all outstanding liabilities to its subsidiaries and is subject to the audit of the financial year (being the year ended 31 December 2018 for each company unless otherwise stated). The guarantee is enforceable against the parent undertaking by any person to whom the subsidiary company is liable in respect of those liabilities.

	Company Number
Beacon Drinks Limited	1732905
Ben Shaws Dispense Drinks Limited	231218
Cabana Soft Drinks Limited	938594
Daily Liquid Packing Limited	603111
Festival Drinks Limited	1256006
Vimco (Out of Home) Limited	8795779
Nichols Dispense (S W) Limited	8766560
Dispense Solutions (Wales) Limited (year ended 30 September 2019)	8671127
The Noisy Drinks Co. Limited	5905631
The Noisy Drink Company North West Limited (year ended 31 January 2019)	5024347
DJ Drink Solutions Limited (year ended 31 May 2019)	5787898

28. Contingent liability

The Company had previously entered into contracts with some of its senior management relating to incentive schemes which were designed to motivate, reward and retain the senior management of HMRC. The Company has not entered into any such contracts since the year ended 31 December 2018. The Company may have to pay up to £3.2m in income tax and national insurance. The HMRC pursues its current position and is successful in its argument that the Company may have to pay up to £3.2m in income tax and national insurance. The employees who are party to the contracts have formally indemnified the Company in relation to income tax and employees' national insurance and an amount of up to £2.4m can be requested from them. The Directors have obtained external advice and on the basis of this do not believe that the Company has a liability for any additional tax or national insurance. In common with such disputes with HMRC it may take some time to settle and the Directors are unable to assess how long this will take and the timing of any potential settlement if required. As at the date of this report, there has been no significant progress in the case to note since this time last year.

29. Contingent asset

The Company has submitted an insurance claim under its business interruption policy, following a fire at one of its outsourced co-packers during 2018. This incident has resulted in a loss of sales and additional costs from outsourcing production of some of its products. Confirmation of this being an insurable event has been obtained however, as at the date of this report, the quantum of the claim relating to loss of sales remains unsubstantiated with insurers, as the Company seeks to return to business as usual and establish the true value of the claim to be made.

30. Post balance sheet events

On 1 February 2019, the Group acquired 100% of the issued share capital of Adrian Maclemburgh Limited (AML) for £4.2m. AML is currently one of our Out of Home soft drinks dispense distributors covering the Kent region. This acquisition is consistent with a number of recent successful investments in our Out of Home business and consolidates the route to market in the region.

Details of the book value of identifiable assets acquired are as follows

	£'000
Property, plant and equipment	595
Inventories	243
Receivables	398
Cash	717
Payables	(363)
Total	1,591

At the date of authorisation of these Financial Statements, a detailed assessment of the fair value of the identifiable net assets has not been completed.

Whilst fair value adjustments and recognition of separable intangible assets (such as customer lists) will result in goodwill of less than £2.6m (being the consideration paid less book value of identifiable assets acquired), it is expected that some goodwill will be recognised. The goodwill represents items, such as the assembled workforce, which do not qualify for recognition as assets.

	2018 £'000	2017 £'000	2016 £'000	2015 £'000	2014 £'000

VIMTO®
The STORY OF
A SOFTdrink

Vimto is a soft drink that has it all. Way back in Victorian Manchester (1908 to be precise), John N. Nichols created the drink we all know and love.

significantly created as a herbal tonic, the special combination of fruits, herbs and spices was first known as Vimtoinic and was treated as a healthy pick me up tonic, giving the consumer "vital" (energy, enthusiasm) and "vigour" (strength and power). The new tonic was one of a number of products Nichols would deliver to smaller outlets, cafés and refreshment bars. The distinct herbs and spices that contribute to the secret recipe were sourced from around the world and as Vimto's popularity grew overseas, the Nichols group began developing an export market.

We've left our herbalist trade origins behind, however the Vimto brand, although born in a bygone era, has kept itself young by adapting to changing consumer conditions and tastes through its versatile product range, advertising and packaging. The promotion of Vimto forms a continuous narrative, from the founding of the company in 1908, right through to the present day.

them drinking a hot Vinito as a health tonic in the aromatic surroundings of the gaslit herbalist shop, to the shirrup of a can at a garage forecourt, the brand image as a fun-loving, quality, healthy and good value soft drink remains the same.

John Noel Nichols would have been proud to see how far his barrel of delicious elixir has rolled.
