

AKENERJİ ELEKTRİK ÜRETİM A.Ş.

THE ACTIVITY REPORT OF THE BOARD OF DIRECTORS PREPARED
IN ACCORDANCE WITH THE COMMUNIQUE SERIAL II, No:14.1
PREPARED FOR THE PERIOD 1 JANUARY 2018 – 30 JUNE 2018

REVIEW REPORT ON COMPLIANCE OF INTERIM OPERATING REPORT

To the Board of Directors of Akenerji Elektrik Üretim Anonim Şirketi

We have been engaged to perform a review on the compliance of the financial information included in the accompanying interim operating report of Akenerji Elektrik Üretim Anonim Şirketi ("the Company") and its subsidiaries ("the Group") as of June 30, 2018, with the interim condensed consolidated financial statements, which we reviewed. Interim operating report is the responsibility of the Group management. Our responsibility as the auditors is to express a conclusion regarding if the financial information included in the accompanying interim operating report is consistent with the interim condensed consolidated financial statements and explanatory notes, which we reviewed as the subject of the review report dated August 15, 2018.

We conducted our review in accordance with the Standard on Review Engagements ("SRE") 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an audit conducted in accordance with Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the financial information included in the accompanying interim operating report is not consistent, in all material respects, with the information disclosed in the interim condensed consolidated financial statements and explanatory notes, which we reviewed.

Akenerji in Brief

Having commenced operations in 1989 as an autoproducer group under the umbrella of the Akkök Group of Companies, Akenerji Elektrik Üretim A.Ş. (“the Company”) has been operating as the first independent electricity generation company established as an autoproducer since 2005. Being one of the largest players with its experience of more than 29 years in energy sector of Turkey, Akenerji focused to become an integrated energy company by providing energy systems optimization and management services for industrial and commercial customers on energy efficiency services as well as its electricity generation and wholesale electricity trading operations.

Akenerji is a strategic partnership of 50% - 50 % joint venture between Akkök Holding, and Europe’s leading power company, the ČEZ Group and has the sole capacity to meet 3% of Turkey’s power need, with its total installed power of 1,224 MW as of 2017 year-end.

By putting the hydroelectric power plants and wind power plants into use in stages, Akenerji in total achieved a total renewable energy generation capacity of 320 MW and Erzin natural gas combined cycle plant with generation capacity of 904 MW has started its operations on 2014.

Project works for Kemah Hydroelectric Power Plant, with an installed capacity of 198 MW and a production capacity of 560MWh, which is planned to be established in Erzincan, are still continuing.

The nature of business and registered addresses of the entities included in the consolidation (“Subsidiaries”) are presented below:

Subsidiary	Nature of business	Registered address
Akenerji Elektrik Enerjisi İthalat-İhracat ve Toptan Ticaret A.Ş.	Electricity trading	Gümüşsuyu / İstanbul
Ak-el Yalova Elektrik Üretim A.Ş.	Electricity production and trading	Gümüşsuyu / İstanbul
Egemer Elektrik Üretim A.Ş.	Electricity production and trading	Gümüşsuyu / İstanbul
Akel Kemah Elektrik Üretim A.Ş: Akenerji Doğalgaz İthalat İhracat ve Toptan Ticaret A.Ş.	Electricity production and trading Natural gas trading	Gümüşsuyu / İstanbul Gümüşsuyu / İstanbul

Akenerji together with its subsidiaries will be referred as “the Group”.

Capital and Shareholding Structure

Akenerji adopted the registered capital system applicable to the companies registered on the CMB and defined a limit to its registered capital for shares whose nominal value is TL1 (“One Turkish Lira”). As of 30 June 2018 and 31 December 2017 the share capital held is as follows:

	30 June 2018	31 December 2017
Limit on registered share capital (historical)	1.500.000.000	1.500.000.000
Issued capital	729.164.000	729.164.000

The Company’s shareholders and shareholding structure as of 30 June 2018 and 31 December 2017 are as follows:

	Share (%)	30 June 2018	Share (%)	31 December 2017
CEZ a.s.	37,36	272.425.943	37,36	272.425.943
Akkök Holding A.Ş.	20,43	148.989.090	20,43	148.989.090
Akarsu Enerji Yatırımları San. ve Ticaret A.Ş. (“Akarsu”)	16,93	123.436.852	16,93	123.436.852
Publicly held	25,28	184.312.115	25,28	184.312.115
	100,00	729.164.000	100,00	729.164.000

Board of Directors and Committees

Board of Directors (“BoD”):

NAME - SURNAME	TITLE	TERM
SERHAN GENÇER	BoD Member / Chief Executive Officer	Assigned on 4 January 2018, following the resignation of AHMET ÜMİT DANIŞMAN to complete his predecessor’s term.
AHMET CEMAL DÖRDÜNCÜ	Chairman of the BoD	Assigned on 26 April 2016 for a three years period.
TOMAS PLESKAC	Vice President of the BoD	Assigned on 26 April 2016 for a three years period.
JAROSLAV MACEK	BoD Member	Assigned on 1 January 2018, following the resignation of VRATISLAV DOMALIP to complete his predecessor’s term.
PETR JAN KALAS	Independent BoD Member	Assigned on 26 March 2018 to perform his duties for the until the end of the term of other board members.
PETR DOKLADAL	BoD Member / Deputy General Manager	Assigned on 26 April 2016 for a three years period.
YAHYA MEHMET İZZET ÖZBERKİ	Independent BoD Member	Assigned on 26 April 2016 for a three years period.
ÖZLEM ATAÜNAL	BoD Member	Assigned on 5 April 2017, following the resignation of RAİF ALİ DİNÇKÖK to complete his predecessor’s term.

Key Management Compensation:

	1 January - 30 June 2018	1 January - 30 June 2017	1 April - 30 June 2018	1 April - 30 June 2017
Attendance fee	446.694	452.725	230.557	235.894
	446.694	452.725	230.557	235.894

Jurisdictions of Board of Directors:

The Board of Directors of Akenerji Elektrik Üretim A.Ş. has convened and resolved with unanimous votes of the attendants on the following matters:

1. AHMET CEMAL DÖRDÜNCÜ to be assigned as the Chairman of the Board of Directors
2. TOMAS PLESKAC to be assigned as Vice-Chairman of Board of Directors,
3. The signatories authorized to represent and bind our Company and the signatory groups be determined as follows:

**(A) GROUP SIGNATURE
AUTHORITIES**

AHMET CEMAL DÖRDÜNCÜ
Chairman of the BoD
ÖZLEM ATAÜNAL
BoD Member
SERHAN GENÇER
BoD Member / Chief Executive Officer

**(B) GROUP SIGNATURE
AUTHORITIES**

TOMAS PLESKAC
Vice President of the BoD
JAROSLAV MACEK
BoD Member
PETR DOKLADAL
BoD Member / Deputy General Manager

**(C) GROUP SIGNATURE
AUTHORITIES**

SERHAT ERGİN BAYKARA
Corporate Governance Director

ÖZGE ÖZEN AKSOY

II – ENERGY SECTOR IN BRIEF

According to TEİAŞ data, total electricity consumption was 142 TWh in the half of 2018, thus it increased by 2.9% compared to consumption in the first half of 2017 which was 138 TWh.

Total installed power of Turkey as of the end of June 2018 is announced as which was 87,139 MW (including non-licensed power plants). Private sector has the largest share in the installed capacity with a share percentage of 66% , followed by EÜAŞ with a share percentage of 23% and followed by built-operate and built-operate-transfer plants with a share percentage of 9% and by operating rights transferred plants with a share percentage of 2%. Renewable sourced power plants holds 47% of the total installed capacity.

The average market price of the electricity in the first half of 2018, in nominal terms, realized as 179,30 TL which is above 14% of the average market price of electricity in the first half of 2017.

The efforts for privatization of the generation plants of EÜAŞ, which is started in 2009 to increase competition in the energy sectoral and to ensure the supply safety and quality and to create a transparent market structure is on-going. Within the scope of such efforts, in the first half of 2018, privatization of Menzelet and Kılavuzlu hydroelectric plants was completed by the Privatization Authority of Turkey and the offers for the privatization of Tohma hydroelectric plants with a installed capacity of 12,50 MW; Çine hydroelectric plants with an installed capacity of 46,30 MW; Dinar-2 hydroelectric plants with an installed capacity of 3,00 MW; Sütçüler hydroelectric plants with an installed capacity of 2,20MW and Gönen hydroelectric plants with an installed capacity of 10,60 MW are received. The process is on-going.

III – SALES AND THE PERFORMANCE OF THE COMPANY

Details of the electricity sales quantities of the Group in MWh terms are as below:

	1 January – 30 June 2018	1 January – 30 June 2017
DIRECT SALES	-	-
INDIRECT SALES	1.999.764,67	2.211.359,62
DUY	2.634.908,88	2.521.019,31
TOTAL	4.634.673,55	4.732.378,93

IV – GENERATION AND CAPACITY INFORMATION

- Generation type of our Egemer Plant is Thermal-Combined Cycle and its total electricity generation was 1.870.237.330 kWh and its steam generation was 1.822.271 tons in the first six months of 2018. Capacity utilization rate, according to actual generation, is 47,63%. Generation scope of our plant is Electricity and Steam generation. 8,78% decrease occurred in the electricity generation compared to the same period of the previous year.
- Generation type of our Balıkesir Ayyıldız WEPP Plant is electricity generation based on wind energy and its total electricity generation was 42.445.283 kWh in the first six months of 2018. Capacity utilization rate, according to actual generation, is 34,65%. Generation scope of our plant is Electricity generation. 29,04% increase occurred in the electricity generation compared to the same period of the previous year.
- Generation type of our Bulam HEPP Plant is electricity generation based on Channel-type hydraulic energy and its total electricity generation was 12.876.008 kWh in the first six months of 2018. Capacity utilization rate, according to actual generation, is 42,16%. Generation scope of our plant is Electricity generation. 2,90% increase occurred in electricity generation compared to the same period of the previous year.
- Generation type of our Uluabat HEPP Plant is electricity generation based on Reservoir Hydraulic energy and its total electricity generation was 184.469.000 kWh in the first six months of 2018. Capacity utilization rate, according to actual generation, is 42,47%. Generation scope of our plant is Electricity generation. 81,62% increase occurred in electricity generation compared to the same period of the previous year.
- Generation type of our Burç HEPP Plant is electricity generation based on River type HEPP energy and its total electricity generation was 36.605.700 kWh in the first six months of 2018. Capacity utilization rate, according to actual generation, is 30,83%. Generation scope of our plant is Electricity generation. 4,82% increase occurred in electricity generation compared to the same period of the previous year.
- Generation type of our Feke II HEPP Plant is electricity generation based on Channel-type hydraulic energy and its total electricity generation was 89.812.650 kWh in the first six months of 2018. Capacity utilization rate, according to actual generation, is 29,71%. Generation scope of our plant is Electricity generation. 24,88% increase occurred in electricity generation compared to the same period of the previous year.
- Generation type of our Himmetli HEPP Plant is electricity generation based on Reservoir Hydraulic energy and its total electricity generation was 49.083.510 kWh in the first six months of 2018. Capacity utilization rate, according to actual generation, is 41,88%. Generation scope of our plant is Electricity generation. 7,81% increase occurred in electricity generation compared to the same period of the previous year.
- Generation type of our Feke I HEPP Plant is electricity generation based on Channel-type hydraulic energy and its total electricity generation was 55.220.610 kWh in the first six months of 2018. Capacity utilization rate, according to actual generation, is 43,24%. Generation scope of our plant is Electricity generation. 20,30% increase occurred in electricity generation compared to the same period of the previous year.
- Generation type of our Gökaya HEPP Plant is electricity generation based on Reservoir Hydraulic energy and its total electricity generation was 47.227.740 kWh in the first six months of 2018. Capacity utilization rate, according to actual generation, is 38,09%. Generation scope of our plant is Electricity generation. 14,02% increase occurred in electricity generation compared to the same period of the previous year.

V – INVESTMENTS

As a result of the investments made by taking into consideration of the long-term energy policy of Turkey, Akenerji sustained its competitive position in 2018 with an installed power of 1,224 MW and a flexible portfolio that can adapt to rapidly changing market conditions. In addition to its current operational portfolio, the project works for Kemah Hydroelectric Power Plant, with 198 MW, which is planned to be established in Erzincan, are on-going.

The fundamental strategy of Akenerji is to operate its existing power plants to the optimum level in line with market prices. The operations and maintenance works of all power plants of Akenerji, included in its portfolio, is performed by its own personnel in an attentive and effective way. Additionally, to comply with the changing market conditions and to strengthen its competitive position, Akenerji constantly reviews the strategies and takes necessary steps are taken to achieve a more efficient and innovative way of generation.

VI – FINANCIAL SOURCES

The main financial sources of our Company are comprised of the cash created from the operations, the funds derived from the financial institutions and the share capital.

As of 30 June 2018, the Group has;

- TL 310,1 million and USD 84,4 million short-term borrowings and EUR 1,1 million financial leasing liabilities, and
- TL 377,9 million and USD 613,5 million long-term borrowings and EUR 10,2 million financial leasing liabilities.

Akenerji aims to focuses on the unpredictability of financial markets including the changes in foreign exchange rates and interest rates and seeks to minimize potential adverse effects on the Group's financial performance.

25,28% shares of shares capital of Akenerji is amounting to TL 729.164.000 is traded in Istanbul Stock Exchange.

VII – RISK MANAGEMENT POLICY AND INTERNAL AUDIT MECHANISM

The Board of Directors establishes internal control systems, including risk management and information systems and processes that aim at minimizing the effects of risks that would affect the stakeholders of the Company, particularly the shareholders, by obtaining the suggestions of the related committees of the Board of Directors.

The Company's risk inventory is one of the most important follow-up tools used in Akenerji's risk management activities. The risk inventory includes the operational, financial, reputational and strategic risks of the Company. Risks with high or very high level risk scores are monitored at the level of the Board of Directors. Detailed action plans are created for such risks, and a risk owner is assigned for each of these risks. The risk owner is responsible for managing the related risk within the framework of the agreed action plan. Thus, the risk management philosophy grew into a permanent item on the agenda of routine business of Akenerji executives. Updated in line with sectoral and institutional developments, this philosophy has become an integral part of the Company's applications.

The current internal control system, particularly enhancing the efficiency and productivity of Company operations, ensuring reliability in financial reporting, and compliance with applicable law and legislation, is being audited by the Audit Group established within our parent companies, Akkök Holding A.Ş. and ČEZ a.s., in accordance with the annual internal audit plan. The outcome of the audit is reported to the Audit Committee. The effectiveness of internal auditing operations has been reviewed during the year by Audit Committee. Opinions of the internal auditor, external auditor, or other Company executives have also been obtained when required.

When required, the internal auditors come in contact with independent auditors in scope of auditing activities and from time to time execute process auditing with them.

VIII – MAIN FINANCIAL HIGHLIGHTS

Current Period Ratios

Debt / Liability Ratio	$\frac{\text{SHORT-TERM LIABILITIES \& LONG-TERM LIABILITIES}}{\text{TOTAL LIABILITIES}}$	79%
Debt / Equity Ratio	$\frac{\text{SHORT-TERM LIABILITIES \& LONG-TERM LIABILITIES}}{\text{TOTAL EQUITY}}$	376%
Gross Profit Margin (%)	$\frac{\text{GROSS PROFIT / (LOSS)}}{\text{NET SALES}}$	5%
Net Profit Margin (%)	$\frac{\text{NET PROFIT / (LOSS) FOR THE PERIOD}}{\text{NET SALES}}$	-63%

IX – CHANGES IN THE ARTICLES OF ASSOCIATION IN THE PERIOD

There have been no changes in the articles of association occurred in the period.
