

JINHUI SHIPPING AND TRANSPORTATION LIMITED

JIN - DISPOSAL OF A VESSEL

The Board of Jinhui Shipping and Transportation Limited announces that a wholly-owned subsidiary of the Company entered into a memorandum of agreement on 23 July 2025 for the disposal of a Supramax at consideration of US\$11,000,000.

THE DISPOSAL

The Vendor entered into the Agreement with the Purchaser on 23 July 2025 for the disposal of the Vessel at a consideration of US\$11,000,000. The Vessel will be delivered by the Vendor to the Purchaser between 27 July 2025 and 31 August 2025.

Information on the Group and the Vendor

The principal activity of the Company is investment holding and the principal activities of its subsidiaries are international ship chartering and ship owning.

The Vendor is a ship owning company and a wholly-owned subsidiary of the Company as at date of this announcement.

Purchaser

The Purchaser is a company incorporated in Hong Kong and its principal activities are vessel owning and chartering.

To the best of the Board's knowledge, information and belief having made all reasonable enquiry, the Purchaser is an independent third party not connected with the directors, chief executive or substantial shareholders of the Company or its subsidiaries or any of their respective associates.

Consideration

Under the Agreement, the Vendor agrees to dispose of the Vessel for a consideration of US\$11,000,000 payable by the Purchaser by cash. The Vessel will be delivered by the Vendor to the Purchaser between 27 July 2025 and 31 August 2025.

The consideration of the Vessel was determined by reference to market intelligence. The Company has gathered such information from shipbrokers and its own analysis of recently concluded sale and purchase transactions of vessels of comparable size and year of built in the market, valuation from independent valuer and on the basis of arm's length negotiations with the Purchaser.

In the course of negotiating the consideration of the Vessel, the Group obtained indicative valuation of the Vessel from Arrow Valuations, an independent valuer and an affiliate of Arrow Asia Shipbrokers Ltd., an independent shipbroking group. Arrow Valuations appraised the Vessel at US\$10,800,000 as of 18 July 2025. The market approach has been adopted in the valuation of the Vessel. In the process of gathering the market intelligence from shipbrokers, we receive market information on the sale and purchase market of second hand vessels on a daily basis from international shipbrokers. We also discuss with international shipbrokers frequently to gather market intelligence on what vessels are being put on the market for sale and purchase, which parties are looking to buy or sell their vessels on a worldwide basis. However, as each vessel is never identical, management has based on the experiences, market knowledge to consider and come up with the acceptance of the offer.

The Directors consider that the consideration of the Vessel is fair and reasonable and the Disposal is in the interests of the Company and its shareholders as a whole.

Vessel

The Vessel is a Supramax of deadweight 56,913 metric tonnes, built in year 2009 and registered in Hong Kong. The Vendor is a special purpose company for holding solely the Vessel.

The Vessel has been owned by the Group since year 2009, and its unaudited net book value as at 31 May 2025 was approximately US\$12,040,000. The net profit both before and after taxation and extraordinary items attributable to the Vendor for the financial year ended 31 December 2024 was approximately US\$1,568,000 whereas the net loss both before and after taxation and extraordinary items attributable to the Vendor for the financial year ended 31 December 2023 was approximately US\$1,743,000.

Possible financial effects of the Disposal

The unaudited net book value of the Vessel as at 31 May 2025 as described above, the Group would realize a book loss of approximately US\$1.1 million on the Disposal. The actual book loss which the Group would realize upon completion of the Disposal will depend on the actual net book value of the Vessel as at date of delivery in accordance with the Group's impairment and depreciation policy for its vessels as shown in the Company's annual report and the actual costs of disposal being incurred of the Vessel as at date of delivery.

Use of proceeds

The Group intends to keep all net sale proceeds received as working capital of the Group.

REASONS FOR THE DISPOSAL

The Group's principal activities are international ship chartering and ship owning. The Directors continuously review the prevailing market conditions of the shipping industry and monitor and adjust the Group's fleet profile as appropriate. The Directors consider that the Disposal represents an opportunity for the Group to readjust its fleet profile and reduce our operational risk exposures in current high-risk volatile markets and the Disposal will enable the Group to enhance its working capital position and further strengthen its liquidity and overall financial position.

The Group operates a balanced and diversified fleet of dry bulk carriers, comprising Capesize, Panamax, Ultramax and Supramax bulk carriers. To stay competitive in the market, the Group focused on enhancing the quality of our fleet and adjusting our fleet profile, in particular in terms of seeking to lower the overall age profile of our fleet. We try to strike as good as possible, the balance of additional maintenance costs that is associated with the aging of a vessel, the expected revenue generating ability and cargo flexibility when compared to younger vessels, the potential asset value appreciation of an asset, as well as the importance of ensuring we are financially nimble by monetizing suitable assets. We believe in being prepared at all times for future possible opportunities of redeployment of capital into other more suitable assets that may arise going forward while keeping leverage at comfortable levels. We will continuously monitor the market as well as our operations going forward and look out for opportunities to maintain a reasonably modern and competitive fleet, not ruling out any future disposal of smaller and older vessels and replace with newer vessels with larger carrying capacity and longer asset lives or charter-in of vessels. We will make such decisions on an ad hoc basis to maintain high financial flexibility and operational competitiveness.

The Group currently operates a fleet of thirty vessels, of which twenty one are owned vessels, two are under sale and leaseback arrangements and seven are chartered-in vessels, with total deadweight carrying capacity of approximately 2.2 million metric tonnes.

The Directors believe that the Disposal will not have any material adverse effect on the operations of the Group. The Directors consider the terms and conditions of the Agreement was concluded and agreed between parties on normal commercial terms following arm's length negotiations with reference to the prevailing market values. The Directors are of the view that the projected operational results of the Vessel are not necessarily an indicator of its future potential performance, which in turn is not directly pertinent to the negotiation of the consideration. During negotiation regarding the consideration of the Vessel, a market-based approach was adopted, as it provides a fair and reliable current situation of valuation, for both the Vendor and the Purchaser.
