Proposed resolutions

Item 2 – Proposal regarding election of a chairperson of the Extraordinary General Meeting

The Board of Directors proposes that Linnéa Dolk, member of the Swedish Bar Association, from Advokatfirman Vinge, or, if she has an impediment to attend, the person proposed by the Board of Directors, be elected chairperson of the Extraordinary General Meeting.

Item 7 – Resolution to approve the Board of Directors' resolution on a directed issue of class D shares - Tranche 2

The Board of Directors proposes that the Extraordinary General Meeting approves the Board's decision of November 26, 2025, regarding a directed share issue of a maximum of 5,349,378 new class D shares, entailing an increase of the share capital of a maximum of 594,375.334422 SEK. The following conditions shall apply to the decision:

- The right to subscribe for the new shares shall, with deviation from the shareholders' pre-emptive rights, only be granted to DNB Carnegie Investment Bank AB, acting as settlement bank in the issue, on behalf of a number of mainly institutional investors. The Board of Directors has made an overall assessment and carefully considered the possibility of raising capital through a new share issue with pre-emptive rights for the Company's shareholders. The Board of Directors considers the reasons for deviating from the shareholders' pre-emptive rights are (i) to diversify and strengthen the Company's shareholder base for the D-shares primarily with new institutional investors and improve the liquidity of the Company's class D shares, (ii) that a rights issue, compared to a directed share issue, would take longer time to carry out which, considering the terms of the Company's class D shares relative to its class A and class B shares, would entail an exposure to potential market volatility with a higher potential risk of a material negative impact on the share price, (iii) a directed share issue can be carried out at a lower cost and with less complexity compared with a rights issue, which, given that the Company's class D shares are considered particularly suitable for a certain category of investors, would be disproportionately burdensome and entail additional costs in the form of time-consuming processes for the Company, and (iv) further strengthen the Company's flexible and balanced capital structure to enable the Company to actively pursue investment

opportunities in the current market. In light of the above, the Board of Directors has made the assessment that a directed share issue with deviation from shareholders' pre-emptive rights is the most favorable alternative for the Company, creates value for the Company, and is in the best interest of the Company's shareholders. The Board of Directors therefore considers that the reasons outweigh the general rule that new share issues should be carried out with pre-emptive rights for shareholders. It was noted that the Board of Directors considers that there is value in existing shareholders participating in the directed issue, as it is likely to, *inter alia*, be carried out at a higher subscription price if the Company can show that larger existing shareholders are participating at the same price, which is in the interests of both the Company and its shareholders.

- The subscription price shall be the quota value of the share. The subscription price has been determined based on an agreement with DNB Carnegie Investment Bank AB.
- Subscription for the newly issued class D shares shall take place no later than December 30, 2025. Subscription shall take place on a separate subscription list. The Board of Directors has the right to extend the subscription period.
- Payment for the subscribed class D shares shall be made in cash no later than December 30, 2025. The Board of Directors has the right to extend the payment period.
- The new shares shall entitle the holder to dividends for the first time on the record date for dividends that occurs immediately after the issue has been registered with the Swedish Companies Registration Office and the shares have been entered in the share register with Euroclear Sweden AB.

The Board of Directors or the person appointed by the Board of Directors shall otherwise have the right to make any changes to the above decisions that may prove necessary in connection with their registration and otherwise take the measures necessary to implement the decisions. This includes making minor adjustments that may prove necessary in connection with registration with the Swedish Companies Registration Office and Euroclear Sweden AB, or for other formal reasons.

Item 8 – Resolution to approve the Board of Directors' resolution on a directed issue of class D shares - Tranche 3

The Board of Directors proposes that the Extraordinary General Meeting approves the Board's decision of November 26, 2025, regarding a directed issue of a maximum of 920,000 new class D shares, entailing an increase of the share capital of a maximum of 102,222.222410 SEK. The following conditions shall apply to the decision:

- The right to subscribe for the new shares shall, with deviation from the shareholders' pre-emptive rights, only be granted to DNB Carnegie Investment Bank AB, acting as settlement bank in the issue, on behalf of Henrik Lindekrantz (through Artun AB). The Board of Directors has made an overall assessment and carefully considered the possibility of raising capital through a new share issue with pre-emptive rights for the Company's shareholders. The Board of Directors considers the reasons for deviating from the shareholders' pre-emptive rights are (i) to diversify and strengthen the Company's shareholder base for the class D shares primarily with new institutional investors and improve the liquidity of the Company's class D shares, (ii) that a rights issue, compared to a directed share issue, would take longer time to carry out which, considering the terms of the Company's class D shares relative to its class A and class B shares, would entail an exposure to potential market volatility with a higher potential risk of a material negative impact on the share price, (iii) a directed share issue can be carried out at a lower cost and with less complexity compared with a rights issue, which, given that the Company's class D shares are considered particularly suitable for a certain category of investors, would be disproportionately burdensome and entail additional costs in the form of time-consuming processes for the Company, and (iv) further strengthen the Company's flexible and balanced capital structure to enable the Company to actively pursue investment opportunities in the current market. In light of the above, the Board of Directors has made the assessment

that a directed share issue with deviation from shareholders' pre-emptive rights is the most favorable alternative for the Company, creates value for the Company, and is in the best interest of the Company's shareholders. The Board of Directors therefore considers that the reasons outweigh the general rule that new share issues should be carried out with pre-emptive rights for shareholders. It was noted that the Board of Directors considers that there is value in existing shareholders participating in the directed issue, as it is likely to, *inter alia*, be carried out at a higher subscription price if the Company can show that larger existing shareholders are participating at the same price, which is in the interests of both the Company and its shareholders.

- The subscription price shall be the quota value of the share. The subscription price has been determined based on an agreement with DNB Carnegie Investment Bank AB.
- Subscription for the newly issued class D shares shall take place no later than December 30, 2025. Subscription shall take place on a separate subscription list. The Board of Directors has the right to extend the subscription period.
- Payment for the subscribed class D shares shall be made in cash no later than December 30, 2025. The Board of Directors has the right to extend the payment period.
- The new shares shall entitle the holder to dividends for the first time on the record date for dividends that occurs immediately after the issue has been registered with the Swedish Companies Registration Office and the shares have been entered in the share register with Euroclear Sweden AB.

The Board of Directors or the person appointed by the Board of Directors shall otherwise have the right to make any changes to the above decisions that may prove necessary in connection with their registration and otherwise take the measures necessary to implement the decisions. This includes making minor adjustments that may prove necessary in connection with registration with the Swedish Companies Registration Office and Euroclear Sweden AB, or for other formal reasons.

Item 9 – The Board of Directors' proposal to authorize the Board of Directors to resolve on new issues

The Board of Directors proposes that the Extraordinary General Meeting resolve to authorize the Board of Directors, within the framework of the current Articles of Association, with or without deviation from the shareholders' pre-emptive rights, on one or more occasions up until the next Annual General Meeting, to resolve on an increase of the Company's share capital through a new issue of class A shares, class B shares, class D shares, warrants, and/or convertibles in the Company. The total number of shares covered by such new issues may correspond to a maximum of ten percent of the share capital in the Company, based on the share capital in the Company at the time when the Board of Directors first utilizes the authorization. The issues shall be made at a market subscription price, subject to a market issue discount where applicable, and payment shall, in addition to cash payment, be possible by contribution in kind or by set-off, or otherwise subject to conditions. The purpose of the authorization and the reasons for any deviation from the shareholders' pre-emptive rights are to enable issues to be made to finance the acquisition of real estate or real estate companies, or parts of real estate or real estate companies, or to finance general business purposes.
