ABOUT ESENBOĞA ELEKTRİK

Title: ESENBOĞA ELEKTRİK ÜRETİM A.Ş.

Date of Establishment: 20.08.2015

Trade Registry Office and Number: Ankara, 420105

Mersis Number: 061207037980001

Issued Capital: TRY 260.000.000

Registered Capital Limit: TRY 3.000.000.000

Field of Activity Source: Electricity Generation from Renewable Energy

Contact Information

Corporate Web Site: www.esenbogaelektrik.com.tr

E-mail: info@esenbogaelektrik.com.tr

Phone and Fax Number: 0312 467 18 33
(PBX) 0312 467 61 86

Head Office Address

Kızılırmak Mahallesi, 1450 Sokak, ATM Plaza (B) Blok,
1/67 Çankaya-Ankara

Esenboğa Elektrik on Borsa İstanbul

IPO Date: 1-2 October 2020

Trading Code: ESEN

Market: STAR MARKET

Vision, Mission and Values

Vision

To be an investor and a leading solution provider of reliable and innovative services in climate technologies and renewable energy.

Mission

To increase renewable energy generation and support global climate objectives and sustainability.

Values

Our approach to sustainability is intertwined with the mission of preserving natural resources and leaving a more livable world for future generations. Our principle of transparency ensures that we carry out all our processes in an open and understandable way, while our commitment to accountability shows our sensitivity towards our stakeholders by standing behind every decision we make. By prioritizing equality and inclusivity, we embrace diversity and ensure that everyone has equal opportunities. Our spirit of innovation supports our pursuit of continuous development and innovative solutions, while also aiming to create broader areas of impact through collaborations. These values define both the way we conduct business and our contribution to society.

ESENBOĞA ELEKTRİK

Founded in 2015, Esenboğa Elektrik Üretim A.Ş. (Esenboğa Elektrik) is a climate technology company operating in the renewable energy sector. It focuses on establishing and operating power plants that generate clean and environmentally friendly electricity exclusively from renewable energy sources. Additionally, the company engages in the trade of the electricity it produces and develops and installs rooftop solar power plant projects both for its customers and itself. With a vision to be a leading and reliable global business partner contributing to sustainable growth in the renewable energy sector, Esenboğa Elektrik delivers high-quality services and solutions.

Our Company has 88 Solar Power Plants developed and built under the Unlicensed Electricity Generation legislation, 1 Solar Power Plant under the Licensed Electricity Generation legislation and 1 Geothermal power plant developed and built under the Electricity Market License Regulation.

Esenboğa Elektrik Üretim A.Ş. provides turnkey installation and project development services for solar power plants (SPP) on industrial rooftops. Additionally, its subsidiary, Margün Enerji Üretim Sanayi ve Ticaret A.Ş. (Margün Enerji), offers SPP project development and turnkey installation services in international markets. All of our power plants are registered as assets of Margün Enerji and its subsidiaries.

Esenboğa Elektrik's indirect subsidiary, Angora Elektrik A.Ş., assumes the operation and maintenance responsibilities for all solar power plants within the group. Additionally, it offers these specialized services to investors outside the group.

The company effectively establishes turnkey power plants for its clients through its wholly-owned subsidiaries.

Our company is positioning itself to increase its market share by meeting the growing global demand for renewable energy and climate technologies, both independently and through its subsidiaries.

History

Direct Subsidiaries and Indirect Subsidiaries:

As part of the growth plans of our group company, Margün Enerji, through investment and acquisitions in the field of climate technologies, wholly owned subsidiaries were established in the Netherlands, Romania, Italy, the United Kingdom, Spain, and Greece in 2024 to evaluate investment opportunities.

Energy Sector in the World and Türkiye

Renewable Energy Sector in the World

To achieve the goals of the Paris Climate Agreement, which aims to keep global temperature rise below 2°C and, if possible, limit it to 1.5°C, it is essential to reduce greenhouse gas emissions and increase the use of renewable energy sources. Indeed, at COP28 (the 2023 United Nations Climate Change Conference), nearly 200 countries pledged to limit global temperature rise to 1.5°C and to triple the world's renewable energy capacity within a decade. According to the June 2024 report by the International Energy Agency (IEA), this goal is not only ambitious but also achievable.

The IEA's World Energy Outlook 2024 report, the role of fossil fuels in the global energy system is declining. In 2023, fossil fuels accounted for 80% of global energy demand, however, with the rapid growth of renewable energy sources, this share is expected to decrease by 2030. Solar and wind energy, in particular, are increasing their share significantly in electricity generation, and by 2035, renewable energy sources are projected to account for more than 40% of global electricity production.

Renewable Energy Sector in Türkiye

In Türkiye, the installed capacity of renewable energy, particularly solar power, has been increasing each year. This growth is supported by policies aimed at expanding renewable energy capacity. In line with the Paris Agreement, which was ratified in 2021, Türkiye announced its Long-Term Climate Strategy, setting a Net Zero Emission Target for 2053.

As of the end of 2024, 59% (68.3 GW) of Türkiye's total installed energy capacity of 115.4 GW comes from renewable energy sources. The share of solar power plants in total installed capacity has reached 17% (19.6 GW).

In Türkiye, as in the rest of the world, solar energy stands out as the most preferred source in efforts to expand energy capacity.

According to the International Energy Agency's (IEA) 2023 projections, Türkiye's renewable energy installed capacity was expected to reach 68 GW in 2024 and 99 GW by 2028. The 2024 year-end figures have aligned with this forecast.

Development of Installed Power in Türkiye

Source: Turkish Electricity Transmission Corporation

The National Energy Plan, published by the Ministry of Energy and Natural Resources in 2022, aims to enhance Türkiye's energy supply security, improve energy efficiency, and promote the use of renewable energy sources. Additionally, in line with the 2053 Net Zero Emission Target, the plan envisions a sustainable and environmentally conscious energy policy.

According to the National Energy Plan, the share of renewable energy sources in total installed capacity, which was 52% in 2020, is projected to reach 64.7% by 2035. In the medium to long term, hydropower plants are expected to reach an installed capacity of 35.1 GW, while wind power capacity will rise to 29.6 GW, and solar power capacity will increase to 52.9 GW.

Development of Installed Power by Sources

Source: Türkiye National Energy Plan

Furthermore, in line with Türkiye's sustainable development goals, the Presidency of the Republic of Türkiye Strategy and Budget Department has identified green transformation and digitalization as strategic priorities within the 12th Development Plan.

As part of the Green Transformation, key strategies have been established to build the necessary infrastructure for achieving Türkiye's 2053 Net Zero Emission Target and to increase the share of renewable energy sources in electricity generation. The 12th Development Plan sets a target of increasing the installed capacity of solar power plants to 30 GW by 2028.

	2023	2028
Solar Installed Capacity (MW)	11.350	30.000
Electricity Installed Capacity (MW)	106.800	136.000
Wind Installed Capacity (MW)	11.700	18.000
Share of Renewable Sources in Electricity Generation (%)	40	50
Battery Storage Capacity (MW)	0	5.000

In 2024, a total of 343.3 TWh of electricity was produced in Türkiye, with 45% (156.1 TWh) coming from renewable energy sources. The share of electricity generated from solar energy in total production in 2024 was 7.6% (25.9 TWh).

Production Facilities

Believing that renewable energy, particularly solar energy, can replace most traditional energy sources over time, Esenboğa Elektrik invests in solar energy for a sustainable environment.

Esenboğa Elektrik has established its presence in the electricity generation sector through the power plants of its domestic subsidiary Margün Enerji, which include 7 sub-companies within its portfolio. These plants, operating under both licensed and unlicensed generation regulations, have a total production capacity of 130.03 MWp.

In this context, 88 power plants with an installed capacity of 97.86 MW, owned by Naturel Enerji's subsidiaries, have been designed, constructed, commissioned, and are currently operating under the Unlicensed Electricity Generation Regulation. In addition, the company operates a licensed power plant with an installed capacity of 20.17 MWp located in Milas/Muğla, and a geothermal power plant with an installed capacity of 12 MWp in İzmir, which was developed and established under the Electricity Market Licensing Regulation.

Our company's electricity generation plants are located in the provinces of Yozgat, Eskişehir, Afyon, Nevşehir, Ankara, Konya, Antalya, Adana, Bilecik, Muğla, and İzmir.

The Renewable Energy Sources for Electrical Energy Generation Law No. 5346, within the scope of the Renewable Renewable Energy Resources Support Mechanism (RERSM), provides the right to sell electricity generated by solar power plants to the government at a price of 13.3 USD cents per kWh for a period of 10 years. Using this regulation, solar power plants have been commissioned, and all of them benefit from this 10-year purchase guarantee.

In 2023, Margün Enerji diversified its renewable energy portfolio by acquiring a 30.393% stake in Enda Enerji Holding A.Ş., which has a total installed capacity of 180.1 MWe from hydropower, geothermal, and wind energy plants.

Enda Enerji applied to the Capital Markets Board (CMB) in 2024 for an Initial Public Offering, and as per the CMB's bulletin dated January 23, 2025 (2025/4), the application was approved. As of 13.02.2025, Enda Enerji has been listed on the stock exchange under the ticker symbol ENDAE.

Below is the information regarding a total of 90 plants and 130.03 kWp of installed capacity, which are under the ownership of Margün Enerji, a 75.61% subsidiary of Esenboğa Elektrik.

Firm Name	Province	Installed Capacity (MWp)

Total Production Figures for First Quarter of 2025

A total of 91.834.792 kWh of electricity was generated from 89 Solar Power Plants and 25.377.846 kWh from 1 Geothermal Power Plant under our company's indirect subsidiary, Margün Enerji, in the first six months of 2025. The production figures by province are presented below.

Esenboğa Elektrik A.Ş.			
Investment Province	Total Number of Plants	Total Installed Capacity (MWp)	Total Production between January-June (kWh)
Ankara	23	25,84	19.307.659

Renewable Energy Contracting

Esenboğa Elektrik provides a wide range of services in the installation of ground-mounted solar power plants, starting from site selection on the needs of its clients and covering every stage of plant installation, offering turnkey solutions. Additionally, Esenboğa Enerji, the company delivers turnkey installations for rooftop solar power plants with the same level of expertise.

With the enactment of Law No. 6094 dated December 29, 2010, titled "Law Amending the Use of Renewable Energy Resources for Electricity Generation," a resource-based incentive mechanism was introduced. As a result, the Company initially focused on contracting activities, and with the implementation of these incentives, energy investments became more feasible, leading the company to start efforts to enter the electricity generation sector.

Roof Type Projects

Esenboğa Elektrik, a subsidiary of Naturel Enerji, which provides solar power system (SPP) project development and turnkey installation services on industrial rooftops, has completed a total of 16,053,775 USD and 2,655,000 EUR worth of contract work in the last 4 years, while contract work totaling 125,000 USD is still ongoing.

A First in Türkiye's Energy Future: Özmen-1 Solar Power Plant Integrated Storage Unit

In collaboration with our subsidiary Margün Enerji, we have achieved a first in Türkiye with our Özmen-1 Solar Power Plant project in Muğla. As part of our sustainability goals, we have made a pioneering investment in the renewable energy sector with an integrated storage unit that enhances energy efficiency and enables the production of 2,064 MWh of electricity through solar power. With the integrated electricity storage unit at our Özmen-1 Solar Power Plant, we aim to minimize imbalances, prevent losses by storing electricity produced above the available capacity and transferring it to the system, and expect to generate additional sales revenue with approximately 860,000 kWh of extra production annually.

Strategic Investments in the Electric Vehicle Ecosystem

According to the December 2024 Charging Services Market Monthly Statistics report published by the Energy Market Regulatory Authority (EMRA), the number of electric vehicles in Türkiye has significantly increased from 7,694 to 185,513 over the past three years. During this period of rapid development of electric vehicle charging infrastructure, Esenboğa Elektrik aims to expand its investments by collaborating with companies involved in the production of charging network stations, maintenance and repair services, battery systems, and electric motor technologies. In this context, joint investment and collaboration processes have been initiated with E-Garaj Elektrikli Taşıtlar Danışmanlık ve Servis Hizmetleri A.Ş., one of the first companies in Türkiye to provide end-to-end services for the electric vehicle ecosystem.

Strategic Step in Renewable Energy in the UAE

In line with our company's international growth objectives and within the framework of our sustainability principles, ESG criteria, and innovation-driven strategy, we have decided to operate in the United Arab Emirates (UAE), which holds significant potential for renewable energy investments. The UAE aims to triple its renewable energy installed capacity by 2030 and achieve carbon neutrality by 2050. In this context, we have decided to establish a company in the UAE to provide turnkey contracting (EPC) services in areas such as power plants, energy storage facilities, transformer stations, urban grids, electric vehicle charging networks, and energy transmission lines, as well as supply materials and develop strategic partnerships.

Strategy and Goals

Esenboğa Elektrik, a subsidiary of Naturel Enerji, which provides project development and turnkey installation services for solar power plants on industrial rooftops, has completed contract projects totaling USD 16,178,775 and EUR 2,655,000 over the past four years.

During the 5 years following its establishment, Esenboğa Elektrik achieved rapid growth alongside its subsidiaries. In 2020, the company went public by offering its shares on Borsa İstanbul. This was followed by the public offering of its subsidiary Margün Enerji in 2021. As of their respective listing dates, these three companies had a total market capitalization of USD 485 million. By the end of 2024, their total market value reached approximately USD1.2 billion, providing significant value to their investors.

The year 2024 marked another record-breaking and growth year for renewable energy, with total global capacity reaching 510 GW. This newly achieved figure marks the 23rd consecutive record. According to IEA scenarios, total capacity is projected to reach 11,000 GW, which is close to the COP28 target of tripling global capacity.

By the end of 2024, the share of renewable energy in Türkiye's installed power capacity reached 59.2%, with a 45.5% share in total production. In 2020, the share of solar-based resources in production was 3.5%, which is projected to rise to 7.6% by 2024, reaching 25.9 TWh. Considering the government's target of adding 3,500 MW of installed solar capacity annually until 2035, Esenboğa Elektrik aims to continue growing its market share in rooftop solar power plant contracting over the next decade.

The global rooftop solar energy market is projected to reach 141.21 billion USD in 2024 (Market Research Future). The market is expected to grow to 170.30 billion USD by 2025 and reach 919.19 billion USD by 2034, with a compound annual growth rate (CAGR) of 20.60%. From 2022 to 2025, the rooftop solar energy market in Türkiye has rapidly expanded due to supportive policies, economic incentives, and an increasing emphasis on renewable energy, becoming an essential component of the country's energy structure. For the sustainable growth of this market, advancements in grid infrastructure, energy storage, and domestic production are necessary. As Esenboğa, we aim to be a leading company in supporting sustainable growth by investing in rooftop solar energy technologies and energy storage.

The growth of the electricity sector in Türkiye, along with the increasing share of renewable energy sources and technological advancements in this field, is creating new opportunities and business models in the market. In this context, we have invested in the Özmen-1 Solar Power Plant project in Muğla, which has a licensed production capacity of 20.17 MWp, along with an integrated storage unit with a capacity of 2,064 MWh. The installation is completed by December 2024, and we are awaiting the official approvals for the process.

Following the integration of the electrical storage unit into the production facility, it is expected that imbalance costs will be minimized and excess electricity produced above the dispatchable capacity will be stored and fed into the system, resulting in approximately 860,000 kWh/year of additional production and revenue. This initiative also is expected to increase the company's green energy production and contribute to a reduction in carbon emissions. The growing demand for similar investments in the market is anticipated to create new business opportunities for Esenboğa Elektrik.

Esenboğa Elektrik does not limit its growth targets in electricity production in Türkiye to solar energy alone; it aims to diversify its portfolio by acquiring renewable energy plants to enhance its green, clean, environmentally friendly portfolio, thus increasing the domestic production capacity of its subsidiary Margün Enerji.

Through e-mobility investments under our subsidiary Esenboğa Elektrik, we aim to become a significant player in the market expected to grow in the coming years by investing in infrastructure facilities such as charging stations for electric vehicles. The number of electric vehicles in Türkiye is expected to exceed 269,000 by 2025 and reach 1.3 million by 2030, with this rapid growth forecasted to necessitate charging infrastructure investments. According to Energy Market Regulatory Authority (EMRA) projections, a total of 46,000 charging points will need to be established by 2025, increasing to 142,000 by 2030.

In line with this, our subsidiary Esenboğa Elektrik aims to expand its growth strategy in e-mobility by offering fast charging solutions for urban and intercity travel, establishing green charging stations integrated with renewable energy sources, and enhancing the efficiency of these stations through energy storage solutions. The company seeks to become a significant player in licensed charging network operations while contributing to Türkiye's sustainable transport transformation, considering the sectoral regulations set by Energy Market Regulatory Authority (EMRA).

Additionally, to leverage investment opportunities and incentives abroad, particularly in the USA, Italy, Germany, and Poland, we are actively pursuing business development and proposal efforts to increase renewable energy production capacity and add new plants to our portfolio.

In addition to ongoing activities, Esenboğa Elektrik aims to diversify its portfolio by investing in projects in climate technologies, including the production of solar panels, inverters, transformers, and electric storage batteries, through mergers and acquisitions and strategic partnerships with globally specialized companies.

As Esenboğa Elektrik and its group companies, we aim to strengthen our presence in the renewable energy sector by reaching a total installed capacity of 1 GW both domestically and internationally by 2030. Within our growth strategy, renewable energy production, climate technology investments, and contracting services will continue to be significant focus areas.

Sustainability

Esenboğa Elektrik supports the material sustainability targets set by its parent company, Naturel Holding, through its own operations and contributes to these goals by developing strategies and projects in collaboration with its subsidiaries, affiliates, and all stakeholders.

The Company places sustainability at the center of its operations, integrating it into all processes and aligning its actions with the sustainability principles defined as core corporate values of Naturel Holding—namely innovation, collaboration, equality, inclusion, transparency, and accountability.

Esenboğa Elektrik adopts an environmental material sustainability target of reducing global greenhouse gas emissions by increasing renewable energy production capacity and energy efficiency—key components of climate technologies that support the transition to a zero-carbon economy and the creation of a sustainable future.

With a target of net-zero emissions and 100% green energy consumption by 2050, the Company aims to reduce its Scope 1 and Scope 2 emissions by 30%, and its Scope 3 emissions by 25% as of 2030.

Esenboğa Elektrik directly supports eleven of the United Nations Sustainable Development Goals through its operations, which are aligned with its vision and mission.

Esenboğa Elektrik aligns with 12 material sustainability targets identified through the Materiality Analysis conducted by Naturel Holding for its climate technology subsidiaries.

Material Sustainability Targets

Environmental

Increasing Renewable Energy Capacity / Investing in new renewable energy plants and providing EPC services for the installation of renewable energy capacity.

Increasing Energy Efficiency / Increasing the use of renewable energy sources in energy consumption, increasing efficiency of existing energy production assets.

Investing in Innovation and New Climate Technology / Establishing collaborations for the production of innovative climate technologies, providing incubation services and making investments.

Protecting Biodiversity / Taking measures to protect and support biodiversity in renewable energy projects and developing afforestation projects to support biodiversity.

Increasing Supply Chain Sustainability / Holding supplier meetings, sharing sustainability information and developing collaborative solutions to support circular economy.

Social

Developing Sustainability and CSR Projects / Increasing sustainability awareness, strengthening innovation vision by supporting STEM education.

Increasing Diversity, Inclusivity, and Equality / Supporting equality and access to quality education, supporting women's leadership and entrepreneurship.

Fostering Employee Well-Being / Supporting work-life balance and enhancing employee happiness by developing leadership projects for actions in line with sustainability goals.

Improving Stakeholder Communication and Engagement / Enhancing communication and collaboration with our stakeholders to raise awareness in sustainability, organizing sustainability webinars, sharing sustainability information on our website and social media.

Governance

Advancing Governance Systems / Strengthening sustainable management systems, integrating best international practices and principles to our policies and processes. Supporting sustainability goals with subcommittees.

Risk Management and Compliance Enhancement / Strengthening internal audit system, improving risk management reporting standards, taking actions on data security.

Improving Transparency and Accountability / Improving and digitizing reporting standards and integrating sustainability goals into ERP Systems.

Our 2024ESG Score

Having filed ESG reports on the London Stock Exchange Group (LSEG) ESG platform since 2021 and been included in the BIST Sustainability Index since 2023, Margün Enerji ranked 1st among its global peers in the LSEG Renewable Energy Services and Equipment sector, achieving the 3rd highest ESG score based on its 2022 and 2023 disclosures.

Our ESG reporting—serving as a guide for integrating our sustainability goals into corporate processes—along with our Sustainability Reports published since 2022 in accordance with GRI standards, has provided our stakeholders with a clear and measurable reflection of our actions, in line with our values of transparency and accountability.

Human Resources

Esenboğa Elektrik continuously develops and improves its working environment by following global developments in the field of human resources management and by adopting a dynamic approach that is suited to the diverse needs of sector and functions in order to increase employee engagement.

As a signatory of UNGC, throughout all human resources processes—from recruitment to wage management—the Company ensures employment without any discrimination based on religion, language, race, ethnic origin, gender, or sexual orientation.

Esenboğa Elektrik, as part of its commitment to sustainable growth, advocates for equal representation of women and men among internal stakeholders. It commits to maintaining the employment rate of women at a minimum of 30% at all levels and aims to increase this ratio to 50%. Creating and sustaining an environment of diversity and equal opportunity is one of the Company's top priorities. There is no wage difference between women and men employees with equal experience and competence. As a signatory of the UN Women's Empowerment Principles (UN WEPs), our company is committed to supporting women's leadership in all areas of life, particularly in corporate settings.

Our Projects and Activities Aligned with Our Material Sustainability Targets

Operating in the field of renewable energy production and climate technologies, the Company's energy management policy focuses primarily developing projects that enhance energy efficiency, and ensuring that energy consumption is sourced from renewable resources.

Margün Enerji develops projects in collaboration with both internal and external stakeholders. With the aim of broadening the scope of these partnerships, the Company prioritizes designing initiatives that contribute to multiple material sustainability targets within a single project. This approach increases both the impact and awareness of sustainability efforts.

The following section outlines the actions taken in 2024 under this framework.

Increasing Renewable Energy Capacity

As part of its core operations, Esenboğa Elektrik participated in international fairs across Türkiye, Europe, and the United States to reinforce its commitment to sustainability and to promote its EPC services for solar power plant installations.

Improving Energy Efficiency

Margün Enerji achieved a first in Türkiye with the Özmen-1 Solar Power Plant (GES) project implemented in Muğla by its subsidiary Soleil Renewable Energy. As part of our material sustainability targets, a pioneering investment in the renewable energy sector was made with an integrated storage unit for a solar-based production capacity of 2,064 MWh—enabling increased use of renewable energy and improved energy efficiency.

Enhancing Supply Chain Sustainability

Throughout the year, our Sales and Business Development units conducted supplier visits and organized information meetings to promote supply chain sustainability and raise awareness among suppliers.

Contributing to Community Sustainability and Corporate Social Responsibility Projects

Naturel Enerji supports the "Naturel Holding Sustainable Schools Project" and collaborates with its stakeholder, Twin Bilim.

The project aims to:

- (i) increase energy efficiency in schools by installing rooftop solar power plants, and
- (ii) support Türkiye's innovation vision by establishing STEM and sustainability education labs equipped with robotic coding kits and an AI-powered online platform.

In 2024, the project was launched at Şehit Mehmet Çetin Primary School in Etimesgut, Ankara, where students learned how a solar panel generates electricity by using robotic kits and coding.

Equal Access to Higher Education Project

As part of our commitment to promoting equality in higher education and nurturing young talent, our Company supports the Anadolu Scholarship Program initiated by Koç University. This program is designed to provide scholarships to high-achieving students from economically disadvantaged backgrounds in Türkiye, helping ensure that financial constraints do not prevent them from pursuing higher education or achieving academic success.

Strengthening Stakeholder Communication and Collaboration

Monthly sustainability webinars, organized in collaboration with internal and external stakeholders, continued throughout 2024. These sessions served as a platform for exchanging ideas and sharing information on material sustainability targets and strategies.

CORPORATE GOVERNANCE

INFORMATION OF BOARD OF DIRECTORS

In accordance with Article 7 of the Company's Articles of Association, the management and administration of the Company is carried out by a Board of Directors consisting of at least six and at most eight members, who are elected by the General Assembly in accordance with the provisions of the Turkish Commercial Code. At the Company's Annual Ordinary General Assembly meeting held on May 21, 2025 the following members were elected to serve as Board of Directors for a term of three years.

Name Surname	Position	Date of First Election
Yusuf ŞENEL	Chairman	09.07.2020
Çağlar GÜLVEREN	Deputy Chairman	03.06.2024
Bora BİLGİN	Board Member	29.04.2022
Selma DİKMEN	Board Member	09.07.2020
Çiğdem DİLEK	Independent Member	03.06.2024
Mehmet ARPACI	Independent Member	09.07.2020

Mr. Bora BİLGİN, one of the members of our Board of Directors, has resigned from his position as Board Member. At the meeting of our Board of Directors held on 04.07.2025, it was resolved to appoint Mr. Tolgay BENDERLİ as a Board Member to replace Mr. Bora BİLGİN, pursuant to Article 363 of the Turkish Commercial Code, to be submitted for approval at the first General Assembly meeting. Additionally, it was resolved to appoint Mr. Tolgay BENDERLİ as the General Manager of our Company in place of Mr. Bora BİLGİN, who was serving as the Deputy General Manager.

Member of the Board of Directors

Yusuf ŞENEL
Chairman of the Board

Yusuf ŞENEL, born in Kahramanmaraş in 1979, has carried out his education and business life together since his early ages. ŞENEL graduated from Bolu Mimar İzzet Baysal Technical and Industrial Vocational High School. Although ŞENEL started his university education in Kahramanmaraş Sütçü İmam University's Textile Engineering Department, he saw the opportunities in business life and quit university and started working. After managerial experiences in various sectors, he established his own business. ŞENEL has served since the establishment of Naturel Yenilenebilir Enerji Ticaret A.Ş., which started its operations in 2009 and brought it to this day by taking over all the shares of the company in 2012. ŞENEL is currently the Chairman of the Board of Directors of Naturel Holding Group companies operating in various sectors such as Defense Industry, Medical, Informatics, Energy, Mining.

Selma DİKMEN
Board Member

She was born on February 27, 1969, in Eskişehir. She graduated from Anadolu University Faculty of Economics and Administrative Sciences, Department of Business Administration in 1991, and from Gazi University Institute of Social Sciences, Department of Accounting and Finance in 1998. She obtained her license as a Certified Public Accountant in 1998. She has worked as an accounting manager in various companies. She holds an independent audit license from the Public Oversight Authority and also an independent audit license from the Capital Markets Board of Turkey (CMB).

**Bora BİLGİN**

Board Member / Acting General Manager

Mr. Bora BİLGİN, one of the members of our Board of Directors, has resigned from his position as Board Member. At the meeting of our Board of Directors held on 04.07.2025, it was resolved to appoint Mr. Tolgay BENDERLİ as a Board Member to replace Mr. Bora BİLGİN, pursuant to Article 363 of the Turkish Commercial Code, to be submitted for approval at the first General Assembly meeting. Additionally, it was resolved to appoint Mr. Tolgay BENDERLİ as the General Manager of our Company in place of Mr. Bora BİLGİN, who was serving as the Deputy General Manager.

**Çağlar GÜLVEREN**

Deputy Chairman of the Board

Board Member Born in 1978, Bora BİLGİN completed his undergraduate studies at the Faculty of Business Administration, Marmara University, in 2002. He began his professional career at Provus Bilişim Hizmetleri, where he rose to the position of Operations Manager. He then served as Sales Director and Deputy General Manager at Datateknik, a subsidiary of Ülker. Starting 2016, he has served as the General Manager of We Data Bilişim San. ve Tic. A.Ş., and since 2021, he has been the General Manager of Naturel Healthcare Medical. In 2022, he was appointed as a Board Member and Acting General Manager at Naturel Yenilenebilir Enerji Ticaret A.Ş. and Esenboğa Elektrik Üretim A.Ş.

Born in 1973 in İzmir, Çağlar Gülveren graduated from the Turkish Education Association Ankara College in 1990, received his Bachelor's degree in Business Administration from Ankara University in 1994 and his Master's degree in Finance from Boston University in 2004. Çağlar Gülveren started his professional career as an Assistant Auditor at the Capital Markets Board in 1995. Until 2007, he worked in different departments of the Capital Markets Board, primarily in the Audit Department, in the audit of publicly traded companies and capital market institutions and transactions, and in the permitting and public offering processes. Between 2007 and 2024, he served as Investor Relations and Corporate Governance Group Companies Director, Secretary General of the Board of Directors and Board Member of various group companies at Tekfen Holding. Mr. Gülveren joined Naturel Holding in September 2024 and currently serves as the Head of Investor Relations Department. Çağlar Gülveren holds a Chartered Financial Analyst (CFA) certificate and all licenses of the Capital Markets Board.

**Mehmet ARPACI**

Independent Board Member

Mehmet Arpacı, born in 1974 in Ankara, completed his primary and secondary education in the same city. He earned his bachelor's degree with honors in International Business from Eckerd College in Florida, USA, and subsequently obtained an MBA from Florida Metropolitan University. He began his career in various managerial roles in the energy and real estate sectors. He served as Marketing Manager at Bilmer A.Ş., and later held positions as Procurement Manager and Energy Trade Coordinator at Çalık Holding. Leveraging his expertise in the energy sector, he became the founding president of the Global Energy Foundation. In 2010, he was appointed General Manager of Atakule Real Estate Investment Company (Atakule GYO A.Ş.), and as of 2022, he serves as a Board Member and Deputy Chairman of the Executive Committee. He is also a board member at Çemtaş Steel and Bursa Beton A.Ş., and, as of 2025, a Board Member at Naturel Renewable Energy and Margün Energy Inc. He is fluent in English and has a keen interest in classical sports, cycling, and nature photography. He is married with three children.

**Çiğdem DİLEK**

Independent Board Member

Born in 1977 in Şanlıurfa, Attorney Çiğdem Dilek graduated from the Faculty of Law at Istanbul University. She pursued studies in European Union Law at the London School of Economics in London and completed a master's degree in Economic Law at Başkent University. Attorney Çiğdem Dilek continues to work in various areas of law, primarily energy law, as well as commercial law, corporate law, capital markets and banking-finance law, and administrative law. Fluent in English, she has represented numerous domestic and international companies and public institutions as a legal counsel. Çiğdem Dilek is the founding chairperson of the Energy Law Commission of the Ankara Bar Association No. 1 and a founding board member of the Ankara Bar Association No. 2. She is also the Founding President of the Solar Energy Investors Association and currently serves as the Chair of the Ethics Committee at GÜNDER (International Solar Energy Society Turkey Section). Between 2015 and 2021, she served as an Independent Board Member at Atakule REIT. She is currently a board member at Naturel Yenilenebilir A.Ş., Margün Enerji Sanayi ve Ticaret A.Ş., Esenboğa Elektrik Üretim A.Ş., and Alfa Solar Enerji Sanayi ve Ticaret A.Ş.

Shareholding Structure

As of June, 30 2025, the shareholding structure of our company is as follows:

		30.06.2025				31.12.2024			
Class	Public/ Non-listed	TRY	Share of Capital%	Voting Right%	Number of Votes	TRY	Share of Capital%	Voting Right%	Number of Votes

*Total
Class A shares are registered, while Class B shares are bearer shares. According to Article 10 of the Company's Articles of Association, each Class A share carries 5 votes at the general assembly. Each Class B share carries 1 vote. If the Board of Directors consists of 6 or 7 members, 3 members will be selected from Class A shareholders or their nominees. If the Board consists of 8 members, 4 members will be selected from Class A shareholders or their nominees.

Individuals and Legal Entities Directly Holding 5% or More Share or Voting Rights in the Capital

Share Buyback Program

In accordance with the board decision regarding the share buyback dated 26.08.2022, the share buyback program was initiated and renewed with the board decision dated 15.02.2023. The latest version of the program has been added to the table below.

The amount of shares subject to buyback (TRY Nominal): 21.328.125	The amount of shares repurchased (TRY Nominal): 7.024.559
Maximum amount to be paid (TRY): 250.000.000	The amount paid (TRY): 99.305.709,99

During the share buyback program, a total of TRY 99,305,709.99 was paid for the repurchased shares, and all of these shares—except for 80,254 units—were sold for a total amount of TRY 136,847,126. The total profit of our company is TRY 40,108,625.

At the meeting of our Board of Directors held on May 21, 2025;

1. Within the registered capital ceiling of TRY 3,000,000,000, it has been unanimously resolved to increase the Company's issued capital of TRY 260,000,000 by TRY 1,560,000,000, bringing the total capital to TRY 1,820,000,000, representing a 600% bonus issue, to be fully covered from internal resources as follows: TRY 991,840,910.38 from Retained Earnings, TRY 73,047,193.13 from Share Premiums, TRY 495,111,896.49 from Positive Capital Adjustment Differences.

2. In accordance with Article 6 of the Company's Articles of Association titled "Capital and Types of Shares," it has been resolved to issue: 97,500,000 new registered Class A shares (ISIN: TREEEN00016) to the existing 16,250,000 registered Class A shares, 1,462,500,000 new bearer Class B shares (ISIN: TREEEN00024) to the existing 243,750,000 bearer Class B shares.

3. It has been unanimously resolved to apply to all relevant authorities, including the Capital Markets Board of Türkiye, Borsa İstanbul A.Ş., and the Central Securities Depository (Merkezi Kayıt Kuruluşu A.Ş.), and to prepare and submit all necessary documentation in accordance with this resolution.

Based on the decision of the Board Of the Directors, within the scope of increasing our company capital from TL 260,000,000 to 1,820,000,000, an application was made to the Capital Markets Board on 22.05.2025 for the approval of the issuance documents and amendment of Article 6 of our company's Articles of Association.

Our application has been approved by the Capital Markets Board and was announced in the Bulletin dated August 07, 2025, numbered 2025/43.

The Board of Directors of our Company convened on August 11, 2025, and unanimously resolved to set the start date for the exercise of the bonus share distribution rights as August 12, 2025, and to apply to the Central Securities Depository (Merkezi Kayıt Kuruluşu - MKK) regarding these transactions.

The bonus capital increase of our Company was registered on August 18, 2025, and announced in the Turkish Trade Registry Gazette dated August 18, 2025, and numbered 11395.

Section 1 Corporate Governance Principles Compliance Principles

For companies to be sustainable and ensure the continuity of their operations, they need to have not only a strong financial structure but also a solid corporate identity. Esenboğa Elektrik is aware that having a good corporate identity is essential for sustainability and value creation, and places great importance on this structure both internally and externally.

Since the second half of 2023, Esenboğa Elektrik has been included in the Borsa Istanbul Sustainability Index. According to evaluations conducted by LSEG, Esenboğa Elektrik and its other publicly traded group company, Margün Enerji, improved their ESG score from B in the 2021 evaluation to A in the 2022 evaluation and maintained the A score in 2023. Our company aims to achieve the highest ESG practices score of A+ and continues its efforts in this direction.

To ensure the sustainability of its corporate culture, Esenboğa Elektrik demonstrates utmost diligence in complying with the Capital Markets Board ("CMB") Communiqué on Corporate Governance No. II-17.1, published in the Official Gazette dated January 3, 2014, issue No. 28871, and its annexed "Corporate Governance Principles" regulations.

During the reporting year of 2024, our company has complied with the "Corporate Governance Principles" published by the CMB, except for the principles listed below, which are not mandatory.

Status	Full Compliance	Partial Compliance	Non-Compliance
Mandatory	24	-	-
Voluntary	68	6	10
Total	92	6	10

The principles with which our company has not achieved compliance are listed below (the numbering at the beginning of the paragraphs refers to the respective articles of the CMB Corporate Governance Principles):

1.3.11 The General Assembly Meetings are not held publicly, including stakeholders and the media, without voting rights. Only shareholders and company employees are allowed to attend the General Assembly Meetings.

1.4.2 According to Article 10 of our Articles of Association, each Class share has 15 voting rights at the General Assembly, while each Class B share has 1 voting right. Additionally, if the Board of Directors consists of 6 or 7 members, 3 members are elected from among the Class A shareholders or their nominees. If the Board consists of 8 members, 4 members are elected from among the Class A shareholders or their nominees.

1.5.2 Minority rights have not been granted to shareholders holding less than one-twentieth of the capital through the Articles of Association, nor have the scope of minority rights been extended or regulated in the Articles of Association.

1.7.1 The Board of Directors of the company may withhold approval for the transfer of Class A shares, limited to the reasons defined in Article 493 of the Turkish Commercial Code. However, there are no restrictions on the transfer of Class B shares.

3.2.1 There is no provision regarding employee participation in management in the Articles of Association.

3.2.2 There is no practice of obtaining the opinions of stakeholders in important decisions that have an impact on them.

3.3.1 There is no succession planning in place for key executive positions.

3.3.5 Employees are informed about decisions that may affect them; however, there is no union structure in place.

4.2.8 - No director liability insurance has been taken out for the board members to cover any potential damage they may cause to the company during the course of their duties

4.3.9 Although the proportion of women on our Board of Directors is above 25% (50%), no specific policy has been established in this regard. The gender ratio of board members is carefully considered during the process of selecting candidates for the Board.

4.4.2 Although information and documents related to the Board of Directors meeting agenda are sent to the members in a timely manner to allow them to review and prepare for the meeting, no written minimum period has been specified in this regard.

4.4.5 There is no written internal regulation regarding the procedure for conducting Board of Directors meetings.

4.4.7 There are no restrictions on the Board of Directors members taking on other positions outside the company; however, information about the roles taken by board members outside the company has been provided to shareholders in the annual report and during the General Assembly meeting.

4.5.5 Due to the number of existing Board of Directors committees, some of the members serve on multiple committees.

4.6.1 The Board of Directors does not conduct a performance evaluation to assess whether it is effectively fulfilling its responsibilities.

4.6.5 The salaries of Board members and executives with administrative responsibilities are not disclosed on an individual basis in the annual Activity Report.

The Corporate Governance Compliance Report and the Corporate Governance Information Form for the 2024 period of our company have been approved by our Board of Directors. These forms can be accessed in the continuation of this report and on our company's corporate governance page on www.kap.org.tr.

Section 2 The Board of Directors and Committees

Board of Directors

According to our Articles of Association, the company's operations and management are carried out by the Board of Directors, which is selected by the General Assembly and consists of at least 6 and at most 8 members. In the Annual Ordinary General Assembly Meeting held on May 21, 2025, the Board of Directors was elected for a term of 3 years with 6 members.

Name Surname	Title
Yusuf ŞENEL	Chairman
Selma DİKMEN	Vice Chairman
Bora BİLGİN	Board Member
Çağlar GÜLVEREN	Board Member
Çiğdem DİLEK	Independent Member
Mehmet ARPACI	Independent Member

*In the case where the Board of Directors consists of 6 or 7 members, 3 members are selected from the Class A shareholders or their candidates. If the Board of Directors consists of 8 members, 4 members are selected from the Class A shareholders or their candidates. The remaining members of the Board of Directors are selected from the Class B shareholders or their candidates. In both ordinary and extraordinary General Assembly meetings, each Class A share grants fifteen votes, and each Class B share grants one vote to the shareholders or representatives present at the meeting.

*Mr. Bora BİLGİN, one of the members of our Board of Directors, has resigned from his position as Board Member. At the meeting of our Board of Directors held on 04.07.2025, it was resolved to appoint Mr. Tolgay BENDERLİ as a Board Member to replace Mr. Bora BİLGİN, pursuant to Article 363 of the Turkish Commercial Code, to be submitted for approval at the first General Assembly meeting. Additionally, it was resolved to appoint Mr. Tolgay BENDERLİ as the General Manager of our Company in place of Mr. Bora BİLGİN, who was serving as the Deputy General Manager.

The Board of Directors includes two independent members, and each of the independent members has provided a written declaration regarding their independence.

The management of the company and its representation to the outside is the responsibility of the Board of Directors. The Board of Directors performs the duties assigned to it by the General Assembly, in accordance with the Turkish Commercial Code, the Capital Markets Law, and other relevant regulations. For all documents to be issued and contracts to be valid, they must be signed by the person or persons authorized to bind the company and placed under the company's title. The Chairman of the Board of Directors can represent the company independently and bind the company under its name with signatures made individually.

Currently, the members of the Board of Directors do not engage in any actions that could lead to a conflict of interest with the company and do not engage in activities that would involve competing in the same areas of business.

Financial Rights Provided to Board Members and Senior Management

At the Annual General Assembly meeting of our company held on May 21, 2025, it was decided that the Chairman of the Board would receive a net monthly salary of TRY 200,000, Independent Board Members would receive a net monthly salary of TRY 40,000, and the Vice Chairman of the Board and other Board Members would not receive any compensation other than their salaries for their positions in the company.

No other rights or benefits are provided to the Board Members other than the monthly attendance fees determined by the General Assembly decision. No performance-based compensation has been paid to the Board Members. However, transportation, communication, accommodation, and representation expenses incurred by the Board Members in the course of their duties may be covered by the company.

During the period, no personal loans have been granted to any board member through a third party, nor have any guarantees such as surety been provided on their behalf.

Our company aims to adopt a fair compensation policy that supports the retention of competent executives in their field, enhances their high performance, fosters their commitment, motivates them to achieve long-term goals, and aligns with our sustainability strategies.

The total amount paid to Board Members and Senior Executives in terms of salary and similar benefits during the year is TRY 2.269.312,51. For the purposes of this reporting, personnel at the Director level and above in the company organizational chart are defined as Senior Management.

COMMITTEES

Our company has established several committees to fulfill the duties and responsibilities of the Board of Directors, in accordance with regulations. These committees include the Audit Committee, Corporate Governance Committee, and Early Detection of Risk Committee, all of which operate under the Board of Directors. Additionally, the Nomination Committee and Remuneration Committee, which are required by corporate governance principles, are structured within the Corporate Governance Committee and the tasks assigned to these committees by regulations are carried out by this Committee.

The general procedures for the activities of these committees, including their duties and working principles, are available on our company's website. The Audit Committee and Corporate Governance Committee meet at least quarterly, four times a year, while the Early Detection of Risk Committee meets bi-monthly.

In line with its commitment to sustainability, Esenboğa Elektrik has established a Sustainability Committee in addition to the committees formed under the Capital Markets Board (CMB) regulations. This committee integrates sustainability goals into the company's corporate objectives and places sustainability at the center of all decisions and actions.

There are subcommittees focused on specific targets under these committees, including the Waste Management Subcommittee, Supply Chain Subcommittee, Data Management Subcommittee, Reporting Subcommittee, Environment Subcommittee, Innovation Subcommittee, and Stakeholder Relations Subcommittee, thereby strengthening the governance structure.

These subcommittees report to the CEO and Executive Board, and the CEO and Executive Board report to the Board of Directors. The general procedures for the activities of these committees, including their duties and working principles, are available on our company's website

a. Audit Committee

The Audit Committee oversees the company's accounting system, the disclosure of its financial information to the public, independent audits, and the functioning and effectiveness of the company's internal control and internal audit systems. The selection of the independent audit firm, the preparation of independent audit agreements, the initiation of the independent audit process, and the monitoring of the audit firm's work at every stage are carried out under the supervision of the Audit Committee. Additionally, the independent audit firm to be engaged by the company and the services to be obtained from these firms are determined by the Audit Committee and submitted to the Board of Directors for approval. The Audit Committee provides its evaluations regarding the compliance and accuracy of the annual and interim financial statements to be disclosed to the public with the accounting principles followed by the company. These evaluations, along with the opinions of the company's responsible managers and independent auditors, are submitted in writing to the Board of Directors.

The members of the Audit Committee consist of two independent members of the Board of Directors. In 2025, Mehmet ARPACI served as the Committee Chairman and Çiğdem DİLEK as the Committee Member, and the committee held three meetings in the second quarter of 2025.

The Internal Audit unit under the Audit Committee was established in the last quarter of 2022. In 2023 and 2024, internal audit services were obtained from PwC Independent Audit and Certified Public Accounting Co. (PwC), one of the globally recognized leading consultancy firms, in accordance with international internal audit standards (IIA – The Institute of Internal Auditors). The risk-based and process-oriented internal audit activities cover all financial and non-financial processes within the company. Where necessary, efforts are also made to establish or improve internal control points. Additionally, process consultancy within the framework of ethical principles and, if needed, ethical hotline services can also be provided.

b. The Corporate Governance Committee

The Corporate Governance Committee ensures compliance with corporate governance principles within the company in accordance with capital market regulations and the principles outlined therein. If these principles are not implemented, the Committee identifies the reasons and any conflicts of interest arising from non-compliance. It provides recommendations to the Board of Directors to improve corporate governance practices and oversees the activities of the Investor Relations Department.

Additionally, since the duties of the Remuneration Committee and the Nomination Committee have been structured under the Corporate Governance Committee, these responsibilities are also carried out by the Corporate Governance Committee. In 2025, Çiğdem DİLEK served as the Committee Chair, while Mehmet ARPACI and Yasin OĞUZ served as Committee Members. The committee held two meetings in the second quarter of 2025.

c. The Early Detection of Risk Committee

The Early Detection of Risk Committee is responsible for the early identification of risks that could endanger the company's existence, growth, and continuity, taking necessary measures to address identified risks, and managing these risks. The Committee also reviews the risk management systems at least once a year.

In 2025, Mehmet ARPACI served as the Committee Chair, and Selma DİKMEN served as a Committee Member. The committee held three meetings in the second quarter of 2025.

d. Sustainability Committee

The Sustainability Committee of Esenboğa Elektrik was established in 2020 to report to the Board of Directors on the determination of sustainability strategies, policies, and goals, the execution of relevant organizational and financial planning, the monitoring and auditing of sustainability performance, and tasks related to improvement and development.

Our company aims to support sustainability efforts from a Human Resources management perspective and ensure that our sustainability initiatives are managed in a participatory and inclusive manner across the company and its subsidiaries.

In 2025, Pınar KARAMAN served as the Committee Chair, and Elçi KÖSE, Yasin OĞUZ and Doğan ŞİMŞEK served as Committee Members.

Section 3 Shareholders

2.1. Investor Relations Department

The creation of the investor relations department, which facilitates communication between the company and its investors, is mandatory. This department should work directly under the responsibility of the CEO, deputy CEO, or another senior executive with administrative duties. Additionally, it is required that the department prepares and submits a report to the Board of Directors at least once a year regarding its activities.

The Investor Relations Department operates under the Investor Relations Department Head and works in alignment with the Corporate Governance Committee. Special disclosures are made for significant developments during the period. In this period, 58 disclosures were made.

The contact information of our employees working in the mentioned department is provided below.

Name Surname	Position and Date of Assignment	Phone Number and E-mail	Type of Licence
Yasin OĞUZ	Investor Relations Manager 14.01.2022	0312 467 18 36 yasin.oguz@natureenerji.com.tr	Capital Markets Operations Degree 3 License and Corporate Governance Rating License
Merve İMİRĞİ	Investor Relations Specialist 22.08.2022	0312 467 18 36 merve.imirgi@natureenerji.com.tr	Capital Markets Operations Degree 3 License and Corporate Governance Rating License

The report prepared by the department regarding the activities carried out in 2024 was submitted to the Board of Directors on January 2, 2025.

2.1.1. The responsibilities of the Investor Relations Department

The main responsibilities of the Investor Relations Department based on legislation are as follows:

- Ensuring that the records of correspondence between investors and the company, as well as other information and documents, are maintained in a healthy, secure, and up-to-date manner;
- Responding to written information requests from the company's shareholders regarding the company.
- Preparing the documents that need to be provided to the shareholders for information and review in relation to the General Assembly meeting, and taking the necessary measures to ensure that the General Assembly meeting is held in compliance with relevant regulations, the articles of association, and other internal company regulations;

- Overseeing and monitoring the fulfillment of obligations arising from capital markets regulations, including corporate governance and public disclosure matters;

In addition to these duties, the Investor Relations Department also performs the following activities:

- Responding to inquiries and information requests from investors and analysts via telephone or email, within the limits allowed by legal regulations; holding one-on-one meetings with investors and analysts or participating in conferences and meetings organized on this matter.
- Monitoring and overseeing all matters related to public disclosure regulations, and in this context, preparing and sending the necessary special situation disclosures to the Public Disclosure Platform;
- Obtaining the financial and operational data required for research reports to be prepared by analysts, within the scope of previously disclosed public information and ensuring that the data is not confidential; ensuring that the research reports are prepared based on complete, accurate, and up-to-date information; reviewing and monitoring the analyst reports prepared in this context;
- In accordance with the regulations regarding the public disclosure of special situations, preparing a list of individuals with access to inside information and ensuring the list remains up to date;
- Monitoring the information included in the Central Securities Depository's electronic system.

2.2. The Use of Shareholders' Right to Information

Any information requests received by the Investor Relations Department are answered diligently, without discrimination between investors, based on the principle of equality, as long as the information is not considered a trade secret or has not yet been disclosed to the public. In the second quarter of 2025, 45 institutional and individual investors had their verbal or written inquiries addressed.

In addition, all relevant data for investors to be fully, accurately, and up-to-date informed is available in both English and Turkish through the "Investor Relations" section on our company's website (www.esenbogaelektrik.com.tr)

During the period, no information or disclosures were made on our company's website that could affect the exercise of shareholders' rights. Since the right to request the appointment of a special auditor is regulated by legal legislation, there is no provision in our company's Articles of Association regarding the request for the appointment of a special auditor.

2.3. General Assembly Meetings

The financial reports for our company's 2024 activities were announced on April 28, 2025. The Annual Ordinary General Assembly Meeting was held on May, 21 2025, at 10:00 AM at Kızılırmak Mah. 1450 Sok. ATM Plaza B Blok Kat:14 No:1/67 Çankaya, Ankara.

The meeting agenda, detailed explanations of the items on the agenda, the information document, the annual activity report, financial statements and reports, profit distribution proposal, and proxy sample were made available for shareholders' review at least three weeks before the General Assembly date. These documents were accessible at the company's headquarters, the Information Society Services page, the Central Securities Depository's e-General Assembly system, and on our website (www.esenbogaelektrik.com.tr)

The invitation to the meeting, including the proxy form and agenda, was published in the Turkish Trade Registry Gazette in accordance with the law and the provisions of the Articles of Association, within the specified time frame. Our Ordinary General Assembly meeting was held with a quorum of 62.62%, with a total of 162,805,320 shares participating, including those attending electronically, out of 260,000,000 shares corresponding to our company's total capital of TRY 260,000,000.

No other stakeholders or media representatives participated in the meeting, aside from the shareholders.

In accordance with the Capital Markets Legislation, a separate agenda item was added to inform shareholders about the total donations and aids made in 2024, amounting to TRY 7,006,255, and the beneficiaries of these donations.

During the General Assembly meeting, shareholders were given the opportunity to express their thoughts and ask questions. However, the shareholders who attended the meeting did not have any questions for the management.

No proposals were made by the shareholders during the General Assembly meeting. The meeting agenda, attendance list, and meeting minutes can be obtained from our company headquarters, and these documents are also available on our website (www.esenbogaelektrik.com.tr)

2.4. Voting Rights and Minority Rights

2.4.1. Voting Rights

There are two group of shares representing the capital; Class A and Class B. Class A shares are registered, while Class B shares are bearer shares.

In accordance with Article 10 of our company's Articles of Association, each Class A share has five votes, and each Class B share has one vote. However, pursuant to Article 479/3 of the Turkish Commercial Code, voting privileges cannot be used in the following decisions:

- Amendment of Articles of Association.
- Selection of Auditors.
- Approval of discharge and initiation of liability lawsuits.

2.4.2. Minority Rights

Our company's Articles of Association do not contain any provision regarding the representation of minority shareholders in the management or the use of cumulative voting.

In accordance with the provisions of the Turkish Commercial Code (TCC), shareholders holding at least 5% of the company's capital have the right to request the Board of Directors to convene a General Assembly meeting, specifying the reasons and agenda in writing, or to include topics they wish to be resolved in the agenda. The 5% minority shareholders who request the General Assembly meeting have the right to seek authorization from the court if necessary.

2.5. Dividend Rights

Our company's profit distribution decisions are determined in accordance with the Turkish Commercial Code (TCC), Capital Markets Legislation, Capital Markets Board (CMB) Regulations and Decisions, Tax Laws, relevant other legal provisions, and the Articles of Association of our company. Our "Profit Distribution Policy" can be accessed on our website (www.esenbogaelektrik.com.tr)

Section 4 Sustainability Principles Compliance Framework

Esenboğa Elektrik reports annually on its sustainability performance and the progress made alongside its stakeholders. Since 2021, the company has also been conducting ESG reporting on the LSEG platform. By integrating ESG criteria into all corporate policies and processes, Esenboğa Elektrik aims to ensure that every corporate decision and action aligns with sustainability goals. As a result, the company has achieved the highest ESG scores in the Renewable Energy Industry Group ranking on the LSEG Platform and, following the 2023 evaluations, holds an "A" score, placing it on the BIST Sustainability Index.

In addition to the Sustainability Committee established in 2020, Esenboğa Elektrik strengthened its management systems in 2023 by forming sub-committees focusing on waste management, supply chain, data management, reporting, environment, innovation, occupational health and safety. These sub-committees report to the CEO and the Board of Directors, working closely to monitor and implement sustainability goals and strategies.

Our company complies with all of the 56 principles of the Capital Markets Board (CMB) that are not yet mandatory but must be reported under the "Comply or Explain" principle, except for the six principles listed below (the numbering at the beginning of the paragraphs refers to the relevant provisions of the CMB Sustainability Principles):

A2.3 Work is ongoing to determine the Environmental, Social, and Corporate Governance (ESG) Key Performance Indicators (KPIs) and to disclose them in a comparative manner on an annual basis. However, they have not yet been disclosed.

A4.1 The verification of Key Performance Measurements by an independent third party will be conducted as part of the 2024 Sustainability Report activities.

B4 Work is ongoing to identify the environmental targets included in the performance incentive systems for stakeholders (such as board members, executives, and employees) and to disclose these targets to the public.

B15 Efforts are ongoing to reduce greenhouse gas emissions from third parties.

C1.5 Efforts are ongoing to establish mechanisms for resolving employee complaints and disputes.

D1 Efforts are ongoing to consult stakeholders' opinions in the determination of measures and strategies in the field of sustainability.

Stage 5 Legal Disclaimers

a. The information about lawsuits filed against the company and potential outcomes that may affect the company's financial condition and operations.

None.

b. Regulatory changes that may significantly affect the company's operations.

There has been no regulatory change that could significantly affect operations during the year.

c. Management and operational changes within our company and Subsidiaries that could significantly affect company decision.

There are no management and operational changes that could significantly affect our operations. Relevant material disclosures made by our company under the applicable regulations can be accessed at <http://www.kap.gov.tr>.

d. Conflicts of interest between the company and institutions providing services such as investment consultancy and rating.

There is no conflict of interest between the institutions and our company.

e. Information Regarding Shareholders' Request to include Items on the Agenda

No requests have been made by any shareholder to add items to the agenda of the General Assembly.

f. The company's research and development activities

The company does not engage in any research and development activities.

g. Information regarding amendments of made to the Articles of Association during the period.

There have been no amendments to the Article of Association during the period.

h. The company's sources of financing and, if applicable, the nature of ant capital market instruments issued.

None.

i. Developments in investments, the status of benefiting from incentives and the extent to which they have been utilized.

None.

j. Information regarding donations made during the period

The donations and aids made in 2025 amount to TRY 5.420.047.

k. Information regarding transactions carried out by the members of the management body on behalf of themselves or others, and activities falling within the scope of the non-compete clause, in accordance with the authorization granted by the company's general assembly.

In accordance with the Capital Markets Board (CMB) Corporate Governance Principles and Articles 395 and 396 of the Turkish Commercial Code (TCC), the General Assembly unanimously approved granting permission to controlling shareholders, shareholder Board members, senior executives, and their spouses and relatives up to the third degree by blood or marriage to conduct transactions with the Company or its subsidiaries that could lead to conflicts of interest, to compete, to carry out transactions with the Company on their own behalf or on behalf of others, to engage in business activities within the Company's field of operation personally or through third parties, and to become partners with unlimited liability in companies engaged in similar business activities.

On the other hand, our Board members do not engage in any activities that would compete with the Company, either personally or as partners.

I. Significant Events Occurring After the End of the Fiscal Period That May Affect the Rights of Shareholders, Creditors, and Other Relevant Parties

As disclosed in our material event statements dated January 23, 2025, and February 4, 2025, our Company has been evaluating strategic investment opportunities within the electric vehicle ecosystem. Following these evaluations, our material event statement dated June 3, 2025, announced the decision to invest in two startup companies operating in this field by way of capital increase.

As a result of these evaluations, a shareholders' agreement was signed on July 4, 2025, to acquire a 10% equity stake in EGaraj Elektrikli Taşıtlar Danışmanlık ve Servis Hizmetleri A.Ş. (E-Garaj) through a capital increase.

E-Garaj provides maintenance, repair, and appraisal services for electric vehicles, as well as the purchase and sale of multi-brand new and used electric vehicles. The company is the exclusive distributor in Türkiye for the YoYo, Hattat Regis, Tazzari, and EVclinic brands. With its distributorship of EVclinic in particular, E-Garaj aims to maintain its leadership in the maintenance and repair of electric vehicle motors and battery systems. Additionally, it develops strategic partnerships with new-generation mobility companies such as Voltify, Alba e-bikes, and Actio.

E-Garaj holds not only the distribution rights but also the production rights for the YoYo brand in Türkiye. Accordingly, the company is conducting efforts toward the local assembly and production of YoYo vehicles in Türkiye.

E-Garaj provides integrated services to both individual customers and corporate clients managing fleets.

This investment aligns with our Company's growth strategy in climate technologies and aims to add value to the emerging electric mobility ecosystem in Türkiye.

As disclosed in our material event statements dated January 23, 2025, and February 4, 2025, our Company has been evaluating strategic investment opportunities within the electric vehicle ecosystem. Following these evaluations, our material event statement dated June 3, 2025, announced the decision to invest in two startup companies operating in this field by way of capital increase.

As a result of these evaluations, a shareholders' agreement was signed on July 4, 2025, to acquire a 10% equity stake in Pluginn Elektrikli Taşıtlar Şarj Sistemleri ve Yazılım Hizmetleri Sanayi ve Ticaret A.Ş. (Pluginn) through a capital increase.

Mr. Bora BİLGİN, one of the members of our Board of Directors, has resigned from his position as Board Member. At the meeting of our Board of Directors held on 04.07.2025, it was resolved to appoint Mr. Tolgay BENDERLİ as a Board Member to replace Mr. Bora BİLGİN, pursuant to Article 363 of the Turkish Commercial Code, to be submitted for approval at the first General Assembly meeting.

Additionally, it was resolved to appoint Mr. Tolgay BENDERLİ as the General Manager of our Company in place of Mr. Bora BİLGİN, who was serving as the Deputy General Manager.

At the meeting of our Company's Board of Directors held on 03.07.2024; It was resolved to transfer 75% of the shares representing the capital of our wholly owned subsidiary, Esenboğa Batarya Sistemleri ve Enerji Yatırımları A.Ş., to Naturel Holding A.Ş. The aforementioned share transfer was registered on 11.07.2025.

In addition, the trade name of the company, previously "Esenboğa Batarya Sistemleri ve Enerji Yatırımları A.Ş.", was changed to "Naturel ChargeN Elektrik A.Ş.", and this name change was registered on 11.07.2025 and announced in the Turkish Trade Registry Gazette dated 14.07.2025 and numbered 11371.

In line with its goal to expand investments in the renewable energy sector, Margün Enerji Üretim Sanayi ve Ticaret A.Ş. completed the acquisition of 100% of the shares of RSC Elektrik Üretim İnşaat Turizm A.Ş. in 2025. The company was established and licensed under the Electricity Market Licensing Regulation and owns the RSC-1 Seferihisar Geothermal Power Plant with an installed capacity of 12 MWm.

In line with the decision of our Company's Board of Directors dated July 8, 2025, an application has been submitted to the Energy Market Regulatory Authority (EMRA) for the installation of an integrated Hybrid Solar Power Plant (5.4 MWm installed capacity) to the existing RSC-1 Seferihisar Geothermal Power Plant with an installed capacity of 12 MWm.

With the integrated investment of a 5.4 MWm Hybrid Solar Power Plant into the RSC-1 Seferihisar Geothermal Power Plant, the installed capacity of our geothermal facility will increase by approximately 50%, reaching 17.40 MWm. This investment is expected to generate an additional 10,000,000 kWh of electricity annually and approximately USD 1,050,000 (TRY 41,896,995) in additional sales revenue.

After approval of our application for the installation of the Hybrid Solar Power Plant by the Energy Market Regulatory Authority (EMRA), our total installed capacity will increase to 135.43 MWm. Additionally, Margün Enerji is the largest shareholder of Enda Enerji Holding A.Ş., which operates a total of 200.04 MWm electricity generation capacity consisting of 4 hydroelectric, 5 wind, 1 geothermal, and 3 solar power plants. If this application is approved, the total installed capacity of our company together with its group companies will reach 335.47 MWm.

Within the framework of the resolution of our Board of Directors dated July 10, 2025, and in line with the goal of increasing investments in renewable energy, it has been decided to authorize our General Manager, Mr. Sami Özgür BOSTAN, to hold negotiations with companies holding pre-license and license for the purpose of investing in solar power plants with energy storage, as well as to conduct discussions regarding the acquisition of production license holders and the realization of such investments.

In line with its goal to increase investments in the field of renewable energy, Margün Enerji Üretim Sanayi ve Ticaret A.Ş. acquired 100% of the shares of RSC Elektrik Üretim İnşaat Turizm A.Ş. in 2025. The company was developed under the Electricity Market Licensing Regulation and includes the RSC-1 Seferihisar Geothermal Power Plant with an installed capacity of 12 MWm.

In accordance with the resolution of our Board of Directors dated July 8, 2025, an application was submitted to the Energy Market Regulatory Authority (EMRA) on the same day for the development of a 5.4 MWm solar power plant (SPP) to be integrated as a hybrid facility with the 12 MWm RSC-1 Seferihisar Geothermal Power Plant.

Within the framework of the resolution of our Board of Directors dated July 11, 2025, it has been decided to authorize our General Manager, Mr. Sami Özgür BOSTAN, to explore the following additional income-generating investment areas:

- Initiating investment efforts for the separation of carbon dioxide gas obtained from geothermal fluid and its commercialization through carbon dioxide sales.
- Conducting resource analyses and feasibility studies for the exploration of valuable metals that can be extracted from geothermal fluid, and developing related sales efforts.
- Increasing the capacity utilization rate of the 12 MWm installed power through enrichment activities in the wells, thereby achieving revenue growth.
- Conducting necessary land surveys, geophysical investigations, geochemical analyses, and geotechnical studies in our licensed area of 3,125 hectares (31,250 dönüm) to make additional investments aimed at increasing the installed capacity of 12 MWm.
- Conducting activities related to greenhouse farming that leverage the heat from the geothermal source to improve efficiency, performing feasibility studies in this regard, investing in greenhouses, and generating revenue from the agricultural sector.
- Conducting necessary research and analysis on the extractability of lithium, an element used in battery technologies, and, if sufficient reserves are found, establishing a separation facility to commence lithium sales.

According to the "Monthly Statistics on the Charging Services Market – December 2024" report published by the Energy Market Regulatory Authority (EPDK), the number of electric vehicles in Turkey increased from 7,694 to 185,513 over the last three years (2021-2024), and further rose to 268,057 as of June 2025, representing a growth of 3,480%. By the end of the same period, the total number of charging sockets followed a similar growth trend, reaching 31,433 units. Based on these statistics, it is projected that charging services will continue to grow at an accelerating pace in the coming years.

As disclosed in our material event statements dated January 23, 2025, and February 4, 2025, our Company has been evaluating strategic investment opportunities within the electric vehicle ecosystem. Following these evaluations, our material event statement dated June 3, 2025, announced the decision to invest in two startup companies operating in this field by way of capital increase.

As a result of these evaluations, a shareholders' agreement was signed on July 4, 2025, to acquire a 10% equity stake in EGaraj Elektrikli Taşıtlar Danışmanlık ve Servis Hizmetleri A.Ş. (E-Garaj) through a capital increase.

By the end of the same period, the total number of charging sockets followed a similar growth trend, reaching 31,433 units. Based on these statistics, it is projected that charging services will continue to grow at an accelerating pace in the coming years.

As disclosed in our material event statements dated January 23, 2025, and February 4, 2025, our Company has been evaluating strategic investment opportunities within the electric vehicle ecosystem. Following these evaluations, our material event statement dated June 3, 2025, announced the decision to invest in two startup companies operating in this field by way of capital increase.

As a result of these evaluations, a shareholders' agreement was signed on July 4, 2025, to acquire a 10% equity stake in Pluginn Elektrikli Taşıtlar Şarj Sistemleri ve Yazılım Hizmetleri Sanayi ve Ticaret A.Ş. (Pluginn) through a capital increase.

The General Assembly meeting regarding the capital increase has been held as of today. The necessary applications for registration will be submitted.

In line with the resolution of our Board of Directors dated May 21, 2025;

Within the registered capital ceiling of TRY 3,000,000,000, an application was submitted to the Capital Markets Board on May 22, 2025, for the approval of the issuance certificate concerning the newly issued shares—amounting to TRY 97,500,000 of Group A and TRY 1,462,500,000 of Group B shares, as a result of the capital increase of our Company from TRY 260,000,000 to TRY 1,820,000,000. This increase is funded by TRY 991,840,910.38 from Retained Earnings, TRY 73,047,193.13 from Share Premiums, and TRY 495,111,896.49 from Positive Capital Adjustment Differences. The application also included a request for approval of the amendment text to Article 6, titled "Capital," of the Articles of Association.

Our application has been approved by the Capital Markets Board and was announced in the Bulletin dated August 07, 2025, numbered 2025/43.

A Memorandum of Understanding (MoU) in the nature of a declaration of intent has been signed between Naturel ChargeN Enerji A.Ş. ("Naturel ChargeN"), in which our Company holds a 25% stake, and Siemens Sanayi ve Ticaret A.Ş. ("Siemens"), with the aim of cooperating and transform-ing this cooperation into concrete projects within the framework of the agreed program.

The areas of cooperation include:

- Enhancing technical capacity in the field of electric vehicles and charging station ecosystems, monitoring new technologies, organizing mutual training programs, and carrying out joint project work through the formation of mixed teams
- Sharing information between the parties on the installation of electric vehicle charging station infrastructure to establish safe and efficient networks,
- Conducting joint business development activities for electric vehicle fleets, fostering cooperation between Siemens Fleet Management and Naturel ChargeN, and increasing the supply of energy from renewable sources to fleets,
- Ensuring periodic information exchange between Siemens and Naturel ChargeN on sustainability activities and sharing global references,
- Jointly developing sustainable financing models and exchanging knowledge in this area,
- Undertaking joint work in critical cooperation areas for the development of the charging network ecosystem, developing projects in this context, and carrying out joint communication activities related to these projects.

According to the "Charging Services Market Monthly Statistics - December 2024" report published by EMRA (Energy Market Regulatory Authority), the number of electric vehicles in Türkiye increased from 7,694 in 2021 to 185,513 in 2024, and further to 268,057 as of June 2025, marking a significant growth rate of 3,480%. By the end of the same period, the total number of charging sockets reached 31,433, following a similar growth trend. Based on these statistics, charging services are expected to continue growing at an accelerating pace in the coming years.

As of the end of 2021, the number of electric vehicles in Türkiye stood at 7,694, whereas by November 2024 it had reached 167,519, representing a growth rate of 2,077%. Based on these figures, EV-related charging infrastructure is expected to continue its rapid growth in the coming period.

For the sustainable development of electric vehicle (EV) infrastructure, integrated payment systems are of strategic importance alongside charging network hardware and software. Payment infrastructures integrated with mobility-focused digital solutions play a critical role in both enhancing user experience and increasing operational efficiency. Solutions developed within the scope of Türkiye's fintech and payment systems regulations are also expected to accelerate the digitalization of the mobility sector.

In this context, Naturel ChargeN Electric Vehicles Technology Inc. (ChargeN), a 25% subsidiary of Esenboğa Elektrik Üretim A.Ş., has decided to initiate preliminary discussions with hardware manufacturers for EV charging infrastructure, installation and maintenance service providers, battery and electric motor system service providers, as well as companies developing charging software solutions and e-charging payment systems, in order to evaluate investment, partnership, or acquisition alternatives.

As part of this strategy, in the first phase, a Memorandum of Understanding (MoU) has been signed with Voltla Electric Vehicles Technology Inc.

In line with its goal to increase investments in the field of renewable energy, Margün Enerji Üretim Sanayi ve Ticaret A.Ş. acquired 100% of the shares of RSC Elektrik Üretim İnşaat Turizm A.Ş. in 2025. The company was developed under the Electricity Market Licensing Regulation and includes the RSC-1 Seferihisar Geothermal Power Plant with an installed capacity of 12 MWm.

Pursuant to the resolution of our Company's Board of Directors dated 08.07.2025, an application was submitted to the Energy Market Regulatory Authority (EMRA) on the same day for the installation of a hybrid solar power plant (SPP) with an installed capacity of 5.4 MWm, to be integrated into the RSC-1 Seferihisar Geothermal Power Plant, which has an installed capacity of 12 MWm.

Within the scope of the Board of Directors' resolution dated 11.07.2025, it was decided to authorize our General Manager, Mr. Sami Özgür BOSTAN, to explore additional investment areas that generate revenue.

As a result of the technical and feasibility assessments conducted, it has been determined that there are technical possibilities for increasing the current capacity utilization of the RSC-1 Seferihisar Geothermal Power Plant. In this context, it has been decided to initiate the necessary application, survey, and permitting processes for the capacity utilization increase.

With the planned increase in capacity utilization and well enhancement works, an additional annual production of approximately 32,000,000 kWh is expected. This is anticipated to generate an additional revenue of approximately USD 3,360,000 (TRY 136,393,152) on top of the current revenue level of USD 5,800,000 (TRY 235,440,560). The total annual revenue is projected to reach approximately USD 9,160,000 (TRY 371,833,712).

In line with its founding purpose, strategic investments have been made in areas such as B2B and B2C digital solutions for the energy sector, AI-based power plant management systems, and energy storage optimization software.

In addition, under the ENSOFT brand, the "Energy Management Monitoring System"—a web-based and mobile-supported application—has been developed and commercialized, integrating data analytics, forecasting, and decision-support functions.

At this point, the company's activities have expanded beyond solely energy software to cover broader technological fields such as energy efficiency consultancy, carbon footprint calculations, digital twin applications, and IoT-based management systems. In this regard, it was evaluated that the current trade name no longer adequately represents the company's scope of activities, and a decision was made to change the name.

At the Ordinary General Assembly meeting held on July 30, 2025, it was unanimously resolved to change the company's name to "Ensoft Teknoloji Geliştirme ve Arge Anonim Şirketi" (Ensoft Technology Development and R&D Joint Stock Company).

Following the new name and the expanded scope of activities, the necessary processes have been initiated for the company to apply to the Republic of Türkiye Ministry of Industry and Technology for registration as an R&D Center.

The General Assembly resolution regarding the name change was officially registered on July 31, 2025.

The preliminary application for the R&D Center was submitted to the Ministry of Industry and Technology of the Republic of Türkiye on August 7, 2025, and approval has been obtained.

Margün Enerji Üretim Sanayi ve Ticaret A.Ş. announces that, according to the statement published on August 7, 2025, by MSCI (Morgan Stanley Capital International) — one of the leading index providers worldwide, referenced by numerous investment funds and portfolio managers — our Company has been included in the MSCI Global Small Cap Index.

Our subsidiary, "Enerji Teknolojileri Yazılım A.Ş.," established by our company Margün Enerji on December 10, 2021, and operating with the purpose of developing digital energy solutions, has undergone a name change.

In line with its founding purpose, strategic investments have been made in B2B and B2C digital solutions for the energy sector, artificial intelligence-based plant management systems, and energy storage optimization software.

Additionally, the web-based and mobile application-supported "Energy Management Monitoring System" developed under the ENSOFT brand integrates data analytics, forecasting, and decision support functions, and this product has been commercialized.

At this stage, the company's activities have expanded beyond just energy software to broader technology areas such as energy efficiency consultancy, carbon footprint calculations, digital twin applications, and IoT-based management systems. Accordingly, it was assessed that the current company name no longer adequately represents the scope of activities, and a decision was made to change the company name.

At the Ordinary General Assembly held on July 30, 2025, it was unanimously resolved to change the company name to "Ensoft Teknoloji Geliştirme ve Arge Anonim Şirketi" (Ensoft Technology Development and R&D Joint Stock Company).

In line with the new name and expanding scope of activities, necessary procedures were initiated for the company to apply to the Republic of Turkey Ministry of Industry and Technology for an R&D Center, and the General Assembly meeting recording the name change was registered on July 31, 2025.

The preliminary R&D Center application to the Ministry of Industry and Technology was submitted on August 7, 2025, and approval was obtained.

Within this scope, the project titled "Artificial Intelligence Based Solar Power Plant Management Platform" has been prepared to meet the increasing need for complex data analysis and process management of solar power plants.

The project includes data analysis, SCADA integration, machine learning algorithms, digital twin, and cloud-based platform development.

The innovative aspects of the project aim for high-accuracy production forecasting, predictive maintenance, real-time optimization, and cost reduction.

Expected benefits include increased operational efficiency, reduced maintenance costs, development of domestic software, and widespread use of renewable energy.

Our subsidiary, "Enerji Teknolojileri Yazılım A.Ş.," established by our company Margün Enerji on December 10, 2021, and operating with the purpose of developing digital energy solutions, has undergone a name change.

In line with its founding purpose, strategic investments have been made in areas including B2B and B2C digital solutions for the energy sector, AI-based power plant management systems, and energy storage optimization software.

Additionally, under the ENSOFT brand, a web-based and mobile application-supported "Energy Management Monitoring System" was developed, integrating data analytics, forecasting, and decision support functions, and this product has been commercialized.

At this stage, the company's activities have expanded beyond energy software alone to cover a broad range of technology fields such as energy efficiency consulting, carbon footprint calculations, digital twin applications, and IoT-based management systems. Accordingly, it was evaluated that the current company title did not sufficiently represent the scope of its activities, and a decision was made to change the company name.

At the Ordinary General Assembly meeting held on July 30, 2025, it was unanimously resolved to change the company name to "Ensoft Teknoloji Geliştirme ve Arge Anonim Şirketi" (Ensoft Technology Development and R&D Joint Stock Company).

In line with the new title and the expanding scope of activities, necessary procedures were initiated for the company to apply to the Republic of Turkey Ministry of Industry and Technology for R&D Center status. The General Assembly meeting including the name change was registered on July 31, 2025.

The preliminary R&D Center application to the Ministry of Industry and Technology was submitted on August 7, 2025, and approval was obtained.

Within this scope, a project titled "Design and Development of an Integrated ERP System Special to the Renewable Energy Sector," aiming to develop an ERP solution that can integrally manage the operational processes of renewable energy enterprises, has been prepared.

With this project, it is aimed to address integration deficiencies between existing ERP systems and energy production data, SCADA and IoT sensors; increase efficiency in asset and maintenance management; digitalize stock and supply chain processes; and develop specialized modules for regulatory-compliant reporting and sustainability tracking.

The aforementioned project, prepared according to the stated goals and scope, has been submitted as an R&D Project to the authorized institution.

Within the framework of our Company's sustainability policies and 2022-2026 strategic plan, and in order to contribute to the reduction of the global carbon footprint, a service agreement was signed with Profed Energy Environmental Consultancy on 10.11.2021 to initiate the necessary certification process in the field of carbon trading and to take the steps required for international accreditation.

As of today, in our projects initiated for carbon certification corresponding to the clean energy generated by our solar power plants, the project registrations and certificate approvals have been deemed appropriate and completed by GCC, and approximately 276,000 carbon certificates have been published by GCC on the S&P Global Market Platform. Through the sale of these carbon certificates in international markets, it is planned to increase the economic returns of our renewable energy investments and generate additional revenue for the Company.

Thus, through the carbon certificates obtained from clean energy production, our Company is making meaningful and tangible contributions to environmental sustainability goals.

In addition to approximately 276,000 carbon certificates whose approvals have been granted, the approval process for an additional 280,000 projected carbon certificates is ongoing. Any developments regarding the process will be announced to the public in due course.

Naturel ChargeN Enerji A.Ş., a 25% subsidiary of Esenboğa Elektrik Üretim A.Ş., has signed a Memorandum of Understanding (MoU) with Trans-El Elektrik San. ve Tic. Ltd. Şti. for joint production, engineering, and implementation services related to the energy transmission and distribution infrastructure of electric vehicle charging stations.

The cooperation covers the design, procurement, installation, commissioning, and joint production processes of all power infrastructure components, ranging from high-voltage connections to medium-voltage transmission lines, and from MV/LV distribution panels to transformer facilities.

Trans-El operates in transformer manufacturing and energy transmission projects and has completed various projects both domestically and internationally.

Naturel ChargeN, a subsidiary of Esenboğa Elektrik, continues its work on e-mobility and charging station infrastructure.

A Memorandum of Understanding has been signed between Naturel ChargeN Enerji A.Ş., in which our Company holds a 25% stake, and the Turkish subsidiary of the world's largest retail fuel distribution company and Europe's largest oil company, which has a network of more than 1,000 fuel stations, with the aim of establishing a long-term cooperation to develop electric vehicle charging infrastructure across Türkiye.

Within this scope, it is targeted to establish and operate electric vehicle charging stations both at fuel station forecourts and at off-station destinations across Türkiye, primarily in the Marmara Region.

Under the cooperation

- Establishment of a charging network throughout Türkiye
- Ensuring technical compatibility through a shared IT infrastructure, are planned.

The investments will be undertaken by our company, and the final terms and conditions regarding infrastructure installations will be determined through a detailed joint venture agreement to be signed between the parties.

In the first phase, the plan is to establish a total of 400 electric vehicle charging stations across Türkiye. However, our long-term goal is to build a comprehensive charging network comprising a total of 4,000 stations nationwide.

Following the start of investments in Türkiye, it is also planned to implement a similar partnership in Europe in the short and medium term.

According to the "Charging Services Market Monthly Statistics – December 2024" report published by EMRA (Energy Market Regulatory Authority), the number of electric vehicles in Türkiye has risen significantly over the last three years (2021-2024) from 7,694 to 185,513 units, and to 268,057 units as of June 2025 (a 3,480% increase), demonstrating strong growth momentum. By the end of the same period, the total number of charging sockets reached 31,433, following a similar growth trend. Based on these statistics, it is anticipated that charging services will continue to grow at an even faster pace in the coming years.

At the meeting of our Board of Directors held on June 27, 2025; In accordance with the provision in Article 6, Paragraph 6 of the Capital Markets Board's Communi-qué II-18.1 on the Registered Capital System, which states, "By adding all types of internal resources and profit distribution to the capital and as a result of operations requiring a general assembly decision such as mergers, divisions, and similar actions, the registered capital ceiling may be exceeded once under each ceiling," the following decisions were made;

- To exceed the registered capital ceiling of our company, which is 1,500,000,000 TL, once
1. To increase the issued capital, which is 1,180,000,000 TL, by 150% to 2,950,000,000 TL, using the entire amount from the Capital Adjustment Positive Differences;
2. In accordance with Article 6 of the Company's Articles of Association titled "Capital and Types of Shares," it has been resolved to issue: 431,707,317.07 new registered Class A shares (ISIN: TREMARNO0019) to the existing 287,804,878.05 registered Class A shares (ISIN: TREMARNO0019), and 892,195,121.95 new bearer Class B shares (ISIN: TREMARNO0027) to the existing 1,338,292,682.93 TL bearer Class B shares (ISIN: TREMARNO0027).
3. It has been unanimously resolved to apply to all relevant authorities, including the Capital Markets Board of Türkiye, Borsa İstanbul A.Ş., and the Central Securities Depository (Merkezi Kayıt Kuruluşu A.Ş.), and to prepare and submit all necessary documentation in accordance with this resolution.

Based on the decision of the Board Of the Directors, within the scope of increasing our company capital from TL 1,180,000,000 to 2,950,000,000, an application was made to the Capital Markets Board on 27.06.2025 for the approval of the issuance documents and amendment of Article 6 of our company's Articles of Association.

m.The partnership has made public the information on which of the United Nations (UN) 2030 Sustainable Development Goals (SDGs) its operations are related to.

Dividend Distribution Policy

In accordance with the provisions of the Company's Articles of Association and relevant regulations, a balanced and consistent policy is followed regarding the distribution of dividends, ensuring the interests of the Company and its shareholders are aligned.

Considering the Company's funding requirements, cash flow, profitability, cash position, investment and financing plans, as well as developments and expectations in market and economic conditions, it is aimed to distribute the net profit available for distribution for each fiscal period in cash and/or as bonus shares in accordance with the relevant regulations. This ratio is reviewed by the Board of Directors based on national and global conditions, the Company's medium and long-term growth and investment strategies, and cash requirements.

The decision on dividend distribution, as well as the method and timing of distribution, is made by the General Assembly based on the proposal of the Board of Directors. Dividend distribution transactions commence on the date determined by the General Assembly, provided that they begin no later than the end of the fiscal period in which the General Assembly meeting approving the distribution takes place.

Dividends are distributed equally to all existing shares as of the distribution date, in proportion to their ownership, regardless of their issuance or acquisition dates. Subject to a resolution passed at the General Assembly meeting where the dividend distribution is approved, payments may be made in equal or varying installments. According to the provisions of the Articles of Association, a dividend distribution decision made by the General Assembly cannot be revoked.

If the Board of Directors proposes not to distribute dividends, the reasons for this decision and information regarding the use of the undistributed profit will be included in the agenda item related to dividend distribution.

Additionally, the Company may distribute dividend advances in accordance with the Turkish Commercial Code (Law No. 6102) and capital markets regulations.
