I. GENERAL INFORMATION

a) About Kafein

Kafein Yazılım Hizmetleri Ticaret A.Ş. was established in 2005 to develop software solutions. The company provides services to its customers, primarily with Managed Services, Cyber Security, Product Sales and Integrations, Customer-Specific Software Solutions, Outsourcing, as well as products developed by itself. Kafein has always maintained its growth since establishment and improved competencies every year. Kafein continues operations in strict conformance with quality standards and methodologies. Among the institutions that benefit from the services by Kafein, there are the biggest telecommunication companies, insurance companies, banks, retail, and manufacturing companies of Turkey.

VISION

As Kafein Technology, we aim to be among the leading software companies that meet the needs and expectations in the sector that transform the creativity of employees into customer satisfaction, act on a risk-based basis, and have international competitiveness by adopting an effective and constantly renewing quality management system with professional, self-confident, business-conscious personnel and transparent organizational structure.

MISSION

With our high-tech software and R&D studies, we aim to offer products and solutions that reduce error rates and increase business efficiency in various sectors such as telecom, transportation, finance, retail and service.

VALUES AND PRINCIPLES

- Working with a focus on customer satisfaction
- Keeping customer satisfaction at the highest level by using time effectively and efficiently

- In addition to meeting expectations, always doing the best by exceeding expectations
- Working in a team mentality
- To be responsible to the society, respectful to moral and national values while producing
- To perform all our activities by adhering to the principles of confidentiality and trust
- Ensuring that employees receive trainings that enable them to develop themselves and increase their self-confidence.
- Always ready and open to change and continuous improvement.
- Continually improving and improving our performance for excellence

d) Area of Activity

Kafein Yazılım Hizmetleri Ticaret A.Ş. is engaged in software services. The fields of activity of the Company can be analysed under the following items:

- 1. Managed Services**
- 2. Turnkey Solutions**
- 3. Outsourcing Services**
- 4. Licence/Product Sales and Integration**
- 5. Cyber Security**
- 6. Product Development**

Kafein carries out all the operational processes according to the ISO 9001 quality management system and offers services in compliance with these processes. Detailed information on the company services can be found at www.kafein.com.tr/services

1. Managed Services

Managed service is the management of a part of the IT system of a company on behalf of a client and rendering it as a service. All or a part of software development, analysis, test, and operation services can be considered as managed services. Managed services also include personnel supply, employment, and management. The difference between personnel supply under managed services and standard employment is as follows:

Outsourcing	Managed Services
Personnel selection is made by the client.	Personnel selection is made by the supplier company.
Performance review is made by the client.	Performance review is made by the supplier company.
The number of personnel is defined by the client.	The number of personnel is defined mutually. The goal is to render services.
A mixed team is established for the same purpose and goal.	The team consists of a single company.
Fund of knowledge is transmitted in a limited way.	Fund of knowledge is created within the company.
Payment is made according to the days of work by personnel.	Payment is made according to the rendered service.

Kafein offers managed services and assigns a team for software development, analysis, test, and operation in accordance with a Service Level Agreement (SLA) to be concluded with the client. The quality of these services is measured with the comparison of key performance indicators mutually defined by the parties.

This approach attributes the cost of work and personnel to Kafein. Therefore, it serves not only as an approach to reduce management costs but also as a competitive element that improves performance and efficiency.

Thanks to the knowledge and experience acquired with managed services, Kafein has become one of the key suppliers according to the clients. This ensures longer terms of business and agreements for Kafein.

2. Customer-Specific Software Solutions

Kafein offers turnkey solutions tailored for the needs of clients. These solutions are implemented by a project team specially established for the purpose. With turnkey solutions, software development and integration requests are completed and offered for use within a particular time as defined by clients. These activities are performed with a certain discipline and method by a special team. With these projects, Kafein offers the softwares developed by the Company or business partners to the clients of telecommunication, service, insurance, and transportation industries, in particular.

In this sense, Kafein implements the project management methodologies that are accepted as the industrial standards. These methodologies are identified with the consideration of the complexity and size of projects, the profile and structure of clients, and the parameters to be regarded for the project team. Similarly, project managers use various management tools throughout the projects.

In general, a project management process consists of the following stages:

- Identification and analysis of client needs - Scope Analysis
- System analysis and design
- Solution development, adaptation, or integration
- Tests
- Commissioning
- Formation and maintenance of operation and maintenance processes
- Project closing, lessons learned and process evaluation.
- Observation process

3. Outsourcing Services

Kafein employs and assigns personnel according to the knowledge and experience levels required by clients. The personnel assigned to render services are selected by clients from among the

proposed candidates. In this service, client is the party responsible for the management of a dedicated Kafein team and also undertakes the risk for the quality and completion of works.

4. Licence (Product Sales and Integration)

Kafein has been engaged in license sales in Turkey as the business partner of many international software and technology companies. Having initiated license sales in Turkey by collaborating with the leading companies of the relevant industries, the Company expands its operations to abroad.

Robotic Process Automation

Robotic Process Automation is the repeatable handling of the systematic processes and operations carried out by the employees through the software robot and the automatic realization of the learning method. Various technical inquiries or calculations, records and transactions are repeated by simulating an employee's behaviour. Robotic Process Automation improves service quality by eliminating errors in operations and saves considerable time and cost for manual and repetitive tasks.

End to End Solution to Protection of Personal Data

It enables organizations to discover sensitive data, to configure them correctly, to process them effectively and to store them in compliance with the provisions of the Personal Data Protection Law (KVKK) and General Data Protection Regulation (GDPR) and in accordance with legal requirements.

You can reach all our business partners at www.kafein.com.tr/home/workpartners

5. Cyber Security

Cyber Security can be defined as aggregated methods, Technologies and processes that help to protect the privacy, integrity and availability of digital assets, networks and data against cyber-attacks or unauthorized access. The main purpose of cyber security is to protect all corporate assets from both external and internal threats and disruptions caused by natural disasters.

All-in Cyber, the brand of Kafein Technology for cyber security solutions, is cyber security consulting firm that offers an end-to-end solution partnership in risk-operation and cost management of institutions, which integrates human, process and technology concepts against cyber-attacks by increasing the information security levels of institutions with its cyber security solutions. The long-term goals of the department are to provide cyber security services in the Turkic Republics, especially in Azerbaijan, to produce domestic and national cyber security products, to establish an academy and train talented young people in this field to position them in customer locations, and to be one of the competent Cyber Security Integrators in Turkey. The All-in Cyber brand can be accessed by the following link: www.allincyber.com The services provided are as follows:

- Advanced Persistent Threat (APT) and Malware Analysis
- Managed Endpoint Monitoring and Forensic Analysis
- E-Mail Security and Management
- Security Verification
- Protection, Detection and Response in the Entire Chain of Attack
- Cyber Threat Intelligence Integration

6. Product Development

DataTouch

DataTouch is a Data Security and Governance Product and a new generation data lineage software that helps determine the purposes of use, frequency of use and users of the detected data.

The product is listed on the product catalogue of the global software provider Opentext to be sold globally and the OEM (Original Product Manufacturer) contract is signed on 06.04.2023 to be included in the sales lists under the brand "Voltage". Additionally, DataTouch entered the Product Catalog of the American-based technology company Infocorvus LLC on 22.09.2023

Test Data Management (TDM)

The TDM product developed by Kafein is used in corporate companies to generate test data. Digitization and increasing application need led to an increase in test data production needs. It is possible to produce test data independent of real data and fully compliant with regulations, with the Test Data Management (TDM) product, which imitates real data of institutions and creates data sets.

TDM is included in the product catalogue of the global software provider Opentext on 19.04.2021 to be sold all over the world.

Additionally, on 22.09.2023, an OEM (Original Equipment Manufacturer) agreement is signed between the company and the American-based technology company Infocorvus. In accordance with the terms of the agreement, the Data Security and Governance Product "DataTouch" and the Test Data Management Product "TDM" developed by the company and the Database Activity Monitoring and Prevention Products "DataSkoPe" and "InfraSkoPe" developed by our 51% Subsidiary Karmasis Bilişim Çözümleri Ticaret A.Ş. will be sold in the American and Canadian markets on a revenue sharing basis by Infocorvus LLC.

DataSkoPe & InfraSkoPe

The Database Activity Monitoring and Prevention Products DataSkoPe and InfraSkoPe developed by our 51% Subsidiary Karmasis Bilişim Çözümleri Ticaret A.Ş are database activity monitoring

and prevention products. The product detects, classifies, generates alarms, and reports events occurring in database systems without turning on the audit feature. By providing access to information about who has accessed sensitive data and what actions are taken at what intervals, it ensures that the authorities are informed about the events with predefined alarm rules.

DataSkoPe have been included in the product catalogue of the global software provider Opentext to be sold globally. On 06.04.2023, the OEM (Original Equipment Manufacturer) contract is signed to be included in the sales lists under the brand of Voltage. Additionally, they entered the Product Catalog of the American-based technology company Infocorvus LLC on 22.09.2023

For detailed information on other company products check www.kafein.com.tr/services/products .

e) Capital and Partnership Structure

The issued capital of Kafein Yazilim Hizmetleri Ticaret A.S. consists of 19,750,000 shares with TRY 1,00 as the nominal value of each share.

By 31.03.2024, the distribution of the issued capital of Kafein among the partners is as follows:

Shareholder	Group A	Group B	Group C	Total Capital Amount (TRY)	Capital Share (%)	Voting Right (%)
Ali Cem Kalyoncu	183,333	183,333	4,573,716	4,940,382	25.01	40.48
Publicly Held / Other			14,809,618	14,809,618	74.99	59.52
TOTAL	183,333	183,333	19,383,334	19,750,000	100.00	100.00

f) Preferred Shares and Explanations for the Voting Rights of Such Shares

As specified under article 7 of the Articles of Association, the shares of the Company are classified under three groups as Group (A), (B) and (C) shares. Group (A) and (B) shares are registered shares and represent the special rights and privileges defined in the Articles of Association. Group (C) shares are bearer shares and are not furnished with special rights and privileges.

According to article 9 of the Articles of Association, 2 members are to be elected from among the Group A shareholders or the persons assigned by them while 1 member is to be elected from among the Group B shareholders or the person assigned by them in case the Board of Directors consists of 6 or 7 members. Similarly, 3 members are to be elected from among the Group A shareholders or the persons assigned by them while 1 member is to be elected from among the Group B shareholders or the person assigned by them in case the Board of Directors consists of 8 members.

One among the Group A shareholders or a person assigned by them takes office as the Chairman of the Board while one among the Group B shareholders or a person assigned by them serves as the Vice Chairman of the Board.

Voting Rights: As specified in article 15 of the Articles of Association, each and every Group A and B shareholder has 15 (fifteen) voting rights except for board member elections while each and every Group C shareholder has 1 (one) voting right in the ordinary and extraordinary general assembly meetings.

The shareholders may decide to assign an attorney to represent them in General Assembly meetings. The attorneys who are also the shareholders of the Company can vote for the shares of the represented shareholders as well as for their own shares. The Capital Markets Regulation shall apply for the voting and proxy voting procedures.

Minority Rights: Within the framework of Article 15 of the Company's Articles of Association, secret and written voting may be applied upon the request of the shareholders who represent shares equal to at least one-tenth (10%) of the capital. Article 411 of the Turkish Commercial Code grants the "Minority Right" to the shareholder(s) who own at least 5% (1/20) of the issued capital in public companies.

Share Transfer: The transfer of the Group A and B registered shares is subject to the approval of the Board of Directors, and the provisions of the article 493 of Turkish Code of Commerce shall apply thereto. On the other hand, Group C bearer shares can be transferred freely without any restriction. The articles of association are available at company website under the Investor Relations menu.

II. INFORMATION ABOUT THE BOARD OF DIRECTORS AND SENIOR MANAGEMENT

a) Board of Directors Structure and Resumes

According to company's Article of Association article 9, in order to enable efficient and constructive activities, fast and rational decisions, establishment of committees and efficient organization of activities, the Board of Directors of the Company is assigned by the general assembly to consist of 6 to 8 members. Members of the Board of Directors can be elected to take office for three years. A member with expired term of office may be re-elected as long as he/she is not dismissed.

In case the number of members of the Board of Directors consists of 6 or 7 people; 2 members are selected among the A group shareholders or the candidates they will appoint; 1 member is selected among the B group shareholders or the candidates they will appoint. If the number of members of the Board of Directors consists of 8 people, 3 members are selected among the A group shareholders or the candidates they will nominate; 1 member is selected among the B group shareholders or the candidates they will appoint. The number and qualifications of the independent members who will take place in the Board of Directors are determined according to the regulations of the Capital Markets Board regarding Corporate Governance.

A person selected from among the Group A shareholders or the candidates they will nominate serves as the Chairman of the Board of Directors. A person selected from among the B Group shareholders or the candidates they will nominate shall serve as the Deputy Chairman of the Board of Directors.

The Board of Directors manages and represents the company. The independent members of the board of directors reserve the duties, rights and authorities assigned by the Capital Markets Law and the relevant regulation. The Board of Directors is liable to establish the committees and commissions prescribed by the regulation. Apart from these, the Board of Directors may also create committees and commissions for the management and supervision of the decisions and policies regarding the activities. The regulations of the Capital Markets Law apply for such committees.

The meeting of the Board of Directors is held when it becomes necessary due to the activities and procedures of the Company. The meeting and quorum articles and provisions of the Turkish Code of Commerce apply for the meetings. On the other hand, the regulations by the Capital Markets Law and Capital Markets Board are reserved.

BOARD OF DIRECTORS					
Full Name	Role	Date of Election	Due Date	Executive or Not	Current External Assignments
Ali Cem Kalyoncu	Board Chairman	16.12.2011	01.04.2027	Executive	Netsite İletişim ve Elektronik Sistemleri San. ve Tic. A.Ş. Managing Partner and Vice Chairman Karmasis Bilisim Cozumleri Tic. A.Ş. Board Chairman

Hatice Sevim Oral	Board Member	10.04.2013	01.04.2027	Executive	-
Kenan Subekci	Board Member	02.01.2012	01.04.2027	Non-Executive	Birlik Insaat Otomotiv ve Bilisim Hizm. Controlling Shareholder, Mayor of Düzce Gümüşova Municipality
Murat Kaan Güneri ¹	Independent Board Member	01.03.2024	01.04.2027	Non-Executive	AltoPartners C.V. Turkey Managing Partnership, MKG ve Ortakları İnsan Kaynakları Danışmanlığı Hizmetleri A.Ş. Chairman of the Board of Directors, Member of the Audit Board of İstanbul Golf İhtisas Spor Kulübü

¹ At the meeting of the Company's Board of Directors dated 01.03.2024 and numbered 05, it has been decided to appoint Mr. Murat Kaan Güneri as an independent board member to the position vacated from Mr. İbrahim Semih Arslanoğlu due to his resignation and to be submitted for the approval of the first general assembly to be held according to Turkish Commercial Code Article 363.

					İktisadi İşletmesi
Murat Ethem Sümer	Independent Board Member	23.08.2022	01.04.2027	Non-Executive	Escar Filo Kiralama Hizmetleri A.Ş. Financial Affairs Director

All executive bodies of the Company perform their duties within the hierarchy in the Internal Directive, provided that they do not contradict the law and relevant legislation, the mandatory provisions in the Company's articles of association and the indispensable duties and powers of the General Assembly. The company's articles of association are taken as basis in determining the structure and term of the Board of Directors. In accordance with the working principles of the Board of Directors, utmost care is taken to provide information and documents to the members at least 1 (one) day before the meeting.

The Board member allocates sufficient time for company affairs. If a member of the Board of Directors is a manager or a member of the board of directors in another company or provides consultancy services to another company, it is essential that this situation does not cause a conflict of interest and does not disrupt the member's duty in the company. In this context, the member's ability to take on other duties or tasks outside the company is limited to a maximum of 5 (five) companies outside the company. The duties of a member of the board of directors outside the company and the reasons therefor are presented to the information of the shareholders, together with the agenda item regarding the election, at the general assembly meeting where the election is discussed, making a distinction between inside and outside the group.

There are no legislative changes that may have a significant impact on the company's activities.

j) Information About the Conflict of Interest Between the Company and the Institutions from which it receives Services such as Investment Consultancy and Rating Firms

Kafein Technology takes care to prevent potential conflicts of interest that may arise between it and the institutions it receives services from, such as investment consultancy and rating firms. For the current period, there is no conflict of interest between the company and the institutions from which it receives services such as investment consultancy and rating.

IV. RESEARCH AND DEVELOPMENT ACTIVITIES

Lists of projects completed or under development within the period of 01.01.2024 - 31.03.2024 in Yıldız Technical University Technology Development Zone, where Kafein provides services within the scope of R&D, are listed below in chronological order:

#	Project Name	Start Date	End Date	Project Summary/ Purpose
1	Intellimap Project	26.06.23	26.06.24	It is an online mobile communication platform that enables to observe and analyse density maps based on the signalled location of users in the telecom sector, dynamic and flexible querying of usage data through our Big Data platform, communicating with subscribers who allow it via SMS and MMS, and measuring feedback. The platform complies with national data privacy laws.

2	Messaging Platform Meet Project	02.09.22	02.09.24	Meet application is an online video calling platform that can be used for both companies and individuals.
3	Weight and Balance Project	07.04.22	07.09.24	A software that can make more precise weight and balance calculations, save fuel, time, and human resources, increase flight safety, and increase data reliability with source system integrations to be used in aircrafts.
4	DataTouch DAM	18.04.23	18.10.24	DataTouch is a Data Security and Governance Product and a new generation data lineage software that helps determine the purposes of use, frequency of use and users of the detected data.
5	Reseller Management System Project Phase II	18.05.20	30.10.24	The project intends to respond to the maintenance requests and demands from the clients in the telecommunication industry, prevent human errors by automating manually operated Dealer and User creation processes and improve efficiency.
6	Telco Siebel Sales Force Module Replacement Faz 3	01.10.18	30.10.24	The project aims to automatize the communication between the sales team management system and team leaders/managers and their sales personnel and, thus, to create a more efficient and affordable solution.
7	Interface Project Phase II	10.06.20	13.11.24	The project intends to improve monthly sales figures by renewing customers' cart and purchase screens on the website. Besides, the project ensures that customers are directed to desired subjects by using a webchat supported with artificial intelligence. This allows less labor and time for the call center.
8	Telco Online Processing Centre, Phase V	02.06.20	15.11.24	The project aims to carry out the authentication, session management, asset management and similar other processes of the web applications of the online processing centers of telecommunication companies from a single center by protecting and integrating Legacy systems with a secure system.

9	Digitalization Infrastructure Project for Telecommunication Companies Phase III	18.07.20	01.12.24	The project aims to ensure consistency among all the data on SMS, Online, IVR, mobile and similar other channels which are created by telecommunication companies in order to render better service, and to create a common infrastructure so as to ensure consistent client experience.
10	Telco Premium System Development Project Phase III	01.07.20	20.12.24	With the project, a platform will be created where the customer can automate the premium processes and transparently present the outputs to the dealers. With the source system analysis, areas that may be subject to premium will be determined, related data will be taken considering the large data volume, a structure will be designed in which the calculation engine can work with performance, reporting layers will be created that dealers can access within their authority, and dealers will be able to see their current status.
11	Telco Script Project Phase II	01.01.19	24.12.24	In the project, it is aimed to attract more users by adding new modules to the application in order to create a social media platform together with the Telco customer. It is planned to include filtering and story modules on the pictures.
12	Robotic Process Design (RPA)	01.06.19	01.01.25	The project refers to the design and coding of all the procedures in Windows operated systems using RPA (Robotic Process Automation) technology. This project plans to minimize human errors in various procedures, finalize processes within a shorter time with robots and ensure continuous process standards.
13	APIFORT Security	01.01.24	01.01.25	This project was developed to ensure API security and includes user management, API Inventory, API Discovery, API Monitoring, Settings, Browser (API OWASP Risks), Reporting, API DevOps Integrations, Product Documentation, Product Installer, Platform API Support, Other Product Integrations. (Slack, SIEM, Sonar) and Custom Browser Rule Adding features.

14	Document Scanning and Analysis Platform (DSAP) Project	19.02.23	19.02.25	With the DSAP project, it is aimed to perform the optical character analysis of the documents for the company's Netherlands-based customer, such as order form and invoice, and then integrate the information obtained with the ERP system (SAP).
15	Telco Test Project	18.04.23	18.04.25	With this project, automation processes are written. It is aimed to write end-to-end test scenarios during the process, to automate these scenarios with Selenium and Appium Tool, and to turn the automated scenarios into a platform that works with our Automation Tool, which is written in Java and developed to be integrated into the Devops process. Subsequently, this platform is made operational in four different modules: Web, Mobile, Desktop and Integrated System Applications.
16	Telco Network Monitor Project Phase II	29.04.23	29.04.25	By integrating the applications with the network system, it is aimed to enable the users to take action at Level 1 by monitoring all the devices connected to the internet, to automate the system and to create a structure that is monitored 24/7 with the configurative system to be established.
17	DataFocus Project	01.05.24	01.05.25	The goal of the project is to help manage data in the corporate field in an organized, accessible and secure way by developing a new and multi-dimensional Data Governance product. DataFocus aims to centralize data management and analysis.
18	Muud Project	27.05.23	27.05.25	The project includes the creation of a domestic mobile music listening platform.
19	Bio-Curity: E-health Services with Digital Biomarker Ecosystem	23.06.23	23.06.25	Bio-Curity is an e-health technology integrated solution that includes artificial intelligence supported software that will help the diagnosis, follow-up, course, and treatment processes of diseases by transferring biomarkers (biological signals originating from the human body) to digital platform. With the project, it is aimed to create a digital biomarker ecosystem and help the

				treatment/follow-up process by enabling patients to measure real-time data for non-invasive procedures in the home environment.
20	MSP Test Environments Management Project Phase I	01.07.21	01.07.25	It is aimed to create a new MSP test environment in order to present test applications related to the project and transformation processes of our Telco customer. With the shift left methodology to be made within the scope of the project, increasing efficiency in internal processes in all products and transformations, reducing response times, time saving, general process improvements and implementation of various accelerators and tools (such as artificial intelligence, machine learning, etc.) will be made.
21	End-to-End Test Automation System Project	12.01.23	12.07.25	It is aimed to provide end-to-end reliable outputs by providing an automation-based software testing system to the quality and software testing team. In this way, both operational efficiencies will be increased and the error rate for end users will be minimized.
22	Smart MIS Project (SMIS)	25.07.23	25.07.25	It is aimed to create a real location sensitive web application platform with a modern design, which contains all kinds of tools that local governments will need to manage the city.
23	Genesis ADM Phase III	21.01.19	31.07.25	The project plans transition from on- premises systems to systems managed on cloud as part of the completion of new development requests and the transition to micro service infrastructure.
24	New Generation Banking (FinTech)	29.08.23	29.08.25	The project aims to help both businesses and consumers manage their financial operation processes faster and better by using special software and algorithms.
25	Telco Gold Agile	01.09.23	01.09.25	Within the scope of the project, the technical infrastructure of transactions such as Package/Service/Tariff selection, processing/ decommissioning, and price updating, which are among the main telecommunication main

				processes, will be provided.
26	Telco Academy	01.09.23	01.09.25	The project includes the installation, use and development of an online education website's educational contents, exams, forums, blogs, and user structures. It includes editing pages with special designs with HTML, JS, and CSS, providing reports and statistics, database editing processes, and examining and resolving possible error findings.
27	Telco E-Commerce	17.09.23	17.09.25	In the project, the infrastructure of an e-commerce application will be improved, thus facilitating a faster and clearer response to customer requests.
28	Service Management Project	26.03.24	26.09.25	The project develops a service management application for the management, quality measurement and sustainability of IT and non-IT services offered by companies to their employees and customers.
29	GDPR and Data Leak Project	15.10.23	15.10.25	Within the scope of the project, personal data discovery will be made for GDPR compliance in structured and unstructured environments. Afterwards, personal data beyond the retention period will be archived and deleted, and efforts will be made to bring it into compliance with the GDPR law. In addition, personal data security will be ensured by making improvements to prevent data leakage that may occur in the personal data held within and out of the institution.
30	AllinCyber Project Phase II	15.11.22	18.11.25	With the All in Cyber project, it is aimed to reach the security level of each customer's IT systems to the ideal security level that is fully compatible with the MitreATT&CK framework, which was established with the goal of a non-profit safe world and defines security risks.

31	New generation smart CRM Project Phase III	12.07.21	01.01.26	It is aimed to develop a simple and easy- to-use CRM platform that will enable institutions to manage their businesses quickly and securely from a single place. The SMART CRM Platform includes features such as revenue estimation, invoicing and reporting on the portal, and customer tracking.
32	Techno Market Project	16.04.24	16.04.26	In the project, an online e-commerce platform is being developed.

V. FINANCIAL INFORMATION

a) Summary of Financial Results

Summary data regarding Kafein's financial results as of 31.03.2024 are as follows.

Summary of Balance Sheet (TRY)	31.03.2024	31.12.2023
Total Assets	1,047,258,827	1,074,196,292
Current Assets	665,041,738	710,341,483
-Cash and Cash Equivalents	305,816,068	187,822,023
-Financial Investment	72,042,352	150,341,457
-Trade Receivables	195,898,973	338,329,733
Non - Current Assets	382,217,089	363,854,809
-Financial Investment	43,798,865	3,647,143
-Tangible Fixed Assets	30,574,194	31,176,839
-Intangible Fixed Assets	282,964,637	291,193,364
Total Liabilities	263,220,801	318,385,340
-Short-Term Liabilities	221,092,862	289,561,459
-Long-Term Liabilities	42,127,939	28,823,881
Total Equities	784,038,026	755,810,952
-Equity Attributable to Parent Company	703,978,244	676,921,037
-Equity Attributable to Non-Controlling Shares	80,059,782	78,889,915
Total Liabilities	1,047,258,827	1,074,196,292

Summary of Income Statement (TRY)	31.03.2024	31.03.2023
Sales Revenue	297,770,852	284,565,397
COGS	(207,737,501)	(201,512,348)
Gross Profit	90,033,351	83,053,049
Operational Expenses	(60,120,833)	(47,806,586)
-General Administrative Expenses	(40,747,199)	(32,236,583)
-Marketing Expenses	(18,380,550)	(10,042,446)
-Research and Development Expenses	(7,764,235)	(5,154,646)
-Other Operating Income	21,781,863	5,540,885
-Other Operating Expense	(15,010,712)	(5,913,796)
Main Operation Profit	29,912,518	35,246,463
Income/Expense from Investment Activities	95,599,068	(34,356,428)

Financial Income/(Expense)	10,837,489	3,088,894
Net Monetary Position Gains (Losses)	(95,909,974)	(141,678,042)
Net Profit for the Period (Parent Company)	25,228,250	(141,410,384)

b) Information about Dividends

At the meeting of the Board of Directors dated 08.05.2024 and numbered 13, it has been decided to submit the offer of distributing TRY 4,000,000 gross dividend to General Assembly's approval, from the net distributable profit of TRY 100,443,616.00 and 138,482,541.07 TL which are prepared in accordance with the capital market legislation and the legal records respectively, as of 31.12.2023. The Ordinary General Assembly Meeting of the Company will be held at 13:00 o'clock on 25.06.2024, and in the head office located at Cifte Havuzlar Mah. Eski Londra Asfaltı Cad. Kulucka Mrk. A2 Blok No:151/1B İç Kapi No: B01 Esenler Istanbul.

After the deduction of the amounts which must be paid and reserved by the Company (such as the general expenses and sundry depreciation items), the amounts to be paid against compulsory taxes and, if any, the losses of a previous year, the remaining net profit of the revenues established at the end of a financial period is distributed as follows:

General Legal Reserves:

a) 5% is allocated as legal reserves.

First Dividend:

b) As per Turkish Code of Commerce and the Capital Markets Regulation and in accordance with the profit distribution policy of the Company, the first dividend is allocated on the amount to be calculated with the addition of the donation amount, if any, to the remaining balance.

c) After the foregoing deductions, the General Assembly may agree to distribute the dividend to board members, partnership staff and other persons excluding shareholders.

Second Dividend:

d) After the deduction of the amounts specified under paragraphs (a), (b) and (c) herein, the General Assembly may decide to distribute, in part or as a whole, the remaining balance as the second dividend or, as per article 521 of Turkish Code of Commerce, to allocate as legal reserve.

General Legal Reserves:

e) After deducting 5% of the capital as dividend from the amount to be distributed to the shareholders and other participants of the profit, ten percent of the remaining balance is added to general legal reserves as per paragraph 2, article 519 of Turkish Code of Commerce.

VI. RISKS AND ASSESMENT BY THE BOARD OF DIRECTORS

Risk Management, Internal Control Mechanism and Evaluation of Strategic Goals

The Company's risk management procedure is carried out by the Early Risk Identification Committee established under the Board of Directors. The Committee includes two independent members from the Board of Directors, and the operational principle of the committee is available on the website of the Company. The Early Detection of Risk Committee convenes at least six times a year.

The main risks our company is exposed to are risks arising from the sector, risks arising from activities and other risks (credit, liquidity, exchange rate and interest rate) are followed under three main headings and the Board of Directors is periodically informed about these risks.

The Company's risk management program generally focuses on minimizing the potential negative effects of uncertainty in financial markets on the Company's financial performance.

The Company's Board of Directors pays attention to receiving the opinion and advice of relevant departments while identifying strategic targets. The advice for strategic targets is reported to the Board of Directors, and the targets are implemented within the shortest time possible. In this sense, the rate of success is evaluated during financial statement terms and at the end of relevant years by reviewing operations. Once in every year, the Board of Directors holds a meeting to evaluate the rate of success, operations, and former performance of the Company.

The risks with possible effects to the Company and the financial investments are as follows:

a) Industrial Risks

There are certain legal regulations and restrictions which Kafein should comply with. Kafein is a company engaged in the software industry. The Turkish government grants certain privileges to the industry. However, these privileges may be removed in time, and the privileges granted to Kafein may decrease or completely disappear.

The activities of Kafein may be subject to the effects of economic inconsistency. There may be political and/or economic inconsistencies in Turkey and the world. Kafein and the industry may be affected negatively and have retarded activities.

b) Operational Risks

Kafein ensures sales revenue mainly from only a single industry. Although Kafein carries out sales transactions of electronic communication companies for more than 15 years, the Company is still subject to the risk of sectoral condensation. Certain issues which may arise in the electronic communication industry may affect Kafein negatively.

The bidding stage of tenders and the commencement periods of undertaken projects may exceed prescribed times. In general, Kafein makes sales revenue by winning tenders and making project offers to clients. In case of extended bidding stage or longer project periods due to uncontrollable reasons may create a negative impact on the expected profitability of Kafein.

There may be delays in tender and project preparation and implementation processes: Material errors during the preparation or price and specification evaluation processes of the tenders wherein Kafein ensures participation may lead to a failure in timely performance and/or decrease in profitability from a project.

There may also be risks due to the location of the head office: The head and the R&D offices of Kafein are situated in the Technopark of Yildiz Technical University which takes place in Esenler, Istanbul. The activities of Kafein may be affected in case authorized bodies decide to move the Technopark or amend the relevant regulation.

The operations of the software and business support systems developed by Kafein may fail. The Company's personnel may need to put effort for long periods so as to remove these failures.

c) Other Risks

Apart from the foregoing, the Company may be subject to various financial risks due to the activities. These are credit risk, liquidity risk, exchange risk and interest rate risk.

Credit Risk: Credit risk becomes a question when the other party cannot perform its contractual liabilities. For the current period, the Company's other short-term receivables from non-affiliated parties are TRY 418,880 while short-term trade receivables from non-affiliated parties are TRY 195,898,973 according to its balance sheet.

Liquidity Risk: Liquidity risk refers to the risk of failure to perform funding liabilities and arises from various reasons that lead to a decrease in fund sources such as undesired market conditions and/or decrease in credit score. For the current period, the Company's short- and long-term liabilities are TRY 221,092,862 and TRY 42,127,939 respectively, which corresponds to TRY 263,220,801 in total.

Interest Rate Risk: Interest rate risk may occur when the changes in the interest rates of the market cause fluctuation in the price of financial instruments. Sensitivity to interest rate risk is associated with the inconsistency of the maturities of assets and liabilities to a great extent. The Company manages this risk with a natural measure which is ensured by balancing sensitive assets and liabilities. For the current period, the Company has TRY 305,816,068 cash and cash equivalents which are subject to interest risk.

Exchange Risk: Exchange risk is the effect of the changes in exchange rates. For current period, Company is not under serious exchange risk since it has foreign asset position equals to TRY 27,003,036

VII. DEVELOPMENTS WITHIN AND FOLLOWING THE PERIOD

- On 16.01.2024, a Commercial Partner Agreement is signed between Google Cloud EMEA Limited and the company to become a partner in the fields of Google Cloud Data, Infrastructure and Cyber Security Solutions in the entire SEEMEA (Southern Europe and Emerging Markets) region, especially the Middle East. The agreement entered into force on the date of signature and will remain in force unless terminated by the parties.
- On 25.01.2024, the company attended the "Wallarm - Integrated API and Application Security" event, organized by Desoft, the digital enterprise solutions company that is the business partner of the company's cyber security solutions brand All-in Cyber, together with Wallarm, the San Francisco-based Application and API security platform provider.
- On 20.02.2024, "Database Activity Monitoring and Masking" service agreement is signed between the company and Al Moammar Information Systems Co where the final customer is Saudi Arabia based Najm Insurance for a total amount of USD 369,000.00. The project duration is 2 years.
- On 20.02.2024, the company received a purchase order (PO) from Aktiftech Teknoloji Anonim Şirketi in the field of SMAX (Service Management Automation X) to be valid between 26.04.2024 and 26.04.2025.
- The company participated as a Platinum Sponsor in the OpenText Summit Turkey 2024 event which is organized by the company's partner Opentext Corporation in Istanbul on 21.02.2024,

where automation, cloud, security, productive artificial intelligence, information management solutions and many trends for the future of the business world were discussed.

- On 23.02.2024, the company signed an agreement regarding the "Academy Future Writers Project" of Turkcell Teknoloji Araştırma ve Geliştirme A.Ş. for the service period of two years.
- In February 2024, a 1-year Robotic Process Automation (RPA) service contract was signed with Webhelp Çağrı Merkezi ve Müşteri Hizmetleri A.Ş.
- In February 2024, a 1-year Robotic Process Automation (RPA) service contract was signed with a third-party telecommunication company.
- On 18.03.2024, a lease agreement was signed between the company and Yıldız Teknoloji Geliştirme Bölgesi Teknopark Anonim Şirketi for YTU Technopark A2 Block Office, to be valid between 11.02.2024 - 10.02.2025.
- On 29.03.2024, a local support agreement on the General Data Protection Regulation (GDPR) Project was signed with Yapı ve Kredi Bankası A.Ş. to remain in effect until 31.12.2024.
- On 01.04.2024, a one-year service contract was signed between the company and AssisTT A.Ş.
- On 05.04.2024, a purchase order (PO) is received from a third-party private bank regarding the Robotic Process Automation (RPA) license and service. The project period is 3 years.
- On 18.04.2024, the company is attended to Yeditepe University İZ'24 Career Fair and detailed information about the Kafein Academy program, internship and recruitment processes is shared.
- On 22.04.2024, a purchase order (PO) amounting to 1,099,560.00 Euros was received from a third-party telecommunications customer for Robotic process automation (RPA) license sales and service. The project term is 3 years.
- On 07.05.2024, the company is attended to Yildiz Technical University Career Fair and detailed information about the Kafein Academy program, internship and recruitment processes is shared.
- On 09.05.2024, the company participated as a sponsor in the "Ui Path Artificial Intelligence and Automation Summit" in Istanbul organized by the company's business partner Ui Path Inc.
- On 14.05.2024, the company completed the "Partnership Advantage SecOps (Security Operations) Reseller Initiative" process with Google Cloud and gained Google Cloud Tier 1 Partner

competence. Thus, with the service partnership formed 16.01.2024, the company additionally formed sales partnership status.

- On 14.05.2024, the company attended the Bilgi University "Bilgi Talent Fest'24" Event and within the scope of the event, information is shared with students and young talents about the company's Kafein Academy program, internship and recruitment processes.
- On 14.05.2025, the company is deemed worthy of an award in the "Commercialized Product Star" category at the "Interstellar Summit Awards" night, organized for the first time this year by Yıldız Technical University Teknopark in the field of innovation, technology and entrepreneurship.
- In the Board of Directors' meeting held on 15.05.2024 and numbered 15, in order to extend the company's business operations, it has been decided to open a branch at the address of "Yeşilköy SB Mah. İSBİ Plaza Sok. İSBI Plaza No 1 İç Kapı No 909 Bakırköy İstanbul"; title the branch as "Kafein Yazılım Hizmetleri Ticaret Anonim Şirketi İstanbul İhtisas Serbest Bölge Şubesi" and allocate TRY 5,000,000 (fivemillionturkishlira) capital to the branch; as branch manager appoint the company's sales and business development director, Mr. Baki Aktürk to represent the company with his individual signature, make the applications to obtain an operating license in the Istanbul Specialized Free Zone.
- On 16.05.2024, the company attended the Istanbul Technical University "İTÜ Internship and Interview days" Event and within the scope of the event, information is shared with students and young talents about the company's Kafein Academy program, internship and recruitment processes.
- On 22.05.2024, the company is attended to Marmara University Career Fair and detailed information about the Kafein Academy program, internship and recruitment processes is shared.
- The company has renewed the agreement with "Saha Kurumsal Yönetim ve Kredi Derecelendirme Hizmetleri A.Ş." to rate compliance level of corporate governance principles for one year, effective from 31.05.2024.
- On 28.05.2024, the company participated in the "Connect, Build & Protect Everywhere" event that we organized in Istanbul with Cloudflare, the manufacturer partner of the company's cyber security solutions brand All-in Cyber.
- On 31.05.2024, a development project of the STM product used in GDPR (General Data Protection Regulation) infrastructure and a security product license of one of the company's business partners Mandiant Inc. is delivered to a third-party telecommunications customer. The

aforementioned purchase order (PO) is 152,000 USD.

- The company has renewed the agreement with "Saha Kurumsal Yönetim ve Kredi Derecelendirme Hizmetleri A.Ş." to rate compliance level of the corporate governance principles for one year, effective from 31.05.2024.
- On 03.06.2024, the company was deemed worthy of the "Superior Performance" evaluation within the scope of the 2024 supplier performance survey organized by the company's customer Enerjisa Üretim Santralleri Anonim Şirketi.
- During the period, the upgraded versions of the test data management product TDM, data security and governance product DataTouch and the database activity monitoring and prevention product DataSkope developed by the company and its 51% subsidiary Karmasis Bilişim are released. In addition, the first MVP (Minimum Viable Product) version of the company's data governance product DataFocus is released.
- Within the framework of the partnership agreement signed between Google Cloud EMEA Limited and the company on 16.01.2024, the company received an order of TRY 2,700,000 for cyber security service from a third-party participation bank on 10.06.2024. With this transaction, the order amount received within the scope of the aforementioned cooperation agreement reached TRY 22,400,000.
- Within the framework of the company's medium and long-term investment plans and as a result of the Board of Directors meeting dated 10.06.2024 and numbered 17, it has been decided to become a founding partner by participating in "APIFORT Yazılım ve Güvenlik Çözümleri Anonim Şirketi" by having 204,000 shares with TRY 1 (One Turkish Lira) value per share corresponding a capital of TRY 204,000.00 (%51) among the total of TRY 400,000.00. The subsidiary is located at "Çifte Havuzlar Mah. Eski Londra Asfaltı Cad. Kuluçka Merkezi. A1 Blok No 151/1C İç Kapı No B34" as a taxpayer of Esenler Tax Office with tax identification number 0711015082 and operates in the field of cyber security.

VIII. MISCELLANEOUS

As a result of the periodic valuation studies of BIST Dividend Indices carried out by Borsa İstanbul General Directorate dated 18.04.2024 and based on the BIST Market Value Weighted Share Indices Rule Set (Rule Set), the company continues to be included in the index for the period of 01.05.2024-31.07.2024.
