REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

SDT Uzay ve Savunma Teknolojileri Anonim Şirketi
Board of Directors and General Assembly
Ankara, Türkiye

1. Introduction

We have reviewed the accompanying interim consolidated statement of financial position of SDT Uzay ve Savunma Teknolojileri Anonim Şirketi ("the Parent Company" and/or "the Company"), its subsidiaries and its joint operations ("together the Group") as at 30 June 2025 and the related consolidated statement of profit or loss, consolidated statement of other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the six-month period then ended and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these interim consolidated financial information in accordance with Turkish Accounting Standard 34, Interim Financial Reporting ("TAS 34"). Our responsibility is to express a conclusion on these interim consolidated financial statements based on our review.

2. Scope of Limited Independent Audit

We conducted our review in accordance with the Standard on Review Engagements (SIA) 2410 "Review of Interim Financial Information by the Auditor who conducted the audit of the Company's Annual Financial Statements". A review of interim consolidated financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review of interim consolidated financial information is substantially less in scope than an audit conducted in accordance with Standards on Auditing and whose objective is to express an opinion on the consolidated financial statements. Consequently, a review of the interim consolidated financial information does not provide assurance that the audit firm will be aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

3. Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim consolidated financial information of SDT Uzay ve Savunma Teknolojileri Anonim Şirketi, its subsidiaries and joint operations is not prepared, in all material respects, in accordance with TAS 34.

Ram Bağımsız Denetim ve Danışmanlık Anonim Şirketi

NOTE 1 - GROUP'S ORGANIZATION AND NATURE OF THE OPERATIONS

SDT Uzay ve Savunma Teknolojileri Anonim Şirketi, its subsidiaries and joint operations will be referred to as the "Group" in the notes to the consolidated financial statements. Information regarding the operations of the Company and joint operations included in the consolidation is as follows;

Information on the operations of the Company and joint operations included in full consolidation is as follows;

SDT Uzay ve Savunma Teknolojileri Anonim Şirketi ("the Company" and/or "SDT Uzay")

The Company was established on February 11, 2005 in Ankara, Türkiye under the name SDT Uzay ve Savunma Teknolojileri Bilişim Üretim Danışmanlık Ticaret Anonim Şirketi and as of July 13, 2017, the Company changed its title and started to use its current title.

The main activity of the Company is the production, import and export of all kinds of electrotechnical, electronic, electromechanical and mechatronic products related to space and defense technologies.

The shares of SDT Uzay ve Savunma Teknolojileri Anonim Şirketi were started to be traded on Borsa İstanbul Stars Market on January 04, 2023 with the code "SDTTR" and continuous trading method.

The Company's ongoing research, development and production projects as of June 30, 2025 are as follows;

Project Name	Project Description
AGAMA COMPUTER 12P (AGS12)	Mission Computer Production
BATTERY KB SERIAL PRODUCTION	Medium Range Anti-Tank Weapon System Fire Control Unit Control Unit Production
ANKA_S GVKS	Data Recording System
ASELSAN CONTRACT MANUFACTURING	Contract Fiber Optic, Contract Lcd, Contract Card, Contract Computer Production
ASELSAN HGK-3	ASELSAN Precision Guidance Kit Type-3 (HGK-3) Guidance Electronics Whole Procurement
ASFAT HGK	ASFAT - Precision Guidance Kit Type-3 (HGK-3) Guidance Electronics Whole Procurement
ATAK -VKS	ATAK Helicopter Data Recording System Project
Aselpod VKS	Aselpod Solid State Recorder Production
CBUGS	Cloud Based User Ground Segment Project

NOTE 2 - BASIS OF THE CONSOLIDATED FINANCIAL STATEMENTS

2.a Basis of Presentation

Compatibility Statement

The Parent Company prepares its statutory financial statements in accordance with the principles of CMB, Turkish Commercial Code and Tax Legislation and the Uniform Chart of Accounts issued by the Ministry of Finance and presents in Turkish Liras ("TRY"). A subsidiary operating abroad prepares its accounting records and legal books in accordance with the laws and regulations of the country in which it operates.

The financial statements of Group have been prepared in accordance with the communiqué numbered II-14, 1 "Communiqué on the Principles of Financial Reporting In Capital Markets" (the Communiqué) announced by the Capital Markets Board ("CMB") (here in after will be referred to as "the CMB Reporting Standards") on 13 June 2013 which is published on Official Gazette numbered 28676 and required adjustments and reclassifications are reflected. In addition, it is presented in accordance with the formats determined in the "Announcement on TMS Taxonomy" published by the POA on 04 October 2022 and the Financial Statement Samples and User Guide published by the CMB.

The attached consolidated financial statements of the Group have been prepared in accordance with the CMB's "Announcement on Financial Statement and Footnote Formats" dated 07 June 2013 and its decision numbered 14/382 dated 07 March 2024. In addition, the attached consolidated financial statements are presented in accordance with the 2016 TAS Taxonomy, which was developed by the POA based on paragraph (b) of Article 9 of the Decree Law No. 660 ("Decree Law") and approved by the Board decision No. 30 dated 02 June 2016.

Based on the announcement made and published by the KGK on 23 November 2023 with the decision of the CMB dated 28 December 2023 and numbered 81/1820 and the "Implementation Guide on Financial Reporting in High Inflation Economies", issuers and capital companies subject to financial reporting regulations applying TAS / UFRS It has been decided that market institutions will apply inflation accounting by applying the provisions of TMS 29, starting from their annual financial reports for the accounting periods ending as of December 31, 2023.

The consolidated financial statements are based on the group's legal records and expressed in TRY and have been prepared by subjecting the Company to a number of corrections and classification changes in order to properly present the company's situation according to the Turkish Accounting Standards published by the POA.

Translation of Financial Statements of Subsidiary Who Operate in Foreign Country

The financial statements of subsidiary who operates in foreign country are prepared by the regulations of residing country and organized by reflection of required adjustments and reclassifications in order to be convenient to the accounting policy of consolidated financial statements of the Group. The assets and liabilities of foreign subsidiary are converted to Turkish Lira with the balance sheet date foreign exchange rate. The incomes and expenses of foreign subsidiary are converted to Turkish Lira with average foreign exchange rate. The foreign exchange differences occurred after the re-conversion of beginning net asset and using average foreign exchange rate; pursued under foreign currency conversion account.

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

Consolidated Financial Statements Correction in High Inflation Period

Businesses applying TAS / TFRS began implementing inflation accounting as of the financial statements for the annual reporting period ending on or after 31 December 2023. This transition was initiated in accordance with "TAS 29 Financial Reporting Standard in Economies with High Inflation," as per the decision of the Capital Markets Board (SPK) dated 28 December 2023, with reference number 81/1820, and the announcement made by the Public Oversight Accounting and Auditing Standards Authority (KGK) on 23 November 2023. TAS 29 is applicable to entities whose functional currency is that of a high-inflation economy, encompassing their financial statements, including consolidated financial statements.

The attached consolidated financial statements are prepared on a historical cost basis. All comparative amounts for previous periods in these consolidated financial statements have been adjusted in accordance with TAS 29 to reflect changes in the general purchasing power of the Turkish Lira and ultimately expressed in terms of the purchasing power of the Turkish Lira as of 30 June 2025.

In applying TAS 29, the Group utilized adjustment coefficients obtained from the Consumer Price Index (CPI) published by the Turkish Statistical Institute, as directed by the Public Oversight Accounting and Auditing Standards Authority (KGK). Since the discontinuation of the definition of the Turkish Lira as the currency of a high-inflation economy as of 1 January 2005, the adjustment coefficients corresponding to the current and past periods based on the CPI are as follows:

Year-End	Index	Index %	Correction Factor
31.12.2005	122,65	7,72	24,09042
31.12.2006	134,49	9,65	21,96959

SDT UZAY VE SAVUNMA TEKNOLOJİLERİ ANONİM ŞİRKETİ
ITS SUBSIDIARIES AND JOINT OPERATIONS
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

In accordance with TAS 29, assets and liabilities were initially segregated into monetary and non-monetary categories to facilitate necessary adjustments in the consolidated financial statements. Non-monetary assets and liabilities were further segregated into those measured at current value and those measured at cost value. Monetary items (excluding those linked to an index) along with non-monetary items measured at their current values at the end of the reporting period were not subjected to inflation adjustment as they were already expressed in terms of the current measurement unit as of 30 June 2025. However, non-monetary items not expressed in terms of the measurement unit as of 30 June 2025 were subjected to inflation adjustment using the respective coefficients. Where the recoverable amount or net realizable value of non-monetary items adjusted for inflation exceeded, the relevant TAS/IFRS was applied, resulting in a reduction in book value. Additionally, inflation adjustments were made to all items in the equity statement, income statement, and other comprehensive income statement. All items in the income statement and other comprehensive income statement except for cost of sales, depreciation and amortization, gain or loss on asset sales, and fair value adjustments were adjusted using the respective correction factors. Cost of sales, depreciation and amortization, gain or loss on asset sales, and fair value adjustments were recalculated based on adjusted consolidated financial position statement items using the respective correction factors. All items in the cash flow statement are expressed in the measurement unit prevailing at the end of the reporting period.

Non-monetary items acquired or assumed before January 1, 2005, when the Turkish Lira ceased to be defined as the currency of a high-inflation economy, as well as equity items put into operation or formed before this date, have been adjusted based on the changes in the Consumer Price Index (CPI) from January 1, 2005, to June 30, 2025.

The implementation of TAS 29 necessitated adjustments, presented in the income statement's gain or loss section, due to the decrease in purchasing power of the Turkish Lira. Unless the value of monetary assets or liabilities is dependent on changes in an index, during inflationary periods, businesses holding a higher amount of monetary assets experience a decrease in purchasing power, while those holding a higher amount of monetary liabilities experience an increase in purchasing power. Net monetary position gains or losses were derived from differences in adjustments of non-monetary items, equity items, items in the income statement, and other comprehensive income statements, and indexed monetary assets and liabilities.

Additionally, in the reporting period when TAS 29 was initially applied, the standard provisions were applied assuming persistent high inflation in the relevant economy. Therefore, for subsequent reporting periods, the consolidated financial position statement dated 1 January 2022, was adjusted for inflation to serve as the basis for comparison with the earliest comparative period. The inflation-adjusted amount of profits/losses from previous years in the consolidated financial position statement dated 1 January 2022, was derived from the balance sheet's equity after adjusting other items in the statement for inflation

Amounts relating to the previous reporting period were reclassified by applying the general price index to ensure presentation in the measurement unit prevailing at the end of the reporting period. Information disclosed for prior periods is also presented in terms of the measurement unit prevailing at the end of the reporting period.

"Equity-accounted investees not reporting in currencies of high-inflation economies are subject to TAS 21 provisions. In this context, TAS 29 was applied only to equity-accounted investees resident in Türkiye, while other equity-accounted investees were assessed and accounted for under TAS 21.

SDT UZAY VE SAVUNMA TEKNOLOJİLERİ ANONİM ŞİRKETİ
ITS SUBSIDIARIES AND JOINT OPERATIONS
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

Rounding Degree of Amounts Offered in Currency and Financial Statements

The functional and reporting currency of the Parent Company, subsidiary (located in Turkey) and joint operations is TRY for comparative periods. The functional currency of the subsidiary (located in Azerbaijani) is Azerbaijani New Manat ("AZN") and its reporting currency is also TRY.

Financial information presented in TRY has been rounded to the nearest full TRY value.

Approval of Consolidated Financial Statements

Consolidated financial statements of the Group are approved by the Board of Directors at 19 August 2025. Consolidated financial statements will be finalized upon approval at the General Assembly of the Parent Company. The Board of Directors and some regulative agencies have the right to change the financial statements that were prepared according to legal regulations after they have been published.

Basis of Consolidation

The companies are subject to "Complete Consolidation Method" if direct TRY or indirect TRY 50% or more than 50% of their shares or over 50% of their voting rights or the controlling rights regarding to companies' operations are belonging to the Parent Company. Parent Company has controlling rights if it is able to govern the financial and operating policies of an enterprise so as to benefit from its activities. The companies which have continuous relationship on management and power to govern Parent Company's policies and/or which have direct or indirect capital and management relationship or which have voting share of Parent Company between the rates 20-50% are accounted by using equity pick-up method.

Principles of Complete Consolidation

The principles of consolidation followed in the preparation of the accompanying financial statements are as follows:

- The financial statements of the consolidated subsidiaries have been equipped according to the accounting principles of the Parent Company.
- The cost of acquisition of the Parent Company's interest in the equity of the subsidiary within the scope of consolidation is deducted from the value of the shares represented in the equity of the subsidiary's balance sheet adjusted in accordance with the accounting policies of the Parent Company.
- The balance sheet items of the Parent Company and its subsidiaries other than paid-in capital and shareholders' equity at the date of acquisition are added together and the receivables and payables of the subsidiaries subject to the consolidation method are mutually deducted in the addition process.
- All equity items, including paid-in/issued capital, of subsidiaries included in the scope of consolidation are eliminated from equity attributable to equity holders other than the parent company and its subsidiaries and presented under "Non-controlling Interests" in the consolidated balance sheet.
- Shares of the Parent Company held by subsidiaries within the scope of consolidation, if any, are eliminated against the Parent Company's share capital.
- The profit or loss statement items of the Parent Company and its subsidiaries are aggregated separately and the income and expense items arising from their transactions with each other are offset against the related accounts. For the subsidiaries acquired during the accounting period, the income and expense items realized after the date of acquisition of the subsidiary are taken into consideration.
- The portion of the net profit or loss of subsidiaries included in the scope of consolidation that is attributable to interests other than those included in the consolidated financial statements is presented in the "Non-controlling Interests" account.

SDT UZAY VE SAVUNMA TEKNOLOJİLERİ ANONİM ŞİRKETİ
ITS SUBSIDIARIES AND JOINT OPERATIONS
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

As of 30 June 2025 and 31 December 2024, the Parent Company has applied the "full consolidation method" to the following companies in which it directly or indirectly owns 50% or more of the shares, holds more than 50% of the voting rights, or has control over their operations;

	Ownership of the Parent through the Equity Affiliates	Non-controlling Interests
Subsidiaries	(Direct)	(Direct+ Indirect) Share
SDT Azerbaijan (a)	%100,00	%100,00 -
Cey Savunma (b)	%100,00	%100,00 -

(a) The Parent Company acquired 100% of the shares of SDT Azerbaijan MMC, which was established on January 11, 2023 in Azerbaijan, as a founding shareholder on January 11, 2023.

(b) On July 4, 2023, SDT Uzay ve Savunma Teknolojileri Anonim Şirketi acquired all shares of Cey Savunma ve Simülasyon Sistemleri Sanayi ve Ticaret Anonim Şirketi (equivalent to 8.466.240 TRY based on the purchasing power as of June 30, 2025) from unrelated party for a total of 4.000.000 TRY.

Details of the Group's subsidiaries are presented in Note 1 and Note 3.

Equity Method

The acquisition cost of the Parent Company's shares in the capital of the subsidiary subject to the equity method is brought to the value represented in the equity capital of the financial position statement of these subsidiaries adapted to the Parent Company's accounting policies, and the difference in the previous years is called "Prior Years Loss or Past Years" The difference in "Profits" in the current period is shown in the "Shares of Profits and Losses of Investments Valued by Equity Method" account.

If the Parent Company's share of the subsidiary's losses is equal to or greater than the balance sheet value of the subsidiary, it continues to be accounted in the records with the subsidiary trace price.

As of 30 June 2025 and 31 December 2024, the Parent Company maintains a continuous connection in terms of participating in management and determination of business policies, or has a direct or indirect capital and management relationship, with companies where it holds twenty percent or more but less than fifty percent of their capital or has the right to participate in management at this percentage. These companies are as follows;

	Ownership of the Parent through the Equity Affiliates	Non-controlling Interests	
Investment	(Direct)	(Direct+ Indirect)	Share
Sirius	%40	%40	%60

Detailed information about the Group's subsidiaries is presented in Note 1 and Note 3.

Partnerships Within the Scope of Joint Operations

Partnerships within the scope of joint operations refer to partnerships formed within the scope of a contract to undertake an economic activity, to be jointly managed by the Group and one or more entrepreneurial partners. A joint operation is a joint arrangement in which the parties having joint control of the arrangement have rights to the assets and obligations regarding the debts related to the arrangement. The Group provides these joint operations by benefiting from the shares and/or contracts it owns directly or indirectly. The accounting policies applied by joint operations are aligned with the accounting policies of the Group. The financial statements of partnerships within the scope of joint operations are included in the financial statements of the Group, taking into account the share ratios of the Group. Assets, liabilities, equity, income and expenses included in the financial statements of partnerships within the scope of joint operations are processed with the effective partnership rates owned by the Group. Liabilities and expenses arising from jointly controlled assets are accounted for on an accrual basis. The Group's share of the income obtained from the use of assets of jointly controlled partnerships or the sale of such assets is recorded if it is probable that the relevant economic benefits will flow to the Group and their amounts can be measured reliably. Balances and unrealized profits and losses arising from transactions between the Group and its jointly controlled enterprises are eliminated in proportion to the Group's share in the jointly controlled enterprise.

As of June 30, 2025, the Group's joint operations are as follows;

Joint Operation	Group's Share Ratio in Joint Operation		Non-Owned Share Ratio

Standard Accounting Policy

Consolidated financial statements are prepared by adopting consistent accounting policies for similar transactions and other events under similar conditions. If the financial statements of any entity included in the consolidated financial statements are prepared using different accounting policies for similar transactions and other events under similar conditions, necessary adjustments are made to the financial statements of that entity during the preparation of the consolidated financial statements.

The investor's financial statements are prepared using consistent accounting policies for similar transactions and other events under similar conditions. If an investee uses accounting policies different from those of the investor for similar transactions and other events under similar conditions, necessary adjustments are made to align the investee's accounting policies with those of the investor for applying the equity method in the investor's financial statements

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

Assumption of Continuity of Business

he consolidated financial statements presented herein have been prepared on the assumption of the continuity of business, under which it is assumed that the Group will derive benefits from its assets and fulfill its obligations in the natural course of its activities in the coming year.

Offsetting

Financial assets and liabilities are presented on a net basis when there is a legal right to offset, an intention to settle the asset and liability on a net basis, or when the asset is realized and the liability is settled simultaneously.

Comparative Information and Correction of Previous Period Financial Statements

The consolidated financial statements of the Group are prepared comparatively with the previous periods in order to enable the determination of the consolidated financial position and performance. The Group has prepared the consolidated statement of financial position as of 30 June 2025 comparatively with the consolidated statement of financial position as of 31 December 2024 and the consolidated statement of profit or loss, consolidated statement of other comprehensive income, consolidated statement of cash flows and consolidated statement of changes in equity for the period between 1 January - 30 June 2025 comparatively with the period between 1 January - 30 June 2024. In order to maintain consistency with the presentation of the current period consolidated financial statements, comparative information is reclassified and significant differences are explained if necessary.

The Group has not made any adjustments to its consolidated financial statements as at 31 December 2024 and 30 June 2024, except for the adjustments made due to the application of TAS 29 standard explained in the "Adjustment of Consolidated Financial Statements in Hyperinflationary Periods" section.

2.b Changes in Accounting Policies

A company can only change its accounting policies under the following circumstances:

- If required by a standard or interpretation, or
- If the effects of transactions and events on the financial position, performance or cash flows of the entity are of a nature that will provide a more appropriate and reliable presentation in the financial statements.

Users of consolidated financial statements should have the ability to compare the company's financial position, performance, and cash flows over time. Therefore, unless a change in accounting policy meets one of the conditions stated above, the same accounting policies should be applied consistently in each interim period and fiscal year.

Changes and Errors in Accounting Estimates

The preparation of the consolidated financial statements in compliance with TAS/IFRS requires certain estimates to be made by Management regarding the carrying values of certain assets and liabilities, potential liabilities disclosed, and the amounts of income and expenses reported. Actual amounts may differ from these estimates. These estimates are reviewed periodically and any differences are reported in the income statement as of the periods known.

SDT UZAY VE SAVUNMA TEKNOLOJİLERİ ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

The assumptions and assessments made, taking into account significant interpretations that could significantly impact the amounts reflected in the consolidated financial statements, as well as important assumptions and evaluations based on the main sources of estimates existing at the date of the financial position statement or that may occur in the future, are as follows:

Provision for doubtful receivables

However, it reflects the amounts it believes to cover future losses from receivables at risk of non-collection under the current economic conditions. While evaluating whether the receivables are impaired or not, the past performances of borrowers other than the related institution and permanent customers, their credibility in the market and the performance of the consolidated financial statements until the approval date of the consolidated financial statements are also taken into consideration. As of the statement of financial position, the provisions for doubtful receivables are reflected in Note 8.

Provision for stock impairment

Regarding stock impairment, the physical and past history of stocks are examined, their usability is determined in line with the opinions of technical personnel, and provisions are made for items that are estimated to be unusable (Note 11).

Deferred finance income/expense

In calculating the effective interest rate for the amortized cost of trade receivables and payables, expected collection and payment dates based on current information related to receivables and payables are taken into account.

Useful lives of tangible and intangible fixed assets

The Group depreciates its tangible and intangible fixed assets based on the useful lives and residual values stated in Note 2.c. Explanations regarding the useful lives are provided in Note 2.c.

Development costs

Research findings or other information applied to a plan prepared to produce new, unique, and significantly improved products, processes, systems, or services are defined as development, and the costs incurred for these activities are capitalized by the Group. In capitalizing the salaries of personnel directly involved in creating the asset, the Group management considers the amount of time each person spends on research and development activities. Personnel costs related to research activities are recognized as an expense when incurred.

Provision for litigation

While reserving provisions for litigation, the probability of losing related lawsuits and the results to be incurred in case of loss are evaluated in line with the opinions of the Group's legal counsel. Explanations regarding the provisions that the Group Management deems necessary in accordance with the best estimations made by using the available data are included in Note 20.

SDT UZAY VE SAVUNMA TEKNOLOJİLERİ ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

Warranty Expenses Provision

Warranty provisions generally include expenses related to labor, spare parts, and similar costs incurred without charging the customer for products and services sold. For sales recorded as revenue in the current period, the Group accounts for future service costs that may arise in subsequent years based on estimates derived from management's experience, distinguishing between short-term and long-term provisions for warranty expenses in the relevant period (Note 20).

Retirement pay provision

The severance pay liability is determined by actuarial calculations based on a number of assumptions, including discount rates, future salary increases and employee turnover rates. As these plans are long term, these assumptions contain significant uncertainties. Details on provisions for employee benefits are included in Note 21.

Deferred tax

The Group accounts for deferred tax assets and liabilities for temporary timing differences arising from differences between tax-based legal financial statements and financial statements prepared in accordance with TAS/IFRS. These differences arise from the fact that some income and expense items are included in different periods in the financial statements prepared in accordance with TAS/IFRS and financial statements. The Group has deferred tax assets consisting of deductible temporary differences that may occur in the future. Partially or fully recoverable amount of deferred tax assets are estimated under current conditions. During the evaluation, future profit projections, losses in current periods, unused losses and other tax assets can be used. As a result of the evaluations, as of 30 June 2025 and 31 December 2024, temporary differences arising from tax deductions can be foreseen and deferred tax assets will be deemed to be deemed to be deemed to be available within the framework of tax laws within the period that the tax reduction right can continue. Details on deferred tax calculations as of the relevant statement of financial position are provided in Note 31.

The New International Financial Reporting Standards, Amendments

As at June 30, 2025, the accounting policies adopted in preparation of the financial statements for the year ended June 30, 2025 are consistent with those of the previous financial year, except for the adoption of new and amended TAS / TFRS and TAS / TFRS interpretations effective as of January 1, 2024.

As at June 30, 2025, the new standards, amendments and interpretations to existing standards are effective:

Amendments to IAS 21 - Lack of Exchangeability

Effective from annual periods beginning on or after 1 January 2025. An entity is impacted by the amendments when it has a transaction or an operation in a foreign currency that is not exchangeable into another currency at a measurement date for a specified purpose. A currency is exchangeable when there is an ability to obtain the other currency (with a normal administrative delay), and the transaction would take place through a market or exchange mechanism that creates enforceable rights and obligations.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

b) Standards, amendments, and interpretations that are issued but not effective as of 30 June 2025

IFRS 17 Insurance Contracts

IFRS 17 requires insurance liabilities to be measured at a current settlement value and provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve consistent, principle-based accounting for insurance contracts. TFRS 17 has been deferred for insurance, reinsurance and pension companies for a further year and will replace TFRS 4 Insurance Contracts on 1 January 2026.

Amendment to IFRS 9 and IFRS 7 - Classification and Measurement of Financial Instruments;

Effective from annual reporting periods beginning on or after 1 January 2026 (early adoption is available). These amendments:

- Clarify the requirements for the timing of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system,
- Clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion;
- Add new disclosures for certain instruments with contractual terms that can change cash flows, (such as some instruments with features linked to the achievement of environment, social and governance (ESG) targets); and
- Make updates to the disclosures for equity instruments designated at Fair Value through Other Comprehensive Income (FVOCI).
-

IFRS 18 Presentation and Disclosure in Financial Statements

Effective from annual periods beginning on or after 1 January 2027. This is the new standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss. The key new concepts introduced in IFRS 18 relate to:

- The structure of the statement of profit or loss,
- Required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, managementdefined performance measures); and,
- Enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

IFRS 19 Subsidiaries without Public Accountability

Effective from annual periods beginning on or after 1 January 2027. This new standard works alongside other IFRS Accounting Standards. An eligible subsidiary applies the requirements in other IFRS Accounting Standards except for the disclosure requirements and instead applies the reduced disclosure requirements in IFRS 19. IFRS 19's reduced disclosure requirements balance the information needs of the users of eligible subsidiaries' financial statements with cost savings for preparers. IFRS 19 is a voluntary standard for eligible subsidiaries. A subsidiary is eligible if:

- It does not have public accountability; and,
- It has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards.

The amendments do not have a significant impact on the consolidated financial position and performance of the Group..

2.c Summary of Significant Accounting Policies

Cash and Cash Equivalents

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments which their maturities are three months or less from date of acquisition and that are readily convertible to a known amount of cash and are subject to an insignificant change in value. The carrying amount of these assets approximates their fair value.

Financial Instruments

According to TFRS 9, when a financial asset is initially recognized in the financial statements, it is classified as follows: debt instruments measured at amortized cost, equity instruments or debt instruments measured at fair value through other comprehensive income (OCI), or debt instruments measured at fair value through profit or loss (FVL). The classification of financial assets under TFRS 9 is generally based on the business model used by the entity for managing financial assets and the characteristics of the contractual cash flows of the financial asset. The requirement to separate embedded derivatives from the financial asset has been removed under the standard, and the classification of a hybrid contract as a whole should be evaluated.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is to hold assets to collect contractual cash flows and,
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and,
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

SDT UZAY VE SAVUNMA TEKNOLOJİLERİ ANONİM ŞİRKETİ
ITS SUBSIDIARIES AND JOINT OPERATIONS
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis. All financial assets not classified as measured at amortized for the FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized for the at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

A financial asset (unless it is a trade receivable without a significant financing component that is initially measured at the transaction price) is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition..

Impairment of financial assets

IFRS 9 replaces the 'incurred loss' model in TAS 39 with an 'expected credit loss' ("ECL") model. The new impairment model applies to financial assets measured at amortized cost and contract assets, but not to investments in equity instruments. Under IFRS 9, credit losses are recognized earlier than under IAS 39. The financial assets at amortized cost consist of trade receivables, cash and cash equivalents, and corporate debt securities.

Under IFRS 9, provisions for losses are measured on any of the following bases:

- 12 months ECLs: these are ECLs that result from possible default events within the 12 months after the reporting date and,
- Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument.

The Group has elected to measure loss allowances for trade receivables and contract assets at an amount equal to lifetime ECLs. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

Financial liabilities

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement entered into and the definitions of a financial liability and an equity instrument. An equity instrument is ant contract that evidences a residual interest in the asset of the Group after deducting all of its liabilities.

Financial liabilities at fair value reflected as profit or loss classified as financial liabilities or other financial liabilities.

SDT UZAY VE SAVUNMA TEKNOLOJİLERİ ANONİM ŞİRKETİ
ITS SUBSIDIARIES AND JOINT OPERATIONS
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

Financial liabilities at fair value through other comprehensive income

The effective interest method calculates the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate discounts the estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period. Financial assets carried at fair value through profit or loss include "derivative instruments" items in the statement of financial position. Derivative instruments are recognized as assets when their fair value is positive, and as liabilities when it is negative. Although the Group uses derivative instruments during the relevant reporting periods, there are no derivative instruments held by the Group at the end of the periods.

Other financial liabilities

Other financial liabilities, including financial liabilities, are initially recognized at fair value, net of transaction costs.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method plus the interest expense recognized on an effective yield basis.

The effective interest method calculates the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate discounts the estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

Trade Receivables

Trade receivables arising from the provision of products or services to the buyer are recognized from the amortized value of the receivables recorded from the original invoice value in the subsequent periods with the effective interest method. Short-term receivables with no determined interest rates are shown in the invoice amount if the effect of the original effective interest rate is not very large.

The "simplified approach" is applied within the scope of impairment calculations of trade receivables that are recognized at amortized cost in the financial statements and do not contain a significant financing component (with a maturity of less than 1 year). With this approach, in cases where trade receivables are not impaired for certain reasons (except for the impairment losses incurred), the provisions for losses related to trade receivables are measured at an amount equal to "lifelong expected credit losses".

In the event that all or some of the amount of the receivable that is impaired is collected following the provision for impairment, the amount collected is deducted from the provision for impairment and recorded in other income from the main activities.

Maturity difference income / expenses related to commercial transactions and exchange rate profit / loss are recognized in the statement of "Other Income / Expense from Main Operations" in the profit or loss statement.

Financial Liabilities

Financial liabilities are measured at fair value at initial recognition. Transaction costs directly attributable to the burden of the related financial liability are also added to the fair value.

The effective interest method calculates the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate discounts the estimated future cash payments through the expected life of the financial liability or where appropriate, a shorter period.

SDT UZAY VE SAVUNMA TEKNOLOJİLERİ ANONİM ŞİRKETİ
ITS SUBSIDIARIES AND JOINT OPERATIONS
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

Trade Payables

Trade payables are the payments to be made in relation to the goods and services provided from the suppliers within the ordinary activities. Trade payables are initially measured at fair value and subsequently measured at amortized cost using the effective interest method. Income/expenses related to term differences in commercial transactions and foreign exchange gains/losses are accounted for within the "Other Income/Expenses from Core Operations" account in the income statement.

Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories includes all costs of purchase, costs of conversion (direct labour and production overhead) and other costs incurred in bringing the inventories to their present location and condition. Cost is calculated by weighted average cost formula for trade goods. The cost of software programs made to order is calculated according to the real lot cost method. In cases where the revenue related to the service provided (order software projects) is not reflected as income in the financial statements, the related expenses are reflected to the inventory account. The cost of inventories of project-style software programs mainly includes the labor and other costs of personnel directly involved in the delivery of the service, including the personnel performing the control operations, and the overheads that may be associated with them. Labor fees and other related expenses of sales and general management personnel are not included in the cost of the service, that is, in the inventory. These expenses are recognized as expense in the period in which they are incurred..

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. Inventory impairment provision amounts that reduce inventories to their net realizable value and losses related to inventories are recognized as expense in the period in which the reduction and losses occur. The amount of the inventory impairment loss canceled due to the increase in the net realizable value is accounted for in a way that reduces the accrued selling cost of the period in which the cancellation occurred. Net realizable value is reviewed for each financial statement period. In cases where the conditions that previously caused the inventories to be reduced to net realizable value no longer apply or an increase in net realizable value is proven due to changing economic conditions, the reserve for impairment is reversed (the amount canceled is limited to the amount of impairment previously allocated).

Tangible Fixed Assets

Tangible fixed assets are shown by deducting accumulated depreciation from the acquisition cost, if any, after deducting the scrap value. Assets subject to depreciation are subject to pro-rata depreciation based on their estimated economic lives over their cost amounts, using the straight-line method of depreciation, taking into account the date they are active. The economic life and depreciation method are regularly reviewed, and accordingly, it is checked whether the method and the depreciation period are in line with the economic benefits to be obtained from the relevant asset, and adjustments are made when necessary. The land is not subject to depreciation as its useful life is considered indefinite.

The cost value of the property, plant and equipment; The purchase price, import duties and non-refundable taxes consist of expenses incurred to prepare the property, plant and equipment for use. Expenses such as repair and maintenance that occur after the use of tangible fixed assets are recognized in the profit or loss statement in the period in which they are incurred. If the expenditures provide an economic value increase in the future use of the related property, plant and equipment, these expenditures are added to the cost of the asset.

Leasehold improvements include the expenses incurred for the leased property and are depreciated over the useful life of the leased property where the useful life is longer than the lease term, and over the useful life if it is short.

SDT UZAY VE SAVUNMA TEKNOLOJİLERİ ANONİM ŞİRKETİ

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

The depreciation rates for property, plant and equipment, which approximate the useful economic lives of these assets, are as follows:

	<u>Useful life</u>
Machinery, plant and equipment	3-10 years
Vehicles	4-10 years
Fixtures	3-10 years
Special costs	Less than the lease term or useful life

Maintenance and repair expenses are recorded in the income statement in the period in which they are incurred. Costs related to the primary renewals are added to this cost of assets in the expected condition that providing economical profit with the better performance than the situation before renewals. Expenses which were made after the activation added to the cost of assets are put to amortization pursuant to economical lifetime of related assets. Group, value of the part that was changed in the range of expenses which was made after activation removes from income statement regardless to put the amortization independently to the other part

Right of Use Assets

The Group accounts for its use right assets on the date of the financial lease contract (for example, as of the date when the related asset is suitable for use). The right of use assets are calculated by deducting the accumulated depreciation and impairment losses from the cost value.

The cost of the right of use asset includes:

- (a) the first measurement of the lease obligation,
- (b) the amount obtained from all lease payments made before or before the lease actually started, by deducting all lease incentives received, and
- (c) All initial costs incurred by the Group..

Unless the transfer of the ownership of the underlying asset to the Group is reasonably finalized at the end of the lease term, the Group is subject to depreciation of the right to use until the end of the useful life of the underlying asset. Right of use assets are subject to impairment assessment.

The depreciation rates for right of use assets, which approximate the useful economic lives of these assets, are as follows:

	<u>Useful life</u>
Buildings	3-5 years
Motor Vehicles	1-3 years

SDT UZAY VE SAVUNMA TEKNOLOJİLERİ ANONİM ŞİRKETİ
ITS SUBSIDIARIES AND JOINT OPERATIONS
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

Lease Obligations

The Group measures the lease obligation based on the present value of the lease payments that were not paid on the date the lease actually began.

The lease payments included in the measurement of the lease obligation at the date of the lease actually consist of the following payments to be made for the right of use of the underlying asset during the lease period and not paid at the date when the lease actually started:

- (a) Fixed payments,
- (b) Variable lease payments based on an index or rate, initially measured using an index or rate at the commencement date,
- (c) Amounts expected to be paid by the Group under residual value commitments
- (d) if the Group is reasonably certain that it will exercise the put option, the exercise price of the put option and
- (e) Penalty payments related to the termination of the lease if the lease term indicates that the Group will exercise an option to terminate the lease.

Variable lease payments that do not depend on an index or rate are recorded as expenses in the period when the event or condition that triggered the payment occurred. If the Group can easily determine the revised discount rate for the remainder of the lease term and the implied interest rate on the lease; In case it cannot be determined easily, it determines the alternative borrowing interest rate on the date of the Group's re-evaluation.

The Group measures the lease obligation after the lease actually starts as follows:

- (a) Increases the carrying amount to reflect the interest on the lease obligation, and
- (b) Reduces the carrying value to reflect the rent payments made

In addition, in the event of a change in lease duration, a change in substance of fixed lease payments, or a change in the assessment of the option to purchase an underlying asset, the value of financial lease liabilities is re-measured.

Extension and early termination options

A lease obligation is determined by considering the extension of the contracts and early termination options. Most of the extension and early termination options included in the contracts consist of options that are jointly applicable by the Group and the lessor. However, if such extension and early termination options are at the Group's discretion in accordance with the contract and the use of the options is reasonably certain, the lease term shall be determined by taking this issue into account. If there is a significant change in the conditions, the evaluation is reviewed by the Group.

Facilitating Practices

The Group applies the short-term lease registration exemption to short-term machinery and equipment and low-value real estate lease agreements (i.e., assets with a rental period of 12 months or less starting from the start date and which do not have a purchase option). At the same time, it applies the exemption for the recognition of lower-value assets to the fixed assets, which are considered to be of low value. Short-term lease agreements and leases of lower-value assets are accounted for as expense on a straight- line basis over the term of the lease.

A single discount rate is applied to a portfolio of leases with reasonably similar characteristics (such as leases with a similar remaining lease term for a similar asset class in a similar economic environment).

SDT UZAY VE SAVUNMA TEKNOLOJİLERİ ANONİM ŞİRKETİ
ITS SUBSIDIARIES AND JOINT OPERATIONS
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

Intangible Assets

Intangible Assets Acquired

Intangible assets acquired include acquired usage rights, information systems and other identifiable rights. Intangible assets with finite lives are presented at cost less their residual value, if any, less accumulated amortization and accumulated impairment losses. These assets are amortized using the straight-line method over their expected useful lives (useful lives not exceeding 10 years). The expected useful life and depreciation method are reviewed annually to determine the possible effects of changes in estimates and changes in estimates are accounted for prospectively.

Computer Software

Purchased computer software is capitalized over the costs incurred during its purchase and during the period from purchase until it is ready for use.

Research and Development Costs

Planned activities to obtain new technological information or findings are defined as research and research expenses incurred at this stage are recorded as expense when incurred.

The application of research findings or other information to a plan prepared to produce new or significantly improved products, processes, systems or services is defined as development and is recognized as intangible assets resulting from development if all of the following conditions are met.

Internally generated intangible assets resulting from development activities (or the development phase of an internal project) are recognized only when all the following conditions are met:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale,
- Its intention to complete the intangible asset and use or sell it,
- Its ability to use or sell the intangible asset. How the intangible asset will generate probable future economic benefits,
- The availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset and
- Its ability to reliably measure the expenditure attributable to the intangible asset during its development.

The amount of intangible assets created internally is the total amount of expenses incurred since the intangible asset meets the above-mentioned recognition conditions. When internally generated intangible assets cannot be recognized, development expenditures are recorded as expense in the period in which they are incurred. After initial recognition, internally generated intangible assets, like separately purchased intangible assets, are carried at cost less accumulated depreciation and accumulated impairment losses. The useful lives of development costs are evaluated on a case-by-case basis and range from 2 to 12 years.

SDT UZAY VE SAVUNMA TEKNOLOJİLERİ ANONİM ŞİRKETİ
ITS SUBSIDIARIES AND JOINT OPERATIONS
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

Sale of Intangible Assets

An intangible asset is derecognised when it is disposed of or when future economic benefits are not expected from its use or sale. The profit or loss resulting from the derecognition of an intangible asset is calculated as the difference between the net proceeds from the disposal of the assets and their carrying amount, if any. This difference is recognized in profit or loss when the related asset is taken out of the balance sheet.

Impairment of Assets

At each reporting date, Group assesses whether there is an impairment indication for the assets, except for the deferred income tax asset that are stated at revalued amounts as of reporting date. When an indication of impairment exists, Group estimates the recoverable amounts of such assets. An impairment loss is recognized for the amount by which the carrying amount of the asset or any cash generating unit of that asset exceeds its recoverable amount which is the higher of an asset's net selling price and value in use. All impairment losses are accounted for in the statement of comprehensive income.

The criteria that the Group uses to determine that there is objective evidence of an impairment loss include:

- Significant financial difficulty of the issuer or obligor,
- A breach of contract, such as a default or delinquency in interest or principal payments,
- It becomes probable that the borrower will enter bankruptcy or other financial reorganization,
- For economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider,
- Observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of financial assets.

Mergers and Goodwill

Business merger and acquisition is combining of two separate legal entities or organizations into an entity that makes reporting. Business merger is accounted based on acquisition method within the context of IFRS 3.

Acquisition cost contains the fair value of assets given in purchase date; issued capital instruments, assumed and realized payables due to change, the costs that can be associated with additional acquisition. If the business merger agreement includes articles that foresees that cost can be adjusted according to the future actions, this adjustment is probable, and this adjustment is include into merger cost that formed on the day of acquisition when the value is detected. Purchase-related costs are expensed in the period in which they are incurred. Goodwill arising from the acquisition of subsidiaries, acquisitions of associates and establishment of joint ventures is the portion of the consideration paid in excess of the fair value of the Group's net identifiable assets, liabilities and contingent liabilities in the acquiree and its non-controlling interest in the acquiree.

The difference between the acquisition cost coming from purchase of an organization and fair value of identifiable asset, liability and conditioned liabilities is accounted as goodwill in consolidated financial statements. If real value of acquired assets, liability and contingency liabilities exceeds the business merger cost, then the difference is accounted in the consolidated income statements as goodwill.

For impairment testing, goodwill is allocated to cash-generating units. Distribution is made to cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arises. Each unit or group of units to which the goodwill is distributed is the smallest asset group of the entity in which the goodwill is monitored for internal managerial purposes. Goodwill is monitored on the basis of operating segments. Impairment reviews of goodwill are performed annually or more frequently when events or changes in circumstances indicate the possibility of impairment. The higher of the carrying amount of the goodwill, its value in use and its fair value less costs to sell, is compared with its recoverable value. In case of any impairment, the loss is recognized immediately and is not reversed in the following period.

SDT UZAY VE SAVUNMA TEKNOLOJİLERİ ANONİM ŞİRKETİ
ITS SUBSIDIARIES AND JOINT OPERATIONS
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

Legal mergers between entities controlled by the Group are not considered within the scope of TFRS 3. Therefore, goodwill is not calculated in such mergers. In addition, transactions between parties in legal mergers are subject to adjustments during the preparation of the consolidated financial statements.

Partial share purchase and sale transactions with minority interests

The Group considers the purchase and sale transactions of the shares of minority interests and the partnerships that it currently controls as transactions between the equity holders of the Group. Accordingly, in the purchase of additional shares from minority interests, the difference between the acquisition cost and the book value of the company's net assets in proportion to the purchased shares is accounted for under equity. In the sale of shares to minority interests, losses or gains resulting from the difference between the sales price and the book value of the company's net assets in proportion to the sold share are also accounted for under equity.

Fair Value Measurement

Determination of fair values, fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability. Fair value, according to valuation techniques used is classified into the following levels:

Level 1: For identical assets or liabilities in active markets (unadjusted) prices;

Level 2: Other than quoted prices in level 1 and asset or liability, either directly (as prices) or indirectly (i.e. derived from prices) observable data;

Level 3: Asset or liability is not based on observable market data in relation to the data (no observable data).

Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. All of the other borrowing costs are recorded in the income statement in the period in which they are incurred. There are no capitalized borrowing costs for the periods ended at 30 June 2025 and 31 December 2024.

Taxation

Taxes on income for the period comprise current tax and the change in the deferred taxes.

Current tax provision

The charge for current tax is based on the results for the period as adjusted for items which are non-assessable or disallowed. Taxable profit differs from profit as reported in the income statement because it excludes terms of income or expense that taxable or deductible in other years and it further excludes items that are never taxable or deductible.

SDT UZAY VE SAVUNMA TEKNOLOJİLERİ ANONİM ŞİRKETİ
ITS SUBSIDIARIES AND JOINT OPERATIONS
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

Deferred tax

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases use in the computation of taxable profit and are accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such assets and liabilities are not recognized if the temporary differences arisen from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit not the accounting profit.

Deferred tax liabilities are recognized for taxable temporary differences. It associates with investments in subsidiaries and associates and interests in joint ventures, except where the company is able to control the reversal of the temporary differences. It is probable that the temporary differences associated with such investments and interests are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amounts of deferred tax assets is reviewed at each balance sheet date and reduce to extent that is no longer probable that sufficient taxable profits will be available to allow all part of the assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and the tax laws) that have been enacted or substantively enacted by the balance sheet date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax are recognized as an expense or income in profit or loss, except when they relate to items credited or debited directly to equity, in which case the tax is also recognized directly in equity, or where they arise from the initial accounting for a business combination. In the case of a business combination, the tax affect is taken into account in calculating goodwill or determining the excess of the acquirer's interest in the net fair value of the acquirer's identifiable assets liabilities and contingent liabilities over cost.

Provisions, Contingent Liabilities and Assets

Provisions

Provisions are recognized when an enterprise has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

SDT UZAY VE SAVUNMA TEKNOLOJİLERİ ANONİM ŞİRKETİ
ITS SUBSIDIARIES AND JOINT OPERATIONS
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

Contingent Liabilities and Assets

Transactions that may give rise to contingencies and commitments are those where the outcome and the performance of which will be ultimately confirmed only on the occurrence or non occurrence of certain future events, unless the expected performance is not very likely. Accordingly, contingent losses are recognized in the financial statements of Group if a reasonable estimate of the amount of the resulting loss can be made. Contingent gains are reflected only if it is probable that the gain will be realized.

Related Parties

In the presence of one of the following criteria, parties are considered as related to Group:

- (a) Directly, or indirectly through one or more intermediaries, the party,
 - (i) Controls, is controlled by, or is under common control with, Group (this includes parents, subsidiaries and fellow subsidiaries);
 - (ii) Has an interest in Group that gives it significant influence over the Company; or
 - (iii) has joint control over the Group;
- (b) The party is an associate of the Group,
- (c) The party is a joint venture, in which Group is a venture,
- (d) The party is member of the key management personnel of Group or its parent,
- (e) the Party is an immediate family member of any individual referred to in (a) or (d),
- (f) the party is an entity that is controlled, jointly controlled or significantly influenced by, or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (d) or (e); or
- (g) The party has a post-employment benefit plan for the benefit of employees of the entity or of an entity that is a related party of the entity.

Transactions with related parties are transfer of resources or obligations between related parties, regardless of whether a price is charged. Group interacts with its related parties within the frame of ordinary business activities (Note 4).

EURO	46,6913	36,8024
GBP	54,6612	44,4378

Reporting Consolidated Financial Information by Segment

A business segment is distinguishable component of an enterprise that is engaged in providing an individual product or service or a group of related products or services and that is subject to risks and returns that are different from those of other business segments. A geographical segment is a distinguishable component of an enterprise that is engaged in providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

A reportable segment is business segment or a geographical segment identified based on the foregoing definitions for which segment information is required to be disclosed. A business segment or geographical segment should be identified as a reportable segment if a majority of its revenue is earned from sales to external customers and its revenue from sales to external customers and from transactions with other segments is 10% or more of the total revenue, external and internal, of all segments; or its segment result, whether profit or loss, is 10% or more of the result of all segments in profit or the result of all segments in loss, whichever is the greater in absolute amount; or its assets are 10% or more of the total assets of all segments.

The Group operates its activities in the same geographical region and industry sector. Therefore, reporting by segments has not been performed.

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

Employee Benefits / Severance Pay Provision

Severance Pay

In accordance with existing social legislation, the Group is required to make lump-sum termination indemnities to each employee who has completed one year of service with the Group and whose employment is terminated due to retirement or for reasons other than resignation or misconduct. Such severance payment is calculated on the basis of 30 days' gross salary and other benefits for each year of service at 30 June 2025, maximum TRY 46.655 (31 December 2023: TRY 41.828)

Group calculates provisions for severance pay in the attached consolidated financial statements in consideration of previous year's experiences on deserving severance pay and also, discount rate generated from effective interest rate and inflation on balance sheet period was included in calculations. All of profits and losses except calculated actuarial profit / (loss) were shown in statements of income, actuarial profit / (loss) was shown in statements of changes in equity.

The rates of basic assumptions used at balance sheet date are as follows:

	30.06.2025	31.12.2024
Real discount rates	3,04%	3,05%

Social Insurance Premiums

Group pays social security contribution to social security organization compulsorily. As long as group pays these premiums, it has no liability. These premiums are reflected as personnel expenses in the period in which they are paid.

Dividends

Dividends receivables are recognized as income in the period when they are declared and dividends payables are recognized as an appropriation of profit in the period in which they are declared.

Paid-in Capital

Common stocks are classified to equity. Costs related to new shares and option issued, are shown in equity by deducting the collected amounts whose tax effect was deducted.

Government Incentive and Grants

It is a procedure to assist the companies that are unable to achieve certain businesses. It is to stimulate the businesses with the incentives. Government incentives, including those followed at their fair values will be included in the financial statements only if there is reasonable assurance that the Company will fulfill all required conditions and acquire the incentive.

Government incentives, including non-monetary grants at fair value, are included in the financial statements only if there is reasonable assurance that the Company will fulfill all required conditions and acquire the incentive.

Events After Reporting Period

Although post balance sheet events arise after the explanation of the financial information to the public or any announcement related to profitability, it encloses all the events with balance sheet date and authorization date for the diffusion of the balance sheet.

Group adjusts the amounts in the combined financial statements if there exist any events necessitates adjustment. Subsequent events are stated in the combined notes to financial statements, if they do not need adjustments.

Earnings / (Loss) per Share

Earnings / (loss) per share in the combined income statements are calculated by dividing the net profit for the year by the weighted average number of ordinary shares outstanding during the year. In Türkiye, companies can increase their share capital by making distribution of "bonus shares" to existing shareholders from inflation adjustment difference in shareholder's equity. For the purpose of the earnings / (loss) per share computations, the weighted average number of shares outstanding during the year has been adjusted in respect of "bonus shares" issued without corresponding change in resources by giving them retroactive effect for the period in which they were issued and each earlier period.

Revenue

The Company has started to use the following five-step model in accounting for revenue in line with TFRS 15 "Revenue from Customer Contracts Standard", which entered into force as of 01 January 2018.

- Identification of contracts with customers
- Identification of performance obligations in contracts
- Determination of transaction value in contracts
- Distribution of transaction costs to performance obligations
- Accounting of revenue

According to this model, firstly, the committed goods or services are evaluated in each contract with customers and each commitment made to transfer the said goods or services is determined as a separate performance obligation. Afterwards, it is determined whether performance obligations will be fulfilled over time or at a certain time. If the Group transfers control of a good or service over time and therefore fulfills its performance obligations related to the sales, it takes the revenue to the financial statements over time by measuring the progress towards the fulfillment of the performance obligations in question.

The Group generates revenue as a result of sales of defense electronics and software products and services. Revenue related to performance obligations in the nature of a commitment to transfer goods or services; It is recognized when control of goods or services comes to customers.

When evaluating the transfer of control of the goods or services sold to the customer,

- a) the Company has the right to collect goods related to the goods or services,
- b) the ownership of the legal property of the goods or services,
- c) transfer of possession of the goods or services,
- d) the customer's ownership of the significant risks and rewards of ownership of the good or service,
- e) the customer's acceptance of the goods or service.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

The Company does not make any adjustments to the effect of a significant financing component in the promised price at the beginning of the contract, if the period between the transfer date of the goods or service it promises to the customer and the date when the customer pays the price of this goods or service will be one year or less. On the other hand, if there is an important financing element in the revenue, the revenue value is determined by reducing the future collections with the interest rate included in the financing element. The difference is recorded in the relevant periods as other income from the main activities on an accrual basis.

Interest Income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

Interest income and foreign exchange income from commercial transactions are recognized as other income from operating activities.

Dividend income from stock investments is reflected in the financial statements when shareholders have the right to receive dividends. Dividend debts are reflected in the financial statements as a liability after the approval of the general assembly as an element of profit distribution.

Cash Flow Statement

The Group prepares statement of cash flows to inform users of financial statements about changes in net assets and ability to direct financial structure, amounts and timing of cash flows according to changing situations. In the statement of cash flows, current period cash flows are grouped according to operating, financing, and investing activities. Operating cash flows resulting from activities in scope of Group's main operating scope. Cash flows related to investing activities are cash flows resulting from investing activities (fixed investments and financial investments) of the group. Cash flows related to financing activities comprise of funds used in financing activities of the Group and their repayments. Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments which their maturities are three months or less from date of acquisition and that are readily convertible to a known amount of cash and are subject to an insignificant change in value.

NOTE 19 – GOVERNMENT INCENTIVES AND GRANTS

The details of the incentives obtained by the Group are as follows;

a) The Group's software projects are approved by the relevant governmental organisations and the Group receives certain tax incentives upon approval. The rights of the Group due to these incentives are as follows:

- Incentives within the scope of the Technology Development Zones Law (100% corporate tax exemption),
- Incentives within the scope of research and development law (Social Security Institution incentives etc.)

The Group's income from research and development activities is exempt from corporate tax pursuant to the provisional second article of the Technology Development Zones Law No. 4691, which states that "The earnings of the management companies within the scope of this law and the earnings of the income and corporate taxpayers operating in the zone exclusively from software and R&D activities in this zone are exempt from income and corporate tax until 31 December 2028".

In this context, the Group's income exempt from corporate tax for the period ended 31 December 2024 is TRY 17.840.716. (01 January - 31 December 2024: TRY 227.281.369).

In addition, within the scope of the same law; the Group's personnel SSI premium, income and stamp tax incentive amount for the period ending 30 June 2025 is TRY 7.902.740 (01 January - 31 December 2024: TRY 13.564.142).

b) The Group benefits from incentives in accordance with the "Social Insurance and General Health Insurance Law No. 5510" of the Social Security Institution of the Republic of Turkey ("SGK"). In this context, the Group has incentive amounting to TRY 11.811.501 (01 January - 31 December 2024: TRY 24.969.223).

c) Within the scope of the "Decision No. 2017/4 on Supporting Participation in Overseas Exhibitions," the Group obtained incentive income amounting to TRY 601.987 for the period ended June 30, 2025 (01 January – 31 December 2024: TRY 218.334).

d) Since the Parent Company's shares are offered to the public at a rate of at least 20% to be traded for the first time in the Borsa Istanbul Stock Market, corporate tax is applied with a 2 percentage point discount on corporate income for 5 accounting periods starting from the accounting period in which the Parent Company's shares are offered to the public for the first time.

NOTE 21 – EMPLOYEE BENEFITS

As of 30 June 2025 and 31 December 2024, provisions for short-term and long-term employee benefits are as follows;

Short-term provisions for employee benefits

	30.06.2025	31.12.2024
Provisions for unused annual leave	26.895.190	23.095.980
Provisions for personnel wage premium	9.865.860	17.709.054
	36.761.050	40.805.034

Long-term provisions for employee benefits

	30.06.2025	31.12.2024
Severance pay provisions	24.348.963	23.621.559
	24.348.963	23.621.559

The Group's severance pay provision has been calculated as explained in Note 2. As of 30 June 2025, the maximum amount of TRY 46.655 for each year of service is calculated on the basis of 30 days' pay, using the rates prevailing at the date of retirement or departure (31 December 2024: TRY 41.828).

In the consolidated financial statements as at 30 June 2025 and 31 December 2024, the Group has reflected a liability calculated by discounting the expected inflation rate and real discount rate to the balance sheet date based on the principles stated above.

The ratios of the basic assumptions used on the statement of financial position day are as follows:

	30.06.2025	31.12.2024
Interest rate	44,25%	53,55%
Inflation rate	40,00%	49,00%
Real discount rate	3,04%	3,05%
Rate that is used for the probability of retirement	90,48%	89,19%

The Group does not provide any benefits other than severance pay to its employees.

NOTE 23 – CAPITAL, RESERVES AND OTHER EQUITY ITEMS

23.1 Paid in Capital

As of 30 June 2025, the Parent Company's share capital consists of 58.000.000 shares with a par value of TRY 1 each.

The capital structure of the Parent Company as of 30 June 2025 and 31 December 2024 is as follows;

Shareholders	30 June 2025		31 December 2024	
	Share Ratio	Share Amount (TRY)	Share Ratio	Share Amount (TRY)
Mehmet Dora	63,11%	36.602.500	63,11%	36.602.500
Mustafa Fatih Ünal	2,32%	1.347.500	2,32%	1.347.500
Public Held	27,57%	15.990.000	27,57%	15.990.000
Others (a)	7%	4.060.000	7%	4.060.000
Total	100,00%	58.000.000	100,00%	58.000.000
Capital adjustment differences		207.548.645		207.548.645
Paid in Capital		265.548.645		265.548.645

(a) On 05 September 2023, Mehmet Dora and Mustafa Fatih Ünal, shareholders of the Parent Company, transferred their 1.060.000 and 940.000 unlisted B group shares, respectively, to the investment funds established by Hedef Portföy Yönetimi Anonim Şirketi within the scope of the Procedure on Wholesale Transactions. Mehmet Dora, one of the shareholders of the Parent Company, transferred 5.800.000 shares of unlisted Group B shares to the investment funds established by Hedef Portföy Yönetimi Anonim Şirketi on 28 June 2024 within the scope of the Procedure Regarding Wholesale Purchase and Sale Transactions. As a result of the share purchase and sale transactions of the related portfolio investment company during the period, as of 30 June 2025, the number of shares of the related investment company in the capital of the Parent Company is 4.060.000.

The share capital of the Parent Company was increased from TRY 10.000.000 to TRY 50.000.000 on 08 March 2022 and the entire amount was transferred from retained earnings.

SDT Uzay ve Savunma Teknolojileri Anonim Şirketi's issued capital of TRY 50.000.000 within the registered capital ceiling of TRY 750.000.000 was increased to TRY 58.000.000 by completely restricting the pre-emptive rights of the existing shareholders in accordance with the approvals of the Capital Markets Board of Turkey and Borsa İstanbul Anonim Şirketi. TRY 8.000.000 nominal capital amount and shares with a nominal value of TRY 4.250.000 within the scope of shareholder sales, in total TRY 12.250.000 nominal value shares were offered to the public on 28 - 29 December 2022 at a price of TRY 32, and the Parent Company shares started to be traded on Borsa İstanbul Stars Market on 04 January 2023 with the code "SDTTR" and continuous trading method.

According to the articles of association of the Parent Company registered on 14 September 2022; the Parent Company shares are divided into Group A and Group B shares. Out of the total 58.000.000 shares of the Parent Company, 7.500.000 shares are Group A shares and all of these shares belong to Mehmet Dora.

Capital Adjustment Differences

As of 30 June 2025, capital adjustment differences amount to TRY 207.548.645 (31 December 2024: TRY 207.548.645). Adjustment to share capital represents the difference between the inflation adjusted amounts of cash and cash equivalent contributions to share capital and the amounts before inflation adjustment.

23.2 Legal Reserves

The legal reserve is appropriated out of the statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Company's paid-in share capital. Other legal reserves are appropriated at the rate of 10% of the total amount to be distributed to shareholders after payment of a 5% dividend to shareholders. According to the Turkish Commercial Code, unless the legal reserve does not exceed half of the share capital or issued capital, it can only be used to cover losses, to continue the business when business is not going well, or to take measures to prevent unemployment and mitigate its consequences.

As of 30 June 2025 and 31 December 2024, legal reserves account is as follows;

	30.06.2025	31.12.2024
Legal reserves appropriated from profits	33.030.063	33.030.063
	33.030.063	33.030.063

23.3 Retained Earnings / (Accumulated Losses)

As of 30 June 2025 and 31 December 2024, retained earnings / (accumulated losses) are as follows;

	30.06.2025	31.12.2024
Retained earnings / (accumulated losses)	1.240.394.633	1.238.876.775
	1.240.394.633	1.238.876.775

At the general assembly of the Parent Company held on April 28, 2025, a decision was made to pay a gross dividend of TRY 9.920.203 (TRY 10.056.433 based on purchasing power as of June 30, 2025). According to the relevant general assembly decision, the relevant amount will be paid in two installments.

At the General Assembly of the Parent Company held on May 30, 2024, it was resolved to distribute a gross dividend of TRY 130.192.124 (restated as TRY 178.707.568 based on purchasing power as of June 30, 2025). According to the resolution, the related amount was payable in three installments, of which the first installment was paid on August 13, 2024, the second installment on November 25, 2024, and the final installment on December 23, 2024.

As of 30 June 2025 and 2024, the movement of retained earnings / (losses) is presented in the accompanying statement of changes in equity.

23.4 Remeasurement Gains / (Losses) on Defined Benefit Plans

For the years ended 30 June 2025 and 31 December 2024, the Group has reflected a liability calculated by discounting the retirement pay liability to the statement of financial position date using the expected inflation rate and real discount rate based on the principles explained in Note 2. All gains and losses other than actuarial gains / (losses) are recognised in the statement of profit or loss and actuarial gains / (losses) are recognised in the statement of changes in equity.

	30.06.2025	31.12.2024
Remeasurement of gains / (losses) on defined benefit plans	1.036.457	1.039.956

NOTE 31 – TAX ASSETS AND LIABILITIES

Deferred Tax

The Group's deferred tax assets and liabilities are derived from temporary differences between the financial statements prepared under TAS / TFRS and the Group's statutory books. These differences arise due to income and expenses being recognized in different reporting periods under TAS / TFRS and for tax purposes.

According to the regulations existing as of the report date, corporate tax rate will be applied as 25% in 2025 (2024: 25%). As at 30 June 2025 and 31 December 2024, deferred tax assets and liabilities are calculated using tax rates (and tax laws) that are expected to apply in the periods in which assets are realised or liabilities are settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the assets are realised or the liabilities are settled, in accordance with the "TAS 12 Income Taxes" standard under the measurement heading, 25% rate is taken into consideration (for the Parent Company: 23%).

FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

As of June 30, 2025 and December 31, 2024, the Group's obligations with respect to income taxes on profit for the period are as follows:

	30.06.2025	31.12.2024
Provision for Current Income Tax	1.499.486	-
	1.499.486	-

Corporation Tax

The Group is subject to taxation in accordance with the tax procedures and the legislation effective in Türkiye. Necessary provisions have been made in the accompanying consolidated financial statements for the estimated tax liabilities of the Group regarding the current period operating results.

The corporate tax rate to be accrued on taxable corporate income, the addition of non-deductible expenses from the tax base in the determination of business income, and the deduction of tax-exempt gains, non-taxable incomes and other deductions (past year losses, if any, and investment allowances used if preferred). calculated on. In 2025, the effective tax rate is 25% (2024: 23%).

In Türkiye, provisional tax is calculated and accrued quarterly. The provisional tax rate that must be changed on corporate earnings during the taxation of 2025 corporate earnings as of the provisional tax periods is 25% (2024: 25%). With the regulation in the Corporate Tax Law, corporations whose shares are offered to the public at a rate of at least 20% for the first time in the Borsa Istanbul Equity Market will be subject to a corporate tax of 2 points on their corporate earnings for 5 accounting periods, starting from the accounting period in which their shares are offered to the public for the first time. discount is applied.

There is no absolute and certain confirmation procedure related to tax evaluation in Türkiye. Companies prepare their tax return between 1-25 April coming after the related year's balancing period (for the companies having special account period, between 1st and 25th of fourth month following the closing of period). These tax returns and related accounting records may be inspected and changed by tax department in five years.

Income Tax Withholding

In addition to Corporation tax, it is required to calculate withholding tax from the dividends distributed by full pledge taxpayer enterprise and include in its income tax base and except dividends distributed by foreign companies to its subsidiary in Türkiye. Dividend withholding tax rate was reduced from 15% to 10%. Dividends that are not distributed but added to the capital are not subject to income tax withholding.

For the periods ended at 30 June 2025 and 2024 profit / (loss) per share whose nominal value is TRY 1 as follows:

	01.01. - 30.06.2025	01.01. - 30.06.2024
Net profit / (loss) for the period	(62.341.697)	(18.312.432)
Net profit / (loss) attributable to non-controlling interests	-	-
Net profit / (loss) attributable to the parent company	(62.341.697)	(18.312.432)
Total weighted average number of shares (*)	58.000.000	58.000.000
Basic and diluted earnings / (loss) per share (TRY)	(1,07)	(0,32)

(*) The number of shares has been calculated using the weighted average method, taking into account capital increase dates.

NOTE 33 – EXPOSURE TO FINANCIAL RISKS DUE TO FINANCIAL INSTRUMENT

Financial Instruments

Credit Risk

The risk that a financial loss will occur to the Group due to the failure of one of the parties to the financial instrument to fulfill its contractual obligations, refer to credit risk. The Group is subject to credit risk arising from trade receivables related to credit sales and deposits at banks. These risks are managed by limiting the aggregate risk from any individual counterparty and obtaining sufficient collateral where necessary and making only cash-based sales to customer considered as having a higher risk. Collect ability of trade receivables are evaluated by management depending on their past experiences and current economic condition and presented in the financial statements net of adequate doubtful provision.

FOR THE PERIOD ENDED AT 30 JUNE 2025

(Amounts expressed in Turkish Lira ("TRY") in terms of the purchasing power of the TRY at 30 June 2025, unless otherwise indicated.)

Interest Rate Risk

Fluctuations may occur due to changes in market prices. These fluctuations may stem from price changes in securities, factors peculiar to security issuing firms or factors that affect all the market.

Although interest rates of financial borrowings with interest may change, financial assets with interest have fixed interest rate and cash flows in future do not change with the extent of these assets. Risk exposure to changing market interest rate of Group, is mostly based on the borrowing liabilities with variable interest rate of Group. The policy of Group is managing interest cost by using borrowings with fixed and variable interest. As of 30 June 2025, and 31 December 2024, the Group does not have any floating rate financial liabilities.

Liquidity Risk

Liquidity risk is the possibility of the Group meeting its net funding obligations. The occurrence of events that result in fund outflow, such as disruptions in the markets or lowering of the credit score, still provide the reason for the deterioration of liquidity risk. The Group management manages liquidity risk by distributing the funds and by keeping sufficient cash and cash equivalents resources to cover the current and possible liabilities.

As of 30 June 2025, liquidity risk table of the Group is as follows:

Contractual maturities in accordance with the agreement	Book Value	Cash outflow according to agreement (=I+II+III)	Less than 3 months (I)	Between 3-12 months (II)	Between 1-5 years (III)
Non-derivative financial liabilities

Currency risk

The effects occurring from exchange rate fluctuation, in case of having foreign currency assets, liabilities, off-balance sheet liabilities, are foreign currency risk. Transactions in foreign currencies during the year have been translated at the exchange rate prevailing at dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rates prevailing at the balance sheet dates. Foreign exchange gains or losses arising from the settlement of such transactions and from the translation of monetary assets and liabilities are recognized in the statement of profit/loss.

As of 30 June 2025, amounts of assets and liabilities of the Group in foreign currency are as follows:

	TRY equivalent functional currency	USD	EURO	CHF	GBP	XAU
1. Trade Receivables	287.607.789	6.347.136	758.839	-	-	-

Concentration risk related to sales

For the accounting periods ended at 30 June 2025 and 2024, the concentration risk of the Group's sales consists of sales, which is one of its main activities.

Considering the Group's sales and customers for the accounting periods ended at 30 June 2025 and 2024, it is seen that there is a concentration risk due to the high share of some customers in sales. According to TFRS 8 Operating Segments standard; If revenue from transactions with a single external customer is 10 percent or more of the business's revenue, the entity shall disclose that, the total amount of revenue from each such customer, and which segment or segments are reporting revenues. The entity need not disclose the identity of its major customers or the amount of revenue each segment reports from that customer.

Capital risk management

In capital management, the Group's aims at enhancing profitability while keeping a reasonable leverage, on the other hand rendering sustainability in its operations.

The Group follows capital by using debt to equity ratio. This rate is found by dividing net debt to total equity. Net debt is calculated by deducting cash and cash equivalents from total payable amount (as shown in balance sheet total liabilities). Total capital, as shown in balance sheet, is calculated by adding up equity and net debt.

As of 30 June 2025 and 2024, net debt / total equity ratio is as follow:

	30.06.2025	31.12.2024
Total debts	1.041.224.663	1.207.131.589
Less: Liquid assets	283.455.338	753.190.852
Net debt	757.769.325	453.940.737
Total shareholders' equity	2.079.301.990	2.151.703.619
Total capital	2.837.071.315	2.605.644.356
Net Debt/ (Receivable), net / Total Capital ratio	27%	17%

NOTE 34 – FINANCIAL INSTRUMENTS (FAIR VALUE DISCLOSURES AND DISCLOSURES UNDER FINANCIAL RISK HEDGING ACCOUNTING)

Fair value represents the price at which a financial instrument can be exchanged in a current transaction between willing parties, excluding situations such as forced sales or liquidations. If available, the quoted market price is the best indicator of a financial instrument's fair value. The Group has estimated the fair values of financial instruments to the extent that relevant and reliable information can be obtained from financial markets in Türkiye. The estimates presented here may not reflect the amounts the Group could obtain in a market transaction. The following methods and assumptions were used in estimating the fair values of the Group's financial instruments.

The following methods and assumptions were used to estimate the fair values of financial instruments for which practical estimation of fair value is possible:

Financial Assets

Monetary assets for which fair value approximates carrying value:

- Balances denominated in foreign currencies are converted at period exchange rates.
- The fair value of certain financial assets carried at cost, including cash and cash equivalents are considered to approximate their respective carrying amounts in the financial statements.
- The carrying value of trade receivables, net of allowances for possible non-recovery of uncollectible are considered to approximate their fair values.

Financial Liabilities

Monetary liabilities for which fair value approximates carrying value:

- The fair value of short-term bank loans and other monetary liabilities are considered to approximate their respective due to their short-term nature.
- The fair values of long-term bank borrowings, which are denominated in foreign currencies and converted at period exchange rates, are considered to approximate their carrying values.
- The carrying amount of accounts payable and accrued expenses reported in the financial statements for estimated third party payer settlements approximates its fair values..

Fair Value Measurement Hierarchy Table

The Group classifies fair value measurements for financial instruments presented in the financial statements using a three-level hierarchy based on the source of inputs for each class of financial instruments, as follows:

Level 1: Financial assets and liabilities are valued using quoted prices in active markets for identical assets and liabilities.

Level 2: Financial assets and liabilities are valued using inputs other than the quoted price for identical assets or liabilities in active markets, as indicated in first level. These inputs can include direct or indirect market-observable data used to determine the fair value of the relevant asset or liability.

Level 3: Financial assets and liabilities are valued using inputs that are not based on observable market data..

During the accounting periods ending on 30 June 2025, and 2024, the Group did not make any transfers between first level and second level, or to and from third level.
