**Luca Benedetto, Chief Financial Officer of Zenith, commented:**

*"Zenith Energy has undergone a significant degree of transition during the year because of the unforeseen need to initiate the Tunisian arbitrations and our strategic decision to withdraw from jurisdictions where we had previously directed business development efforts. However, the decisive action taken by the Board to safeguard the Company's commercial results will ensure that the Company is fully compensated for the damage it has sustained in Tunisia.*

*Similarly, the potentially transformational reserves obtained by way of the acquisition of Devonian Petroleum in Kazakhstan, to be complemented by acquisitions to be finalized in the USA during 2024, will provide the foundations for our long-term development and commercial success."*
