Principles of Preparation of Interim Condensed Consolidated Financial Statements

The accompanying interim condensed consolidated financial statements have been prepared in accordance with Communiqué Serial II, No: 14.1, "Principles of Financial Reporting in Capital Markets" ("the Communiqué") of Capital Market Board ("CMB") of Turkey published in the Official Gazette numbered 28676 on 13 June 2013. According to Article 5 of the Communiqué, interim condensed consolidated financial statements are prepared in accordance with the Turkish Accounting Standards 34 "Interim Financial Reporting" ("TAS 34") issued by Public Oversight Accounting and Auditing Standards Authority of Turkey ("POA").

In accordance with the TAS 34 "Interim Financial Reporting", entities are allowed to prepare a complete or condensed set of interim financial statements. In this respect, the Group has preferred to prepare condensed consolidated financial statements in the interim periods. Accordingly, these interim condensed consolidated financial statements does not include all required explanatory notes as should be provided and should be read in conjunction with the annual consolidated financial statements for the year ended 31 December 2017.

The Group and its subsidiaries registered in Turkey maintain their books of account and prepare their statutory financial statements in accordance with Turkish Commercial Code ("TCC"), tax legislations and Turkish Uniform Chart of Accounts issued by the Ministry of Finance. The condensed consolidated interim financial statements have been prepared with the historical cost principle and adjustments and reclassifications, required for the fair presentation of the consolidated financial statements in conformity with the Turkish Accounting Standards / Turkish Financial Reporting Standards ("TAS/TFRS") have been accounted for in the statutory financial statements.

With the decision taken on 17 March 2015, the CMB announced that, effective from 1 January 2015, the application of inflation accounting is no longer required for companies operating in Turkey. The Group has prepared its consolidated financial statements in accordance with this decision.

2.2 Basis of Consolidation

- a) The condensed consolidated interim financial statements include the accounts of the parent company, Akenerji, and its subsidiaries on the basis set out in sections (b) to (c) below. The financial statements of the companies included in the scope of consolidation have been prepared at the date of the consolidated financial statements and have been prepared in accordance with TAS by applying uniform accounting policies and presentation. The results of operations of subsidiaries are included or excluded from their effective dates of acquisition or disposal respectively.
- b) Subsidiaries are companies in which Akenerji has the power to control the financial and operating policies for the benefit of itself, either through the power to exercise more than 50% of voting rights related to shares in the companies as a result of shares owned directly and/or indirectly by itself.

(Amounts expressed in Turkish Lira ("TL"), unless otherwise indicated.)

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

The table below sets out all subsidiaries and demonstrates the proportion of ownership interest which is equal to the effective interest of the Company over the subsidiary as of 30 September 2018 and 31 December 2017:

Subsidiaries	Direct and indirect ownership interest by the Company and its subsidiaries (%)	
	30 September 2018	31 December 2017
Akenerji Toptan	100,00	100,00
Ak-el	100,00	100,00
Egmer	100,00	100,00
Akel Kemah	100,00	100,00
Akenerji Doğalgaz	100,00	100,00

Subsidiaries are consolidated from the date on which the control is transferred to the Group and are deconsolidated from the date that the control ceases. Where necessary, accounting policies for subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

Carrying values of the subsidiaries' shares held by the Company are eliminated against the related equity of subsidiaries. Intercompany transactions and balances between Akenerji and its subsidiaries are eliminated on consolidation. Dividends arising from shares held by the Company in its subsidiaries are eliminated from income for the period and equity, respectively.

- c) The minority shareholders' share in the net assets and results of subsidiaries for the period are separately classified as non-controlling interest in the condensed consolidated balance sheets and statements of comprehensive income. There are no minority shares in subsidiaries of the Company.

2.3 The New Standards, Amendments and Interpretations

The accounting policies adopted in preparation of the interim condensed consolidated financial statements as at 30 September 2018 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRIC interpretations effective as of 1 January 2018. The effects of these standards and interpretations on the Group's financial position and performance have been disclosed in the related paragraphs.

i) The new standards, amendments and interpretations which are effective as at 1 January 2018 are as follows:

- TFRS 15 - Revenue from Contracts with Customers
- TFRS 9 - Financial Instruments
- TFRS 4 - Insurance Contracts (Amendments)
- TFRIC 22 - Foreign Currency Transactions and Advance Consideration
- TFRS 2 Classification and Measurement of Share-based Payment Transactions (Amendments)
- TAS 40 - Investment Property: Transfers of Investment Property (Amendments)
- Annual Improvements to TFRSs - 2014-2016 Cycle

The standards, amendments and interpretations did not have a significant impact on the financial position or performance the Group and the impact of the transition to TFRS 15 - Revenue from Contracts with Customers and TFRS 9 - Financial Instruments is provided at Note 2.4.

ii) Standards issued but not yet effective and not early adopted

Standards, interpretations and amendments to existing standards that are issued but not yet effective up to the date of issuance of the interim condensed consolidated financial statements are as follows. The Group will make the necessary changes if not indicated otherwise, which will be affecting the consolidated financial statements and disclosures, when the new standards and interpretations become effective.

- TFRS 16 Leases
- Amendments to TAS 28 Investments in Associates and Joint Ventures (Amendments)
- TFRS 10 and TAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments)
- TFRIC 23 Uncertainty over Income Tax Treatments

The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

iii) The new standards, amendments and interpretations that are issued by the International Accounting Standards Board ("IASB") but not issued by Public Oversight Authority ("POA")

The following standards, interpretations and amendments to existing IFRS standards are issued by the IASB but not yet effective up to the date of issuance of the financial statements. However, these standards, interpretations and amendments to existing IFRS standards are not yet adapted/issued by the POA, thus they do not constitute part of TFRS. The Group will make the necessary changes to its consolidated financial statements after the new standards and interpretations are issued and become effective under TFRS.

- Annual Improvements – 2010–2012 Cycle
- Annual Improvements – 2011–2013 Cycle
- IFRS 17 - The new Standard for insurance contracts
- Prepayment Features with Negative Compensation (Amendments to IFRS 9)
- Annual Improvements – 2015–2017 Cycle
- Plan Amendment, Curtailment or Settlement" (Amendments to IAS 19)

The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

2.4 Summary of Significant Accounting Policies

The Group adopted TFRS 15 Revenue from Contracts with Customers and TFRS 9 Financial Instruments for the period starting from 1 January 2018, the accounting policies of these standards are set out below. Except for these newly adopted standards, the accounting policies adopted in preparation of the interim condensed consolidated financial statements are consistent with those adopted of the previous financial year. Accordingly these interim condensed consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended 31 December 2017.

TFRS 9 Financial Instruments:

Financial assets - Classification and measurement

Group classified its financial assets in three categories as financial assets carried at amortized cost, financial assets carried at fair value through profit or loss, financial assets carried at fair value through other comprehensive income. Classification is performed in accordance with the business model determined based on the purpose of benefits from financial assets and expected cash flows. Management performs the classification of financial assets at the acquisition date.

FOR THE INTERIM PERIOD BETWEEN 1 JANUARY - 30 SEPTEMBER 2018 AND 2017**

(Amounts expressed in Turkish Lira ("TL"), unless otherwise indicated.)

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

(a) Financial assets carried at amortised cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest, whose payments are fixed or predetermined, which are not actively traded and which are not derivative instruments are measured at amortized cost. They are included in current assets, except for maturities more than 12 months after the balance sheet date. Those with maturities more than 12 months are classified as non-current assets. The Group's financial assets carried at amortized cost comprise "trade receivables", "other receivables" and "cash and cash equivalents" in the statement of financial position.

Impairment

Group has applied simplified approach and used impairment matrix for the calculation of impairment on its receivables carried at amortized cost on its interim condensed consolidated financial statements, since they do not comprise of any significant finance component. In accordance with this method, if any provision provided to the trade receivables as a result of a specific events, Group measures expected credit loss from these receivables by the life-time expected credit loss. The calculation of expected credit loss is performed based on the past experience of the Group and its expectation based on the macroeconomic indications.

(b) Financial assets carried at fair value

Assets that are held by the management for collection of contractual cash flows and for selling the financial assets are measured at their fair value. If the management do not plan to dispose these assets in 12 months after the balance sheet date, they are classified as non-current assets. The Group make a choice for the equity instruments during the initial recognition and elect profit or loss or other comprehensive income for the presentation of fair value gain and loss:

i) Financial assets carried at fair value through profit or loss

Financial assets carried at fair value through profit or loss comprise of "derivative financial instruments" in the statement of financial position. Derivative financial instruments are recognized as asset when the fair value of the instrument is positive, as liability when the fair value of the instrument is negative. Group's financial instruments at fair value through profit or loss consist of forward contracts and currency swaps.

ii) Financial assets carried at fair value through other comprehensive income

Financial assets carried at fair value through other comprehensive income comprise of "financial assets" in the statement of financial position.

Transition to TFRS 9 "Financial instruments"

The Group has applied TFRS 9 "Financial instruments" on 1 January 2018. The amendments include the classification and measurement of financial assets and liabilities and the expected credit risk model which will replace incurred credit risk model. The effect of the transition to TFRS 9 does not have a significant impact on the consolidated financial statements of the Group as at 1 January 2018.

Trade receivables	Loans and receivables	Amortised cost
Derivative instruments	Fair value through statement of profit or loss	Fair value through statement of profit or loss
Financial assets (*)	Available for sale financial assets	Fair value through other comprehensive income

Financial liabilities	Original classification under TAS 39	New classification under TFRS 9
Derivative instruments	Fair value through statement of profit or loss	Fair value through statement of profit or loss
Borrowings	Amortised cost	Amortised cost
Financial lease liabilities	Amortised cost	Amortised cost
Trade payables	Amortised cost	Amortised cost

(*) Financial assets carried at cost due to the lack of fair value information in accordance with TAS 39 are carried at their fair values in accordance with TFRS 9.

TFRS 15 Revenue from Contracts with Customers:

Group recognizes revenue when the goods or services is transferred to the customer and when performance obligation is fulfilled. Goods is counted to be transferred when the control belongs to the customer.

Group recognizes revenue based on the following main principles:

- Identification of customer contracts
- Identification of performance obligations
- Determination of transaction price in the contract
- Allocation of price to performance obligations
- Recognition of revenue when the performance obligations are fulfilled

Group recognizes revenue from its customers only when all of the following criteria are met:

- The parties to the contract have approved the contract (in writing, orally or in accordance with other customary business practices) and are committed to perform their respective obligations,
- Group can identify each party's rights regarding the goods or services to be transferred,
- Group can identify the payment terms for the goods or services to be transferred;
- The contract has commercial substance,
- It is probable that Group will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer. In evaluating whether collectability of an amount of consideration is probable, an entity shall consider only the customer's ability and intention to pay that amount of consideration when it is due.

At the contract inception date, the Group evaluates the goods and services committed to be provided to the customer based on the contract and identifies each commitment as a separate performance obligation. In addition to that, the Group determines whether it satisfies the performance obligation over time or satisfies the performance obligation at a point in time.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

When another party is involved in providing goods or services to a customer, the group determines whether the nature of its promise is a performance obligation to provide the specified goods or services itself or to arrange for the other party to provide those goods or services. The group is a principal if it controls a promised good or service before the group transfers the good or service to a customer. When a group that is a principal satisfies a performance obligation, it recognizes as revenue the gross amount of consideration which it expects to be entitled to in exchange for those goods or services. The group is an agent if its performance obligation is to arrange for the provision of goods or services by another party and in such a position, the Group does not recognize the revenue of the consideration at gross amount.

The Group determines the transaction price in accordance with contract terms and customs of trade. Transaction price is the amount of consideration which is expected to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties. The Group, allocates the transaction price to each performance obligation (or distinct goods or services), by reference to the consideration is considered to be deserved in return of the goods and services transferred to the customer. In this allocation, the Group allocates the transaction price determined in the contract to the standalone independent sales prices of these goods and services, where the Group identifies the prices of goods and services committed to be provided in the contract at the date of the inception of the contract and allocates the transaction price on these independent relative prices proportionally.

If the aggregate independent sales prices of the goods and services undertaken in the contract exceeds the transaction price in the contract, the customer has received discount on the purchase of goods or services. The Group allocates the discount to the all performance obligations retained in the contract proportionally except for the circumstances where there are observable inputs indicating that, the discount is provided for some but not all of the performance obligations.

The performance obligations of the Group consists of wholesale electricity sales and in return of this sale, a wholesale electricity sales revenue is recognized. The electricity sold is transferred to the customer by the electricity transmission lines owned by the government agencies. The Group does not deal with retail sale of electricity. The customer consumes the economic benefit of the performance obligation of the Company at the same time it is transferred, accordingly, the Group transfers the control of the goods and services to the customer and fulfills its performance obligation simultaneously and the revenue is recognized at the time the performance obligation is fulfilled. Considering the operations of the Group, TFRS 15, does not have significant impact on the financial position and financial performance of the Group.

2.5 Comparatives and restatement of prior year financial statements

The financial statements are prepared in a comparative manner with respect to the financial statements and performance trends. Consolidated financial statements are reclassified in accordance with the amendment in order to provide comparability when presentation or classification of financial statements are changed.

The Group recognised the option fee on the put option transaction as an expense item, which expired and not utilized in the year ended 31 December 2017, in the accompanying financial statements as of 31 December 2017. The restatement has made an impact of reducing the prepaid expenses provided in the statement of financial position as at 31 December 2017 by TL 2.152.770 and increasing other operating expenses and net loss for the period provided in the statement of profit or loss by TL 2.152.770. The restatement does not make any impact of the statement of profit or loss and statement of other comprehensive income as of 30 September 2017.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

The Group evaluated the effect of elimination adjustment of the borrowing costs capitalized on property plant and equipment at stand-alone financial statements of Akenerji and Egemer, since these borrowings costs are considered as part of the financing of the investments made during the investment period. It is understood that, these elimination adjustments booked at consolidated level should be recorded on the stand-alone financial statements those are included consolidation in order to have land, land improvements, buildings, machinery and equipment belonging to the power plants, which are accounted at fair value, are correctly presented with their respective fair values. The restatement resulted with an impact of increase in property, plant and equipment for an amount of TL 83.790.422 and increase in deferred tax liabilities for an amount of 16.759.106 TL and increase in revaluation of property, plant and equipment for an amount of TL 67.031.317 provided in the accompanying statement of financial position as at 31 December 2017.

As a result of the assessments made by the Group, the provision for unused vacation rights of employees amounting to TL 502.185 has been reclassified from short-term provisions for employee benefits to long-term provisions for employee benefits in the accompanying statement of financial position as of 31 December 2017.

As a result of the assessments made by the Group, long-term trade receivables from third parties incurred from the sale of a turbine amounting to TL 7.009.504 has been reclassified to long-term other receivables from third parties in the accompanying statement of financial position as of 31 December 2017.

As a result of the assessments made by the Group, short-term other receivables from related parties amounting to TL 52.962 has been reclassified to short-term trade receivables from related parties in the accompanying statement of financial position as of 31 December 2017.

As a result of the assessments made by the Group, Banking and Insurance Transaction Tax liability incurred from the interest rate swap contracts of the Group amounting to TL 111.376 accounted under short-term other provisions has been reclassified to short-term other liabilities to third parties in the accompanying statement of financial position as of 31 December 2017.

As a result of the assessments made by the Group, income from provisions no longer required arising from unused vacation rights and employee termination benefits amounting to TL 394.503 accounted other operating income has been reclassified to personnel expenses under general administrative expenses in the accompanying statement of profit or loss for the interim period ended 30 September 2017.

As a result of the assessments made by the Group, banking commission and expenses amounting to TL 2.195.443 accounted general administrative expenses has been reclassified to finance expenses in the accompanying statement of profit or loss for the interim period ended 30 September 2017.

2.6 Critical accounting estimates and judgments

The preparation of condensed consolidated financial statements necessitates the use of estimates and judgments that affect asset and liability amounts reported as of the balance sheet date, explanations of contingent liabilities and assets; and income judgments and expense amounts reported for the accounting period. Although these estimates and assumptions are based on all management information related to the events and transactions, actual results may differ from them. The estimates and judgments that are material to the carrying values of assets and liabilities are outlined below:

Deferred tax assets for the carry forward tax losses: Deferred tax assets are accounted for only where it is likely that related temporary differences and accumulated losses will be recovered through expected future profits when accounting for deferred tax assets it is necessary to make critical estimations and evaluations with regard to taxable profits in the future periods.

**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD BETWEEN 1 JANUARY - 30 SEPTEMBER 2018 AND 2017**

(Amounts expressed in Turkish Lira ("TL"), unless otherwise indicated.)

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

As of 30 September 2018, the Group has carry forward tax losses amounting to TL 546.949.852 (31 December 2017: TL 245.045.520) which are expected to be deducted from future profits and did not recognize deferred tax assets for the carry forward tax losses amounting to TL 822.167.281 (31 December 2017: TL 534.454.080) for which the Group believes it will not utilize in the future. If the net income projections which are explained in Note 9 are not realized, related deferred tax assets for the carry forward tax losses will be accounted as an expense in the consolidated statements of income.

Fair value of derivative financial instruments contracts: Derivative financial instruments contracts are determined using valuation techniques of fair value. Each balance sheet date, Group predicts the future changes of swap majorly based on market data.

Explanations for revaluation method and fair value measurement: Group has chosen revaluation method as an accounting policy among application methods mentioned under IAS 16 for lands, land improvements, buildings, machinery and equipment belonging its power plants commencing from 30 September 2015. The Group has applied revaluation method initially at 31 December 2015 and then 31 December 2017. The critical accounting estimates and judgments related to revaluation has been disclosed in financial statements of 31 December 2015 and 31 December 2017. Any difference in realization of these estimates and assumptions may have material impact on the fair value of these assets.

2.7 Going concern

The Group has prepared its consolidated financial statements on a going concern basis in a foreseeable future. During the interim period 1 January - 30 September 2018, the Group generated cash and cash equivalents from the recognized operating profit before depreciation and amortization and was able to pay the interest of its borrowings which were due. With the effect of revenue generated in USD terms as part of the Renewable Energy Resources Support Mechanism ("YEKDEM"), total revenues of the Group for the interim period 1 January – 30 September 2018 has increased significantly. The 12 years termed refinancing loan agreement with a one year nonrefundable period, signed with Yapı ve Kredi Bankası A.Ş. on 30 September 2015, positively contributed to the cash flows of the Company. Additionally, the exposure to exchange rate risk of the Group is reduced because a portion of this refinanced loan was converted into TL. Additionally, as part of its daily operations, the Group is continuously seeking for new opportunities through consultations with financial institutions that could be in favor the Group and may positively affect the cash flows of the Group.

The Group continuously monitors the financial and operational risks (changes in natural gas prices, changes in natural gas supply conditions and their impact on the electricity market, changes in foreign exchange rates (i.e. approximately 59% depreciation of TL against USD and approximately 54% depreciation of TL against EUR between 31 December 2017 and 30 September 2018 etc.) through its risk inventory and takes necessary actions to reduce the effects of risks.

On 1 August 2018, Boru Hatları ile Petrol Taşıma A.Ş. ("BOTAŞ"), increased the natural gas prices of the natural gas sold to power plants which is used in electricity production by 49,5% and decided the consideration to be paid in TL which will be converted from USD using the official spot rate of TCMB at the payment day. Then on 15 August 2018, BOTAŞ decided to sell natural gas to power plants with a fixed TL price effective for the purchases in related month. Additionally, BOTAŞ decreased the natural gas prices of the natural gas sold to power plants which is used in electricity production by 3% on 31 August 2018 and 8,8% on 31 October 2018.

**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE INTERIM PERIOD BETWEEN 1 JANUARY - 30 SEPTEMBER 2018 AND 2017**

(Amounts expressed in Turkish Lira ("TL"), unless otherwise indicated.)

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

The cost of natural gas is a significant item on the cost of production of the Group due to Erzin combined natural gas cycle power plant of Egemer, which is a subsidiary of the Group. However, the Group management is in the opinion that, the impact of the increase in natural gas prices on the total consolidated cost of production will be limited through the Group's differentiation strategy of balanced, flexible and efficient portfolio by having different type of power plants and taking advantage of YEKDEM mechanism. Erzin, which has an advantageous position in terms of efficiency, operation and location, has high financial potential in medium and long term. The Group management anticipates that, when cost-based pricing becomes the basis, low-efficient power plants come out of the system and the purchase guarantees for the Build-Operate centers terminates, electricity prices will be set at a more rational basis and the Group management believes that, potential adverse effects of natural gas prices on the consolidated financial statements increase will be eliminated on spot and futures electricity markets.

As BOTAŞ approved the monthly spot natural gas purchase from the private sector as of 1 February 2018, the private sector provided natural gas for the Erzin power plant at a discounted price as compared to the prices declared by BOTAŞ. If it is needed in the following months, the natural gas supply can continue to be provided from the private sector to maintain cost advantage. Erzin combined natural gas cycle power plant has the significant advantage on competition in the daily profitability compared to similar plants under favor of its largest amount of reserves in Turkey in daily operations and the maximum amount of benefit from the ancillary services market operations (Primary Frequency Control and Secondary Frequency Control services). In addition, "Revenue on Capacity Mechanism", which was introduced in 2018 to support primary level electricity generation sources, contributes positively to the financial position of the Group. In addition, within the termed electricity trade, the studies carried out for the purpose of increasing the transaction intensity of the products indexed to BOTAS natural gas sale tariff are coming to an end and it is predicted that the profitability of electricity generation facilities based on natural gas consumption will be preserved as a long term as a result of these studies.

With the Communiqué of Ministry of Commerce regarding the regulation on loss of capital and over-indebtedness in relation to Article 376 of 6102 numbered Turkish Commercial Code, it has been decided that, unrealized foreign exchange losses incurred from the foreign exchange based financial liabilities which are not yet fulfilled can be excluded on the calculation of loss of capital and over-indebtedness. In relation to this regulation, necessary calculations are made and unrealized foreign exchange losses recognised under retained earnings/losses under equity amounting to TL 577.359.773 and unrealized foreign exchange losses recognised understatement of profit or loss amounting to TL 1.609.571.734 and in total amounting to TL 2.186.931.507 is calculated. The respective amount is considered in the calculation of loss of capital and over-indebtedness by addition to the total equity. Accordingly the Group does not experience an issue of loss of capital and over-indebtedness.

Akenerji, aware of all of its short term and long term liabilities, has been taking the necessary actions maintain its operations in a healthy financial structure within the framework of proactive approach.

2.8 Seasonality of Group's operations

The results of Group's operations do not show a significant change by season.

- Other significant matters

As a result of the lawsuits brought for the Kemah Dam & Hydroelectric Plant Project, a positive Environmental Impact Assessment ("EIA") report was received for the revised EIA prepared on 10 February 2016. Subsequently, a lawsuit requesting the cancellation of the positive EIA report received from the Ministry of Environment and Urban Planning of Turkey in 2014 was finalised and the previous positive EIA report was cancelled.

Another lawsuit was brought against the revised positive EIA report on February 2016 and on 28 February 2018, it has been decided by the court of first instance to cancel the positive EIA report. Both the Group and the Ministry of Environment and Urban Planning of Turkey, lodged an appeal with the Supreme Court for the cancellation of the decision. As a result of the investigation performed on the appeal by the Supreme Court, the decision of the court of first instance is cancelled and the application on cancellation of the positive EIA report is dismissed. The decision held by the Supreme Court in favor of the Group is the final definitive judgment and cannot be appealed.

Since the appeal process on the EAI report is finalized in favor of the Group, the application on the revised EIA report to the Ministry of Environment and Urban Planning of Turkey will be cancelled as this is not necessary anymore.

In addition, the suspension of all rights on the electricity production license of Kemah Dam & Hydroelectric Plant Project which is established following the application of the Group to EMRA will requested to be restored.

At the time the derivative contract is concluded, the Group determines that a cash flow hedge is a cash flow hedge that arises from a particular risk in the cash flows of a recorded asset or liability or a transaction that is probable and a possible outcome of a particular risk.

Interest rate swap transactions that provided effective economic hedges under the Group risk management position and carrying the necessary conditions for hedge accounting, were accounted as hedging derivative financial instruments in the consolidated financial statements. The effective portion of the gains and losses of the derivative instruments designated as hedging instrument were accounted under equity under as "Gains/(losses) on cash flow hedging". Due to the change in principle amount and repayment dates of Group's borrowings following the Loan Agreement signed on 30 September 2015, the Group ceased the hedge accounting for interest rate swap contracts.

When a hedging instrument sold, expired or when hedge no longer met the criteria for hedge accounting or when a pledged or forecasted transaction is no longer expected to be occurred, the Group continues to classify separately within equity as far as the commitments or possible future transactions will realized.

The realization of promised or probable future transactions are recorded in the statement of profit or loss, if not realized, accumulated gains or losses are recognized as profit or loss in the consolidated financial statements. Since the Group has ceased to apply hedge accounting on September 30, 2015, the "Gains / (losses) on cash flow hedging", which is included in equity, has been recorded in the profit or loss statement for the duration of related contracts.

Corporation Tax

The Group is subject to corporate income tax effective in Turkey. Provisions are made in the accompanying financial statements for the estimated tax liabilities related to the Company's results for the current period.

In Turkey, the corporate tax rate is 20%. However, in accordance with the addition of temporary 10th article to the Corporate Tax Law, 22% corporate tax rate will be applied to the profits of the entities related to their 2018, 2019 and 2020 tax periods (for the entities with special accounting period, tax periods commenced in the related year) rather than 20%. This rate is applicable to the tax base derived upon exemptions and deductions stated in the tax legislation and by addition of disallowable expenses to the commercial revenues of the companies with respect to the tax legislation. Losses can be carried for a maximum 5 years for deducted from the taxable profit to be incurred in future years. However, the losses cannot be deducted retrospectively from the retained earnings.

In Turkey, there is no application with the tax authorities on the tax reconciliation. The corporate tax declaration is declared until the evening of the 25th day of the fourth month following the end of the accounting period and paid until the end of the month.

Corporations are required to pay advance corporation tax quarterly at the rate of 20% on their corporate income (22% for the taxation periods 2018, 2019 and 2020). Advance tax is payable by the 17th of the second month following each calendar quarter end. Advance tax paid by corporations is credited against the annual corporation tax liability. The balance of the advance tax paid may be refunded or used to offset against other liabilities to the government.

Income Tax Withholding

NOTE 9 - TAXES ON INCOME (Continued)*Deferred taxes*

The Group recognizes deferred tax assets and liabilities based upon temporary differences arising from its financial statements prepared in compliance with TAS and its statutory tax financial statements. The temporary differences usually result from the recognition of revenue and expenses in different reporting periods according to TAS and Tax Laws.

The tax rate applied in calculation of deferred tax asset and liabilities for the temporary differences expected to be closed by 2018, 2019 and 2020 is 22% and after 2020 is 20%. (2017: temporary differences expected to be closed in 2018, 2019 and 2020 22% and after 2020 is 20%).

The breakdown of cumulative temporary differences and the resulting deferred income tax assets / (liabilities) are as follows:

NOTE 16 – FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT***Foreign exchange risk***

The Group is exposed to foreign exchange risks due to foreign currency transactions. Foreign exchange risk results from the commercial activities and foreign currency denominated assets and liabilities. The Group controls that risk in a natural manner through netting off the foreign currency denominated assets and liabilities. The management limits the foreign currency position of the Group through analyzing it.

The details of the net foreign currency position of the Group as of 30 September 2018 and 31 December 2017 are as follows:

NOTE 17 – FAIR VALUE DISCLOSURE OF FINANCIAL INSTRUMENTS (Continued)

Fair value of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The estimated fair values of financial instruments have been determined by the Group, using available market information and appropriate valuation methodologies. However, judgment is necessarily required to interpret market data to estimate the fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Group could realize in a current market exchange.

Following methods and assumptions were used to estimate the fair value of the financial instruments for which is practicable to estimate fair value:

Financial assets

The carrying values of financial assets including cash and cash equivalents which are accounted with their costs are estimated to be their fair values since they are short term.

The carrying values of trade receivables along with the related allowances for uncollectability are estimated to be their fair values.

Financial liabilities

The fair values of floating interest rate borrowings and other financial liabilities are estimated to be close to their fair values.

Fair value hierarchy table

The Group classifies the fair value measurement of each class of financial instruments according to the source, using the three-level hierarchy, as follows:

Level 1: Market price valuation techniques for the determined financial instruments traded in markets (unadjusted)

Level 2: Other valuation techniques includes direct or indirect observable inputs

Level 3: Valuation techniques does not contains observable market inputs

As of 30 September 2018, the Group has short-term and long-term liabilities from derivative financial instruments amounting to TL 6.886.519 (31 December 2017: TL 15.163.211) and TL 14.531.161 (31 December 2017: TL 17.585.703) respectively and has no derivative financial instruments in its current assets (31 December 2017: TL 497.923), which are categorized as level 2.

Fair value of the lands, land improvements, buildings, machinery and equipment of the Group's power plants were measured by a professional independent valuation company through other valuation techniques involving direct and indirect observable inputs (Level 3).

NOTE 18 – EVENTS AFTER BALANCE SHEET DATE

A resolution of Board of Directors is adopted on 4 September 2018 on the decision to merge Egemer, a subsidiary of the Group, within the body of Akenerji with all of its assets and liabilities by way of acquisition. Following the decision, necessary applications are made to Capital Markets Board and Energy Market Regulatory Authority and the merger approval of Energy Market Regulatory Authority is retained on 9 October 2018. The approval process related to the application made to the Capital Markets Board is on-going.
