5.7 Share Performance

Our company's shares were offered to the public on February 15-16, 2018 at a price of 0.65 TL* per share and started to be traded on Istanbul Stock Exchange as of February 21, 2018.

The share price, which remained flat for a while in the period following the initial public offering, due to the repurchase commitment offered for 45 days as part of initial public offering incentives, showed an upward movement in the April-December period and reached its peak level for that period on 27 December 2018. After the correction movement, it dropped to its all-time low (0.45 TL (*)) as of 12 March 2020. Afterwards, the share price started to rise again and reached 3.55 TL(*) on 03 September 2020.

The share price, which entered the year 2021 at the level of 2.26 TL, made daily closings at 0,92TL(*) on August 19 and 20 and October 6, 15 and 18 due to the drop in the price following the capital increase approval decision and the exercise of the pre-emptive right. Finally, as a result of the withdrawals in the stock market in parallel with the declining exchange rate, with the announcement of TL-value maintaining deposits after the exchange rate fluctuations, it closed at the level of 0.89 TL(*), the lowest for 2021, on 28.12.2021. And finally, the closing price of the year was 0.91 TL*.

The share price, which started the year 2022 at 0.91 TL, was traded at a level of 0.81 TL(*) on 24.02.2022 due to the negative effects of the Russia-Ukraine war on the markets. Afterwards, it increased with the reactive buys it received at this level and closed the year 2022 at a price of 3,53 TL. The share price, which followed a generally favorable course in 2023, closed the day at the all-time high (17,85 TL) on 17.08.2023. And finally, the closing price on 18.08.2023 was 17,78 TL*.

* The price adjusted for the capital increase transactions performed after the initial public offering.
