All items of revenue showed a negative performance. Cost control efforts did not avoid the worsening of the negative EBITDA, which amounted to -575 thousand Euro, compared with the negative EBITDA of the first half of 2015 of -415 thousand Euro.

It should be noted, however, that this segment has a strong seasonal component, which is visible in a historic peak in the last quarter of the year.

FUTURE OUTLOOK

The trend expected for the second semester of 2016 should be similar to the trend of the first half of the year, with the decrease of the circulation revenue and a difficult advertising investment environment.

However, the Company, besides continuing to implement a cost control program, is deepening its presence in segments with growth trends, such as the online and television, and a strengthening of the Correio da Manhã TV channel ratings is expected.

CORPORATE GOVERNANCE

In compliance with the legal requirements in force, the Company is exempted from presenting information regarding Corporate Governance, once this information is only mandatory upon presentation with the Annual Management Report. The Annual Report about Corporate Governance is an integral part of Cofina Annual Financial Statements for year 2015 and it is available on our website (www.cofina.pt).
