Consolidated Quarterly Review

Figures in brackets refer to the corresponding period the year before, unless otherwise stated.

Operational review

Income

Rental income increased by 4.8% to SEK 3,876 million (3,698), mainly driven by annual indexations and crystalizing rent reversion upon tenant churn, offset by the divestment of Iceland in 2023. About 92% (92%) or SEK 3,560 million (3,392) was derived from residential rents with the remaining 8% consisting of commercial, garage, and parking. Heimstaden’s subsidiary Heimstaden Bostad’s privatisation programme impacted revenues with a decrease of approximately SEK 21 million.

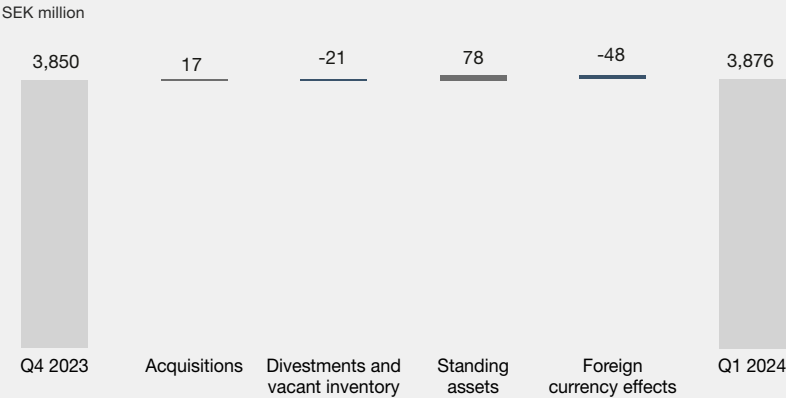

Like-for-like rental income growth amounted to 5.2% (5.0%) and the comparable portfolio reflected in the like-for-like development comprised 95% of total rental in-come. This is the second quarter that Heimstaden’s like-for-like rental income growth exceeded the blended core CPI of 2.8% for the quarter, further demonstrating the ability to capture rental growth above CPI.

Country like-for-like rental income

	Q1 2024		Q4 2023	Q3 2023	Q2 2023	Q1 2023
	Lfl (%)	Core CPI (%)	Lfl (%)	Lfl (%)	Lfl (%)	Lfl (%)
Sweden	6.8	2.7	5.2	4.8	5.4	3.1

Poland	13.0	-5.9	N/A	N/A	N/A	N/A
Total	5.2	2.8	5.6	4.2	5.7	5.0

Across all of our markets, we saw continued strong performance on like-for-like growth, exceeding core CPI with the exception of Denmark. The indexation in Denmark concluded on the headline CPI figure of October, which amounted to 0.5%. Sweden continued to show increases exceeding the negotiated increases due to the tenant improvement programme. In Poland, only 37% of the revenue is included in the like-for-like growth of 13% due to the comparable portfolio being relatively new. The 13% growth can be attributable equally to reduced vacancy and increased rents.

Service charge paid by tenants remained stable at SEK 506 million (516). The majority of the cost recovery from service charges stem from Germany and Czechia as they generated SEK 222 million (236) and SEK 239 million (242); respectively. Similar to rental income, service charges are derived almost entirely from residential units with SEK 473 million (492) or 94% (95%).

Property expenses

The total amount of property expenses increased slightly to SEK 1,809 million (1,813), driven mainly by general cost increases. Utility costs increased to SEK 724 million (723). Due to different rental regimes between markets, seasonality effects of non-recoverable costs impact the net operating income margin. Recoverable utility expenditures are matched by service charges which appear in the separate line-item “service charges paid by tenants”.

Expenditure for repair and maintenance decreased to SEK 176 million (198), mainly due to an increased focus on cost efficiency measures. Property and facility management increased slightly due to higher spend on facility management on items such as snow & ice removal and amounted to SEK 613 million (577).

Capital expenditures, repair and maintenance

Total expenditure in standing assets was SEK 856 million (1,309), corresponding to 0.26% of fair value (0.37%). Investments in properties under construction, excluding forward purchase contracts, amounted to SEK 229 million (965) as the number of homes under construction was reduced to 1,901 (4,103). Most of the remaining homes under construction are nearing delivery and the majority of the spend is completed.

Heimstaden allocates capital expenditure across four main segments: maintenance, sustainability, tenant improvements, and value-add.

Capital expenditure on standing assets is comprised of projects that are non-recurring with the aim to upgrade, extend, or improve the quality and lifetime of existing assets. Commitments in these areas maintain high optionality and flexibility given the limited legal and long-term commitments related to their spending. In response to the funding environment, the 2024 capital expenditures budget is 30% below 2023 levels. Yield requirements have increased for tenant improvement and value-add to 10% yield on cost, only executing projects that are immediately accretive to the interest coverage ratio and other credit metrics. Value-preserving maintenance capital expenditure is reduced in volume while overall maintenance corresponds with the long-term target of 0.4% of gross asset value. An analytical framework determines repair versus replace decisions, always taking long-term value preservation and cost of capital into account.

Realised gains/losses from divestment of properties

Net gains from divestment of properties were SEK 206 million (4) corresponding to an increase of 13% over the previous quarter representing the transferred sold units.

During the quarter, 265 units were sold across 4 countries at an average premium to book value of 31.5%. Estimated proceeds for the sold units in the quarter is presented in the waterfall below.

Net proceeds from the programme are to be used for debt service and deleveraging. Net proceeds include the payment of transaction fees, personnel costs, repayment of secured asset-level debt, and taxes payable or deferred upon sale. Altogether the estimated net proceeds for units sold in the quarter were SEK 608 million.

The accounting includes units that were closed as of the balance sheet date but not transferred. Per the balance sheet date, a total of SEK 750 million were held for sale from units sold in Netherlands (467 million) and Denmark (283 million).

Investment Properties

Change in fair value of investment properties¹

Net gains from fair value adjustments on investment properties was SEK 2,488 million (-13,477) corresponding to 0.8% of fair value. The increase in fair value during the quarter was primarily driven by strong rental growth and declining core inflation outweighing the negative effects from yield expansion. Overall the stabilising residential values are supported by the combination of positive rental growths, easing inflation, increased interest rate visibility, improved ownership housing markets, and positive sentiments from the transaction markets. The entire portfolio is reviewed by external valuers each quarter.

The average valuation yield requirement was 3.63% (3.31%). On a quarter-over-quarter basis this is a slight increase from 3.53%. For the quarter, Sweden, Germany, Finland, and Denmark saw values remain stable on the back of rental growth offsetting yield movement. The United Kingdom also saw values remaining relatively stable with the final developments approaching completion. Norway experienced increases in owner-occupier HPI. Czechia saw strong rent roll performance continuing to drive growth whilst the Netherlands saw an increase in Vacant Possession Value (VPV) which in combination with NOI improvements outperformed yield increases for the quarter. Poland values increased due to the completion of two forward purchase assets at above acquisition price.

Financial Review

Interest expenses

Interest expenses were SEK 1,553 million (1,248), reflecting an average interest rate of 3.0% (2.45%). On a quarter-over-quarter basis the debt portfolio didn't change materially. However, the average interest rate decreased to 3.0% from 3.2% which was driven by the increased hedge position from 85.6% to 87.6% and repayment of the January 2024 EUR 700 million senior bond. The interest coverage ratio for the last 12 months was 1.7x (2.4x).

With persisting constraints in the capital markets, Heimstaden continues to focus funding efforts on local asset-backed financing. Our portfolio diversification with a presence in nine countries benefits the strategy by limiting the required volumes in any single market. So far, the tightening credit market and the increasingly selective approach banks have adopted towards real estate have not affected the funding strategy materially. Heimstaden continues to have good access to the bank market, thanks to its attractive segment exposure and high-quality portfolio.

Foreign currency

Heimstaden has holdings and operations in SEK, EUR, DKK, NOK, CZK, PLN and GBP. Exchange differences on translation of foreign operations gave other comprehensive gain of SEK 4,124 million (858), which was partially offset by SEK -2,575 million in foreign exchange loss (692).

The main difference between operating profit and cash flow from operations was fair value adjustments on investment properties of SEK 2,487 million (-13,477).

Cash flow from investing activities was SEK -607 million (-1,178). Capital expenditures on investment properties of SEK -1,038 million (-2,065). Acquisition of investment properties of SEK -495 million (-1,169) mainly related to payments in Poland and Denmark upon completion of investment properties within the quarter. Capital expenditures and acquisitions were offset by net proceeds received from divestment of investment properties by SEK 830 million (1,487). Net proceeds received was mainly related to the privatisation programme mainly in Netherlands and Denmark.

Cash flow from financing activities was negative by SEK -8,532 million (2,424), foremost due to the larger repayment of EUR bonds of SEK 7,926 million. The cash position of the Group at the balance sheet date is SEK 3,765 million (12,557).

Notes to the Condensed Consolidated Financial Statements

1. Accounting Principles

Corporate information

Heimstaden AB (publ), Corp. ID No. 556670-0455, is a limited liability company registered in Sweden with its registered office at Östra Promenaden 7A, SE-211 28, Malmö, Sweden. Heimstaden’s operations consist of owning, developing and managing residential properties.

Basis for preparation

Heimstaden’s interim condensed consolidated accounts have been prepared in accordance with IAS 34 Interim Financial Reporting. The Parent Company applies RFR 2 Accounting for Legal Entities and the Swedish Annual Accounts Act. The financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the 2023 annual financial statements. The accounting policies and methods of computation followed are consistent with those of the previous financial year.

Due to rounding, numbers presented in these financial statements may not add up precisely to the totals provided. Figures in brackets refer to the corresponding period the year before, unless otherwise stated.

Recently issued accounting standards, interpretations and amendments

Amendments to IAS 1: Classification of Liabilities as Current or Non-current

In January 2020 and October 2022, the IASB issued amendments to paragraphs 69 to 76 of IAS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

In addition, a requirement has been introduced whereby an entity must disclose when a liability arising from a loan agreement is classified as non-current and the entity’s right to defer settlement is contingent on compliance with future covenants within twelve months.

The amendments had no impact on the Group’s interim condensed consolidated financial statements.

2. Related Parties

During Q1 2024 Heimstaden’s parent company, Fredensborg AS, invoiced Heimstaden SEK 9 million for management services. During the same period, Heimstaden invoiced SEK 9 million to Fredensborg AS for accounting and management services.

In 2018, Fredensborg AS sold the Norwegian housing portfolio to Heimstaden subsidiary Heimstaden Bostad AB. As part of the sales and purchase agreement, Fredensborg AS guaranteed the development projects would provide an annual equity return of at least 7.5% upon completion. If there are ongoing projects when the guarantee expires in April 2025, these projects will be settled at their completion. It is estimated that Fredensborg will have to pay SEK 358 million under the guarantee, a reduction of SEK 337 million during Q1 2024 due to improved forward looking project results (mainly from increased residential prices). Heimstaden AB’s subsidiary, Heimstaden Bostad AB recognises the estimated guarantee settlement in other financial assets, non-current.

3. Segment Reporting

Heimstaden organises and governs its activities based on geographical areas. These geographical areas form the basis of the reportable segments. Senior management monitors net operating income and changes in the value of investment properties in the identified segments; other profit and loss items are not distributed per segment. Heimstaden has identified nine reportable segments consisting of the geographical areas of Sweden, Germany, Denmark, Netherlands, Czechia, Norway, Finland, United Kingdom and Poland. Iceland (divested in 2023) is shown for comparative purposes. See [Note 8](#) for fair value of investment properties per segment.

Profit before tax	999	-14,316
Income tax expense	-116	890
Equivalent to a rate of, % (absolute)	11.6	6.2

Heimstaden recognised a tax expense of SEK 116 million (income 890) in the first quarter, corresponding to an effective tax rate of 11.6%. The differences between the effective tax rate for the quarter and the tax expense based on the Swedish tax rate of 20.6% is mainly driven by fair value change of investment properties below initial recognition, offset by non-deductible interests and effect of different statutory tax rates between the jurisdictions Heimstaden operates in. Profit/loss from associated companies are reported net after tax which also impacts the effective tax rate.

The underlying tax rates in the companies in operation are in the range of 19% to 30.2%.

8. Investment Properties

Property value per segment

The fair value of investment properties is based on external valuation and are valued at fair value. Heimstaden had total divestments of SEK 624 million within the quarter. Of this amount, SEK 294 million was classified as asset held for sale at 31 December 2023. As at 31 March 2024 SEK 750 million was reclassified from investment property to asset held for sale. The total properties value per operating segment is shown below.

9. Goodwill and Intangible Assets

As of 31 March 2024, the carrying amount of goodwill is SEK 16,032 million (15,711), of which SEK 15,942 million (15,622) is goodwill identified in the acquisition of Akelius Lägenheter Aktiebolag, Akelius Bolig Holding Aps and Akelius GmbH.

Goodwill identified in a business combination is allocated to the Group’s cash generating units (CGUs) and tested for impairment annually or when impairment indicators are present. The group has identified impariment indicators and performed an impairment test. As a result of the impairment test management did not identify impairment for any of the CGU’s which goodwill is allocated to at the balance sheet date.

Intangible assets comprise of software and are expected to have a useful life of 3–15 years.

For more information of assumptions regarding the methodology for calculating recoverable amount and WACC, see [Note 3.2](#) in Annual Report 2023.

11. Financial Assets and Liabilities

Heimstaden prioritises the maintenance of a strong liquidity position and a proactive approach to maturity management. Underpinned by strong operational fundamentals, Heimstaden is prioritising interest coverage ratio management through the privatisation programme and its strong access to secured bank financing. Refer to [pages 39–42](#) of the 2023 Annual Report for a detailed description of risk management and internal control.

In Q1 2024, Heimstaden subsidiary, Heimstaden Bostad bought back SEK 223 million of outstanding senior unsecured bonds, obtaining an average discount of 3.0% and resulted in a SEK 7 million gain, net of SEK 1 million in tax, recognised in other financial items.

The Company's hybrid bonds are classified as equity, see [page 73](#) in the 2023 Annual Report for more information regarding the hybrid bonds. At the balance sheet date, Heimstaden was in compliance with its financial covenants.

As of 31 March 2024, SEK 811 million of the total unutilised credit commitments, is related to future ESG Capex and Construction Facilities.

The carrying amount of all financial assets and liabilities equates to their fair value with the exception of non-current interest-bearing liabilities which have a carrying value of SEK 184,087 million (181,535) and a fair value of SEK 168,873 million (161,832). The difference between carrying value and fair value is due to bonds trading below nominal value.

There were no changes in the Group's valuation processes, valuation techniques, and types of inputs used in the fair value measurements during the period. There were no transfers between Level 1 and Level 2 fair value measurements during the period, and no transfers into or out of Level 3 fair value measurements during the three months ended 31 March 2024.

12. Equity

Non-controlling interests

Non-controlling interests consist of external ownership interests in subsidiaries and their subsidiaries. Heimstaden ABs shareholders only control hybrid bonds in Heimstaden AB, all other hybrid bonds are classified as non-controlling interests.

13. Commitments and Contingencies

Investment obligations and capital expenditures

Heimstaden has entered into contracts with sellers of investment property under construction placed in a corporate wrapper. Heimstaden will acquire 100% of the outstanding shares in the corporate wrapper at a future date. The contract is either for a fixed price (forward purchase) or at a variable price (forward funding) based on the equity in the corporate wrapper, where the investment property is measured at fair value.

As of 31 March 2024, Heimstaden had total investment obligations of SEK 221 million (1,595). The forward funding contracts with third parties are committed to future capital expenditure in respect of investment properties under construction of SEK 1,982 million (2,290).

Earnings Capacity

Earnings capacity represents annualised earnings calculated on the basis of the contracted rental income, current property expenses and administrative expenses of the property portfolio as of 31 March 2024. Announced property acquisitions that closed after the balance sheet date are not included in the calculation. Earnings capacity does not include any adjustment for development trends in rent levels, vacancy rates, property expenses or interest rates, nor does the earnings capacity provide any adjustment for expected changes in the fair value of properties, foreign exchange rates, acquisitions or divestments. Earnings capacity should not be considered a forecast for the current year or for the next 12-month period.
