

Interim Results for the Second Quarter and Half Year ended 30 June 2024

TORM PLC
OFFICE 209(b), 20 ST DUNSTAN'S HILL
LONDON, EC3R 8HL, UNITED KINGDOM
COMPANY: 09818726

Highlights

"Our strong performance continued in the second quarter of 2024, building on the positive momentum from previous quarters," says Jacob Meldgaard, adding: "We will once again distribute significant dividends to our shareholders while also selectively expanding our fleet, further positioning us to capitalize on strong market fundamentals."

In the second quarter of 2024, TORM's time charter equivalent earnings (TCE) amounted to USD 325.9m (2023, same period: USD 308.0m including unrealized gains on derivatives of USD 37.0m). TORM realized an adjusted EBITDA of USD 251.1m (2023, same period: USD 199.8m) and an adjusted net profit for the period of USD 194.2m (2023, same period: USD 148.4m excluding unrealized gains on derivatives).

In the first six months of 2024, TORM achieved TCE of USD 656.6m including unrealized losses on derivatives of USD 1.4m (2023, same period: USD 572.9m including unrealized gains on derivatives of USD 21.2m) and an adjusted EBITDA of USD 518.3m (2023, same period: USD 414.2m) and an adjusted net profit of USD 404.8m (2023, same period: USD 317.9m excluding gains on derivatives), underscoring both strong market fundamentals and the growth of our fleet.

During the second quarter of 2024, the product tanker market remained firm mainly driven by widespread rerouting due to the disruption in the Red Sea as well as ongoing geopolitical tensions. On the supply side, product tanker fleet growth remained at a manageable level. In this market, TORM achieved TCE rates of USD/day 42,057 on average (2023, same period: USD/day 36,360), and available earning days increased to 7,749 (2023, same period: 7,451). Our vessel class LR2 achieved TCE rates of USD/day 51,907, the LR1 vessels achieved TCE rates of USD/day

42,338, and the MR vessels achieved TCE rates of USD/day 38,465.

During the quarter, the weighted number of average outstanding shares excluding treasury shares increased to 94.2m shares which combined with the adjusted net profit led to an EPS of USD 2.08 (2023, same period: USD 1.78 excluding gains on derivatives).

For the second quarter of 2024, Return on Invested Capital amounted to 29.5% (2023, same period: 33.9% including unrealized gains on derivatives) reflecting the strong earnings relative to the increased investments in vessels.

Coverage

As of 11 August 2024, TORM had covered 68% of the 2024 earning days at USD/day 42,205. Hence, 32% of the 2024 full-year earning days are subject to change. Consequently, as 10,215 earning days in 2024 are unfixed, a change in freight rates of USD/day 1,000 will – all other things being equal – impact the EBITDA by USD 10.2m.

Also, as of 11 August 2024, 64% of the Q3 2024 earning days were covered at USD/day 38,340. For the individual vessel classes, the Q3 2024 coverage was 75% at USD/day 45,332 for LR2, 50% at USD/day 36,324 for LR1 and 63% at USD/day 35,701 for MR.

Business Highlights

During the second quarter 2024, TORM took delivery of the last two LR2 vessels (TORM Genesis and TORM Grace) acquired during the fourth quarter of 2023 and delivered a 2006-built MR vessel, TORM Eric, to its new owner. During the same period, TORM sold another 2006-built MR vessel, TORM Platte, with expected delivery to the new owner in the third quarter 2024.

After the closing of the quarter, TORM has further replenished its fleet by acquiring eight second-hand 2014-2015 built MR vessels in a partially share-based transaction. TORM expects the vessels to be delivered during H2 2024. After completion of the deliveries, TORM's fleet size will increase to 96 vessels.

By the end of the second quarter 2024, TORM has 68 scrubbers installed out of a total of 85 planned scrubber installations.

Based on broker valuations, TORM's fleet had a market value of USD 3,730.4m (same period: USD 3,083.6) and TORM's consolidated Net Asset Value (NAV) was USD 3,257.0 m as of 30 June 2024 (2023, same date: USD 2,515.1m). Increase in NAV was primarily driven by an increase in vessel values based on brokers valuation.

Financial Review

TCE

The TCE rate/day increased 10% from USD 38,903 to USD 42,603 in the first six months of 2024 compared to the same period last year. This increase was mainly a result of an increase in revenue partly offset by increased port expenses, bunker, commissions and other costs of goods sold.

Revenue for the first six months of 2024 increased by USD 107.2m to USD 881.7m compared to the same period last year (USD 774.5m), corresponding to a 14% increase. The increase in revenue is primarily driven by a 9% increase in available earning days and improved freight rates.

Revenue in Q2 2024 increased by 14% or USD 53.4m to USD 437.7m compared to the same quarter last year. The increase was partly due to last year's temporary decline in freight rates over the summer as a consequence of released global vessel capacity related to refinery maintenance, seasonally lower Russian exports, and continued stock draws in Europe, and due to an increase of earning days in Q2 2024 of 4%.

Port expenses, bunkers, commissions, and other cost of goods sold for the first six months of 2024 were USD 222.7m, an increase of USD 26.4m compared to USD 196.3m in the same period last year. The change can primarily be attributed to a decrease in unrealized gains of USD 22.6m on derivative financial instruments regarding freight and bunkers.

Port expenses, bunkers, commissions, and other cost of goods sold in Q2 2024 were USD 110.4m, an increase of USD 36.3m compared to USD 74.1m in the same period last year. The change can primarily be attributed to a decrease in unrealized gains of USD 37.0m on derivative financial instruments regarding freight and bunkers.

Assets

As of 30 June 2024, total assets were USD 3,465.5m (2023, same period: USD 2,860.6m). The increase was primarily driven by an increase in the carrying amount of vessels, capitalized dry-docking of USD 379.3m and an increase in cash position of USD 263.4m.

The carrying value of the fleet was USD 2,528.7m as of 30 June 2024 (2023, same period: USD 2,149.4m). The increase was due to investment in 13 vessels of USD 700.8m including capitalized dry-docking delivered during Q3 and Q4 2023 and the first six months of 2024. The increase since 30 June 2023 was partly offset by the disposal of 11 vessels for a total of USD 159.5m, depreciation, including impairments for a total of USD 162.0m.

Based on broker valuations, TORM's fleet on water had a market value of USD 3,730.4m as of 30 June 2024, 47% above carrying value (2023, same period: USD 3,083.6m, 43% above carrying value).

TORM's liquidity position by the end of Q2 2024 was USD 690.4m including restricted cash of USD 5.3m and

undrawn credit facilities of USD 158.0m (2023, same period: USD 496.7m including restricted cash of USD 29.9m and undrawn credit facilities of USD 227.7m).

Equity

As of 30 June 2024, TORM's equity was USD 2,043.7m (2023, same period: USD 1,566.3m), and increased USD 377.6m since 31 December 2023. The development since 31 December 2023 was mainly driven by an increase in retained profit from the net profit for the period of USD 403.4m, capital increases of USD 227.8m related to the purchases of the previously announced MR and LR2 product tankers in partly share-based transactions, and partly offset by dividends paid of USD 267.7m.

Liabilities

As of 30 June 2024, total liabilities were USD 1,421.8m (2023, same period: USD 1,294.3m). The increase was primarily driven by increased borrowings of USD 104.3m due to purchase of new secondhand vessels.

Cash Flow Statement

Net cash flow from operating activities for the first six months of 2024 was USD 468.4m (2023, same period: USD 407.3m). The increase was primarily driven by an improvement in net profit for the period offset by working capital binding related to trade receivables.

Financial Review

Net cash flow from investing activities for the first six months of 2024 was USD -150.0m (2023, same period: USD -344.4m). The improved cash flow from investing activities is a result of lower cash investment in new vessels, increased sales of existing vessels and release of restricted cash compared to the first six months of 2023.

Net cash flow from financing activities for the first six months of 2024 was USD -56.8m (2023, same period: USD -144.3m). The improved cash flow is mainly a result of lower dividend payments compared to the first six months of 2023.

Distribution

TORM's Board of Directors has today approved an interim dividend for the second quarter of 2024 of USD 1.80 per share to be paid to the shareholders corresponding to an expected total dividend payment of USD 169.8m. The distribution for the quarter is equivalent to 73% of net profit adjusted for profit from sale of vessels and reflects the Distribution Policy implemented this year. The payment date is 11 September 2024 to all shareholders of record as of 29 August 2024, and the ex-dividend date is 28 August 2024 for the shares listed on Nasdaq OMX Copenhagen and 29 August 2024 for the shares listed on Nasdaq New York.

The Product Tanker Market

Market Developments in Q2 2024

The product tanker market remained at strong levels in the second quarter, mainly driven by widespread rerouting due to continued Houthi attacks against commercial vessels in the Bab al-Mandeb Strait. In addition, trade volumes continued to grow compared to the levels seen a year ago.

Earnings for LR2 vessels remained at strong levels, although less volatility resulted in lower average rate level than in the first quarter. While cargo volumes lifted on LR2 vessels came in lower than a year ago, longer trading distances kept LR2 ton-miles elevated. Longer sailing distances lowered vessel availability and absorbed a clean-up of a number of crude tankers, which lifted diesel from East to West towards the end of the quarter.

At the same time, volumes lifted by MRs increased by 6% year-on-year, resulting in benchmark MR rates slightly above the first quarter levels. Volume growth was mainly driven by higher exports from the USG and Far East.

Longer sailing distances and higher trade volumes resulted in overall increase in product tanker ton-miles, which climbed to an all-time high in the second quarter.

Market Outlook

The disruption of trade flows through the Bab-el-Mandeb Strait is expected to continue to support the product tanker ton-miles and freight rates in the second half of the year, along with positive market fundamentals. Seasonally strengthening crude tanker market towards the fourth quarter is expected to lower the number of dirty tankers in clean trading.

In the medium term (two-three years), the market is expected to benefit from high capacity utilization and manageable newbuilding deliveries for both product and crude tankers. The market is further supported by fundamental changes in the oil market with refineries having closed down in importing regions such as Australia and New Zealand, while new refining capacity has been added in the Middle East.

Outlook for 2024

Financial Outlook for 2024

To assess our financial performance, we include the number of covered days, interest-bearing bank debt, the TCE, and EBITDA sensitivity to freight rates in our periodic ongoing reporting.

The primary driver for our financial performance is the product tanker market which is highly uncertain and therefore expected to be highly volatile. We aim to maintain a relatively stable OPEX on a per vessel day basis.

Our financial outlook is primarily based on the assumptions described on the preceding pages. The most important macroeconomic factors affecting our TCE earnings are expected to be:

- Geopolitical conflicts including the war between Russia and Ukraine and the conflicts in the Middle East region
- Global economic growth or recession, consumption of refined oil products, and inflationary pressure
- Location of closing and opening refineries and temporary shutdowns due to maintenance
- Oil price development
- Oil trading activity and developments in ton-mile
- Bunker price developments
- Global fleet growth and newbuilding ordering activity

- Potential difficulties of major business partners
- One-off market-shaping events such as strikes, conflicts, embargoes, political instability, weather conditions, etc.

We have limited visibility on TCE rates that are not yet fixed with our customers. Hence, these rates may be significantly lower or significantly higher than our current expectations.

Based on the earnings realized in the first half of the year TORM narrows its full-year guidance for 2024 by increasing the low end of the guidance range, thus TCE earnings are expected to be USD 1.15 - 1.35bn (previous guidance USD 1.1 - 1.35bn, and EBITDA is expected to be USD 850-1,050m (previous guidance 800 - 1,050m) based on the current fleet size including published acquisitions and divestment of vessels.

Disclaimer on Financial Outlook

The purpose of this Financial Outlook for 2024 is to comply with reporting requirements for Companies listed in Denmark. Actual results may vary, and this information may not be accurate or appropriate for other purposes. Information about our financial outlook for 2024, including the various assumptions underlying it, is forward-looking and should be read in conjunction with the Safe Harbor Statements on page 12, and the related disclosure and information about various economic, competitive, and regulatory assumptions, factors, and risks that may cause our actual future financial and operating results to differ materially from what we currently expect.

The information included in this Financial Outlook for 2024 is preliminary, unaudited and based on estimates and information available to us at this time. TORM has not finalized its financial statements for the periods presented. During the course of the financial statement closing process, TORM may identify items that would require it to make adjustments, which may be material to the information provided in this section. As mentioned above, the provided information constitutes forward-looking statements and is subject to risks and uncertainties, including possible adjustments to the financial outlook for 2024.

Coverage 2024

Total earning and covered days in TORM as of 11 August 2024

The coverage tables below include both FFA contracts and the physical fleet.

	Q3 2024	Q4 2024	FY 2024

TORM Fleet Development

The table shows recent and expected developments in TORM's operating fleet. In addition to 65 owned product tankers as of 30 June 2024, TORM had 24 vessels under sale-and-leaseback agreements with options to buy back the vessels (financially reported as owned vessels in accordance with our accounting policies).

TORM acquired nine second-hand LR2 vessels from the fourth quarter of 2023 to the first quarter of 2024. Seven of the LR2 vessels acquired were delivered during Q1 2024. During Q2 2024, TORM took delivery of the remaining two LR2 vessels (2011-built TORM Genesis and 2012-built TORM Grace) purchased in November 2023.

During Q1 2024, TORM sold one 2006-built MR vessel, TORM Eric, which was delivered in Q2 2024.

During Q2 2024, TORM entered into an agreement to sell another 2006-built MR vessel, TORM Platte, which was delivered to the new owners in early Q3 2024.

Further, in early Q3 2024, TORM entered into an agreement to acquire eight second-hand MR vessels. The first vessel, TORM Diwata, has been delivered. The remaining seven vessels are expected to be delivered in the second half of 2024 after which the fleet size will increase to 96 vessels.

The interim report has been prepared solely to provide additional information to shareholders to assess the Group's strategies and the potential for those strategies to succeed. The interim report should not be relied on by any other party or for any other purpose.

The interim report contains certain forward-looking statements. These statements are made by the Directors in good faith based on the information available to them up to the time of their approval of this report. Such statements should be treated with caution due to the inherent uncertainties, including both economic and business risk factors, underlying any such forward-looking statements.

Safe Harbor Statement as to the Future

Matters discussed in this release may constitute forward-looking statements. The Private Securities Litigation Reform Act of 1995 provides safe harbor protections for forward-looking statements in order to encourage companies to provide prospective information about their business. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are statements other than statements of historical facts. The Company desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and is including this cautionary statement in connection with this safe harbor legislation. Words such as, but not limited to, "expects," "anticipates," "intends," "plans," "believes," "estimates," "targets," "projects," "forecasts," "potential," "continue," "possible," "likely," "may," "could," "should" and similar expressions or phrases may identify forward-looking statements. The forward-looking statements in this release are based upon various assumptions, many of which are, in turn, based upon further assumptions, including without limitation, the Management's examination of historical operating trends, data contained in our records and other data available from third parties. Although the Company believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies that are difficult or impossible to predict and are beyond our control, the Company cannot guarantee that it will achieve or accomplish these expectations, beliefs, or projections. Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include, but are not limited to, our future operating or financial results; changes in governmental rules and regulations or actions taken by regulatory authorities; the central bank policies intended to combat overall inflation and rising interest rates and foreign exchange rates; inflationary pressure; increased cost of capital or limited access to funding due to EU Taxonomy or

relevant territorial taxonomy regulations; the length and severity of epidemics and pandemics and their impact on the demand for seaborne transportation of petroleum products; general domestic and international political conditions or events, including sanctions, "trade wars", and the conflict between Russia and Ukraine, the developments in the Middle East, including the conflicts in Israel and the Gaza Strip, and the conflict regarding the Houthi attacks in the Red Sea; changes in economic and competitive conditions affecting our business, including market fluctuations in charter rates and charterers' abilities to perform under existing time charters; changes in the supply and demand for vessels comparable to ours and the number of newbuildings under construction; the highly cyclical nature of the industry that we operate in; the loss of a large customer or significant business relationship; changes in worldwide oil production and consumption and storage; risks associated with any future vessel construction; our expectations regarding the availability of vessel acquisitions and our ability to complete acquisition transactions planned; availability of skilled crew members other employees and the related labor costs; work stoppages or other labor disruptions by our employees or the employees of other companies in related industries; the impact of increasing scrutiny and changing expectations from investors, lenders and other market participants with respect to our ESG policies; Foreign Corrupt Practices Act of 1977 or other applicable regulations relating to bribery; effects of new products and new technology in our industry, including the potential for technological innovation to reduce the value of our vessels and charter income derived therefrom; new environmental regulations and restrictions, whether at a global level stipulated by the International Maritime Organization, and/or imposed by regional or national authorities such as the European Union or individual countries; the impact of an interruption in or failure of our information technology and communications systems, including the impact of cyber-attacks, upon our ability to operate; potential conflicts of interest involving members of our Board of Directors and Senior Management; the failure of counterparties to fully perform their contracts with us; changes in credit risk with respect to our counterparties on contracts; our dependence on key personnel and our ability to attract, retain and motivate key

employees; adequacy of insurance coverage; our ability to obtain indemnities from customers; changes in laws, treaties or regulations; our incorporation under the laws of England and Wales and the different rights to relief that may be available compared to other countries, including the United States; government requisition of our vessels during a period of war or emergency; the arrest of our vessels by maritime claimants; any further changes in U.S. trade policy that could trigger retaliatory actions by the affected countries; potential disruption of shipping routes due to accidents, climate-related incidents, environmental factors, political events, public health threats, acts by terrorists or acts of piracy on ocean-going vessels; the impact of adverse weather and natural disasters; damage to storage and receiving facilities; potential liability from future litigation and potential costs due to environmental damage and vessel collisions; and the length and number of off-hire periods and dependence on third-party managers. In the light of these risks and uncertainties, undue reliance should not be placed on forward-looking statements contained in this release because they are statements about events that are not certain to occur as described or at all. These forward-looking statements are not guarantees of our future performance, and actual results and future developments may vary materially from those projected in the forward-looking statements. Except to the extent required by applicable law or regulation, the Company undertakes no obligation to release publicly any revisions or updates to these forward-looking statements to reflect events or circumstances after the date of this release or to reflect the occurrence of unanticipated events. Please see TORM's filings with the U.S. Securities and Exchange Commission for a more complete discussion of certain of these and other risks and uncertainties. The information set forth herein speaks only as of the date hereof, and the Company disclaims any intention or obligation to update any forward-looking statements as a result of developments occurring after the date of this communication.

NOTE 1 - ACCOUNTING POLICIES AND GOING CONCERN

General Information

The information for the year ended 31 December 2023 does not constitute statutory accounts as defined in section 434 of the Companies Act 2006. A copy of the statutory accounts for that year has been delivered to the Registrar of Companies. The Auditor's Report on those accounts was not qualified, did not include a reference to any matters to which the auditors drew attention by way of emphasis without qualifying the report and did not contain statements under section 498(2) or (3) of the Companies Act 2006.

The interim report for the period 01 January-30 June 2024 is unaudited.

Significant Accounting Policies

The interim report for the period 01 January-30 June 2024 is presented in accordance with IAS 34 "Interim Financial Reporting" ("IAS 34") as adopted in the UK. The interim financial statements are also prepared in accordance with IAS 34 as issued by the International Accounting Standards Board ("IASB") and IAS 34 as adopted by the EU, as applied to financial periods beginning on or after 01 January 2024 and the additional Danish disclosure requirements for interim reports of listed companies.

TORM has implemented the following standards and amendments issued by the IASB and adopted by the UK and the EU in the consolidated financial statements for 2024:

- Amendments to IAS 1 Presentation of Financial Statements
- Amendments to IFRS 16 Lease Liability in a Sale and Leaseback
- Amendments to IAS 7 and IFRS 7 Supplier Finance Arrangements

For the new standards and amendments, it is assessed that application of these effective on 01 January 2024 has not had any material impact on the consolidated financial statements in 2024. The interim report has been prepared using the same accounting policies and methods of computation as in the Annual Report 2023.

As part of Pillar Two income taxes implementation, the Group has prepared a preliminary Transitional Country-by-Country Reporting (CbCR) Safe Harbor assessment. The Group expects to be eligible for the Transitional CbCR Safe Harbor in the majority of jurisdictions in which the Group is present during fiscal year 2024. At 30 June 2024, there are no indications that the top-up tax will have material impact to the Group in 2024.

For critical estimates and judgements, please refer to the Annual Report 2023, pages 153-154.

NOTE 1 - continued

Going Concern

TORM monitors its funding position throughout the year to ensure that it has access to sufficient funds to meet its forecast cash requirements, including newbuilding, second-hand vessels and loan commitments, and to monitor compliance with the financial covenants within its loan facilities. As of 30 June 2024, TORM's available liquidity including undrawn facilities was USD 690.4m, including a total cash position of USD 532.4m (including restricted cash of USD 5.3m). TORM's net interest-bearing debt was USD 737.4m, and the net debt loan-to-value ratio was 20.4%. TORM performs sensitivity calculations to reflect different scenarios including, but not limited to, future freight rates and vessel valuations in order to identify risks to future liquidity and covenant compliance and to enable Management to take corrective actions, if required.

The sensitivity calculation is similar to those applied in connection with covenant testing in the Annual Report. The principal risks and uncertainties facing TORM are set out on page 82 and onwards in the 2023 Annual Report. A key element for TORM's financial performance in the going concern period relates to the increased geopolitical risk following Russia's invasion of Ukraine in February 2022 and the associated effects on the product tanker market. The changed geopolitical situation has so far been positive for the product tanker market. TORM also closely monitors the development of the conflict between Hamas and Israel including related conflicts in the rest of the Middle East region and the potential effects on the product tanker market. In the base case, TORM has sufficient liquidity and headroom for all the covenant limits.

The Board of Directors has considered TORM's cash flow forecasts and the expected compliance with TORM's financial covenants for a period of not less than 12 months from the date of approval of this interim report. Based on this review, the Board of Directors has a reasonable expectation that, taking into account reasonably possible changes in trading performance and vessel valuations, TORM will be able to continue in operational existence and comply with its financial covenants for the next 12 months. Accordingly, TORM continues to adopt the going concern basis in preparing its financial statements.

NOTE 2 - STAFF COSTS

Staff costs included in operating expenses relate to the 109 seafarers employed under Danish contracts (30 June 2023: 99, 31 December 2023: 105).

The average number of employees is calculated as a full-time equivalent (FTE).

USDm	Q2 2024	Q2 2023	Q1-Q2 2024	Q1-Q2 2023	FY 2023
Included in operating expenses	2.6	2.1	4.9	4.2	8.6
Included in administrative expenses	18.8	18.7	40.4	32.7	69.3
Total staff costs	21.4	20.8	45.3	36.9	77.9

As at 30 June 2024 TORM has a pool of 3,291 (30 June 2023: 3,186, 31 December 2023: 3,271) seafarers.

The majority of seafarers on vessels are on short-term contracts. The average number of seafarers on board vessels on short-term contracts for the first six months of 2024 were on average 1,668 (30 June 2023: 1,624, 31 December 2023: 1,625).

Total seafarers costs for the first six months of 2024 were USD 68.6m (30 June 2023: USD 62.9m, 31 December 2023: USD 127.1m) which are included in "Operating expenses" of which USD 63.7m (30 June 2023: USD 58.8m, 31 December 2023: USD 118.5m) pertains to cost for seafarers on board vessels on short-term contracts and USD 4.9m (30 June 2023: USD 4.2m, 31 December 2023: USD 8.6m) pertains to cost for seafarers employed under the Danish contract as indicated in the staff costs table above.

Total compensation to the Board of Directors and the CEO expensed during the period amounts to USD 2.3m (30 June 2023: USD 1.7m, 31 December 2023: USD 3.3m) excluding share-based compensation.

As announced on 07 March 2024, the Board of Directors agreed to grant a total of 1,214,986 (2023: 1,248,153) RSUs to certain employees. The vesting period of the program is three years. The exercise price is set at DKK 258.4 (2023: DKK 220.6). The exercise price is adjusted in the future by dividend payments. The exercise period is 360 days from each vesting date. The fair value of the RSUs granted was determined using the Black-Scholes model and amounts to USD 8.1m (30 June 2023: 10.8m). The average remaining contractual life for the restricted shares as of 30 June 2024 is 1.5 years (30 June 2023: 1.5 years, 31 December 2023: 1.5 years).

In addition to the RSUs granted to certain employees, the CEO was granted 255,200 restricted stock options on similar terms as outlined above. The fair value of the CEO's options was determined using the Black-Scholes model and amounts to USD 1.9m.

NOTE 3 - VESSEL AND CAPITALIZED DRY-DOCKING

USDm	30 June 2024	30 June 2023	31 December 2023
Cost:			
Balance as of beginning of period	2,622.1	2,421.2	2,421.2
Additions	428.3	352.1	476.0
Disposals	-7.2	-23.0	-31.9
Transferred from prepayments	141.0	33.0	40.6
Transferred to assets held-for-sale	-43.7	-39.1	-283.8
Balance	3,140.5	2,744.2	2,622.1
Depreciation:			
Balance as of beginning of period	536.3	543.8	543.8
Disposals	-7.2	-22.7	-31.9
Depreciation for the period	87.5	69.2	143.7
Transferred to assets held-for-sale	-19.5	-16.0	-119.3
Balance	597.1	574.3	536.3
Impairment:			
Balance as of beginning of period	15.6	21.5	21.5
Transferred to assets held-for-sale	-0.9	-1.0	-5.9
Balance	14.7	20.5	15.6
Carrying amount	2,528.7	2,149.4	2,070.2

Included in the carrying amount for "Vessels and capitalized dry-docking" are capitalized dry-docking costs in the amount of USD 81.0m (30 June 2023: USD 63.5m, 31 December 2023: USD 75.1m).

The depreciation for the six months ended 30 June 2024 related to "Other plant and operating equipment" of USD 0.7m (30 June 2023: USD 1.7m, 31 December 2023: USD 2.5m) and "Land and buildings" of USD 1.3m (30 June 2023: USD 1.2m, 31 December 2023: USD 2.5m) is related to "Administrative expenses".

NON-CURRENT ASSETS SOLD DURING THE PERIOD AND ASSETS HELD FOR SALE

During the first six months of 2024, TORM sold one vessel (30 June 2023: one, 31 December 2023: eight) and delivered three vessels sold in 2023 for a total consideration of USD 88.4m (30 June 2023: USD 15.3m, 31 December 2023: USD 166.4m). The vessels delivered to new owners during the first six months of 2024 had a carrying value of USD 58.5m (30 June 2023: USD 11.7m, 31 December 2023: USD 111.4m). After deducting related bunker cost, the sales resulted in a profit of USD 27.6m (30 June 2023: USD 3.5m, 31 December 2023: USD 50.4m) which is recognized in the income statement for 2024.

NOTE 3 - continued

In addition, TORM sold one vessel during the first six months of 2024 (30 June 2023: One vessel, 31 December 2023: Three vessels) that is not yet delivered to the new owners. The vessel is recognized as asset held for sale at a carrying value of USD 12.4m at 30 June 2024 (30 June 2023: USD 10.8m 31 December 2023: USD 47.2m). The vessel is expected to be delivered during the third quarter of 2024.

IMPAIRMENT ASSESSMENT

For determination of the vessel values, TORM has carried out an impairment indicator assessment and has found no indication of impairment, and therefore, TORM does not find any need to reassess the recoverable amount as of 30 June 2024.

NOTE 4 - PREPAYMENTS ON VESSELS

NOTE 8 - PROVISIONS

In 2020, TORM was involved in cargo claims relating to a customer having granted indemnities for discharge of cargoes, and not being able to honor those obligations. The cases involved irregular activities by the customer. Legal action was initiated by TORM in the UK and in India against the customer and related individuals. During 2022, TORM settled one claim and reassessed its provisions for the remaining part of the case complex, which led to the reversal of provisions amounting to USD 6.3m.

As expected at the end of 2023, the remaining part of the case complex was resolved in arbitration during Q1-2024 with an award in favor of TORM.

NOTE 9 - CONTINGENT LIABILITIES

TORM is involved in certain legal proceedings and disputes. It is the Management's opinion that the outcome of these proceedings and disputes will not have any material impact on TORM's financial position, results of operations, and cash flows.

NOTE 10 - CONTRACTUAL OBLIGATIONS AND RIGHTS

As of 30 June 2024, TORM had contractual obligations regarding second-hand vessels, scrubber installations and other minor commitments.

USDm	30 June 2024	30 June 2023	31 December 2023
Second-hand vessels commitments:			
Within one year	—	—	190.4
Total	—	—	190.4
Committed scrubber installations and other minor investments:			
Within one year	17.4	16.7	23.6

Received between one and two years	38.3	—	24.1
Received between two and three years	25.1	—	—
Total	152.0	—	61.9

The charter hire income for these vessels under time charter is recognized under "Revenue".

NOTE 11 - SUBSEQUENT EVENTS

On 15 July 2024, TORM has entered into an agreement to acquire eight second-hand MR vessels that are expected to be delivered during Q3 2024 and Q4 2024 for a total consideration of USD 340m, with a cash consideration of USD 238m and the issuance of approximately 2.65 million shares. The purchase price is subject to certain adjustments that will be impacted by TORM's share price development and the vessels' delivery schedules. On 29 July 2024, TORM took delivery of the one of these eight second-hand MR vessels.

TORM's Board of Directors has decided to declare a dividend of 1.80 per share, with an expected total dividend payment of USD 169.8m. The distribution is in line with TORM's Distribution Policy implemented in 2022 and amended in March 2024. Payment is expected on 11 September 2024 to shareholders of record on 29 August 2024, with the ex-dividend date on 28 August 2024 (in Denmark and 29 August 2024 in United States). The dividends have not been recognized as liabilities as at 30 June 2024 and there are no tax consequences.

NOTE 12 - RELATED PARTY TRANSACTIONS

During the first six months ended 30 June 2024, there have been no other related party transactions than ordinary remuneration to the Board of Directors and the CEO. Please refer to Note 2.

Equity ratio	=	Equity Total assets
Earnings per share, EPS	=	Net profit for the year Average number of shares
Diluted earnings per share, EPS (USD)	=	Net profit/(loss) for the year Average number of shares less average number of treasury shares

Glossary

Alternative Performance Measures Group

Throughout the interim report, several alternative performance measures (APMs) are used. The APMs used are the same as in the Annual Report 2023 and therefore we refer to the principles for these on pages 222-225 in the TORM plc Annual Report 2023. The following APMs relate to the Group.

Net profit for the year excluding non-recurring items: Net profit excluding non-recurring items is net profit less non-recurring items, e.g. impairment and reversals of impairment on vessels, profit from sale of vessels and claims provisions. TORM reports net profit excluding non-recurring items because we believe it provides additional meaningful information to investors regarding the operational performance excluding non-recurring fluctuations.

USDm	Q2 2024	Q2 2023	Q1-Q2 2024	Q1-Q2 2023	FY 2023
Reconciliation to net profit:					
Net profit for the period	194.2	185.4	403.4	339.1	648.0
Profit from sale of vessels	-10.5	-3.5	-27.6	-3.5	-50.4
Provisions	—	—	—	—	-6.5
Expense of capitalized bank fees at refinancing	—	2.4	0.5	2.4	3.5
Termination of leaseback arrangement	—	—	—	—	1.3
Net profit for the year ex. non-recurring items	183.7	184.3	376.3	338.0	595.9

Gross profit: TORM defines gross profit, a performance measure, as revenues less port expenses, bunkers and commissions and other cost of goods and services sold, charter hire and operating expenses. TORM reports gross profit because we believe it provides additional meaningful information to investors, as gross profit measures the net earnings from shipping activities. Gross profit is calculated as follows:

USDm	Q2 2024	Q2 2023	Q1-Q2 2024	Q1-Q2 2023	FY 2023
Reconciliation to revenue					
Revenue	437.7	384.3	881.7	774.5	1,520.4
Port expenses, bunkers, commissions and other cost of goods and services sold	-110.4	-74.1	-222.7	-196.3	-430.3
Operating expenses	-62.7	-54.8	-119.3	-106.7	-216.0
Gross profit	264.6	255.4	539.7	471.5	874.1

Return on Invested Capital (ROIC): TORM defines ROIC as earnings before interest and tax (EBIT) less tax, divided by the average invested capital for the period. Invested capital is defined on page 31.

ROIC expresses the returns generated on capital invested in TORM. The progression of ROIC is used by TORM to measure progress against our longer-term value creation goals outlined to investors. ROIC is calculated as follows:

USDm	Q2 2024	Q2 2023	Q1-Q2 2024	Q1-Q2 2023	FY 2023
Operating profit (EBIT)					
Operating profit (EBIT)	204.3	199.8	427.0	363.3	698.6
Tax	1.1	1.0	-0.5	-0.4	-4.0
EBIT less Tax	205.4	200.8	426.5	362.9	694.6
EBIT less Tax - Full year equivalent	821.6	803.2	853.0	725.8	694.6
Invested capital, opening balance	2,806.7	2,291.7	2,425.1	2,142.3	2,142.3
Invested capital, ending balance	2,764.8	2,446.4	2,764.8	2,446.4	2,425.1
Average invested capital	2,785.8	2,369.1	2,595.0	2,294.4	2,283.7
Return on Invested Capital (ROIC)	29.5 %	33.9 %	32.9 %	31.6 %	30.4 %

Glossary

Alternative Performance Measures Group

Adjusted Return on Invested Capital (Adjusted ROIC): TORM defines adjusted ROIC as earnings before interest and tax (EBIT) less tax and non-recurrent items, divided by the average invested capital less average impairment for the period. Invested capital is defined on page 31.

The Adjusted ROIC expresses the returns generated on capital invested in TORM adjusted for impacts related to non-recurrent items. The progression of ROIC is used by TORM to measure progress against our longer-term value creation goals outlined to investors. Adjusted ROIC is calculated as follows:

USDm	Q2 2024	Q2 2023	Q1-Q2 2024	Q1-Q2 2023	FY 2023
EBIT less Tax - Full year equivalent	821.6	803.2	853.0	725.8	694.6
Profit from sale of vessels	-10.5	-3.5	-27.6	-3.5	-50.4
Provisions	—	—	—	—	-6.5
EBIT less tax adjusted	811.1	799.7	825.4	722.3	637.7
Average invested capital ¹⁾	2,785.8	2,369.1	2,595.0	2,294.4	2,283.7
Average impairment ²⁾	26.5	32.4	26.5	32.4	29.9
Average invested capital adjusted for impairment	2,812.3	2,401.5	2,621.5	2,326.8	2,313.6
Adjusted ROIC	28.8 %	33.3 %	31.5 %	31.0 %	27.6 %

¹⁾ Average invested capital is calculated as the average of the opening and closing balance of invested capital.

²⁾ Average impairment is calculated as the average of the opening and closing balances of impairment charges on vessels and goodwill in the balance sheet.

EBITDA: TORM defines EBITDA as earnings before financial income and expenses, depreciation, impairment, amortization and taxes. The computation of EBITDA refers to financial income and expenses which TORM deems to be equivalent to "interest for purposes of presenting EBITDA".

Financial expenses consist of interest on borrowings, losses on foreign exchange transactions and bank charges. Financial income consist of interest income and gains on foreign exchange transactions.

EBITDA is used as a supplemental financial measure by Management and external users of financial statements, such as lenders, to assess TORM's operating performance as well as compliance with the financial covenants and restrictions contained in TORM's financing agreements. TORM believes that EBITDA assists Management and investors in evaluating TORM's operating performance by increasing comparability of TORM's performance from period to period. This increased comparability is achieved by excluding the potentially disparate effects of interest, depreciation, impairment, amortization, and taxes. These are items which could be affected by various changing financing methods and capital structures, which may significantly affect profit/(loss) between periods. Including EBITDA as a measure benefits investor in selection between investment alternatives.

EBITDA excludes some, but not all, items that affect profit/ (loss), and these items may vary among other companies and may therefore not be directly comparable. The following table reconciles EBITDA to net profit/ (loss), the most directly comparable IFRS financial measure, for the periods presented.

Due to the temporary fluctuations of the fair value of freight and bunker derivatives, Management believes that an adjustment for unrealized gain/losses on freight and bunker derivatives help to increase comparability in EBITDA developments. The adjusted EBITDA is calculated as follows:

USDm	Q2 2024	Q2 2023	Q1-Q2 2024	Q1-Q2 2023	FY 2023
Net profit for the period	194.2	185.4	403.4	339.1	648.0
Tax	-1.1	-1.0	0.5	0.4	4.0
Financial expenses	18.9	18.0	37.2	30.5	60.9
Financial income	-7.7	-2.6	-14.1	-6.7	-14.3
Depreciation and amortization	46.8	37.0	89.9	72.1	149.3
EBITDA	251.1	236.8	516.9	435.4	847.9
Fair value adjustments on freight and bunker derivatives	—	-37.0	1.4	-21.2	-1.5
Adjusted EBITDA	251.1	199.8	518.3	414.2	846.4

Glossary

Alternative Performance Measures Group

Invested capital: TORM defines invested capital as the sum of intangible assets, tangible fixed assets, investments in joint ventures, deferred tax assets, other investments, bunkers, accounts receivables, assets held for sale (when applicable), non-current tax liability related to held over gains, deferred tax liabilities, trade payables, current tax liabilities, dividend payable, provisions and deferred income. Invested capital measures the net investment used to achieve our operating profit. TORM believes that invested capital is a relevant measure which Management uses to measure the overall development of the assets and liabilities generating our net profit. Such measure may not be comparable to similarly titled measures of other companies. Invested capital is calculated as follows:

USDm	30 June	30 June	31 December
	2024	2023	2023
Tangible and intangible fixed assets	2,544.2	2,167.5	2,173.8
Investments in joint ventures	0.1	—	0.1
Deferred tax asset	0.3	0.3	0.4
Other investments	0.5	—	—
Inventories	69.4	66.9	61.7
Accounts receivables ¹⁾	301.7	341.5	286.7
Assets held-for-sale	12.4	10.8	47.2
Non-current tax liability related to held over gains	-45.2	-45.2	-45.2
Deferred tax liability	-2.4	-4.6	-3.6
Trade payables ²⁾	-108.0	-81.9	-91.3
Current tax liabilities	-1.5	-1.3	-0.7
Provisions	-0.6	-6.8	-0.6
Deferred income	-6.1	-0.8	-3.4
Invested capital	2,764.8	2,446.4	2,425.1

¹⁾ Accounts receivables includes Trade receivables, Other receivables and Prepayments.

²⁾ Trade payables includes Trade payables, Other non-current liabilities and Other liabilities.

Net interest-bearing debt: Net interest-bearing debt is defined as mortgage debt and bank loans (current and non-current), lease liabilities less cash equivalents and interest-bearing loan receivables. Net interest-bearing debt depicts the net capital resources, which cause net interest expenditure and interest rate risk and which, together with equity, are used to finance our investments. As such, TORM believes that net interest-bearing debt is a relevant measure, which Management uses to measure the overall development of our use of financing, other than equity. Such measure may not be comparable to similarly titled measures of other companies. Net interest-bearing debt is calculated as follows:

USDm	30 June	30 June	31 December
	2024	2023	2023
Borrowings ¹⁾	1,274.3	1,167.2	1,073.5
Loan receivables	-4.5	-4.6	-4.5
Cash and cash equivalents, including restricted cash	-532.4	-269.0	-295.6
Net interest-bearing debt	737.4	893.6	773.4

¹⁾ Borrowings include long-term and short-term borrowings, excluding capitalized loan costs of USD 16.3 m.

Glossary

Alternative Performance Measures Group

Liquidity: TORM defines liquidity as available cash, comprising cash and cash equivalents, including restricted cash, as well as undrawn and committed credit facilities. TORM finds the APM important as the liquidity expresses TORM's financial position, ability to meet current liabilities and cash buffer. Further, it expresses TORM's ability to act and invest when new possibilities occur.

USDm	30 June	30 June	31 December
	2024	2023	2023
Cash and cash equivalents, including restricted cash	532.4	269.0	295.6
Undrawn credit facilities and committed facilities	158.0	227.7	342.5
Liquidity	690.4	496.7	638.1

Restricted cash 30 June 2024 amounts to USD 5.3m (30 June 2023: USD 29.9, 31 December 2023: USD 30.1m)

Free cash flow: TORM defines free cash flow as net cash flow from operating activities less the net cash flow from investing activities. TORM finds the APM important as free cash flow reflects our ability to generate cash, repay liabilities and pay dividends.

USDm	Q2	Q2	Q1-Q2	Q1-Q2	FY
	2024	2023	2024	2023	2023
Net cash flow from operating activities	281.7	192.6	468.4	407.3	805.0
Net cash flow from investing activities	11.1	-102.8	-150.0	-344.4	-370.6
Free cash flow	292.8	89.8	318.4	62.9	434.4

Net Asset Value per share (NAV/share): TORM believes that the NAV/share is a relevant measure which Management uses to measure the overall development of the assets and liabilities per share. Such measure may not be comparable to similarly titled measures of other companies. NAV/share is calculated using broker values of vessels and excluding charter commitments. NAV/share is calculated as follows:

USDm	30 June	30 June	31 December
	2024	2023	2023
Total vessel values (broker values)	3,730.4	3,083.6	3,080.9
Vessel values of purchased secondhand vessels not delivered (broker values)	—	—	479.9
Committed investment capital expenditure	29.0	16.7	35.7
Committed liability capital expenditure	-29.0	-16.7	-226.1
Goodwill	1.8	1.8	1.8
Other intangible assets	2.2	1.8	1.9
Land and buildings	4.1	5.3	5.5
Other plant and operating equipment	3.5	4.8	4.4
Investments in joint ventures	0.1	—	0.1
Loan receivables	4.5	4.6	4.5
Deferred tax asset	0.3	0.3	0.4
Other investments	0.5	—	—
Inventories	69.4	66.9	61.7
Accounts receivables ¹⁾	301.7	341.5	286.7
Cash and cash equivalents incl. restricted cash	532.4	269.0	295.6
Deferred tax liability	-2.4	-4.6	-3.6
Borrowings ²⁾	-1,274.3	-1,167.2	-1,073.5
Trade payables ³⁾	-108.0	-81.9	-91.3
Current tax liabilities	-1.5	-1.3	-0.6
Provisions	-0.6	-6.8	-0.6
Prepayments from customers	-6.1	-0.8	-3.4
Total Net Asset Value (NAV)	3,258.0	2,517.0	2,860.0
Non-controlling interest	-1.0	-1.9	-2.0
Total Net Asset Value (NAV) excl. non-controlling interest	3,257.0	2,515.1	2,858.0
Total number of shares, end of period excluding treasury shares (million)	94.0	84.4	85.7
Total Net Asset Value per share (NAV/share)	34.6	29.8	33.3

¹⁾ Accounts receivables includes Trade receivables, Other receivables and Prepayments.

²⁾ Borrowings include long-term and short-term borrowings, excluding capitalized loan costs of USD 16.3m.

³⁾ Trade payables includes Trade payables, Other non-current liabilities and Other liabilities.

Glossary

Alternative Performance Measures Tanker segment

Throughout the interim report, several alternative performance measures (APMs) are used. The APMs used are the same as in the Annual Report 2023 and therefore we refer to the principles for these on pages 198-202 in the TORM plc Annual Report 2023. After the acquisition of Marine Exhaust Technology A/S on 01 September 2023, the following APMs relate to the primary segment, the Tanker segment.

Time Charter Equivalent (TCE) earnings: TORM defines TCE earnings, a performance measure, as revenue less port expenses, bunkers and commissions incl. freight and bunker derivatives. TORM reports TCE earnings because we believe it provides additional meaningful information to investors in relation to revenue, the most directly comparable IFRS measure. TCE earnings is a standard shipping industry performance measure used primarily to compare period-to-period changes in a shipping company's performance irrespective of changes in the mix of charter types (i.e., spot charters, time charters and bareboat charters) under which the vessels may be employed between the periods.

Due to the temporary fluctuations of the fair value of freight and bunker derivatives, TORM believes that an adjustment for unrealized gain/losses on freight and bunker derivatives help to increase comparability in TCE earning developments. Further, to be able to reconcile the TCE earnings to the TCE/day measure, adjusted TCE earnings are presented net of the fair value adjustments on freight and bunker derivatives. The TCE/day measure is calculated as the adjusted TCE earnings divided by available earning days. TCE earnings and adjusted TCE earnings are presented below:

USDm	Q2 2024	Q2 2023	Q1-Q2 2024	Q1-Q2 2023	FY 2023
Reconciliation to revenue					
Revenue	434.3	375.0	874.6	758.8	1,491.4
Port expenses, bunkers and commissions	-108.4	-67.0	-218.0	-185.9	-407.6
TCE earnings	325.9	308.0	656.6	572.9	1,083.8
Fair value adjustments on freight and bunker derivatives	—	-37.0	1.4	-21.2	-1.5
Adjusted TCE earnings	325.9	271.0	658.0	551.7	1,082.3
Available earning days	7,749	7,451	15,446	14,183	29,152
TCE per earning day (USD)	42,057	36,360	42,603	38,903	37,124

Net Loan-to-value (LTV): TORM defines Loan-to-value (LTV) ratio as vessel values divided by net borrowings of the vessels.

LTV describes the net debt ratio of the vessels and is used by TORM to describe the financial situation and the liquidity risk as well as to express the future possibilities to raise new capital by new loan facilities.

	30 June 2024	30 June 2023	31 December 2023
USDm			
Vessel values (broker values)	3,730.4	3,083.6	3,080.9
Vessel values of purchased secondhand vessel not delivered (broker values)	—	—	479.9
Other committed investment CAPEX	29.0	16.7	35.7
Total vessel values	3,759.4	3,100.3	3,596.5
Borrowings ¹⁾	1,269.9	1,159.5	1,067.6
- Debt regarding Land and buildings & Other plant and operating equipment	-4.2	-4.9	-5.4
Committed liability capital expenditure	29.0	16.7	226.1
Loan receivable	-4.5	-4.6	-4.5
Cash and cash equivalents, including restricted cash	-524.2	-264.9	-290.7
Total (loan)	766.0	901.8	993.1
Net Loan-to-value (LTV) ratio	20.4 %	29.1 %	27.6 %

¹⁾ Borrowings include long-term and short-term borrowings, excluding capitalized loan costs of USD 16.3m.
