RhineGene Poland (“RhineGene PL”) (****)	Poland	Trading of test kits, devices and software in the field of molecular biology
RhineGene Germany (“RhineGene GE”) (*****)	Germany	Trading of test kits, devices and software in the field of molecular biology

Alpha and Euronano were founded by Anatolia, Elif Akyüz and Alper Akyüz in 2017 and 2018, respectively.

(*) Within the scope of its growth strategy in international markets, the company established and registered its RhineGene B.V subsidiary, located in the Netherlands, with a capital of 2,000,000 Euros, in which it fully participates, on 09.02.2023.

(**) 200,000 of which RhineGene B.V, which is a 100% subsidiary of the Company, has fully participated in on 10.05.2023. -USD capital, RhineGene Philippines Inc. was established.

(**) RhineGene B, which is a 100% subsidiary of the Company, has been decided to increase its capital to EUR 8,000,000 on 03.01.2024.

(***) RhineGene Bulgaria was established on 26.07.2023, in which RhineGene B.V, a 100% subsidiary of the Company, fully participated.

(****) RhineGene Poland was established on 27.09.2023, in which RhineGene B.V, a 100% subsidiary of the Company, fully participated.

(*****) RhineGene Germany was established on 03.11.2023, in which RhineGene B.V, a 100% subsidiary of the Company, fully participated.

Anatolia Tanı ve Biyoteknoloji Ürünleri Ar-Ge Sanayi Ticaret A.Ş. and Group Companies

Consolidated Statements of Cash Flows For The Periods Ended at 1 January – 30 September 2024 and 30 September 2023

(Amounts expressed in thousands of Turkish Lira ("TRL") in terms of the purchasing power of the TRL at September 30, 2024 unless otherwise indicated)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS**2.1. Basis of presentation****Accounting policies**

The accompanying consolidated financial statements are prepared in accordance with the announcement of the Capital Markets Board ("CMB") "Communiqué on Principles Regarding Financial Reporting in the Capital Markets" ("Communiqué") No. II-14.1 published in the Official Gazette dated 13.06.2013 and numbered 28676 and Turkish Financial Reporting Standards ("TFRS") published by Public Oversight Accounting and Auditing Standards Board ("POA").

TASs; Turkish Accounting Standards, includes Turkish Financial Reporting Standards ("TFRS") and related annexes and comments.

Consolidated financial statements are presented in accordance with the "TFRS Taxonomy" published by POA dated on 4 October 2023 and Financial Statement Examples and User Guide published by CMB.

Approval of consolidated financial statements

Consolidated financial statements as of 1 January – 30 September 2024 have been approved by the Board of Directors and authorized for publication on 8 November 2024 The General Assembly of the Company and the relevant regulatory authorities have the right to request the amendment of the consolidated financial statements after the publication of the consolidated financial statements.

Financial reporting in hyperinflationary economy

With the announcements made by the Public Oversight Accounting and Auditing Standards Authority (POA) on November 23, 2023, entities applying TFRSs have started to apply inflation accounting in accordance with TAS 29 Financial Reporting in Hyperinflation Economies as of financial statements for the annual reporting period ending on or after September 30, 2024. TAS 29 is applied to the financial statements, including the consolidated financial statements, of any entity whose functional currency is the currency of a hyperinflationary economy.

According to the standard, financial statements prepared in the currency of a hyperinflationary economy are presented in terms of the purchasing power of that currency at the balance sheet date. Prior period financial statements are also presented in the current measurement unit at the end of the reporting period for comparative purposes. The Group has therefore presented its consolidated financial statements as of September 30, 2023, on the purchasing power basis as of September 30, 2024. Pursuant to the decision of the Capital Markets Board (SPK) dated December 28, 2023 and numbered 81/1820, it has been decided that issuers and capital market institutions subject to financial reporting regulations that apply Turkish Accounting/Financial Reporting Standards will apply inflation accounting by applying the provisions of IAS 29 starting from their annual financial reports for the periods ending on September, 2024.

The adjustments made in accordance with IAS 29 were made using the adjustment coefficient obtained from the Consumer Price Index (CPI) of Turkey published by the Turkish Statistical Institute (TÜİK). As of September 30, 2024, the indices and adjustment coefficients used in the adjustment of the consolidated financial statements are as follows:

Year End	Indeks	Conversion Factor	Three Year Inflation Rate
30 September 2024	2.526,16	1,0000	343%
31 December 2023	1.859,38	1,35860	268%
30 September 2023	1.691,04	1,49385	254%

The main elements of the Group's adjustment process for financial reporting in hyperinflationary economies are as follows:

- Current period consolidated financial statements prepared in TRY are expressed in terms of the purchasing power at the balance sheet date, and amounts from previous reporting periods are also adjusted and expressed in terms of the purchasing power at the end of the reporting period.

Anatolia Tanı ve Biyoteknoloji Ürünleri Ar-Ge Sanayi Ticaret A.Ş. and Group Companies

Consolidated Statements of Cash Flows For The Periods Ended at 1 January – 30 September 2024 and 30 September 2023

(Amounts expressed in thousands of Turkish Lira ("TRL") in terms of the purchasing power of the TRL at September 30, 2024 unless otherwise indicated)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2.1. Basis of presentation (Continued)

Financial reporting in hyperinflationary economy (Continued)

- Monetary assets and liabilities are not adjusted as they are already expressed in terms of the current purchasing power at the balance sheet date. In cases where the inflation-adjusted values of non-monetary items exceed their recoverable amount or net realizable value, the provisions of IAS 36 "Impairment of Assets" and IAS 2 "Inventories" are applied, respectively.

- Non-monetary assets and liabilities and equity items that are not expressed in terms of the current purchasing power at the balance sheet date have been adjusted using the relevant adjustment coefficients.

- All items in the comprehensive income statement, except for those that have an impact on the comprehensive income statement of non-monetary items on the balance sheet, have been indexed using the coefficients calculated for the periods when the income and expense accounts were first reflected in the financial statements.

- The impact of inflation on the Group's net monetary asset position in the current period is recorded in the net monetary gain/(loss) account in the consolidated income statement.

Comparative Information and Correction of Prior Financial Statements

The current period consolidated financial statements of the Group are prepared comparatively with the previous period in order to enable the determination of the financial position and performance trends. Comparative information is reclassified when deemed necessary in order to comply with the presentation of the current period consolidated financial statements.

Functional and presentation currency

The Group prepares and maintains its legal books and prepares its statutory financial statements in accordance with the Turkish Commercial Code ("TCC"), accounting principles set forth by tax legislation and the Uniform Chart of Accounts issued by the Ministry of Finance. The valid currency of the Group is Turkish Lira ("TL"). These consolidated financial statements are presented in TL, which is the valid currency of the Group.

Financial statements of subsidiaries operating in countries other than Turkey

Subsidiaries in foreign country assets and liabilities are translated into TRY from the foreign exchange rate at the reporting date and income and expenses are translated into TRY at the average foreign exchange rate. The retranslation of net assets at the beginning of the period and the exchange differences which resulting from the using of average exchange rates are followed on differences of foreign currency translation account within shareholders' equity.

Netting/Offsetting

Financial assets and liabilities are shown in net, if the required legal right already exists, there is an intention to pay the assets and liabilities on a net basis, or if there is an intention to realize the assets and the fulfilment of the liabilities simultaneously.

2.2. Changes in Accounting Policies

Significant changes in accounting policies are applied retrospectively and prior period consolidated financial statements are restated.

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2.3. Basis of presentation (Continued)

2.3. Restatement and Errors in the Accounting Policies and Estimates

If changes in accounting estimates are related to only one period, they are recognised in the period when changes are applied; if changes in estimates are related to future periods, they are recognized both in the period where the change is applied and future periods prospectively.

There was no significant change in accounting estimates of the Group in the current year. The detected significant accounting errors are applied retrospectively, and prior period consolidated financial statements are restated.

2.4. Going concern

The consolidated financial statements prepared on a going concern basis, with the assumption that the Group will benefit from its assets and fulfil its obligations in the next year and in the natural course of its activities.

2.5. New and Amended Turkish Financial Reporting Standards

As at 30 September 2024, the accounting policies adopted in preparation of the condensed consolidated interim financial statements for the year ended 30 September 2024 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRIC interpretations effective as of 1 January 2024.

The effects of these standards and interpretations on the financial position and performance of the Group are disclosed in the related paragraphs.

a) Amendments and interpretations effective from 2024

TAS 1 (Amendments) Classification of Liabilities as Current or Non-Current

IFRS 16 (Amendments) Lease Liability in a Sale and Leaseback Transaction

TAS 1 (Amendments) Long-term liabilities with loan contract terms

TAS 7 and TFRS 7 (Amendments) Supplier Financing Arrangements

TSRS 1 General requirements for disclosure of sustainability-related financial information

TSRS 2 Climate Related Disclosures

TAS 1 (Amendments) Classification of Liabilities as Current or Non-Current

The purpose of these amendments is to ensure consistent application of the requirements of the standard by assisting entities in making decisions about whether debt and other liabilities in the statement of financial position that have no fixed maturity should be classified as current (expected to be settled within one year) or non-current.

These amendments to IAS 1 will be effective for annual periods beginning on or after 1 January 2024, with earlier application permitted.

The Group is in the process of assessing the potential impact of the standard, amendments and improvements on the consolidated financial position and performance of the Group / the Company.

IFRS 16 (Amendments) Lease Liability in a Sale and Leaseback Transaction

These amendments to TFRS 16 clarify how a seller-lessee subsequently measures sale and leaseback transactions that meet the requirements in TFRS 15 to be recognised as sales.

These amendments to TFRS 16 are effective for annual periods beginning on or after 1 January 2024, with earlier application permitted.

The Group is in the process of assessing the potential impact of these standards, amendments and improvements on the consolidated financial position and performance of the Group

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

New and Amended Turkish Financial Reporting Standards (Continued)

IAS 1 (Amendments) Long-term Liabilities with Credit Agreement Terms

The amendments to TAS 1 clarify how conditions that an entity must meet within twelve months of the reporting period affect the classification of a liability.

The amendments to TAS 1 are effective for annual periods beginning on or after 1 January 2024, with earlier application permitted.

The Group is in the process of assessing the potential impact of these standards, amendments and improvements on the consolidated financial position and performance of the Group

TAS 7 and TFRS 7 (Amendments) Supplier Financing Arrangements

The amendments to TAS 7 and TFRS 7 add guidance that requires entities to provide qualitative and quantitative information about supplier financing arrangements and disclosure requirements to existing disclosure requirements. The amendments are effective for annual periods beginning on or after 1 January 2024.

The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group

TSRS 1 General requirements for disclosure of sustainability-related financial information

TSRS 1 sets out general requirements for sustainability-related financial disclosures, requiring an entity to disclose information about sustainability-related risks and opportunities that is useful for primary users of general purpose financial reports to make decisions about funding the entity. The application of this standard is mandatory for annual reporting periods beginning on or after 1 January 2024 for entities that meet the relevant criteria in the POA's announcement dated 5 January 2024 and numbered 2024-5 and for banks regardless of the criteria. Other entities may voluntarily report in accordance with TSRS.

The Group is in the process of assessing the impact of the amendment on the financial position and performance of the Group

TSRS 2 Climate Related Disclosures

TSRS 2 sets out the requirements for identifying, measuring and disclosing climate-related risks and opportunities that are useful to primary users of general purpose financial reports in making decisions about funding the entity. The application of this standard is mandatory for annual reporting periods beginning on or after 1 January 2024 for entities that meet the relevant criteria in the POA's announcement dated 5 January 2024 and numbered 2024-5 and for banks regardless of the criteria. Other entities may report in accordance with TSRS on a voluntary basis.

b) Standards, amendments and interpretations to existing standards that are not yet effective

The Group has not yet adopted the following standards, amendments and interpretations to existing standards that are not yet effective

TFRS 17 Insurance Contracts

TFRS 17 (Amendments) Insurance Contracts and First-time Adoption of TFRS 17 and TFRS 9 - Comparative Information

TAS 21 (Amendments) Lack of Exchangeability

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

New and Amended Turkish Financial Reporting Standards (Continued)

TFRS 17 - Insurance Contracts

IFRS 17 requires insurance liabilities to be measured at a current settlement value and provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve consistent, principle-based accounting for insurance contracts. TFRS 17 has been deferred for insurance, reinsurance and pension companies for a further year and will replace TFRS 4 Insurance Contracts as at 1 January 2025.

The Group is in the process of assessing the potential impact of the standards, amendments and improvements on the consolidated financial position and performance of the Group

TFRS 17 (Amendments) Insurance Contracts and First-time Adoption of TFRS 17 and TFRS 9 - Comparative Information

Amendments have been made to TFRS 17 to reduce implementation costs and facilitate disclosure of results and transition.

In addition, the amendment on comparative information permits entities that are first-time adopters of TFRS 7 and TFRS 9 to present comparative information about a financial asset as if the classification and measurement requirements of TFRS 9 had previously been applied to that financial asset.

The Group is in the process of assessing the potential impact of the standards, amendments and improvements on the consolidated financial position and performance of the Group

TAS 21 (Amendments) Lack of Exchangeability

These amendments provide guidance on when a currency is exchangeable and how exchange rates should be determined when it is not. The amendments are effective for annual reporting periods beginning on or after January 1, 2025.

The Group / Company is in the process of assessing the potential impact of the standards, amendments and improvements on the consolidated financial position and performance of the Group

2.6. Summary of significant accounting policies

Significant accounting policies applied in the preparation of these consolidated financial statements are summarized below:

Consolidation Principles

Full Consolidation:

Consolidated financial statements include the financial statements of the subsidiary managed by the Group in Note 1.

As of 30 September 2024 and 30 September 2023, the subsidiaries consolidated within the Parent Company have been consolidated using the "full consolidation method" since the control power belongs to the Group.

The applied principles of consolidation as below:

- (i) The balance sheets and income statements of the subsidiaries are consolidated one by one for each item and the carried net book value of the investment, which is owned by the Parent Company, is eliminated with the related equity items. The intra-group transactions, the remaining profit margins balances in the balance sheets which between the Parent Company and its subsidiaries, are eliminated.

Anatolia Tanı ve Biyoteknoloji Ürünleri Ar-Ge Sanayi Ticaret A.Ş. and Group Companies

Consolidated Statements of Cash Flows For The Periods Ended at 1 January – 30 September 2024 and 30 September 2023

(Amounts expressed in thousands of Turkish Lira (“TRL”) in terms of the purchasing power of the TRL at September 30, 2024 unless otherwise indicated)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)**2.6. Summary of significant accounting policies (Continued)**

- (ii) Operating results of subsidiaries are included in the consolidation effective from the date on which the said company controls are transferred to the Parent Company.
- (iii) Non-controlling interests in net assets and operating results of subsidiaries are presented separately as non-controlling interests in the consolidated balance sheet and consolidated income statement.

The following table shows the subsidiaries, total shares of owned and effective partnership ratios as of 30 September 2024 and 31 December 2023:

Subsidiaries	30 September 2024	31 December 2023
Alpha IVD SRL (“Alpha”) (*)	100,00%	100,00%
Euronano Diagnostics (Private) Limited (“Euronano”)	99,99%	99,99%
RhineGene B.V. (“RhineGene”)	100%	100%
RhineGene Philippines (“RhineGene PH”)	100%	100%
RhineGene Bulgaria (“RhineGene BG”)	100%	100%
RhineGene Poland (“RhineGene PL”)	100%	100%
RhineGene Germany (“RhineGene GE”)	100%	100%

(*) Although the ownership rate of the company is 50% or less, control power can be obtained with the remaining votes belonging to Elif Akyüz and Alper Akyüz, who are also the controlling shareholders of Anatolia. Elif Akyüz and Alper Akyüz declared that they will use their voting rights in line with Anatolia.

The company take over 100% of the company by paying 66,501,299 TL for the remaining 76.67% of Alpha shares. The transfer and delivery procedures were completed on May 25, 2023. This take over is considered as a “business combination under common control” and the difference between Alpha's net equity at the acquisition date and the purchase price is classified under “Share Premiums” under equity. (**) (Footnote 1)

Related Parties

To the accompanying consolidated financial statements, key personnel in management and board of directors, their family and controlled or dependent companies, participations and subsidiaries of the Group is referred to as related parties.

Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less (Note 5). To consolidated statements of cash flows, cash and cash equivalents includes cash and cash equivalents with original maturities less than three months, excluding the interest accruals. If any provision provided to the cash and cash equivalents because of a specific event, Group measures expected credit loss from these cash and cash equivalents by the life-time expected credit loss. The calculation of expected credit loss is performed based on the experience of the Group and its expectations for the future indications.

Trade Receivables and Allowance for Doubtful Receivables

Trade receivables that are created by the Group by way of providing goods or services in the ordinary course of business directly to a debtor are recognized initially at fair value and subsequently measured at amortized cost, using the effective interest rate method, less provision for impairment. Short-term trade receivables with no specific interest rates are measured at original invoice amount if the effect of interest accrual is insignificant.

Anatolia Tanı ve Biyoteknoloji Ürünleri Ar-Ge Sanayi Ticaret A.Ş. and Group Companies

Consolidated Statements of Cash Flows For The Periods Ended at 1 January – 30 September 2024 and 30 September 2023

(Amounts expressed in thousands of Turkish Lira (“TRL”) in terms of the purchasing power of the TRL at September 30, 2024 unless otherwise indicated)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)**2.6. Summary of significant accounting policies (Continued)***Impairment*

IAS 39, “Financial Instruments” valid before 1 January 2018: Instead of “realised credit losses model” in Accounting and Measurement Standard, “expected credit loss model” was defined in IFRS 9 “Financial Instruments” Standard. Expected credit loss is estimated by weighting credit losses, expected to occur throughout the expected life of financial instruments, based on previous statistics. When calculating the expected credit losses, credit losses in the previous years and forecasts of the Group are considered.

Trade Payables

Trade payables are stated at their nominal value, discounted to present value as appropriate.

Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is calculated using the weighted average method. Costs comprise direct materials, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Net realizable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distributed.

Property, plant and equipment and related depreciation

Property, plant, and equipment are carried at acquisition cost, less any accumulated depreciation and any impairment loss Land is not depreciated as it is deemed to have an indefinite useful life.

Depreciation is provided on the restated amounts of property, plant and equipment on a pro-rata basis. Profit and loss arising out of the sale of property, plant and equipment are included in the other income and expense accounts. Repair and maintenance expenditure related to property, plant and equipment is expensed as incurred.

Cost amounts of property, plant and equipment, other than the lands and construction in progress are subject to depreciation by using systematic pro-rata basis using the straight-line method in accordance with their expected useful life.

The depreciation and amortization periods for property, plant and equipment, which approximate the economic useful lives of such assets, are as follows:

	<u>Year</u>
Buildings	50
Machinery and Equipment	4-14
Motor vehicles	5-10
Furniture and Fixtures	4-10
Leasehold improvements	10-20

Intangible assets and related amortization

An intangible asset is recognized if it meets the identifiability criterion of intangibles, control exists over the asset; it is probable that the expected future economic benefits that are attributable to the asset will flow to the entity and the costs can be measured reliably. Intangible assets are carried at cost less accumulated amortization and impairment. Amortization of intangible assets is allocated on a systematic pro-rata basis using the straight-line method Intangible assets including acquired rights, information systems and computer software are amortized using the straight-line.

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)**2.6. Summary of significant accounting policies (Continued)**

Costs incurred on development projects relating to the design and testing of new or improved products are recognized as intangible assets when it is probable that the project will be a success considering its commercial and technological feasibility, and only if the cost can be measured reliably. Other research and development expenditures are recognized as an expense as incurred. Development expenditures previously recognized as an expense cannot be recognized as an asset in a subsequent period.

The useful lives of intangible assets are as follows:

	<u>Year</u>
Rights	3-5
Research and development costs	5
Other intangible asset	5-10

Impairment of assets

The carrying values of all tangible or intangible fixed assets, other than goodwill which is reviewed for impairment at least annually, are reviewed for impairment when events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized in the income statement for items carried at cost and treated as a revaluation decrease for items carried at revalued amount to the extent that impairment loss does not exceed the amount held in the revaluation surplus. The recoverable amount of property, plant and equipment is the greater of net selling price and value in use.

Financial assets

The Group performs the classification process regarding its financial assets during the acquisition of the related assets and reviews them regularly.

Classification

The Group classifies its financial assets in three categories of financial assets measured at amortized cost, financial assets measured at fair value through other comprehensive income and financial assets measured at fair value through profit of loss. The classification of financial assets is determined considering the entity’s business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. The appropriate classification of financial assets is determined at the time of the purchase.

Financial assets are not reclassified after initial recognition except when the Group’s business model for managing financial assets changes; in the case of a business model change, after the amendment, the financial assets are reclassified on the first day of the following reporting period.

Recognition and Measurement**a) Financial assets measured at amortized cost**

Financial assets measured at amortized cost, are non-derivative assets that are held within a business model whose objective is to hold assets to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Group’s financial assets measured at amortized cost comprise “cash and cash equivalents”, “trade receivables”, “other receivables” and “financial investments”. Financial assets carried at amortized cost are measured at their fair value at initial recognition and by effective interest rate method at subsequent measurements. Gains and losses on valuation of non-derivative financial assets measured at amortized cost are accounted for under the statement of income.

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2.6. Summary of significant accounting policies (Continued)

Financial assets measured at fair value

i. Financial assets measured at fair value through other comprehensive income

Financial assets measured at fair value through other comprehensive income, are non-derivative assets that are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Gains or losses on a financial asset measured at fair value through other comprehensive income is recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses until the financial asset is derecognized or reclassified. When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified to retained earnings.

In case of sale of assets, valuation differences classified to other comprehensive income are reclassified to retained earnings.

Group make a choice for the equity instruments during the initial recognition and elect profit or loss or other comprehensive income for the presentation of fair value gain and loss. If the said preference is made, dividends from related investments are recognized in the income statement.

ii. Financial assets measured at fair value through profit or loss

Financial assets measured at fair value through profit or loss, are assets that are not measured at amortized cost or at fair value through other comprehensive income. Gains and losses on valuation of these financial assets are accounted for under the statement of income.

Derecognition

The Group derecognizes a financial asset when the contractual rights to the cash flows from the asset expires, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset were transferred. Any interest in such transferred financial assets that was created or retained by the Company is recognized as a separate asset or liability.

Impairment

Impairment of the financial and contractual assets is measured by using “Expected credit loss model” (ECL). The impairment model applies for amortized financial and contractual assets.

Provisions for losses are measured as below.

- Impairment of the financial and contractual assets is measured by using “Expected credit loss model” (ECL). The impairment model applies for amortized financial and contractual assets.

Provisions for losses are measured as below.

- 12- Month ECL: results from default events that are possible within 12 months after reporting date.

- Lifetime ECL: results from all possible default events over the expected life of financial instrument.

Lifetime ECL measurement applies if the credit risk of a financial asset at the reporting date has increased significantly since 12-month ECL measurement if it has not.

The Group may determine that the credit risk of a financial asset has not increased significantly if the asset has low credit risk at the reporting date. However, lifetime ECL measurement (simplified approach) always apply for trade receivables and contract assets without a significant financing.

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2.6. Summary of significant accounting policies (Continued)

Financial liabilities

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered and the definitions of a financial liability and an equity instrument. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

Financial liabilities are classified as either financial liabilities at fair value through profit and loss or other financial liabilities.

a) Financial liabilities at fair value through profit and loss

Financial liabilities are classified as at FVTPL where the financial liability is either held for trading or it is designated as at FVTPL. Financial liabilities at FVTPL are stated at fair value, with any resultant gain or loss recognized in profit or loss. The net gain or loss recognized in profit or loss incorporates any interest paid on the financial liability.

b) Other financial liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method, with interest expense recognized on an effective yield basis.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a considerable time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned by the temporary investment of the part of the borrowing not yet used is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

Taxation and Deferred Income Taxes

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax: The tax currently payable is based on taxable profit for the year.

Deferred tax: Deferred tax is provided, using the liability method, on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Employee Benefits / Retirement Pay Provision

Under the Turkish law and union agreements, severance payments are made to employees retiring or involuntarily leaving the Group. Such payments are considered as being part of defined retirement benefit plan as per International Accounting Standard No: 19 “Employee Benefits” (“IAS 19”). The retirement benefit obligation recognized in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognized actuarial gains and losses.

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2.6. Summary of significant accounting policies (Continued)

Operating Expenses

Operating expenses are recognized in profit or loss upon utilization of the service or at the date of their origin. Expenditure for warranties is recognized and charged against the associated provision when the related revenue is recognized.

Revenue Recognition

Group recognizes revenue when the goods or services is transferred to the customer and when performance obligation is fulfilled. Goods are counted to be transferred when the control belongs to the customer.

Group recognizes revenue based on the following main principles:

- (a) Identification of customer contracts
- (b) Identification of performance obligations,
- (c) Determination of transaction price in the contract,
- (d) Allocation of price to performance obligations,
- (e) Recognition of revenue when the performance obligations are fulfilled.

Group recognizes revenue from its customers only when all the following criteria are met:

- (a) The parties to the contract have approved the contract (in writing, orally or in accordance with other customary business practices) and are committed to perform their respective obligations,
- (b) Group can identify each party’s rights regarding the goods or services to be transferred,
- (c) Group can identify the payment terms for the goods or services to be transferred.
- (d) The contract has commercial substance,

It is probable that Group will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer. In evaluating whether collectability of an amount of consideration is probable, an entity shall consider only the customer’s ability and intention to pay that amount of consideration when it is due.

Equipment rental revenue

Rent income from operational rental transactions is accounted if it is measured reliably based on straight-line method during relevant rental agreement and if it is possible that an economic benefit related to transaction is achieved by the Group.

Provisions

Provisions are recognized when, and only when the Group has a present obligation because of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are recognized by the amortized amount as of balance sheet date in case that the monetary loss is material. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

Commitments and Contingencies

Transactions that may give rise to contingencies and commitments are those where the outcome and the performance of which will be ultimately confirmed only on the occurrence or non-occurrence of certain future events unless the expected performance is remote. Accordingly, contingent losses are recognized in the financial statements if a reasonable estimate of the amount of the resulting loss can be made. Contingent gains are reflected only if it is probable that the gain will be realized.

Transactions in foreign currency

Transactions in foreign currencies during the periods have been translated at the exchange rates prevailing at the dates of these transactions. Balance sheet items denominated in foreign currencies have been translated at the exchange rates prevailing at the balance sheet dates. The foreign exchange gains and losses are recognized in the income statement.

Consolidated Statements of Cash Flows For The Periods Ended at 1 January – 30 September 2024 and 30 September 2023

(Amounts expressed in thousands of Turkish Lira (“TRL”) in terms of the purchasing power of the TRL at September 30, 2024 unless otherwise indicated)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)**2.6. Summary of significant accounting policies (Continued)**

The periods-end rates used for USD, EURO and PKR are shown below:

	30 September 2024	31 December 2023
US Dollars	34,1210 TRY	29,4382 TRY
Euro	38,0180 TRY	32,5739 TRY
PKR	0,1200 TRY	0,1050 TRY
PLN (Zloti)	8,9102 TRY	7,5187 TRY
LEVA	19,3297 TRY	16,5611 TRY
PHP	0,6083 TRY	0,5312 TRY

Earnings per share

Earnings per share presented in the consolidated statements of profit or loss are determined by dividing consolidated net income attributable to that class of shares by the weighted average number of such shares outstanding during the year concerned. In Turkey, companies can increase their share capital by making a pro-rata distribution of shares (“bonus shares”) to existing shareholders from retained earnings or inflation adjustments. To earnings per share computations, the weighted average number of shares outstanding during the year has been adjusted in respect of bonus shares issued without a corresponding change in resources by giving them retroactive effect for the year in which they were issued and for each earlier period.

Government incentives and grants

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the group will comply with all the attached conditions. Government grants relating to costs are deferred and recognized in the income statement over the period necessary to match them with the costs that they are intended to compensate. Government grants relating to property, plant and equipment are included in non-current liabilities as deferred government grants and are credited to the income statement on a straight-line basis over the expected lives of the related assets.

Cash Flow statement

Cash and cash equivalents comprise of cash in hand, bank deposits and short-term investments, which can easily be converted into cash for a known amount, has high liquidity with maturities of 3 months or less.

EBITDA

EBITDA is defined as earnings before interest expense, income tax expense (benefit), depreciation and amortization. This information should be read with the statements of cash flows contained in the accompanying financial statements (note 3).

Provisions for doubtful trade receivables: The provision for doubtful receivables reflects the amounts that the management believes will cover the future losses of the receivables that exist as of the reporting date but have the risk of being uncollectible within the current economic conditions. While evaluating whether the receivables are impaired or not, the past performance of the debtors, their credibility in the market, their performance from the date of the consolidated financial statements until the approval date of the consolidated financial statements and the renegotiated conditions are also taken into. In addition, the “simplified approach” defined in TFRS 9 has been preferred within the scope of the impairment calculations of trade receivables that are accounted at amortized cost in the consolidated financial statements and that do not contain a significant financing component (with a maturity of less than one year). With this approach, the Group measures the provision for impairment on trade receivables at an amount equal to “lifetime expected credit losses”, unless the trade receivables are impaired for certain reasons (excluding realized impairment losses).

Anatolia Tanı ve Biyoteknoloji Ürünleri Ar-Ge Sanayi Ticaret A.Ş. and Group Companies

Consolidated Statements of Cash Flows For The Periods Ended at 1 January – 30 September 2024 and 30 September 2023

(Amounts expressed in thousands of Turkish Lira (“TRL”) in terms of the purchasing power of the TRL at September 30, 2024 unless otherwise indicated)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (Continued)**2.7. Significant Accounting Assessments, Estimates and Assumptions**

Provision for employee benefit: Employment termination benefits pay liability is determined by actuarial calculations based on some assumptions including discount rates, future salary increases and employee turnover rates. Since these plans are long term, these assumptions contain significant uncertainties.

Lawsuit provisions: The probability of loss of ongoing lawsuits and the consequences that will be endured if they are lost are evaluated in line with the opinions of the Group's legal advisors. The Group management makes its best estimates using the data in hand and estimates the provision it deems necessary.

Deferred tax: The Group recognizes deferred tax assets and liabilities based upon temporary differences arising between their statement of financial position accounts prepared in accordance with TAS/IFRS promulgated by POA Financial Reporting Standards and their statutory financial statements. These temporary differences usually result from the recognition of revenue and expenses in different reporting periods for TAS/IFRS and Tax Laws.

Impairment of Inventory: When calculating, data on the list prices of inventories after discounting are used. In cases where the projected net realizable value is below the cost value, an inventory impairment provision is made.

Anatolia Tanı ve Biyoteknoloji Ürünleri Ar-Ge Sanayi Ticaret A.Ş. and Group Companies

Consolidated Statements of Cash Flows For The Periods Ended at 1 January – 30 September 2024 and 30 September 2023

(Amounts expressed in thousands of Turkish Lira (“TRL”) in terms of the purchasing power of the TRL at September 30, 2024 unless otherwise indicated)

17. EMPLOYEE BENEFITS**Severance pay provision**

Under the Turkish Legislations, the Company and its subsidiaries which located in Turkey, is required to pay termination benefits to each employee, who has completed one year of service and whose employment is terminated without due cause, is called up for military service, dies, who retires after completing 25 years for man and 20 years for women of service and reaches the retirement age (58 for women and 60 for men). Due to the amendment of the legislation as of 8 September 1999, there are certain transitional obligations regarding the length of service due to retirement.

These payments are calculated based on the rate on the day of retirement or termination per year worked, with a maximum of TL 41.828,42 over the 30-day salary as of 30 September 2024 (31 December 2023: TL 35.058,58). The provision for severance pay is calculated on a current basis and is reflected in the Consolidated financial statements. The provision is calculated according to the severance pay ceiling announced by the Government.

Provision for termination benefits is made by calculating the present value of the possible liability to be paid in case of retirement of employees. To calculate the liabilities of the Group in accordance with TAS 19 (Employee Benefits), a calculation made with actuarial assumptions is required. Accordingly, the actuarial assumptions used in the calculation of total liabilities are given below. The basic assumption is that the maximum liability for each year of service will increase in line with inflation. Hence the discount rate applied represents the expected real interest rate after adjusting for the effects of future inflation. As a result, the liabilities in the accompanying Consolidated financial statements as of 30 September 2024 and 31 December 2023 are calculated by estimating the present value of the future probable obligation arising from the retirement of the employees.

	30 September 2024	31 December 2023
Discount rate	27,05%	27,05%
Estimated rate of salary increasing /inflation rate	23,72%	22,01%
The turnover ratio used to calculate the probability of retirement	95 %	100%

It is planned that the severance pay rights will be paid at the end of the concession agreement. Accordingly, the terms of the concession agreements are considered in calculating the present value of the liabilities to be paid in the future.

The details of long-term severance pay provisions for the periods are as follows:

<u>Long-term provisions</u>	30 September 2024	31 December 2023
Provision for employment termination benefits	4.541.958	3.848.903
	4.541.958	3.848.903

Movement of severance pay provisions for the periods are as follows:

	30 September 2024	30 September 2023
Balance at January 1	3.848.903	3.114.605
Provisions	5.250.407	4.935.378
Interest cost	962.226	2.399.522

Due to personnel	13.311.633	832.931
Social security premiums payable	5.510.487	7.721.698
	18.822.120	8.554.629

20. INCOME TAX

The details of current period tax assets for the periods are as follows:

	30 September 2024	31 December 2023
Deferred tax assets/liabilities	(72.385)	(22.733.081)
Deferred tax income/(expense)	(22.340.452)	(128.312.269)
	(22.412.837)	(151.045.350)

Corporation tax

As of 30 September 2023, the corporate tax rate is 25% in Turkey (31 December: 25%,). Corporation tax rate is applied to net income of the companies after adjusting for certain disallowable expenses, exempt income and allowances. With the provision added to Article 35 of the Law No. 7256 and Article 32 If more than 20 percent of its shares are offered to the public for the first time in the Borsa Istanbul market, the Group pays corporate tax with a discount of 2 points for 5 years. As of April 22, 2021, the company's corporate tax rate has been calculated 18%. Accordingly, in the Group's consolidated financial statements as of December 31, 2023, when calculating deferred tax assets and liabilities for its subsidiaries residing in Turkey, the tax rate is 23% for the parts of the temporary differences that will occur. Corporate tax losses can be carried forward for a maximum period of 5 years following the year in which the losses were incurred. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

10% withholding applies to dividends distributed by resident real persons, those who are not liable to income and corporation tax, non-resident real persons, non-resident corporations (excluding those that acquire dividend through a permanent establishment or permanent representative in Turkey) and non-resident corporations exempted from income and corporation tax.

Dividend distribution by resident corporations to resident corporations is not subject to a withholding tax. Furthermore, in the event the profit is not distributed or included in capital, no withholding tax shall be applicable.

To benefit from the exemption, the said income must be kept in a passive fund account and not withdrawn from the business for a period of 5 years. The sales price must be collected until the end of the second calendar year following the year of sale.

There is no practice in Turkey to reach an agreement with the tax administration regarding the taxes to be paid. Corporate tax returns are submitted within four months following the end of the period. The tax inspection authorities may examine the tax returns and the accounting records underlying them for five years following the accounting period and make a reassessment because of their findings.

Anatolia Tanı ve Biyoteknoloji Ürünleri Ar-Ge Sanayi Ticaret A.Ş. and Group Companies

Consolidated Statements of Cash Flows For The Periods Ended at 1 January – 30 September 2024 and 30 September 2023

(Amounts expressed in thousands of Turkish Lira (“TRL”) in terms of the purchasing power of the TRL at September 30, 2024 unless otherwise indicated)

20. INCOME TAX (continued)**Income tax withholding**

There is a withholding tax liability on dividend distributions, and this withholding liability is accrued in the period when the dividend payment is made. Dividend payments are subject to 15% withholding tax, excluding those made to non-resident companies that generate income through a workplace or their permanent representative in Turkey, and to companies residing in Turkey. In the application of withholding tax rates for profit distributions to non-resident companies and natural persons, the withholding tax rates in the relevant Double Taxation Agreements are also considered. The addition of retained earnings to the capital is not considered as profit distribution, so it is not subject to withholding tax.

Transfer pricing regulations

In Turkey, transfer pricing regulations are specified in Article 13 of the Corporate Tax Law, titled "Hidden income distribution through transfer pricing". The notified dated 18 November 2007 on hidden income distribution via transfer pricing regulates the details of the implementation.

If the taxpayer buys or sells goods or services with related parties at the price or price, they have determined in peer assessment, the profit is deemed to have been distributed through transfer pricing, in whole or in part. Hidden income distribution through is considered as a non-deductible expense for corporate tax.

Deferred tax assets and liabilities:

Deferred tax liability or assets are determined by calculating the tax effects of temporary differences between the values of assets and liabilities shown in the Consolidated financial statements and the amounts considered in the legal tax base calculation. Deferred tax liability or assets are reflected in the accompanying Consolidated financial statements by considering the tax rates that are expected to be valid in the future periods when the temporary differences will disappear.

In reflecting the deferred tax asset to the consolidated financial statements, the developments in the sector in which it operates, taxable profit estimates in the future, it considers factors such as the general economic and political situation in Turkey and/or the international general economic and political situation that may affect the Group.

The Group considers factors such as developments in the sector in which it operates, taxable profit estimates in the future, general economic and political situation in Turkey and/or international general economic and political situation that may affect the Group while reflecting the deferred tax asset to the consolidated financial statements. The Group estimates that it will generate sufficient taxable profits in the future.

30. FINANCIAL INSTRUMENTS**Capital Risk Management**

While trying to ensure the continuity of its activities in capital management, the Group also aims to increase its profits by using the debt and equity balance in the most efficient way. The Group's capital structure consists of equity items including issued capital, reserves and retained earnings.

The gearing ratios for the periods are as follows:

	1 January- 30 September 2024	1 January- 31 December 2023
Total financial liabilities	19.301.616	33.184.280
Less: Cash and cash equivalents	(269.464.520)	(409.934.174)
Net debt	(250.162.904)	(376.749.894)
Total equity	1.490.568.574	1.648.327.073
Debt/equity ratio	(0,1678)	(0,2286)

Risk Management System

When calculating the Group's capital risk management, debts and equity items including cash and cash equivalents, paid-in capital, defined benefit plans remeasurement gains / losses, restricted reserves from profit and retained earnings / (losses) are considered, respectively.

The risks associated with each capital class, together with the group capital cost, are evaluated by the senior management. Based on senior management assessments, it is aimed to keep the capital structure in balance through the acquisition of new debt or repayment of existing debt, as well as through dividend payments.

Consolidated Statements of Cash Flows For The Periods Ended at 1 January – 30 September 2024 and 30 September 2023

(Amounts expressed in thousands of Turkish Lira (“TRL”) in terms of the purchasing power of the TRL at September 30, 2024 unless otherwise indicated)

31. NATURE AND LEVEL OF RISKS ARISING FROM DERIVATIVE FINANCIAL INSTRUMENTS**Risk management disclosures**

The Group’s activities expose it to a variety of financial risks, including the effects of changes in debt and equity market prices, foreign currency exchange rates and interest rates. The Group’s overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Group.

Credit risk

Credit risk is the risk that a customer or a counterparty will not fulfil its contractual obligations and arises mainly from customer receivables.

30 September 2024	Receivables					
	Trade receivables		Other receivables		Bank deposits	Financial Invements
	Related Party	Third Party	Related Party	Third Party		
Maximum credit risk exposed as of balance sheet date, (A+B+C+D)	--	93.277.146	--	8.879.948	269.464.520	15.762.159

The Group monitors the collectability of its trade receivables periodically and allocates provision for doubtful receivables for possible losses that may arise from doubtful receivables based on the collection rates of previous years. Following the provision for doubtful receivables, if all or part of the doubtful receivable amount is collected, the collected amount is deducted from the doubtful receivable provision and associated with profit or loss

31. NATURE AND LEVEL OF RISKS ARISING FROM DERIVATIVE FINANCIAL INSTRUMENTS (continued)

Liquidity risk

The Group manages liquidity risk by maintaining adequate funds and available borrowing by regularly monitoring forecast and actual cash flows and matching the maturities of financial assets and liabilities. Prudent liquidity risk management expresses the ability to keep sufficient cash, the availability of sufficient credit transactions, the availability of fund resources and the ability to close market positions.

The funding risk of current and prospective debt requirements is managed by maintaining the availability of sufficient number of high-quality lenders.

The table below shows the maturity distribution of the Group's non-derivative financial liabilities:

30 September 2024						
Contractual maturity	Carrying Value	Contractual cash flows	Up to 3 months	3 - 12 month	1 - 5years	More than 5 years

Foreign currency risk(continued)

Sensitivity analysis

The Group's currency risk consists of the value changes of TL against Euro and USD. The basis of the sensitivity analysis to measure the currency risk is to make the total currency statement made throughout the organization. Total foreign currency position includes all foreign currency based short-term and long-term purchase agreements and all assets and liabilities.

The exchange rate sensitivity analysis for the periods are as follows:

	2024		2023	
	Profit / (Loss)		Profit / (Loss)	
	Appreciation of foreign currency	Depreciation of foreign currency	Appreciation of foreign currency	Depreciation of foreign currency
	In case of %10 appreciation of USD against TRY			
1- USD net asset/liability	13.965.399	(13.965.399)	6.109.604	(6.109.604)
2- Amount hedged for USD risk (-)	--	--	--	--
3- USD net effect (1+2)	13.965.399	(13.965.399)	6.109.604	(6.109.604)
