

CONTEXTVISION: CHANGE IN MANAGEMENT

STOCKHOLM, Sweden June 21, 2010 ContextVision, software imaging partner for the most recognized medical imaging manufacturers worldwide, today announced a change in the top management. The company is entering a new phase and the board of directors has decided to appoint Anita Tollstadius as executive chairman until a new CEO has been recruited. Present CEO, Jan Erik Hedborg, will remain in the company during the transition period.

ContextVision has built a strong global position as the leading image enhancement partner towards the medical imaging manufacturers, and will continue to maintain focus within this area. In addition, the company will seek to expand the customer offerings says Anita Tollstadius. "My task together with the new CEO will be to institute measures to accelerate our product development plan and broaden its scope. We will also carefully evaluate new commercial opportunities that may be highly complementary to our current core business" Anita Tollstadius adds.
