About Pryme | www.pryme-cleantech.com

Pryme BV is an innovative cleantech company focused on converting plastic waste into valuable products through chemical recycling on an industrial scale. Its efficient and scalable technology is based on a proven pyrolysis process that has been further developed and enhanced with proprietary characteristics. The company is currently building its first plant in the port of Rotterdam with an annual intake of 60,000 mt, which will start production in 2022.

Pryme's ambition is to contribute to a low-carbon, circular plastic economy and to realize the enormous rollout potential of its technology through a combination of owned-operated plants and licensing to strategic partners.

The company is listed on the Oslo Euronext Growth Exchange.
